

## Instructions for Pesticide User Medical Examination

### If using a Federal Occupational Health Clinic (FOH) or FOH contracted clinic:

1. Before scheduling an examination, an employee must complete FWS Form 3-2395, Recommended Exams & Tests for Pesticides Users Form and provide it to the FOH clinic. This form will help the clinic to prepare for your visit by letting them know what exams and testing will be needed.
2. FOH's contract scheduler or FOH nurse will contact the employee's administrative officer to schedule employee medical exams with FOH or FOH-contracted clinics.
3. The employee must fill out his or her portions of all the medical examination forms (see section 242 FW 7, Table 7-2) before going to see the physician.

### If using local medical clinics or personal physicians:

1. The employee must schedule his or her medical examinations.
2. The employee must notify the clinic or physician of what exams he or she will need to receive (i.e., Pesticide Applicator/Wildland Fire Arduous Duty/Commercial Drivers License (CDL)/Respirator, etc.).
3. The employee must provide the clinic or physician with the completed forms prior to scheduling an appointment so that all required physical exams and laboratory tests will be scheduled.
4. After the employee's examination and laboratory testing are completed, send all documents to the U.S. Fish and Wildlife Service's Reviewing Medical Officer for Pesticide Users at the following address:

Federal Occupational Health  
Attn: Fish and Wildlife Service's Reviewing Medical Officer  
2201 6<sup>th</sup> Avenue  
MS RX-21  
Seattle, Washington 98121-2500
