Part II

Department of the Interior

Fish and Wildlife Service

50 CFR Part 20
Migratory Bird Hunting; Final Frameworks for Late-Season Migratory Bird Hunting Regulations; Final Rule
This rule prescribes final late-season frameworks from which States may select season dates, limits, and other options for the 1999–2000 migratory bird hunting seasons. These late-season include most waterfowl seasons, the earliest of which generally commence on or about October 1, 1999. The effect of this final rule is to facilitate the selection of hunting seasons by the States to further the annual establishment of the late-season migratory bird hunting regulations. State selections will be published in the Federal Register as amendments to §§ 20.101 through 20.107, and § 20.109 of title 50 CFR.

DATES: This rule takes effect on September 27, 1999.

ADDITIONAL INFORMATION: States should send their season selections to: Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634–ARLSQ, 1849 C Street, NW., Washington, DC 20240. You may inspect comments during normal business hours in room 634, Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia.

SUPPLEMENTARY INFORMATION:

Regulations Schedule for 1999

On May 3, 1999, we published in the Federal Register (64 FR 23742) a proposal to amend 50 CFR part 20. The proposal dealt with the establishment of seasons, limits, and other regulations for migratory game birds under § 20.101 through 20.107, 20.109, and 20.110 of part K. On June 17, we published in the Federal Register (64 FR 32758) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks and the proposed regulatory alternatives for the 1999–2000 duck hunting season. The June 17 supplement also provided detailed information on the 1999–2000 regulatory schedule and announced the Service Migratory Bird Regulations Committee and Flyway Council meetings.

On June 22–23, we held meetings that reviewed information on the current status of migratory shore and upland game birds and developed 1999–2000 migratory game bird regulations recommendations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands; special September waterfowl seasons in designated States; special sea duck seasons in the Atlantic Flyway; and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl as it relates to the development and selection of the regulatory packages for the 1999–2000 regular waterfowl seasons. On July 22, we published in the Federal Register (64 FR 39460) a third document specifically dealing with the proposed frameworks for early-season regulations for the 1999–2000 early-migratory bird hunting season. The July 22 supplement also established the final regulatory alternatives for the 1999–2000 duck hunting season.

On August 3–4, 1999, we held meetings, as announced in the May 3 and June 17 Federal Register, to review the status of waterfowl. On August 27, 1999, we published a fourth document (64 FR 47048) which dealt specifically with proposed frameworks for the 1999–2000 late-season migratory bird hunting regulations. On August 27, 1999, we published a fifth document (64 FR 47072) containing final frameworks for early migratory bird hunting seasons from which wildlife conservation agency officials from the States, Puerto Rico, and the Virgin Islands selected early-season hunting dates, hours, areas, and limits for the 1999–2000 season. On August 31, 1999, we published in the Federal Register (64 FR 46336) a sixth document consisting of a final rule amending part K of title 50 CFR part 20 to set hunting seasons, hours, areas, and limits for early seasons. This document, which establishes final frameworks for late-season migratory bird hunting regulations for the 1999–2000 season, is the seventh in the series.

Review of Flyway Council Recommendations, Public Comments, and the Service’s Response. The preliminary proposed rulemaking, which appeared in the May 3 Federal Register, opened the public-comment period for late-season migratory game bird hunting regulations. The public comment period for late-season issues ended on September 7, 1999. We received recommendations from all four Flyway Councils. Written comments received through September 7, 1999, relating to the proposed late-season frameworks are summarized and discussed in the order used in the May 3 Federal Register. Only the numbered items pertaining to late seasons for which written comments were received are included.

We received recommendations from all four Flyway Councils. Some recommendations supported continuation of last year’s frameworks. Due to the comprehensive nature of the annual review of the frameworks performed by the Councils, support for continuation of last year’s frameworks is assumed for items for which no recommendations were received. Council recommendations for changes in the frameworks are summarized below.

General

Written Comments: The Wildlife Management Institute supported the proposals for the 1999–2000 season. The Humane Society of the United States (HSUS) expressed concern that the general public was not well represented in the regulations-development process and requested establishment of a system directly involving the non-hunting public. In addition, they believed that all migratory bird seasons should be closed or severely restricted for those species either lacking reliable population data or which data indicates significant and sustained declines. HSUS recommended all seasons open at noon, mid-week, to reduce the large kills associated with the traditional Saturday openings and that hunting during the one-half hour before sunrise be eliminated.

