

		4th Code HUC			
Threat		Scope High Moderate Low Insignificant	Severity High Moderate Low Insignificant	Life Stage Affected Adults Macrophthalmia Ammocoetes Eggs	Comments
1 Passage					
1.1	Dams				
1.2	Culverts				
1.3	Water Diversions				
1.4	Tide Gates				
1.5	Other barriers				
2 Dewatering and Flow Management					
2.1	Reservoirs				
2.2	Water Diversions				
2.3	Instream Projects				
2.4	Other				
3 Stream and Floodplain Degradation					
3.1	Dredging				
3.2	Mining				
3.3	Channelization				
3.4	Loss of side channels				
3.5	Scouring				
3.6	Vegetation removal				
3.7	Other				
4 Water Quality					
4.1	Temperature				
4.2	Heavy Metals				
4.3	Sediment				
4.4	Chemical				
4.5	Other				
5 Harvest/Overutilization					
5.1	Commerical				
5.2	Sport				
5.3	Tribal				
5.4	Other				
6 Predation					
6.1	Native fish				
6.2	Non-native fish				
6.3	Native terrestrial				
6.4	Non-native terrestrial				
6.5	Other				
7 Translocation					
8 Disease					
9 Small effective population					
10 Lack of Awareness					
11 Climate Change
