

# South Atlantic Living Shorelines Summit

April 12-13, 2016 • Jacksonville, Florida

## WHAT:

The purpose of the South Atlantic Living Shoreline Summit is to share information on the management, research, regulation, and implementation of living shorelines in the region, building knowledge and relationships that expand the use of appropriate stabilization alternatives to traditional shoreline hardening. Expert panel discussions on the first day of the Summit (April 12) include these topics:

*Status of Management and Implementation of Living Shorelines in the South Atlantic Region*

*Triaging Estuarine Shorelines: How to Identify and Use the Best Practical Alternatives*

*Living Shoreline Research – Recent Research and Development*

*Best Practices for Designing and Constructing Living Shorelines and Lessons Learned*

*Comparing Costs of Living Shorelines to More Traditional Stabilization Methods*

*Promoting Living Shoreline Projects: A Recent Report on Overcoming Institutional Barriers*

*Living Shorelines: Federal Agency Initiatives*

The Living Shorelines Academy on April 13 is a technical training workshop and field tour organized by the NC Coastal Federation that will expand on project planning, design, and construction methods.
