The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

The applicant requests an amendment to his permit to: take (harass by survey; capture, mark, release; relocate) the southwestern arroyo toad (Bufo microscaphus californicus) in Orange, Riverside, San Diego, and Imperial Counties, California; take (locate and monitor nests; capture, band, color-band, release) the least Bell's vireo (Vireo bellii pusillus) throughout its range; take (harass by survey) the light-footed clapper rail (Rallus longirostris levipes) in San Diego County, California; take (capture, measure, and release) the Pacific pocket mouse (Perognathus longimembris pacificus) throughout its range; and take (capture, measure, and release) the Stephens' kangaroo rat (Dipodomys stephens) throughout its range in California in conjunction with presence or absence surveys, population monitoring, and ecological research for the purpose of enhancing its survival.

The applicant requests an amendment to its permit to take (harass by survey, capture and release, collect voucher specimens) the Riverside fairy shrimp (Streptocephalus wootoni) and San Diego fairy shrimp (Branchinecta sandiegensis) throughout the species' range in California in conjunction with presence or absence surveys and scientific research for the purpose of enhancing their survival.

The applicant requests a permit to take (capture, measure, and release) the southwestern arroyo toad (Bufo microscaphus californicus) in conjunction with ecological research in Orange, Los Angeles, San Diego, San Bernardino, and Riverside Counties, California, for the purpose of enhancing its survival.

The applicant requests an amendment to his permit to take (locate and monitor nests) the least Bell's vireo (Vireo bellii pusillus) in conjunction with population monitoring and removal of brown-headed cowbird (Molothrus ater) eggs and chicks from parasitized nests throughout the species range in California, and take (capture, handle, and release) the San Bernardino kangaroo rat (Dipodomys merriami) in conjunction with presence or absence surveys and population monitoring in San Bernardino and Riverside Counties, California, for the purpose of enhancing their survival.

The applicant requests an amendment to his permit to take (harass, collect eggs and capture juveniles; and translocate) the light-footed clapper rail (Rallus longirostris levipes) in Orange, San Diego, and Los Angeles Counties, California, in conjunction with ecological research, population monitoring, augmenting existing populations by translocating eggs, and developing a captive breeding protocol at the Chula Vista Nature Center, San Diego, California, for the purpose of enhancing its survival. The ecological and population monitoring were previously authorized under subpermit Zembri-5.

The applicant requests a permit to take (capture, collect, and sacrifice) the larvae of the Lost River sucker (Deltistes luxatus) and the shortnose sucker (Chasmistes brevisirostris) in conjunction with ecological research and life history studies in southern Oregon for the purpose of enhancing their survival.

The applicant requests an amendment to her permit to take (harass by survey) the Delhi Sands flower-loving fly (Rhaphiomidas terminatus abdominalis) in conjunction with presence or absence surveys throughout the range of the species in California for the purpose of enhancing its survival.

The applicant requests an amendment to his permit to take (harass by survey, collect and sacrifice) the Riverside fairy shrimp (Streptocephalus wootoni), San Diego fairy shrimp (Branchinecta
sandiegensis), and vernal pool fairy shrimp (Branchinecta lynchii) in conjunction with presence and absence surveys and population monitoring in San Diego, Riverside, and Orange Counties, California, for the purpose of enhancing their survival.

Permit No. 817400
Applicant: East Bay Regional Park District, Oakland, California
The applicant requests an amendment to his permit to take (harass by survey) Branchinecta longiantenna (Rallus longirostris obsoletus) in conjunction with presence or absence surveys in Alameda and Contra Costa Counties, California, for the purpose of enhancing its survival.

Permit No. 785564
Applicant: Parsons Harland Bartholomew & Associates, Sacramento, California
The applicant requests an amendment to his permit to take (harass by survey) and mark larvae of Lepidurus auroceps (Masticophis lateralis euryxanthus) in conjunction with scientific research in San Mateo County, California, for the purpose of enhancing its survival.

