

Amendment to 561 FW 4, Safe Drinking Water Act

Series: Pollution Control and Environmental Compliance
Part 561: Compliance Requirements
Chapter 4: Safe Drinking Water Act
Amendment Number: 1
Purpose: The purpose of this amendment is to clarify the existing language for analytical requirements for newly constructed and acquired potable water supply systems.

Action:

1. Under section 4.9, change the following section:

Whenever we construct a new potable water supply system or acquire a system for which we do not have current records, we must test for the contaminants in Table 4-1 and **all other regulated contaminants**. You can obtain the list of currently regulated contaminants, along with their MCLs or action levels, from the Regional Environmental Compliance Coordinator.

To:

Whenever we construct a new potable water supply system or acquire a system for which we do not have current records, we must test for the contaminants in Table 4-1 and **the primary and secondary contaminants found in 40 CFR 141 – 143**. You can obtain the list of currently regulated contaminants, along with their MCLs or action levels, from the Regional Environmental Compliance Coordinator.
