

Rescission of Service Manual Chapter

Series: Federal Financial Assistance
Part 520: WSFR Projects/CMS
Chapter 2: Information Management Systems
Current Publication Date: 12/14/2001
Reason for Rescinding the Chapter: The main purpose of 520 FW 2 was to provide policy and procedures for identifying and resolving discrepancies in financial information between the Federal Aid Information Management System (FAIMS) and the Federal Financial System. We have replaced the financial functions of FAIMS with the Departmental Financial Business Management System (FBMS). Because we are no longer using FAIMS, this chapter is not needed.
