Fish and Wildlife Service

50 CFR Part 20
Migratory Bird Hunting; Final Frameworks for Early-Season Migratory Bird Hunting Regulations; Final Rule
DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
50 CFR Part 20
RIN: 1018-AF24

Migratory Bird Hunting; Final Frameworks for Early-Season
Migratory Bird Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes final early-season frameworks which States, Puerto Rico, and the Virgin Islands may select season dates, limits, and other options for the 1999–2000 migratory bird hunting seasons. Early seasons are those which generally open prior to October 1, and include seasons in Alaska, Hawai’i, Puerto Rico, and the Virgin Islands. The effect of this final rule is to facilitate the selection of hunting seasons by the States and Territories to further the annual establishment of the early-season migratory bird hunting regulations. These selections will be published in the Federal Register as amendments to 20.101 through 20.107, and 20.109 of title 50 CFR part 20.

DATES: This rule takes effect on August 27, 1999.

ADDRESSES: States and Territories should send their season selections to: Chief, Office of Migratory Bird Management, US Fish and Wildlife Service, Department of the Interior, ms 634–ARLSQ, 1849 C Street, NW, Washington, DC 20240. You may inspect comments during normal business hours in room 634, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia.

SUPPLEMENTARY INFORMATION:

Regulations Schedule for 1999

On May 3, 1999, the US Fish and Wildlife Service (hereinafter Service or we) published in the Federal Register (64 FR 23742) a proposal to amend 50 CFR part 20. The proposal dealt with the establishment of seasons, limits, and other regulations for migratory game birds under 20.103 through 20.107, 20.109, and 20.110 of subpart K. On June 17, we published in the Federal Register (64 FR 32758) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks and the proposed regulatory alternatives for the 1999–2000 duck hunting season. The June 17 supplement also provided detailed information on the 1999–2000 regulatory schedule and announced the Service Migratory Bird Regulations Committee and Flyway Council meetings.

On June 22–23, we held meetings that reviewed information on the current status of migratory shore and upland game birds and developed 1999–2000 migratory game bird regulations recommendations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands; special September waterfowl seasons in designated States; special sea duck seasons in the Atlantic Flyway; and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl as it relates to the development and selection of the regulatory packages for the 1999–2000 regular waterfowl seasons. On July 22, we published in the Federal Register (64 FR 39460) a third document specifically dealing with the proposed frameworks for early-season regulations for the 1999–2000 duck hunting season. This document is the fourth in a series of proposed, supplemental, and final rulemaking documents. It establishes final frameworks from which States may select season dates, shooting hours, and daily bag and possession limits for the 1999–2000 season.

Review of Public Comments

The preliminary proposed rulemaking, which appeared in the May 3 Federal Register, opened the public comment period for migratory game bird hunting regulations. The public comment period for early season issues ended on August 2, 1999. We have considered all pertinent comments received in developing this document. Early-season comments are summarized below and numbered in the order used in the May 3 Federal Register. Only the numbered items pertaining to early seasons issues for which written comments were received are included. We received recommendations from all four Flyway Councils. Some recommendations supported continuation of last year’s frameworks. Due to the comprehensive nature of the annual review of the frameworks performed by the Councils, support for continuation of last year’s frameworks is assumed for items for which no recommendations were received. Council recommendations for changes in the frameworks are summarized below.

General

Written Comments: The Humane Society of the United States (HSUS) believed that all migratory bird seasons should be closed or severely restricted for those species either lacking reliable population data or which data indicates significant and sustained declines. HSUS recommended all seasons open at noon, mid-week, to reduce the large kills associated with the traditional Saturday openings and that hunting during the one-half hour before sunrise be eliminated.

Service Response: The long-term objectives of the Service continue to include providing opportunities to harvest portions of certain migratory game bird populations and to limit harvests to levels compatible with each population’s ability to maintain healthy, viable numbers. Annually, we evaluate the status of populations and considers the potential impacts of hunting. We believe that the hunting seasons provided herein are consistent with the current status of populations and long-term population goals and there is no evidence to suggest the frameworks provided are not appropriate.

Regarding mid-week season openings, we have previously stated in the Federal Register (58 FR 50190) that a State may choose to delay its opening date to correspond with a particular day of the week or to close earlier to maximize the number of weekends that hunting is allowed.

In regard to shooting hours, we have compiled information which demonstrates that shooting hours beginning one-half hour before sunrise do not contribute significantly to the harvest of nontarget species. Consistent with the Service’s long-term strategy for shooting hours, published in the September 21, 1990, Federal Register (55 FR 38889), the frameworks herein provide for shooting hours of one-half hour before sunrise to sunset, unless otherwise specified.

1. Ducks

Categories used to discuss issues related to duck harvest management are: (A) Harvest Strategy Considerations, (B) Framework Dates, (C) Season Length, (D) Closed Seasons, (E) Bag Limits, (F) Zones and Split Seasons, and (G) Special Seasons/Species Management. The categories correspond to previous published issues/discussion and only those containing substantial recommendations are discussed below.
G. Special Seasons/Species Management

iv. September Teal/Wood Duck Seasons

Council Recommendations: The Lower-Region Regulations Committee of the Mississippi Flyway Council requested that the Service clarify the linkage between the Flyway-wide wood duck harvest strategy, September teal seasons, and regional (reference area) September wood duck seasons. They further recommended the continuation of the experimental September teal/wood duck seasons in Kentucky and Tennessee in 1999 with no changes from the 1998 season.

Written Comments: The Wildlife Management Institute supported the decision to discontinue special teal and wood duck seasons in Florida, Kentucky, and Tennessee after September 2000 and to replace those seasons with Flyway-wide prescriptions.

A. Special Seasons

Council Recommendations: The Atlantic Flyway Council made several recommendations concerning September goose seasons. They recommended the approval of operational status for a September 1 to 25 framework in Crawford County, Pennsylvania, and a September 1 to 30 framework in New Jersey. They further recommended the expansion of the September goose season framework closing date around Montezuma National Wildlife Refuge, New York from September 15 to 20.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that Minnesota be allowed to have an experimental extension of their September special season from September 16 to 22, except in the Northwest Goose Zone, for the 1999-2001 hunting seasons. The Lower-Region Regulations Committee of the Mississippi Flyway Council urged the Service to use caution in changing or expanding special goose seasons.

The Pacific Flyway Council recommended the addition of the Bridger Valley hunt unit to the existing September RMP Canada goose seasons in western Wyoming, with frameworks of September 1 to 7.

Written Comments: The Alabama Division expressed appreciation for the caution demonstrated by the Service in changing or expanding special Canada goose seasons.