Service Response: As we have stated previously, when the preliminary proposed rulemaking document was published in the Federal Register on May 6, 1999, we announced the comment periods for the early-season and late-season proposals and gave notice that the process of promulgating hunting regulations “must, by its nature, operate under time constraints.” Ample time must be given to gather and interpret survey data, consider recommendations and develop proposals, and to receive public comment. Scheduled dates are set to give the greatest possible opportunity for public input. We are obligated to, and do give serious consideration to all information received as public comment. We have long recognized the problems associated with the length of time necessary to establish the final frameworks, and in conjunction with States, Flyway Councils, and the public,
and continue to seek new ways to streamline and improve the process.

As we stated in the August 27 Federal Register, our long-term objectives continue to include providing opportunities to harvest portions of certain migratory game bird populations and to limit harvests to levels compatible with each population’s ability to maintain healthy, viable numbers. Annually, we evaluate the status of populations and consider the potential impacts of hunting. We believe that the hunting seasons provided herein are consistent with the current status of populations and long-term population goals and there is no evidence to suggest the frameworks provided are not appropriate.

Regarding mid-week season openings, we have previously stated in the Federal Register that a State may choose to delay its opening date to correspond with a particular day of the week or to close earlier to maximize the number of weekends that hunting is allowed. Regarding shooting hours, we have compiled information which demonstrates that shooting hours beginning one-half hour before sunrise do not contribute significantly to the harvest of nontarget species. Consistent with the Service’s long-term strategy for shooting hours, published in the September 21, 1990, Federal Register, the frameworks herein provide for shooting hours of one-half hour before sunrise to sunset, unless otherwise specified.

1. Ducks

The categories used to discuss issues related to duck harvest management are as follows: (A) General Harvest Strategy, (B) Framework Dates, (C) Season Length, (D) Closed Seasons, (E) Bag Limits, (F) Zones and Split Seasons, and (G) Special Seasons/Species Management. Only those categories containing substantial recommendations are included below.

A. General Harvest Strategy

Council Recommendations: The Atlantic Flyway Council, the Upper-Region Regulations Committee of the Mississippi Flyway Council, the Central Flyway Council, and the Pacific Flyway Council recommended adopting the “liberal” alternative for the 1999-2000 duck hunting season. The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended adoption of the “liberal” alternative, except that they recommend a 60-day season for all States regardless of the framework closing date. Specific details are discussed in B. Framework Dates.

Written Comments: The Delta Waterfowl Foundation and the National Wildlife Federation supported the selection of the “liberal” alternative.

An individual from Minnesota questioned the breeding population estimate and recommended the 45-day season alternative.

Service Response: Since 1995, Adaptive Harvest Management (AHM) strategies have been based on the status of midcontinent mallards, which are defined as those breeding in the traditional survey area, and in Minnesota, Wisconsin, and Michigan. An optimal regulatory choice is based on breeding population size and prairie water conditions, and on the weights assigned to various models of population dynamics. The same regulatory alternative is applied in all four Flyways, although season lengths and bag limits are Flyway-specific. The 1999 harvest strategy for midcontinent mallards is based on: (1) An objective to maximize long-term harvest and achieve a population goal of 8.7 million; (2) regulatory alternatives that are unchanged from last year; and (3) model weights that are similar to last year. Based on a breeding population size of 11.8 million mallards in the midcontinent region (traditional survey areas and Lake States) and 3.9 million ponds in Prairie Canada, the optimal regulatory choice for midcontinent mallards in 1999 is the “liberal” alternative.

Modifying the AHM protocol to account for mallards breeding eastward and westward of the midcontinent region is perhaps the most challenging technical issue facing duck harvest managers. Never before have we tried to consider the status of multiple mallard stocks in such a formal way, or have we attempted to give all Flyways the ability to choose regulations that are tied to their particular derivation of mallards. Although progress has been significant, there are a number of outstanding technical issues. The Service and AHM working group have assigned a high priority to addressing these issues, and hope to fully integrate eastern mallards and western mallards into the AHM process in 2000 and 2001, respectively.

