not exceed, 10% of the county's TAP allocation to the State's administrative budget.

1. A line item budget and justification for State administration cost limited to a maximum of 5% of the total award to the State. Each total budget period funding amount requested must be necessary, reasonable, and allocable to the project.

States administering the program locally: States that have administered the program locally or provide direct service to the refugee population (with the concurrence of the county) must submit a program summary to ORR for prior review and approval. The summary must include a description of the proposed services; a justification for the projected allocation for each component including relationship of funds allocated to numbers of clients served, characteristics of clients, duration of training and services, and cost per placement. In addition, the program component summary must describe any ancillary services or subcomponents such as day care, transportation, or language training.

X. Reporting Requirements

States are required to submit quarterly reports on the outcomes of the targeted assistance program, using Schedule A and Schedule C of the new ORR-6 Quarterly Performance Report form which was sent to States in ORR State Letter 95-35 on November 6, 1995.

Lavinia Limon,
Director, Office of Refugee Resettlement.

Endangered and Threatened Wildlife and Plants: Reopening of Public Comment Period for Status Review of the Northern Goshawk in the Contiguous United States West of the 100th Meridian

AGENCY: Fish and Wildlife Service, Interior

ACTION: Notice of the reopening of public comment period

SUMMARY: On September 29, 1997, the U.S. Fish and Wildlife Service (Service) announced a 90-day finding for a petition to list the northern goshawk (Accipiter gentilis) in the contiguous United States west of the 100th meridian under the Endangered Species Act (62 FR 50892). In that finding, the Service found that the petition presented substantial information indicating that the listing of the northern goshawk as a threatened or endangered species in the contiguous United States west of the 100th meridian may be warranted. At that time, the Service initiated a status review for the northern goshawk and announced that a 12-month finding will be prepared at the conclusion of the review.

At this time, the Service continues to seek additional data, information or comments from the public, other concerned government agencies, the scientific community, industry or any other interested party concerning the status of the northern goshawk in the western U.S. The Service is interested in information from throughout the species range in the U.S., Canada and Mexico.

Public Comments Solicited

The following issues are of particular interest to the Service:

1. Genetic, morphological and ecological differences, including variations or intergradation of the subspecies Accipiter gentilis atricapillus and Accipiter gentilis apache within their range;

2. Data on historic and current population trends and dynamics, and documented or suspected influencing factors that may affect these population trends, and may, therefore, assist in determining population trends;

3. Reproductive trends and documented or suspected influencing factors that may affect reproduction in goshawks;

4. Trends in loss, modification and recovery of the forested habitat occupied by the two subspecies, and the extent to which habitat conversion and fragmentation affects goshawks and their prey;

5. Taxonomic clarification of North American goshawk subspecies;

6. Information on migration and dispersal patterns; and

7. Information on the goshawk in Canada and Mexico, as well as information on management and relevant regulatory mechanisms in Canada and Mexico.

Authority: The authority for this action is the Endangered Species Act (16 U.S.C. 1531 et seq.).

Bill Shake,
Acting Regional Director, U.S. Fish and Wildlife Service Region 1, Portland, Oregon.