The Pennsylvania Farm Bureau recommended lengthening hunting seasons for resident geese to provide relief from excessive crop damage. An individual in Pennsylvania also supported increasing hunting seasons to help farmers control excessive goose damage.

The Friends of Lake Shelbyville Wildlife opposed any hunting of Canada geese in the Lake Shelbyville, Illinois area due to declining populations in this area. They further request that the Service and the Illinois Department of Natural Resources examine the circumstances for the population decline.

The Wildlife Management Institute supported the proposed changes in Canada goose special seasons in New Jersey, Pennsylvania, New York, Minnesota, and Wyoming.

Service Response: We concur with the recommendations regarding the change in status for the New Jersey and Pennsylvania special seasons.

Additionally, we concur with the recommendations for experimental extensions of the special September Canada goose seasons in New York and Minnesota, with the provisions and evaluation outlined in their proposals.

Regarding the specific area of concern in Illinois, we note that the Mississippi Flyway Giant Population (MFGP) of Canada goose (i.e., resident Canada goose) now numbers almost 1.4 million according to the 1999 spring survey. Additionally, conditions were favorable for extremely favorable for nesting geese through breeding range this year and we expect another large fall flight. While localized populations may have experienced recent declines, we believe the current population status of MFGP supports the continued use of special seasons. Further, we note that, as always, Illinois may be more restrictive than Federal frameworks. As such, we have forwarded the comments in question to the Illinois Department of Natural Resources.

B. Regular Seasons

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that the 1998 regular goose season opening date be as early as...
September 18 in Michigan and Wisconsin.

Service Response: We concur with the recommendations for a September 18 opening date in Wisconsin and the North Zone (Upper Peninsula) of Michigan. For the Lower Peninsula (Middle and South Zones) of Michigan, we concur with the recommendation for a September 18 opening under the conditions for Canada geese identified in the following frameworks.

Continuation of an opening date earlier than the Saturday nearest October 1 in the Lower Peninsula beyond the 1999–2000 hunting season will be contingent upon the State's developing a proposal for evaluating the population composition of the Canada goose harvest during the earlier regular seasons in comparison to seasons with a traditional opening date. In addition to identifying the kinds of data to be collected and analyzed during the next few years, the proposal should include a summary of data collected during the earlier regular seasons in 1998–99 and 1999–2000. Michigan should submit the proposal to us and the Mississippi Flyway Council prior to the Council's March 2000 meeting.

Regarding the Lower-Region Regulation Committee's concern for cumulative impacts of special-season harvests on migratory Canada goose populations of concern, we are aware of the Committee's concern and are monitoring the harvests occurring during these seasons.

9. Sandhill Cranes

The Pacific Flyway Council recommended several changes in sandhill crane seasons. For greater sandhill cranes, the Council recommended the establishment of a new experimental crane hunt in Box Elder County, Utah, between September 1 and September 30. For RMP cranes, the Council recommended that the harvest be modified to include Bear Lake and Fremont Counties in Idaho, and that the current requirement for hunter check stations in these counties be waived. The Council further recommended that the annual check station requirement for the Arizona RMP Greater Sandhill Crane hunt be modified to a required check station every 3 years.

Written Comments: The HSUS recommends that all crane seasons be closed. The HSUS believes that these seasons are held largely to sustain hunter interest.

Service Response: We concur with the various proposals from the Central and Pacific Flyway Councils regarding RMP Cranes. We note that several of the proposals received from the Pacific Flyway Council were requests for exemptions from specific provisions of the management plan for this population. We believe the biological information was clearly in support of the recommended exemptions, however, we would also note that it is our strong preference to see the Councils address these types of issues through management plan revisions rather than through exemptions to procedures placed in Federal regulations. Therefore, we have approved these recommendations but require that the management plan for this population be revised to reflect these changes in procedures by July, 2001. Further, we request that the Pacific Flyway Council give consideration to changing management plans rather than requesting federal regulatory changes if similar situations should develop with this or other populations of migratory game birds in the future.

Regarding HSUS's recommendations for closed seasons, available information indicates that harvest pressure on cranes is commensurate with the population status and the various crane management plans. Crane harvest is closely monitored by the Service, the Flyway Councils, and the States and there is no evidence to suggest the frameworks provided are not appropriate.

18. Alaska

Council Recommendations: The Pacific Flyway Council made several recommendations concerning Alaska. For sea ducks, the Council recommended reducing the separate sea duck bag and possession limits from 15/30 to 10/20 king and common eiders, scoters, and mergansers in the aggregate. Long-tailed ducks (oldsquaws) and harlequins would be included in general duck limits and seasons would remain closed for spectacled and Steller's eiders. For Canada geese, the Council recommended removal of Canada goose bag limit restrictions within dark goose bag limits (4/8) in Alaska Game Management Subunit SE Alaska Peninsula and Unit 18 (Y-K Delta). Further, for tundra swans, the Council recommended that tundra swan permits issued for swan hunts in Alaska allow the take of up to 3 swans per permit, with no change in reporting requirements or other framework conditions.

Written comments: The HSUS recommended that the opening date for all seasons in Alaska be delayed by 2 weeks so that young birds are able to leave natal marshes before being subjected to hunting pressure.

A constituent from Alaska wrote regarding the need for greater reductions in sea duck harvest regulations than had been proposed by the Pacific Flyway Council. The constituent noted the declining trends seen in sea ducks, the differing reproductive strategy of sea ducks, pertinent biological considerations, cumulative mortality factors, historical bag limits, and additive mortality considerations.

Service Response: We concur with the recommendations regarding Alaska's migratory game birds regulations for the 1999–2000 hunting season. We have carefully reviewed the recommendation regarding changes in Alaska's sea duck regulations from both the Council and from a concerned constituent. The population status of sea ducks remains a concern. We believe that the Council's proposed changes constitute a good first step in developing a more comprehensive strategy for the long-term harvest management of sea ducks in Alaska. We are convinced that the long-term solution will involve both sport and subsistence harvest as well as meeting many of the pressing information needs for this important waterfowl group. We look forward to working with our partners in the newly formed Sea Duck Joint Venture to meet these challenges.