In the interim, we are exploring optimal harvest strategies targeted for eastern mallards. A harvest strategy has been derived based on: (1) an objective to maximize long-term harvest; (2) regulatory alternatives that are unchanged from last year; and (3) a “working model” of population dynamics. Based on a breeding population size of 1.1 million mallards and spring precipitation of 8.3 inches, the optimal regulatory choice for eastern mallards in 1999 is the “liberal” alternative. By next year, we hope to be able to prescribe Flyway-specific regulations for those cases where the optimal regulatory choice is different for midcontinent and eastern mallards.

Therefore, we agree with the Flyway Councils and are utilizing the “liberal” alternative for the 1999 duck hunting season.

B. Framework Dates

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended adoption of the “liberal” alternative, except that they recommend framework dates of the Saturday nearest October 1 to the Sunday nearest January 20 for all States. The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended a 60-day season for all States regardless of their selected framework closing date.

Written Comments: The HSUS recommended that season openings be delayed by 2 weeks in all breeding areas in order to allow ducks time to leave natal marshes before being subjected to hunting.

Service Response: Frameworks for the 1999-2000 duck hunting season were established in the July 22 Federal Register, with the finalization of the 1999-2000 regulatory alternatives. As we indicated in our July 22 response, we continued the use of the 1998-99 regulatory alternatives published in the August 5, 1998, Federal Register, for the 1999-2000 hunting season with one exception. For the States of Alabama, Mississippi, and Tennessee, we offered the use of a 51-day season in the “liberal” alternative and a 38-day season in the “moderate” alternative with a January 31 framework closing date in both alternatives. Framework opening and closing dates for all other States are unchanged from those published in the August 5, 1998, Federal Register. For a complete discussion of this issue, you should refer to the July 22 Federal Register.

Regarding HSUS’s comment on the framework opening date, the Service reiterates previous responses that the frameworks provided herein are appropriate and that there is no evidence to indicate that they have adversely impacted local populations.
F. Zones and Split Seasons

Council Recommendations: The Atlantic Flyway Council recommended the Service allow “3 zones with 2-way splits in each zone” as an additional option beginning in 2001. Further, the Council recommended that zone-split guidelines be finalized by July 2000 so that States have adequate opportunity to select their desired approach.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that the Service add “3 zones with 2-way splits permitted in one or more zones” as an additional option beginning in 2001. Further, because of the public input process many States undertake, the Committee recommended that States have up to one year to choose this option prior to the 2001 regular duck season regulations process. The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that the Service consider offering all States the option of choosing 3 zones with a split season in each zone in the year 2001.

The Pacific Flyway Council recommended the Service engage the Flyway Councils in an evaluation of the guidelines for zoning and split seasons, prior to the 2001 “open season” on regulation changes.

Written Comments: The HSUS urged the Service to discontinue all split and special seasons and recommended that any State establishing such seasons reduce the total number of hunting days by a minimum of 10 days.

Service Response: We continue to acknowledge the recommendations from the Councils pertaining to the guidelines for selecting zone and split options for duck hunting. Accordingly, we will work with all the Flyway Councils in the next year to review the existing guidelines, and plan to finalize these guidelines during next year’s (2000–01) late-season regulations process. The final guidance will then be available for use by all States in the ensuing year as they solicit public input for zone and split configurations for use during 2001–05.

In regard to the recommendation that split and special seasons be discontinued, we note that States always have the option of selecting a continuous season with no splits. Furthermore, we are not aware of any information suggesting that split and special seasons are causing detrimental impacts to populations.

G. Special Seasons/Species Management

i. Black Ducks

Council Recommendations: The Atlantic Flyway Council recommended that the individual Atlantic Flyway States continue to achieve a 42 percent reduction in their black duck harvest during the 1999–2000 season compared with the 1977–81 baseline harvest.

Written Comments: The USGS recommended closing the season for black ducks until recovery of the population.

Service Response: We agree with the Atlantic Flyway Council’s recommendation and acknowledge the Council’s concern for the population status of black ducks. Black duck populations remain below the North American Wildlife Management Plan goal and while the decline seems to have halted, little increase is evident. Harvest estimates increased 16% in the U.S. (8% in the Atlantic and 36% in the Mississippi Flyways) during the 1998–99 hunting season and we reiterate our concern about the effects of longeruck season on black duck harvests and recommend that States maintain harvest restrictions achieved since the 1983 Environmental Assessment.

