Here is the CDC presentation. I'm coming dosn in a minute.

Thanks
Bill

Subject: State Dept Presentation

Guys,

Thanks for your slides. They look very good. Attached is my shot at the combined presentation. Most of the merging went well except for the bullets, sorry.

I have it set up so that I would start off, followed by Tai, then Cathy. Then back to me for slide one of the recommendations, Cathy for slide 2 and Tai for slide 3.

I am VERY concerned about time. We have 22 slides altogether. Cathy, yours are particularly detailed and quite dense. I am nervous about how you would be able to get through them in time. If you haven't done so already, I encourage both of you to do a couple of dry runs as quickly and concisely as possible and time yourself. Mine are pretty short and I still took longer than I expected to get through them. Let me know how much time you need and I can try to cut down my piece as much as possible.

Thanks!

Bill Gallo
