

# 2010 Turkey Season Gate Closure

Turkey Hunt Gate Closure: For several years we have closed some gates during the turkey hunts to give hunters places to walk and hunt without the interference from vehicles and hunters who are just driving the roads. We have also left much of the refuge open to vehicle access to allow those who might have access needs the opportunity to hunt. We have attempted to balance a reasonably quality hunting experience with accessibility.

The gravel roads marked in **RED** will be closed to vehicles March 1<sup>st</sup> – April 26<sup>th</sup>. Only foot traffic is allowed. No bicycles are allowed on roads or trails that are closed to vehicles.