Higher harvests and lower midwinter population estimates in the Mississippi Flyway in recent years are of particular concern. Although efforts are underway to develop an international harvest strategy, and possibly an AHM approach, interim harvest restriction alternatives should be considered where appropriate. Thus, we believe the harvest restrictions identified in the 1983 Environmental Assessment should be maintained until a revised harvest strategy is developed.

ii. Canvasbacks

Council Recommendations: The Lower-Region Regulations Committee of the Mississippi Flyway Council requested to know the population level at which an increase in the canvasback bag limit would be warranted.

Service Response: We continue to support the canvasback harvest strategy adopted in 1994. This strategy allows a daily bag limit of 1 bird during any open season. Seasons with a daily bag limit greater than 1 would require revision of the strategy, and we believe that more experience with the present strategy is needed before revisions are considered. Current population and habitat status suggest that a daily bag limit of 1 canvasback during the 1999–2000 season will result in a harvest lower than the overall population.

In the past year, we have continued to indicate our growing concern for the status and trends of North American scap. We distributed a status report on scap and provided some initial guidelines concerning a scap harvest strategy to the Flyway Councils and others for consideration in the development of recommendations for the 1999–2000 hunting season. In response to this information, all four Flyways discussed the issue at their winter meetings. Following Council comments on the initial harvest guidelines presented in the July 22 Federal Register, we revised the harvest guidelines and developed a draft harvest strategy that was distributed to the Councils for consideration at their summer meetings.

Council Recommendations: The Atlantic Flyway Council recommended a daily bag limit of 3 scap until adoption of a harvest strategy for lesser and greater scap.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended a daily bag limit...
of 3 scaup. The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended no scaup restriction in the overall daily bag limit.

The Central Flyway Council recommended adoption of the draft harvest strategy with the exception of the prescription. The Council recommended a prescription for scaup bag limits based on the status of lesser scaup as follows: < 2.5 million, bag limit of 1; 2.5–3.5 million, bag limit of 2; 3.5–4.0 million, bag limit of 3; and > 4.0, the bag limit for scaup should equal the regular daily duck limit as determined by the AHM process.

The Pacific Flyway Council recommended no internal bag restrictions on scaup in the Pacific Flyway for the 1999–2000 hunting season.

Written Comments: The Nevada Waterfowl Association was concerned about a potential 2-bird daily bag limit restriction on scaup in the Pacific Flyway. They urged careful evaluation of the initial results before implementation of such a restriction.

The HSUS recommended closing the season for scaup until recovery of the population.

Service Response: We remain concerned about the status of lesser scaup. Lesser scaup populations have declined 1% per year since 1995 and 3% per year during the last 10 years. Lesser scaup harvest has varied over the years in the U.S. with lows around 100,000 in 1990 but since has increased in recent years to over 500,000. These recent increases have occurred concurrently with liberalizations in season length and bag limits with the implementation of AHM.

For the 1999–2000 season, we are establishing a bag limit of 3 scaup in the Atlantic, Mississippi, and Central Flyways, and 4 scaup in the Pacific Flyway. This action is only for one year. These bag limit reductions maintain the current differentials in the full duck bag limit that presently exist among Flyways. While we note a general feeling among the Flyway Councils that some reduction is appropriate, we acknowledge that this is not unanimous among Flyways. However, we believe that a reduction in harvest is needed, all should participate. We will continue to work with the Flyway Councils to develop a harvest strategy to be formally adopted prior to next year’s hunting season.

4. Canada Geese

Council Recommendations: The Atlantic Flyway Council recommended that a limited hunting season for AP (Atlantic Population) Canada geese be permitted in 1999–2000 throughout AP harvest areas (those areas closed in 1998) in the Atlantic Flyway. For the Mid-Atlantic and New England AP Areas, the Council recommended a 15-day season with framework dates of November 1–January 20. The daily bag limit would be 1 Canada goose. Additionally, in Delaware and Maryland the harvest limit would be 2,100 and 12,200 birds, respectively, and all Canada geese must be tagged and the season limit will be the number of tags issued to each permittee. In Southern Region AP Areas, the Council recommended the season remain closed. In all open areas, the season could be split into two segments, but must run concurrent with duck seasons.

