

***Appendix P. Integrated Pest Management
Plan For Mosquito Control at the
Sacramento National Wildlife Refuge
Complex***

The purposes of the Integrated Pest Management Plan (IPM) for Mosquito Control at the Sacramento National Wildlife Refuge Complex (SNWRC) are to: 1) identify mosquito control methods and materials currently approved for use on the SNWRC; 2) identify their use in an IPM program that is consistent with the goals of the SNWRC and minimizes public health risk from refuge-harbored mosquitoes; and 3) provide long-term planning to meet the Service's goal of reducing effects of pesticide use on Department of Interior trust resources to the greatest extent possible.

Copies of the plan are available for review at the Sacramento National Wildlife Refuge Complex, 752 County Road 99W, Willows, California 95988. (530) 934-2801.

Copies are also available via the internet at the following address