Additionally, we note that the tundra swan permit request for Alaska is another instance where the Council is requesting an exemption from procedures outlined in approved management plans. While we recognize the special circumstances that have led to this recommendation and have approved the change in procedures as recommended by the Council, we strongly prefer that future deviations from procedures in the management plan be addressed through management plan revisions rather than Federal regulation. Further, it is our belief that changes in total harvest allocation were not intended to result from the proposed changes in the permit procedure. Therefore, we have not changed the total swan harvest allocated to Alaska. We strongly recommend that the written tundra swan permit and hunt plans be revised in a timely fashion and prior to any further requests.
for exceptions to the procedures outlined in the management and hunt plans. We suggest that July of 2001 would seem a reasonable target date for completion of such a revision and will work with the Council to achieve this goal.

Regarding Alaska's opening date, we reiterate previous responses that hunting pressure on migratory birds is comparatively light. Many species migrate from Alaska before seasons opening in September and there is no evidence indicating regulated hunting has adversely impacted local populations.

NEPA Consideration

NEPA considerations are covered by the programmatic document, “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88-14),” filed with the Environmental Protection Agency on June 9, 1988. We published a Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). Copies are available from the address indicated under the caption ADDRESSES.

Endangered Species Act Consideration

As in the past, we design hunting regulations to remove or alleviate chances of conflict between migratory game bird hunting seasons and the protection and conservation of endangered and threatened species. We conducted consultations to ensure that actions resulting from these regulatory proposals will not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion and may have caused modification of some regulatory measures previously proposed. Final frameworks reflect any modifications. The biological opinions resulting from section 7 consultation are public documents available for inspection in the Service's Division of Endangered Species and MBMO, at the address indicated under the caption ADDRESSES.

Executive Order (E.O.) 12866

This rule is economically significant and was reviewed by the Office of Management and Budget (OMB) under E.O. 12866. E.O. 12866 requires each agency to write regulations that are easy to understand. We invite comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (5) Is the description of the rule in the SUPPLEMENTARY INFORMATION section of the preamble helpful in understanding the rule? What else could we do to make the rule easier to understand?

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail and issued a Small Entity Flexibility Analysis (Analysis) in 1998. The Analysis documented the significant beneficial economic effect. The primary source of information about hunter expenditures for migratory bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The Analysis was based on the 1996 National Hunting and Fishing Survey and the U.S. Department of Commerce's County Business Patterns from which it was estimated that migratory bird hunters would spend between $429 and $1,084 million in small businesses in 1998. Copies of the Analysis are available upon request.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule has an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we do not plan to defer the effective date under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. We utilize the various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, subpart K, in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the Migratory Bird Harvest Information Program and assigned clearance number 1018-0015 (expires 9/30/2001). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. OMB has also approved the information collection requirements of the Sandhill Crane Harvest Questionnaire and assigned clearance number 1018-0023 (expires 9/30/2000). The information from this survey is used to estimate the magnitude, the geographical and temporal distribution of harvest, and the portion it constitutes of the total population. A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify, in compliance with the requirements of the Unfunded Mandates Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State government or private entities.

Civil Justice Reform—Executive Order 12988

The Department, in promulgating this rule, has determined that these regulations meet the applicable standards found in sections 3(a) and 3(b)(2) of E.O. 12988.

Takings Implication Assessment

In accordance with E.O. 12630, this rule, authorized by the Migratory Bird Treaty Act, does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, these rules allow hunters to exercise otherwise unavailable privileges, and, therefore, reduce restrictions on the use of private and public property.

Federalism Effects

Due to the migratory nature of certain species of birds, the Federal government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections. This process preserves the ability of the States to determine which seasons meet their individual needs. Any State may be more restrictive than the Federal frameworks. The frameworks are developed in a cooperative process with
the States and the Flyway Councils. This allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with E.O. 12612, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Government-to-Government Relationship With Tribes

In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951) and 512 DM 2, we evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects.

Regulations Promulgation

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, we intend that the public be given the greatest possible opportunity to comment on the regulations. Thus, when the preliminary proposed rulemaking was published, we established what we believed were the longest periods possible for public comment. In doing this, we recognized that when the comment period closed, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the States would have insufficient time to select season dates and limits; to communicate these selections to us; and to establish and publicize the necessary regulations and procedures to implement their decisions. We therefore find that “good cause” exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these frameworks will, therefore, take effect immediately upon publication.

Therefore, under authority of the Migratory Bird Treaty Act (July 3, 1918), as amended, (16 U.S.C. 703–711), we prescribe final frameworks setting forth the species to be hunted, the daily bag and possession limits, the shooting hours, the season lengths, the earliest and latest closing season dates, and hunting areas from which State conservation agency officials will select hunting season dates and other options. Upon receipt of season and option selections from these officials, we will publish in the Federal Register a final rulemaking amending 50 CFR part 20 to reflect seasons, limits, and shooting hours for the conterminous United States for the 1999–2000 season.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Stephen C. Saunders,
Acting Assistant Secretary for Fish and Wildlife and Parks.

Final Regulations Frameworks for 1999–2000 Early Hunting Seasons on Certain Migratory Game Birds Pursuant to the Migratory Bird Treaty Act and delegated authorities, the Department of the Interior approved the following frameworks which prescribe season lengths, bag limits, shooting hours, and outside dates within which States may select for certain migratory game birds between September 1, 1999, and March 10, 2000.

General

Dates: All outside dates noted below are inclusive.

Shooting and Hawking (taking by falconry) Hours: Unless otherwise specified, from one-half hour before sunrise to sunset daily.

Possession Limits: Unless otherwise specified, possession limits are twice the daily bag limit.

Flyways and Management Units

Waterfowl Flyways

Mississippi Flyway—includes Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin.

Central Flyway—includes Colorado (east of the Continental Divide), Kansas, Montana (Counties of Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide except the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Pacific Flyway—including Alaska, Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, and those portions of Colorado, Montana, New Mexico, and Wyoming not included in the Central Flyway.

Management Units

Mourning Dove Management Units

Eastern Management Unit—All States east of the Mississippi River, and Louisiana.

Central Management Unit—Arkansas, Colorado, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming.

Western Management Unit—Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

Woodcock Management Regions:

Central Management Region—Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

Other geographic descriptions are contained in a later portion of this document.

Compensatory Days in the Atlantic Flyway: In the Atlantic Flyway States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia, where Sunday hunting is prohibited statewide by State law, all Sundays are closed to all take of migratory waterfowl (including mergansers and coots).

Special September Teal Season

Outside Dates: Between September 1 and September 30, an open season on all species of teal may be selected by the following States in areas delineated by State regulations:

Atlantic Flyway—Delaware, Georgia, Maryland, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia. All seasons are experimental.

Mississippi Flyway—Alabama, Arkansas, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, Ohio, and Tennessee.