The Atlantic Flyway Council also recommended modification of the framework for the regular season in Erie, Butler, and Mercer Counties, and designated portions of Crawford County, in Pennsylvania. The Council recommended changing the existing 70-day season with October 1 to January 31 frameworks to a 40-day season between November 15 and January 15, with a daily bag limit of 2 geese per day. The Council also recommended modification of the framework opening date in southwestern New York to November 1 and allowing Maryland to divide the dark Canada goose season into 3 segments on an experimental basis for the 1999–2000 season.

The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended a number of changes in season lengths, bag limits, zones, and quotas for Canada geese in Wisconsin, Michigan, Indiana, and Illinois, primarily to allow increased harvest of Missippi Valley Population (MVP) Canada geese, and in Minnesota, primarily to allow increased harvest of Eastern Prairie Population (EPP) Canada geese. The Lower-Region Regulations Committee of the Mississippi Flyway Council also recommended several changes in season lengths, quotas, etc., primarily to allow increased harvest of MVP Canada geese. All of these changes are based on improved population status and current management plans.

The Central Flyway Council made several recommendations. In the East they recommended an increase in the Canada goose (or any other goose species except light and white-fronted geese) season from 93 days to 95 days with a daily bag limit of 3. Outside framework dates would be the Saturday nearest October 1 (Oct. 2, 1999) and the Sunday nearest February 15 (Feb. 13, 2000). In the Eastern Goose Zone of Texas, the Council recommended an additional seasonal alternative of 107 days with a 1 Canada goose daily bag limit. The framework closing date under both alternatives would be February 21. In the West Tier, the Council recommended dark goose outside framework dates of the Saturday nearest October 1 (Oct. 2, 1999) and the Sunday nearest February 15 (Feb. 13, 1999), with daily bag and possession limits of 5 and 10, respectively. In the Western Goose Zone of Texas, the Council recommended a daily bag limit of 5 dark geese, to include no more than 2 white-fronted geese, with a framework closing date of February 21.

The Pacific Flyway Council made several recommendations for dark geese (see also item 5. White-fronted Geese). The Council recommended the bag limit for dark geese be increased from 2 to 3 in the Rocky Mountain Population zones in Arizona, California, Colorado, Nevada (except Lincoln and Clark Counties) New Mexico, and Utah. The Pacific Flyway Council also recommended that Washington and Oregon be allowed to split the dark goose season in the Dusky quota zones into 3 segments. Additionally, they recommended that the Harney, Lake, Klamath, and Malheur goose zone in Oregon be re-defined to be one Lake County. The Council also recommended that white-fronted and cackling Canada geese be allowed during the first 44 days in the Northeastern Zone of California. Finally, the Council recommended several boundary adjustments to the closure zones for dark geese in the Balance-of-the-State Zone in California.

Written Comments: An individual in Alabama requested a February framework closing date for geese.

Service Response: We support the Atlantic Flyway’s request to reinstate the regular season on the Atlantic Population of Canada geese in the areas described. Numbers of breeding pairs in northern Quebec increased substantially this spring from last year’s estimate, which suggests this population is showing signs of recovery. An increase in nesting densities was also encouraging, although predation will likely limit nest success to “good” in the Ungava Bay area and only fair along the Hudson Bay Coast. A slight increase in the fall flight is predicted. While we remain cautious about resuming a sport
harvest, we recognize that the Action Plan criteria have been triggered. For the near future, we remain optimistic about the recovery of this population, particularly with average or better production since 1997, which should continue the expansion in the number of breeding pairs.

Regarding the Central Flyway Council's recommendations, we support their request to increase the Canada goose (or any other goose species except light geese and white-fronted geese) season in the West Tier to 95 days with a daily bag limit of 3 for the entire East Tier. We also support the Council's recommendation for an additional season alternative of a 107-day season with a 1 Canada goose daily bag limit in the Eastern Goose Zone of Texas.

