Supplemental Worksheet for PRRIP BA Template

The information below is needed for the U.S. Fish & Wildlife Service (Service) to complete a formal ESA Section 7 consultation in a streamlined manner under the Platte River Recovery Implementation Program (PRRIP) and June 16, 2006 programmatic biological opinion. The worksheet can also help the Service determine if consultation is required (see link for exceptions to the consultation requirements).

1. Applicant Name: ______________________________________________________________

2. Federal Agency Involved (if applicable): __________________________________________

3. Project Name/Description of Project or Proposed Action:
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

4. Project Location (include street address, or comparable, specific location information and County):
____________________________________________________________________________
____________________________________________________________________________

5. General Description of Water Source(s) (no need to identify specific/associated water rights):
   a. % Transbasin Imports ______%
   b. % Native South Platte Water ______%
   c. % Nontributary Groundwater ______%
   d. % Other (please specify; e.g., in-basin agricultural conversion, reuse, etc.) 
      ____________________________________________ ______%

6. Water Use Classification (check one or both boxes, as applicable):
   a. Water use qualifies as an “existing water related activity” ☐
      (Water use is surface water or hydrologically connected groundwater that has historically been used prior to July 1, 1997)
   b. Water use qualifies as a “new water related activity” ☐
      (includes new and expanded existing projects)
      (Water use constitutes a new surface water or hydrologically connected groundwater that will occur after July 1, 1997)

7. Annual Volumetric (acre-feet) water use (existing; new; and future buildout, if applicable) associated with the Project:
____________________________________________________________________________
____________________________________________________________________________