Central Flyway—Colorado (part), Kansas, New Mexico (part), Oklahoma, and Texas.
Hunting Seasons and Daily Bag Limits: Not to exceed 9 consecutive days in the Atlantic Flyway and 16 consecutive days in the Mississippi and Central Flyways. The daily bag limit is 4 teal.

Shooting Hours:
Atlantic Flyway—One-half hour before sunrise to sunset, if evaluated; otherwise sunrise to sunset.
Mississippi and Central Flyways—One-half hour before sunrise to sunset, except in the States of Arkansas, Illinois, Indiana, Missouri, and Ohio, where the hours are from sunrise to sunset.

Special September Duck Seasons
Florida: A 5-consecutive-day season may be selected in September. The daily bag limit may not exceed 4 teal and wood ducks in the aggregate.
Kentucky and Tennessee: In lieu of a special September teal season, a 5-consecutive-day season may be selected in September. The daily bag limit may not exceed 4 teal and wood ducks in the aggregate, of which no more than 2 may be wood ducks.
Iowa: Iowa may hold up to 5 days of its regular duck hunting season in September. All ducks which are legal during the regular duck season may be taken during the September segment of the season. The September segment may commence no earlier than the Saturday nearest September 20 (September 18). The daily bag and possession limits will be the same as those in effect last year, but are subject to change during the late-season regulations process. The remainder of the regular duck season may not begin before October 10.

Special Youth Waterfowl Hunting Day
Outside Dates: States may select 1 day per duck-hunting zone, designated as "Youth Waterfowl Hunting Day," in addition to their regular duck seasons. The day must be held outside any regular duck season on a weekend, holiday, or other non-school day when youth hunters would have the maximum opportunity to participate. The day may be held up to 14 days before or after any regular duck-season frameworks or within any split of a regular duck season, or within any other open season on migratory birds.
Daily Bag Limits: The daily bag limit may include ducks, geese, mergansers, coots, moorhens, and gallinules and would be the same as that allowed in the regular season. Flyway species and area restrictions would remain in effect.
Shooting Hours: One-half hour before sunrise to sunset.

Participation Restrictions: Youth hunters must be 15 years of age or younger. In addition, an adult at least 18 years of age must accompany the youth hunter into the field. This adult could not duck hunt but may participate in other seasons that are open on the special youth day.

Scoter, Eider, and Oldsquaw Ducks (Atlantic Flyway)
Outside Dates: Between September 15 and January 20. Hunting Seasons and Daily Bag Limits: Not to exceed 107 days, with a daily bag limit of 7, singly or in the aggregate of the listed sea-duck species, of which no more than 4 may be scoters.
Daily Bag Limits During the Regular Duck Season: Within the special sea duck areas, during the regular duck season in the Atlantic Flyway, States may choose to allow the above sea duck limits in addition to the limits applying to other ducks during the regular duck season. In all other areas, sea ducks may be taken only during the regular open season for ducks and are part of the regular duck season daily bag (not to exceed 4 scoters) and possession limits.
Areas: In all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, and New York; in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 1 mile of open water from any shore, island, and emergent vegetation in New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 800 yards of open water from any shore, island, and emergent vegetation in Delaware, Maryland, North Carolina and Virginia; and provided that any such areas have been described, delineated, and designated as special sea-duck hunting areas under the hunting regulations adopted by the respective States.

Special Early Canada Goose Seasons
Atlantic Flyway
General Seasons
Canada goose seasons of up to 15 days during September 1−15 may be selected for the Montezuma Region of New York, the Lake Champlain Region of New York and Vermont, the Eastern Unit of Maryland, and Delaware. Seasons not to exceed 20 days during September 1−20 may be selected for the Northeast Hunt Unit in North Carolina. Seasons not to exceed 30 days during September 1−30 may be selected by New Jersey. Seasons may not exceed 25 days during September 1−25 in the remainder of the Flyway, except Georgia and Florida, where the season is closed. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State's hunting regulations.
Daily Bag Limits: Not to exceed 5 Canada geese.

Experimental Seasons
Experimental Canada goose seasons of up to 20 days during September 1−20 may be selected by New York (Montezuma Region). Experimental seasons of up to 30 days during September 1−30 may be selected by New York (Long Island Zone), North Carolina (except in the Northeast Hunt Unit), and South Carolina. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State's hunting regulations.
Daily Bag Limits: Not to exceed 5 Canada geese.

Mississippi Flyway
General Seasons
Canada goose seasons of up to 15 days during September 1−15 may be selected, except in the Upper Peninsula in Michigan, where the season may not extend beyond September 10, and in the Michigan Counties of Huron, Saginaw and Tuscola, where no special season may be held. The daily bag limit may not exceed 5 Canada geese. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State's hunting regulations.

Central Flyway
General Seasons
Canada goose seasons of up to 15 days during September 1−15 may be selected. The daily bag limit may not exceed 5 Canada geese. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State's hunting regulations.

Pacific Flyway
General Seasons
Wyoming may select an 8-day season on Canada geese between September 1−15. This season is subject to the following conditions:
1. Where applicable, the season must be concurrent with the September portion of the sandhill crane season.
2. All participants must have a valid State permit for the special season.

3. A daily bag limit of 2, with season and possession limits of 4 will apply to the special season.

Oregon may select a special Canada goose season of up to 15 days during the period September 1-15. In addition, in the NW goose management zone, a 15-day season may be selected during the period September 1-20. Any portion of the season selected between September 16 and 20 will be considered experimental. Daily bag limits may not exceed 5 Canada geese. In the NW goose zone, at a minimum, Oregon must provide an annual evaluation of the number of dusky Canada geese present in the hunt zone during the period September 16-20 and agree to adjust seasons as necessary to avoid any potential harvest of dusky Canada geese.

Washington may select a special Canada goose season of up to 15 days during the period September 1-15. Daily bag limits may not exceed 3 Canada geese.

Idaho may select a 15-day season in the special East Canada Goose Zone, as described in State regulations, during the period September 1-15. All participants must have a valid State permit and the total number of permits issued is not to exceed 110 for this zone. The daily bag limit is 2.

Idaho may select a 7-day Canada Goose Season during the period September 1-15 in Nez Perce County, with a bag limit of 4.

California may select a 9-day season in Humboldt County during the period September 1-15. The daily bag limit is 2.

Areas open to hunting of Canada geese in each State must be described, delineated, and designated as such in each State's hunting regulations.