Further, we support the Council's recommendation for outside framework dates and believe that all dark goose seasons in the East Tier should have consistent outside dates of the Saturday nearest October 1 (Oct. 2, 1999) and the Sunday nearest February 15 (Feb. 13, 2000). In the West Tier, we support the Council's recommendation for an increase in the aggregate dark goose bag and possession limits from 4 and 8 to 5 and 10, respectively. However, in the Western Goose Zone of Texas, we do not support an increase in the white-fronted goose daily bag restriction from 1 to 2. While we are aware that the whitefront harvest (about 5,000) in this zone is small, we are concerned about the status of white-fronted goose breeding in the Interior of Alaska, which migrate through this area. These birds clearly have lower survival rates than Mid-Continent white-fronted geese from other breeding areas, but indices of abundance and long-term trends are less certain. We also realize that harvest of these birds also occurs in Alberta, Saskatchewan, and the Mexican Highlands; however, we believe that the Management Plan serves as the appropriate mechanism to address cooperative harvest management strategies for these birds. We also do not support the recommended framework closing date of February 21 in the West Tier and believe that dark goose outside dates should be consistent with the East Tier. Thus, we are establishing framework dates of the Saturday nearest October 1 (Oct. 2, 1999) to the Sunday nearest February 15 (Feb. 13, 2000) for the entire Western Tier.

Regarding the other recommendations from the Flyway Councils; we concur with the framework modifications in Pennsylvania, New York, Maryland; changes to existing, bonus, harvest, zones, and quotas for Wisconsin, Michigan, Indiana, Illinois, Minnesota, Iowa, and Missouri; bag limit, zone boundary, and framework modifications in Arizona, California, Colorado, Nevada, New Mexico, Utah, Washington and Oregon.

C. Special Late Seasons

Council Recommendations: The Atlantic Flyway Council recommended an experimental late season between January 15 and February 15 for Erie, Butler, and Mercer Counties, and designated portions of Crawford County, in Pennsylvania. The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended the establishment of experimental late Canada goose seasons for Minnesota and Ohio. The Lower-Region Regulations Committee of the Mississippi Flyway Council recommended that the Service work closely with the Council's Technical Section in evaluating the cumulative effects that special seasons may have on non-target populations. Written comments. The HSUS opposed special late seasons targeting resident geese. They believe that such hunts fail to target the populations ostensibly responsible for conflicts with humans and as such are ineffective.

Service Response: We concur with the recommended changes in the Atlantic and Mississippi Flyways and will continue to work with the Mississippi Flyway Council's Technical Section to assess the cumulative effects of special seasons.

Regarding the HSUS's comment that such hunts fail to target specific populations, we recognize the problems caused by increasing populations of resident geese and the continuing concern for the status of certain migratory flocks. However, as we have stated previously, we remain committed to focusing these special seasons on locally-breeding and/or injured Canada goose populations. The Service and the Flyway Councils have cooperatively reviewed and structured these special seasons to accomplish that objective while protecting migratory flocks. We do not wish to increase the composition of migrants in the harvest beyond that which is currently identified in the criteria for these seasons.

5. White-fronted Geese

Council Recommendations: The Upper- and Lower-Region Regulations Committees of the Mississippi Flyway Council recommended that seasons for white-fronted geese increase from 70 days and 2 whitefronts to 86 days and 3 whitefronts. The HSUS recommended a 86-day season with a daily bag limit of 2 whitefronts for the remaining 63 days. The framework closing date would be February 21.

The Pacific Flyway Council recommended regarding dark geese also involve white-fronted geese (see item 4. Canada Geese). The Council recommended the bag limit for dark geese be increased from 2 to 3 in the Rocky Mountain Population zones in Arizona, California, Nevada (except Lincoln and Clark Counties) New Mexico, and Utah. The Pacific Flyway Council also recommended that Washington and Oregon be allowed to split the dark goose season in the Dusky quota zones into 3 segments. Additionally, they recommended that the Haney, Lake, Klamath, and Malheur goose zone in Oregon be re-defined to include only Lake County. The Council also recommended that white-fronted and cackling Canada geese be allowed during the first 44 days in the Northeastern Zone of California. Finally, the Council recommended several boundary adjustments to the closure zones for dark geese in the Balance-of-State Zone in California. Further, the Council supported the liberal whitefront frameworks proposed by the Mississippi and Central Flyway Councils.