Permit No. 839093
Applicant: Thomas Wang, San Francisco, California
The applicant requests a permit to take (harass by survey; nest monitor) the southwestern willow flycatcher (Empidonax traillii extimus) in conjunction with presence or absence surveys and nest monitoring throughout the species range in California for the purpose of enhancing its survival.

Permit No. 815537
Applicant: Karen Swaim, Livermore, California
The applicant requests a permit amendment to take (capture, handle, and release) Alameda whipsnake (Masticophis lateralis euryxanthus) and to take (harass by survey) the Conservancy fairy shrimp (Branchinecta conservatio), longhorn fairy shrimp (Branchinecta longiantenna), vernal pool tadpole shrimp (Lepidurus packardi), San Diego fairy shrimp (Branchinecta sandiegensis), and the Riverside fairy shrimp (Streptocephalus wottoni) throughout the range of the species in California in conjunction with presence or absence surveys, general aquatic surveys, and scientific research for the purpose of enhancing their survival.

Permit No. 836517
Applicant: Chet McCaugh, Riverside, California
The applicant requests a permit amendment to take (locate and monitor nests) the least Bell’s vireo (Vireo bellii pusillus) in conjunction with population monitoring and removal of brown-headed cowbird (Molothrus ater) eggs and chicks from parasitized nests throughout the species’ range in California for the purpose of enhancing its survival.

Permit No. 832717, 794784, 797665
Applicants: Rodrick Dossey, El Cajon, California; Affinis, El Cajon, California; RECON, San Diego, California
The applicants request a permit amendment to take (harass by survey) the Quino checkerspot butterfly (Euphydryas editha quino) in conjunction with presence or absence surveys and ecological research throughout the species’ range in California, for the purpose of enhancing its survival.

Permit No. 810768
Applicant: Harmsworth Associates, Dove Canyon, California
The applicant requests a permit amendment to take (harass by survey; nest monitor) the southwestern willow flycatcher (Empidonax traillii extimus) in conjunction with presence or absence surveys and nest monitoring throughout the species range in California for the purpose of enhancing its survival.

Permit No. 801346
Applicant: Geoffrey L. Rogers, San Diego, California
The applicant requests a permit amendment to take (harass by survey) the southwestern willow flycatcher (Empidonax traillii extimus) in conjunction with presence or absence surveys and nest monitoring throughout the species range in California for the purpose of enhancing its survival.

Permit No. 839211
Applicant: Marnie Crook, Redland, California
The applicant requests a permit to take (capture, handle, and release) the San Bernardino kangaroo rat (Dipodomys merriami parvus) in conjunction with presence or absence surveys and population monitoring in San Bernardino County, California, for the purpose of enhancing its survival.

Permit No. 839483
Applicant: University of Nevada, Reno, Nevada
The applicant requests a permit to take (harass by survey, collect and sacrifice) the Conservancy fairy shrimp (Branchinecta conservatio) and the vernal pool tadpole shrimp (Lepidurus packardi) in conjunction with the collection of soil samples at the Beale Air Force Base and Jepson Prairie Reserve, California, for the purpose of enhancing their survival.

Permit No. 839578
The applicant requests a permit to take (harass by survey) and mark larvae of the southwestern willow flycatcher (Empidonax traillii extimus) throughout the states of Utah and Nevada in conjunction with presence or absence surveys for the purpose of enhancing its survival.

DATES: Written comments on these permit applications must be received on or before March 30, 1998.

ADDRESSES: Written data or comments should be submitted to the Chief, Division of Consultation and Conservation Planning, Ecological Services, Fish and Wildlife Service, 911 N.E. 11th Avenue, Portland, Oregon 97232–4181; Fax: (503) 231–6243. Please refer to the respective permit number for each application when submitting comments. All comments, including names and addresses, received will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 20 days of the date of publication of this notice to the address above; telephone: (503) 231–2063. Please refer to the respective permit number for each application when requesting copies of documents.

William F. Shake,
Acting Regional Director, Region 1, Portland, Oregon.