Regular Goose Seasons

Regular goose seasons may open as early as September 18 in Wisconsin and Michigan. In Wisconsin, and in Michigan for all geese except Canada geese, season lengths and bag and possession limits will be the same as those in effect last year, but are subject to change during the late-season regulations process. In the Middle and South Zones of Michigan, for Canada goose seasons opening September 18, the season may not exceed 23 days. The daily bag limit will be 2 Canada geese, except that in the South Zone, during that portion of the season that overlaps the duck season, the daily bag limit will be one Canada goose. Provision for seasons opening October 2 or later will be contained in the late-season frameworks.

Sandhill Cranes

Regular Seasons in the Central Flyway

Outside Dates: Between September 1 and February 28.

Hunting Seasons: Seasons not to exceed 58 consecutive days may be selected in designated portions of the following States: Colorado, Kansas, Montana, North Dakota, South Dakota, and Wyoming. Seasons not to exceed 93 consecutive days may be selected in designated portions of the following States: New Mexico, Oklahoma, and Texas. Daily Bag Limits: 3 sandhill cranes.

Permits: Each person participating in the regular sandhill crane season must have a valid Federal sandhill crane hunting permit and/or, in those States where a Federal sandhill crane permit is not issued, a State-issued Harvest Information Survey Program (HIP) certification for game bird hunting, in their possession while hunting.

Special Seasons in the Central and Pacific Flyways:

Arizona, Colorado, Idaho, Montana, New Mexico, Utah, and Wyoming may select seasons for hunting sandhill cranes within the range of the Rocky Mountain Population subject to the following conditions:

Outside Dates: Between September 1 and January 31.

Hunting Seasons: The season in any State or zone may not exceed 30 days. Bag limits: Not to exceed 3 daily and 9 per season. Permits: Participants must have a valid permit, issued by the appropriate State, in their possession while hunting.

Other provisions: Numbers of permits, open areas, season dates, protection plans for other species, and other provisions of seasons must be consistent with the management plan and approved by the Central and Pacific Flyway Councils with the following exceptions:

1. In Utah, the requirement for monitoring the racial composition of the harvest in the experimental season is waived and 100% of the harvest will be assigned to the RMP quota.

2. In Arizona, the annual requirement for monitoring the racial composition of the harvest is changed to once every 3 years; and

3. In Idaho, seasons are experimental and the requirement for monitoring the racial composition of the harvest is waived, 100% of the harvest will be assigned to the RMP quota.

Common Moorhens and Purple Gallinules

Outside Dates: Between September 1 and January 20 in the Atlantic Flyway, and between September 1 and the Sunday nearest January 20 (January 23) in the Mississippi and Central Flyways. States in the Pacific Flyway have been allowed to select their hunting seasons between the outside dates for the season on ducks; therefore, they are late-season frameworks and no frameworks are provided in this document.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 70 days in the Atlantic, Mississippi, and Central Flyways. Seasons may be split into 2 segments. The daily bag limit is 15 common moorhens and purple gallinules, singly or in the aggregate of the two species.

Rails

Outside Dates: States included herein may select seasons between September 1 and January 20 on clapper, king, sora, and Virginia rails.

Hunting Seasons: The season may not exceed 70 days, and may be split into 2 segments.

Daily Bag Limits: Clapper and King Rails—In Rhode Island, Connecticut, New Jersey, Delaware, and Maryland, 10, singly or in the aggregate of the two species. In Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, and Virginia, 15, singly or in the aggregate of the two species.

Sora and Virginia Rails—In the Atlantic, Mississippi, and Central Flyways and the Pacific-Flyway portions of Colorado, Montana, New Mexico, and Wyoming, 25 daily and 25 in possession, singly or in the aggregate of the two species. The season is closed in the remainder of the Pacific Flyway.

Common Snipe

Outside Dates: Between September 1 and February 28, except in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, and Virginia, where the season must end no later than January 31.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 107 days and may be split into two segments. The daily bag limit is 8 snipe.

American Woodcock

Outside Dates: States in the Eastern Management Region may select hunting seasons between October 6 and January 31. States in the Central Management Region may select hunting seasons between the Saturday nearest September 22 (September 25) and January 31.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 30 days in the Atlantic Flyway and 45 days in
the Central and Mississippi Flyways. The daily bag limit is 3. Seasons may be split into two segments.

Zoning: New Jersey may select hunting seasons in each of two zones. The season in each zone may not exceed 24 days.

**Band-Tailed Pigeons**

Pacific Coast States (California, Oregon, Washington, and Nevada)

**Outside Dates:** Between September 15 and January 1.

**Hunting Seasons and Daily Bag Limits:** Not more than 9 consecutive days, with bag and possession limits of 2 and 2 band-tailed pigeons, respectively.

**Zoning:** California may select hunting seasons not to exceed 9 consecutive days in each of two zones. The season in the North Zone must close by October 4.

Four-Corners States (Arizona, Colorado, New Mexico, and Utah)

**Outside Dates:** Between September 1 and November 30.

**Hunting Seasons and Daily Bag Limits:** Not more than 30 consecutive days, with a daily bag limit of 5 band-tailed pigeons.

**Zoning:** New Mexico may select hunting seasons not to exceed 20 consecutive days in each of two zones. The season in the South Zone may not open until October 1.

**Mourning Doves**

**Outside Dates:** Between September 1 and January 15, except as otherwise provided, States may select hunting seasons and daily bag limits as follows:

Eastern Management Unit

Hunting Seasons and Daily Bag Limits: Not more than 70 days with a daily bag limit of 12, or not more than 60 days with a daily bag limit of 15.

Zoning and Split Seasons: States may select hunting seasons in each of two zones. The season within each zone may be split into not more than three periods. The daily hunting seasons in each of two zones subject to the following conditions:

A. The hunting season may be split into not more than two periods, except that portion of Texas in which the special white-winged dove season is allowed, where a limited mourning dove season may be held concurrently with that special season (see white-winged dove frameworks).

B. A season may be selected for the North and Central Zones between September 1 and January 25; and for the South Zone between September 20 and January 25.

C. Each zone may have a daily bag limit of 12 doves (15 under the alternative) in the aggregate, no more than 2 of which may be white-tipped doves, except that during the special white-winged dove season, the daily bag limit may not exceed 10 white-winged, mourning, and white-tipped doves in the aggregate, of which no more than 5 may be mourning doves and 2 may be white-tipped doves.

D. Except as noted above, regulations for bag any and shooting limits, season length, and shooting hours must be uniform within each hunting zone.

Western Management Unit

Hunting Seasons and Daily Bag Limits: Idaho, Nevada, Oregon, Utah, and Washington—Not more than 30 consecutive days with a daily bag limit of 10 mourning doves (in Nevada, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate).