Service Response: As we noted above, the Central Flyway Council's recommendations for dark geese include whitefronts in the West Tier and are further addressed in item 4. Canada Geese. For the East Tier, we do not support an increase in the season length and bag limit from 72 days and 2 birds, or 86 days and 1 bird, to 95 days and 2 birds with a framework closing date of January 31. For the Eastern Goose Zone of Texas, we also do not support a 107-day season alternative with a daily bag limit of 2 whitefronts for 44 consecutive days and 1 bird for the remaining 63 days with a framework closing date of February 21. We believe that the whitefront season length and daily bag limit should be 86 days and 2 birds or 107 days and 1 bird for both the Mississippi Flyway and the East Tier of.
the Central Flyway. We believe that equitable hunting opportunity between the Mississippi Flyway and the East Tier of the Central Flyway is appropriate because Mid-Continent white-fronted geese are managed as one population. This equitable approach is consistent with the “base regulations” identified in the cooperative management plan. Finally, in the absence of any guidance for liberalizations, we believe that this level of liberalization should be viewed as the “liberal alternative” beyond the “base regulations” identified in the management plan for these harvest areas.

Regarding framework closing dates, we do not support recommendations for a whitefront framework closing date of January 31 in the East Tier and a framework closing date of February 21 for the Eastern Goose Zone of Texas. We will utilize a dark goose framework closing date of the Sunday nearest February 15th for the entire East Tier. This date is consistent with the framework closing date for dark geese in the West Tier. We believe that the change in harvest related to this alignment of framework closing dates would be negligible, and consistent framework closing dates would facilitate the simplification of dark goose hunting regulations in the Central Flyway.

We also acknowledge the completion of the Cooperative Management Plan for Mid-Continent White-fronted geese (1998). The Plan supports the combining of Eastern and Western Segments of Mid-Continent whitefronts into one population. However, we believe that a major shortcoming of the Plan surfaced this year relating to the guidance provided for the setting of hunting regulations. Although “base regulations” are clearly defined in the Plan, no guidance is provided for liberalizations or restrictions from base regulations. This year, the Mississippi Flyway Council recommended liberalizations different than those recommended by the Central Flyway Council, although the plan calls for the same “base regulations.” Further, the population objective (600,000) and associated thresholds identified in the Plan appear to have little relationship with recent population estimates derived from the fall population survey conducted since 1992. Additionally, we believe that cooperative management plans are an appropriate mechanism to address International issues related to special harvest considerations and information data needs, e.g. Interior Alaska. We are aware of the 5-year revision schedule for this plan and encourage the Central and Mississippi Flyways to work with the Pacific Flyway, Canada and Mexico to address these issues in the next plan update.

We concur with the other Flyway Council recommendations.

6. Brant

Council Recommendations: The Atlantic Flyway Council recommended an increase in the daily bag limit for brant from 2 to 4 birds.

The Upper and Lower Region Regulations Committees of the Mississippi Flyway Council recommended seasons for brant be modified to include an option of 107 days and 1 brant in addition to the current 70 days and 2 brant. The Committees do not expect this additional option to increase brant harvest in the Flyway, but would allow states to set dark goose season dates to coincide.

Written Comments: The Atlantic Flyway Council subsequently recommended the brant daily bag limit remain at 2 birds. Their revised recommendation was based on new information from the Arctic breeding grounds indicating a strong possibility of very limited brant production this year.

Service Response: In the Atlantic Flyway, we concur with the change back to a 2-bird daily bag limit based on reports from the Baffin Island and surrounding areas that there was no appreciable production this year. Although an increase to a 4-bird daily bag would be consistent with the Atlantic Brant Hunt Plan based on the population status (171,628 in the mid-winter survey), we believe it prudent to conserve the breeding stock and not liberalize the bag limit during a year of poor production. In the Mississippi Flyway, we concur with the creation of a 107-day season option.

7. Snow and Ross’ Geese

Council Recommendations: The Atlantic Flyway Council recommended allowing the use of an unlimited number of splits in the snow goose season.

