- * **Assessing chemical hazards**
- * **Determining emergency actions using the Emergency Response Guidebook**

1800 – 2000 hrs. – CPR and AED training

TUESDAY Sept. 13

0800 – 1700 hrs. – Clandestine Meth Lab Awareness, Alabama Fire College's Workplace Safety Training Program

This course targets public safety and personnel who are likely to discover an illegal lab or waste from labs in the course of their job. This class is designed to promote recognition and avoidance of the extreme hazards of illegal labs.

WEDNESDAY Sept. 14 – Group A and Group B broken up into morning and afternoon sessions; ½ class will partake in shooting while the other ½ go to defensive tactics and classes rotate after lunch. To be held at Pueblo of Isleta Firing Range and Recreation Center; LUNCH WILL BE PROVIDED

0800-1700 hrs. - Firearms Recertification – Isleta Pueblo Natural Resources/PD

Defensive Tactics - Federal Law Enforcement Training Center (FLETC), Artesia, NM

THURSDAY Sept. 15 (LUNCH provided)

0800 - 1700 hrs. Basic Tactical Medical Training (condensed) - FLETC, Artesia, NM

The Basic Tactical Medical Training Program (BTMTP) is a highly intense training program requiring a physical demand on the student and consists of lecture, labs and skill practice. The law enforcement officer will gain knowledge and skills necessary to mitigate the loss of their life or the life of another while in an active threat environment. The skills will address treating life threatening injuries in an austere environment with limited equipment, lack of medically trained personnel and prolonged time to evacuation.

Tactical Medical is a systematic approach to dealing with casualties in a tactical environment. It is strongly influenced by the model used by the Department of Defense called Tactical Combat Casualty Care (TCCC). As the name implies, TCCC incorporates tactical problem solving into any situation in which casualties are incurred from an armed, hostile opponent. The TCCC system focuses on saving “preventable deaths” while achieving three primary goals: Treat the Casualty, Prevent Additional Casualties and Continue the Mission.

Note: Please wear duty gear during this day. Red guns will be provided and use of tribal patrol vehicles for live-action scenarios is encouraged.

FRIDAY Sept. 16

0800 – 1200 hrs. Legal Acquisition of Birds and Feathers for cultural/religious use (National Eagle Repository, Tribal Eagle Aviaries and Non-Eagle Feather Repository Program); Birds/feathers used in the illegal trade if Native handicrafts – Joe Early, USFWS Native American Liaison

Presentation by tribal game warden (TBD)

1200 hrs. – Closing remarks and adjourn

Note: Low-light shooting may be offered at an indoor shooting range; day and time TBD