Arizona and California—Not more than 60 days which may be split between two periods, September 1-15 and November 1-January 15. In Arizona, during the first segment of the season, the daily bag limit is 10 mourning and white-winged doves in the aggregate, of which no more than 6 may be white-winged doves. In California, the daily bag limit is restricted to 10 mourning doves. During the remainder of the season, the daily bag limit is restricted to 10 mourning doves. In California, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.

**White-Winged and White-Tipped Doves**

Hunting Seasons and Daily Bag Limits

Except as shown below, seasons in Arizona, California, Florida, Nevada, New Mexico, and Texas must be concurrent with mourning dove seasons.

Arizona may select a hunting season of not more than 30 consecutive days, running concurrently with the first segment of the mourning dove season. The daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate, of which no more than 6 may be white-winged doves.

In Florida, the daily bag limit may not exceed 12 mourning and white-winged doves (15 under the alternative) in the aggregate, of which no more than 4 may be white-winged doves.

In the Nevada Counties of Clark and Nye, and in the California Counties of Imperial, Riverside, and San Bernardino, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.

In New Mexico, the daily bag limit may not exceed 12 mourning and white-winged doves (15 under the alternative) in the aggregate.

In Texas, the daily bag limit may not exceed 12 doves (15 under the alternative) in the aggregate, of which no more than 2 may be white-tipped doves.

In addition, Texas may also select a hunting season of not more than 4 days for the special white-winged dove area of the South Zone between September 1 and September 19. The daily bag limit may not exceed 10 white-winged, mourning, and white-tipped doves in the aggregate, of which no more than 5 may be mourning doves and 2 may be white-tipped doves.

**Alaska**

Outside Dates: Between September 1 and January 26.

Hunting Seasons: Alaska may select 107 consecutive days for waterfowl, sandhill cranes, and common snipe in each of five zones. The season may be split without penalty in the Kodiak Zone. The seasons in each zone must be concurrent.

Closures: The season is closed on Canada goose from Unimak Pass westward in the Aleutian Island chain. The hunting season is closed in the Aleutian Canada goose, emperor goose, spectacled eider, and Steller’s eider. Daily Bag and Possession limits:

Ducks—Except as noted, a basic daily bag limit of 7 and a possession limit of 21 ducks. Daily bag and possession limits in the North Zone are 10 and 30, and in the Gulf Coast Zone they are 8 and 24, respectively. The basic limits may include no more than 1 canvasback daily and 3 in possession.

In addition to the basic duck limits, there is a sea duck daily bag limit of 10, with a possession limit of 20, scoter, common and king eiders, and common and red-breasted mergansers, singly or in the aggregate. Alaska may choose to allow these sea duck limits in addition to regular duck bag limits. However, the
total daily bag limit for any duck species may not exceed 10.

Light Geese—A daily bag limit of 3 and a possession limit of 6.

Dark Geese—A daily bag limit of 4 and a possession limit of 8.

Dark-geese seasons are subject to the following exceptions:
1. In Units 5 and 6, the taking of Canada geese is permitted from September 28 through December 16. A special permit only Canada goose season may be offered on Middleton Island. No more than 10 permits can be issued. A mandatory goose identification class is required. Hunters must check-in and check-out. Bag limit of 1 daily and 1 in possession. Season to close if incidental harvest includes 5 dusky Canada geese. A dusky Canada goose is any dark-breasted Canada goose (Munsell 10 YR color value five or less) with a bill length between 40 and 50 millimeters.
2. In Unit 10 (except Unimak Island), the taking of Canada geese is prohibited.
3. In Unit 9(D) and the Unimak Island portion of Unit 10, the limits for dark geese are 6 daily and 12 in possession.

Brant—A daily bag limit of 2.

Common snipe—A daily bag limit of 8.

Sandhill cranes—A daily bag limit of 3.

Tundra Swans—Open seasons for tundra swans may be selected subject to the following conditions:
1. All seasons are by registration permit only.
2. All season framework dates are September 1–October 31.
3. In GMU 18, no more than 500 swans may be harvested during the operational season. Up to 3 tundra swans may be authorized per permit. No more than 1 permit may be issued per hunter per season.
4. In GMU 22, no more than 300 swans may be harvested during the operational season. Each permittee may be authorized to take up to 3 tundra swan per permit. No more than 1 permit may be issued per hunter per season.
5. In GMU 23, no more than 300 swans may be harvested during the experimental season. No more than 3 tundra swans may be authorized per permit with no more than 1 permit issued per hunter per season. The experimental season evaluation must adhere to the guidelines for experimental seasons as described in the Pacific Flyway Management Plan for the Western Population of (Tundra) Swans.

Hawaii

Outside Dates: Between October 1 and January 31.

Hunting Seasons: Not more than 65 days (75 under the alternative) for mourning doves.

Bag Limits: Not to exceed 15 (12 under the alternative) mourning doves.

Note: Mourning doves may be taken in Hawaii in accordance with shooting hours and other regulations set by the State of Hawaii, and subject to the applicable provisions of 50 CFR part 20.

Puerto Rico

Doves and Pigeons

Outside Dates: Between September 1 and January 15.

Hunting Seasons: Not more than 60 days.

Daily Bag and Possession Limits: Not to exceed 10 Peniada, mourning, and white-winged doves in the aggregate. Not to exceed 5 scaly-naped pigeons.

Closed Areas: There is no open season on doves or pigeons in the following areas: Municipality of Culebra, Descheo Island, Mona Island, El Verde Closure Area, and Cidra Municipality and adjacent areas.

Ducks, Coots, Moorhens, Gallinules, and Snipe

Outside Dates: Between October 1 and January 31.

Hunting Seasons: Not more than 55 days may be selected for hunting ducks, common moorhens, and common snipe. The season may be split into two segments.

Daily Bag Limits:

Ducks—Not to exceed 6.

Common moorhens—Not to exceed 6.

Common snipe—Not to exceed 8.

Closed Seasons: The season is closed on doves or pigeons in the following areas: Municipalities of Culebra, Descheo Island, Mona Island, El Verde Closure Area, and Cidra Municipality and adjacent areas.

Virgin Islands

Doves and Pigeons

Outside Dates: Between September 1 and January 15.

Hunting Seasons: Not more than 60 days for Zenaida doves.

Daily Bag and Possession Limits: Not to exceed 10 Zenaida doves.

Closed Seasons: No open season is prescribed for ground or quail doves, or pigeons in the Virgin Islands.

Closed Areas: There is no open season for migratory game birds on Ruth Cay (just south of St. Croix).

Local Names for Certain Birds:

Zenaida dove, also known as mountain dove; brided quail-dove, also known as Barbary dove or partridge; Common ground-dove, also known as stone dove, tobacco dove, rola, or tortolita; scaly-naped pigeon, also known as red-necked or scaled pigeon.

Ducks

Outside Dates: Between December 1 and January 31.

Hunting Seasons: Not more than 55 consecutive days.

Daily Bag Limits: Not to exceed 6.

Closed Seasons: The season is closed on the ruddy duck, white-cheeked pintail, West Indian whistling duck, fulvous whistling duck, and masked duck.

Special Falconry Regulations

Falconry is a permitted means of taking migratory game birds in any State meeting Federal falconry standards in 50 CFR 21.29(k). These States may select an extended season for taking migratory game birds in accordance with the following:

Extended Seasons: For all hunting methods combined, the combined length of the extended season, regular season, and any special or experimental seasons shall not exceed 107 days for any species or group of species in a geographical area. Each extended season may be divided into a maximum of 3 segments.

Framework Dates: Seasons must fall between September 1 and March 10.

Daily Bag and Possession Limits:

Falconry daily bag and possession limits for all permitted migratory game birds shall not exceed 3 and 6 birds, respectively, singly or in the aggregate, during extended falconry seasons, any special or experimental seasons, and regular hunting seasons in all States, including those that do not select an extended falconry season.

Regular Seasons: General hunting regulations, including seasons and hunting hours, apply to falconry in each State listed in 50 CFR 21.29(k). Regular-season bag and possession limits do not apply to falconry. The falconry bag limit is not in addition to gun limits.

Area, Unit, and Zone Descriptions

Mourning and White-Winged Doves

Alabama

South Zone—Baldwin, Barbour, Coffee, Conecuh, Covington, Dale, Escambia, Geneva, Henry, Houston, and Mobile Counties.

North Zone—Remainder of the State.
California

White-winged Dove Open Areas—Imperial, Riverside, and San Bernardino Counties.

Florida

Northwest Zone—The Counties of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Okaloosa, Santa Rosa, Walton, Washington, Leon (except that portion north of U.S. 27 and east of State Road 155), Jefferson (south of U.S. 27, west of State Road 59 and north of U.S. 98), and Wakulla (except that portion south of U.S. 98 and east of the St. Marks River).

South Zone—Remainder of State.

Georgia

Northern Zone—That portion of the State lying north of a line running west to east along U.S. Highway 280 from Columbus to Wilcox County, thence southward along the western border of Wilcox County; thence east along the southern border of Wilcox County to the Ocmulgee River, thence north along the Ocmulgee River to Highway 280, thence east along Highway 280 to the Little Ocmulgee River; thence southward along the Little Ocmulgee River to the Ocmulgee River; thence southward along the Ocmulgee River to the western border of the Jeff Davis County; thence south along the western border of Jeff Davis County; thence east along the southern border of Jeff Davis and Appling Counties; thence north along the eastern border of Appling County, to the Altamaha River; thence east to the eastern border of Tattnall County; thence north along the eastern border of Tattnall County; thence north along the northern border of Evans County to U.S. Highway 301; thence northeast along U.S. Highway 301 to the South Carolina line.

South Zone—Remainder of the State.

Louisiana

North Zone—That portion of the State north of Interstate Highway 10 from the Texas State line to Baton Rouge, Interstate Highway 12 from Baton Rouge to Slidell and Interstate Highway 10 from Slidell to the Mississippi State line.

South Zone—The remainder of the State.

Mississippi

South Zone—The Counties of Forrest, George, Greene, Hancock, Harrison, Jackson, Lamar, Marion, Pearl River, Perry, Pike, Stone, and Walthall.

North Zone—The remainder of the State.

Nevada

White-winged Dove Open Areas—Clark and Nye Counties.

Texas

North Zone—That portion of the State north of a line beginning at the International Bridge south of Fort Hancock; north along FM 1088 to TX 20; west along TX 20 to TX 148; north along TX 148 to I-10 at Fort Hancock; east along I-10 to I-20; northeast along I-20 to I-30 at Fort Worth; northeast along I-30 to the Texas-Arkansas State line.

South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to San Antonio; then east on I-10 to Orange, Texas.

Special White-winged Dove Area in the South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to San Antonio; then east on I-10 to Orange, Texas.

Special September Canada Goose Seasons

Atlantic Flyway

Connecticut

North Zone—That portion of the State north of I-95.

Maryland

Eastern Unit—Anne Arundel, Calvert, Caroline, Cecil, Charles, Dorchester, Harford, Kent, Queen Annes, St. Marys, Somerset, Talbot, Wicomico, and Worcester Counties, and those portions of Baltimore, Howard, and Prince Georges Counties east of I-95.

Western Unit—Allegany, Carroll, Frederick, Garrett, Montgomery, and Washington Counties, and those portions of Baltimore, Howard, and Prince Georges Counties east of I-95.

Massachusetts

Western Zone—That portion of the State west of a line extending south from the Vermont border on I-91 to MA 9, west on MA 9 to MA 10 south, on MA 10 to U.S. 202, south on U.S. 202 to the Connecticut border.

Central Zone—That portion of the State east of the Berkshire Zone and west of a line extending south from the New Hampshire border on I-95 to U.S. 1, south on U.S. 1 to I-93, south on I-93 to MA 3, south on MA 3 to U.S. 6, west on U.S. 6 to MA 28, west on MA 28 to I-195, west to the Rhode Island border; except the waters, and the lands 150 yards inland from the high-water mark, of the Assonet River upstream to the MA 24 bridge, and the Tauton River upstream to the Center St.-Elm St. bridge shall be in the Coastal Zone.

Coastal Zone—That portion of Massachusetts east and south of the Central Zone.

New York

Lake Champlain Zone—The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone—That area consisting of Nassau County, Suffolk

Woodcock

New Jersey

North Zone—That portion of the State north of NJ 70.

South Zone—The remainder of the State.
County, that area of Westchester County southeast of I-95, and their tidal waters.

Western Zone—That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I-81, and south along I-81 to the Pennsylvania border, except for the Montezuma Zone.

Montezuma Zone—Those portions of Cayuga, Seneca, Ontario, Wayne, and Oswego Counties north of U.S. Route 20, east of NYS Route 14, south of NYS Route 104, and west of NYS Route 34.

Northeastern Zone—That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I-81, south along I-81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I-87, north along I-87 to U.S. 9 (at Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone—The remaining portion of New York.

North Carolina

Northeast Hunt Unit—Counties of Bertie, Camden, Chowan, Currituck, Dare, Hyde, Pasquotank, Perquimans, Tyrrell, and Washington.

South Carolina

Early-season Hunt Unit—Clarendon County and those portions of Orangeburg County north of SC Highway 6 and Berkeley County north of SC Highway 45 from the Orangeburg County line to the junction of SC Highway 45 and State Road S-8-31 and west of the Santee Dam.

Michigan

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area north and west of the line extending from the New York border along U.S. 4 to VT 22A at Fair Haven; VT 22A to U.S. 7 at Vergennes; U.S. 7 to the Canadian border.

Interior Zone: The remaining portion of Vermont.

Mississippi Flyway

Illinois

Northeast Canada Goose Zone—Cook, DuPage, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, and Will Counties.

North Zone: That portion of the State outside the Northeast Canada Goose Zone and north of a line extending east from the Iowa border along Illinois Highway 92 to Interstate Highway 280, east along I-280 to I-80, then east along I-80 to the Indiana border.

Central Zone: That portion of the State outside the Northeast Canada Goose Zone and south of the North Zone to a line extending east from the Missouri border along the Modoc Ferry route to Modoc Ferry Road, east along Modoc Ferry Road to Modoc Road, northeasterly along Modoc Road and St. Leo’s Road to Illinois Highway 3, north along Illinois 3 to Illinois 159, north along Illinois 159 to Illinois 161, east along Illinois 161 to Illinois 4, north along Illinois 4 to Interstate Highway 70, east along I-70 to the Bond County line, north and east along the Bond County line to Effingham County, east and south along the Effingham County line to I-70, then east along I-70 to the Indiana border.

South Zone: The remainder of Illinois.

Iowa

North Zone: That portion of the State north of a line extending east from the Nebraska border along State Highway 175 to State 37, southeast along State 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I-80 to the Illinois border.

South Zone: The remainder of Iowa.

Northeastern Zone—That area north of a line extending from the North Dakota border along State Highway 284 to STH 97; thence east on STH 97 to the intersection of STH 97 and STH 95; thence due east to the eastern boundary of the State.

Northwest Goose Zone—That portion of the State encompassed by a line extending east from the North Dakota border along U.S. Highway 2 to State Trunk Highway (STH) 32, north along STH 32 to STH 92, east along STH 92 to County State Aid Highway (CSA H) 2 in Polk County, north along CSAH 2 to CSAH 27 in Pennington County, north along CSAH 27 to STH 1, east along STH 1 to CSAH 28 in Pennington County, north along CSAH 28 to CSAH 54 in Marshall County, north along CSAH 54 to CSAH 25 in Rock County, north along CSAH 9 to STH 11, west along STH 11 to STH 310, and north along STH 310 to the Manitoba border.
Two Goose Zone—That portion of the state lying east of Interstate Highway 35 and south of the Twin Cities.

Metropolitan Canada Goose Zone.

Five Goose Zone—That portion of the state not included in the Twin Cities Metropolitan Canada Goose Zone, the Northwest Goose Zone, or the Two Goose Zone.

West Zone—That portion of the state encompassed by a line beginning at the junction of State Trunk Highway (STH) 60 and the Iowa border, then north and east along STH 60 to U.S. Highway 71, north along U.S. 71 to Interstate Highway 94, then north and west along I-94 to the North Dakota border.

Tennessee

Middle Tennessee Zone—Those portions of Houston, Humphreys, Montgomery, Perry, and Wayne Counties east of State Highway 13; and Bedford, Cannon, Cheatham, Coffee, Davidson, Dickson, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Moore, Robertson, Rutherford, Smith, Sumner, Trousdale, Williamson, and Wilson Counties.

Wisconsin

Early-Season Subzone A—That portion of the State encompassed by a line beginning at the Lake Michigan shore in Sheboygan, then west along State Highway 23 to State 67, southerly along State 67 to County Highway E in Sheboygan County, southerly along County E to State 28, south and west along State 28 to U.S. Highway 41, southerly along U.S. 41 to State 33, westerly along State 33 to County Highway U in Washington County, southerly along County U to County N, southeasterly along County N to State 60, westerly along State 60 to County Highway P in Dodge County, southerly along County P to County O, westerly along County O to State 109, south and west along State 109 to State 26, southerly along State 26 to U.S. 12, southerly along U.S. 12 to State 89, westerly along State 89 to U.S. 14, southerly along U.S. 14 to the Illinois border, east along the Illinois border to the Michigan border in Lake Michigan, north along the Michigan border in Lake Michigan to a point directly east of State 23 in Sheboygan, then west along that line to the point of beginning on the Lake Michigan shore in Sheboygan.

Early-Season Subzone B—That portion of the State between Early-Season Subzone A and a line beginning at the intersection of U.S. Highway 141 and the Michigan border near Niagara, then south along U.S. 141 to State Highway 22, west and southwest along State 22 to U.S. 45, south along U.S. 45 to State 22, west and south along State 22 to State 110, south along State 110 to U.S. 10, south along U.S. 10 to State 49, south along State 49 to State 23, west along State 23 to State 73, south along State 73 to State 60, west along State 60 to State 23, south along State 23 to State 11, east along State 11 to State 78, then south along State 78 to the Illinois border.

Central Flyway

Kansas

September Canada Goose Unit—That part of Kansas bounded by a line from the Kansas-Missouri state line west on KS-68 to its junction with KS-33, then north on KS-33 to its junction with US-56, then west on US-56 to its junction with KS-31, then west-northwest on KS-31 to its junction with KS-99, then north on KS-99 to its junction with US-24, then east on US-24 its junction with KS-63, then north on KS-63 to its junction with KS-16, then east on KS-16 to its junction with KS-116, then east on KS-116 to its junction with US-59, then northeast on US-59 to its junction with the Kansas-Missouri line, then south on the Kansas-Missouri line to its junction with KS-68.

North Dakota

Special Early Canada goose Unit—Richland and Sargent Counties.

South Dakota

September Canada Goose Unit—Brookings, Clark, Codington, Day, Deuel, Grant, Hamlin, Kingsbury, Lake, Marshall, McCook, Moody Counties, and Minnehaha County east of SD 25, and that portion of Minnehaha County north and west of a line beginning at the junction of County 130 (Renner Road) and the Minnesota line, then west on County 130 to I-29 and along I-29 to the Lincoln County line.

Pacific Flyway

Idaho

East Zone—Bonneville, Caribou, Fremont and Teton Counties.

Oregon

Northwest Zone—Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Polk, Multnomah, Tillamook, Washington, and Yamhill Counties.