The Central Flyway Council supported the late-winter light goose hunting season in the Rainwater Basin area of Nebraska per the plan agreed to by the Service and the Nebraska Game and Parks Commission.

Written Comments: The Delaware Division of Fish and Wildlife and the Maryland Department of Natural Resources requested that the Service allow for unlimited split seasons in the Chesapeake Bay Region (including Delaware) to split their snow goose season up to 47 times. They believed this would be the most effective method for discouraging snow geese from degrading wetlands and agricultural fields. Under this scenario, the season would not have to be closed for more than one day at a time. Alternatively, they requested the use of zones and the ability to split their snow goose season up to 15 times. Under this scenario, the season would be closed for 3-day periods each week. Both alternatives would be considered experimental and would be evaluated by use of farm surveys, monthly aerial surveys, biweekly snow goose surveys, and harvest surveys.

The HSUS believes that the proposed bag limits for snow geese in the Atlantic and Central Flyways are too high, devaluing the birds. Service Response: We are sympathetic towards the depredation issues brought forward by the Atlantic Flyway Council in Delaware and Maryland where too many greater snow geese are causing extensive agricultural damage and wetland degradation during closed segments of their hunting seasons. It remains to be seen whether an increase in the number of split seasons will resolve this problem, but to provide temporary relief, we agree to explore this option further pending an evaluation. We propose that Delaware and Maryland be guided by the existing restrictions on splits for geese (3-way split season) until the end of the regular duck season. After such time, they will be permitted to hunt on Mondays, Wednesdays, Fridays, and Saturdays, involving two splits per week until the framework closing date of March 10, 2000. This season would be experimental, limited to this year only, and requires an evaluation. We will reevaluate the effectiveness of this approach prior to next year. Both States should actively seek landowner support to reduce their crop damage problems by allowing hunter access on their fields to hunt snow geese.

At this time, we do not support the recommendation for use of unlimited splits during snow goose seasons. In 1997, we allowed an increase from 2 to 3 season segments for geese in all four Flyways. This increase resulted in a more consistent use of split-season options among all Flyways. In addition, within any established season, a State may also designate certain days as non-hunt days, if that hunt strategy is desired. The use of zoning for light geese remains a management tool that is currently not contained by specific regulations. We believe that the current ability to divide a 107-day season into 3 segments with the
unlimited use of zones provides adequate flexibility for States to set seasons for light geese.

Regarding the hunt strategy for the Rainwater Basin, we appreciate the Central Flyway Council’s support of the late-winter light goose hunting strategy for the Rainwater Basin Area of Nebraska and propose to implement the strategy this year.

Regarding snow goose bag limits, last year we changed the daily bag limit for light geese from 10 to 20 in the Atlantic Flyway and eliminated the possession limits in the Atlantic, Mississippi, and Central Flyways because it was no longer a useful management tool. At this time, we see no compelling evidence to change and will continue use of this framework for the 1999–2000 season.

8. Swans

Written Comments: The HSUS requested that the Service close swan hunting seasons in Utah, Nevada, and the Pacific Flyway portion of Montana, citing that these seasons were threatened trumpeter swan recovery and citing that these seasons were

Service Response: We would refer the HSUS to our detailed response in the September 27, 1995, Federal Register (60 FR 50042) concerning the establishment of a general swan season. Enhancing Rocky Mountain Population trumpeter swan range expansion while retaining most aspects of tundra swan hunting were covered in detail in our 1995 Environmental Assessment “Proposal to Establish General Swan Seasons in Parts of the Pacific Flyway for the 1995–99 Seasons” (August 1995) which compares various alternative strategies for reconciling conflicting swan management strategies. Copies are available at the address indicated under the caption ADDRESSES.

10. Coots

Written Comments: The HSUS believes that the bag limits for coots are too high, devaluing the birds.

Service Response: Available information indicates that harvest pressure on coots is relatively light and there is no evidence to suggest the frameworks provided are not appropriate.

10. Moorhens and Gallinules

Written Comments: The HSUS believes that the bag limits for moorhens are too high, devaluing the birds.

Service Response: Available information indicates that harvest pressure on these birds is relatively light and there is no evidence to suggest the frameworks provided are not appropriate.

NEPA Consideration

NEPA considerations are covered by the programmatic document, “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14),” filed with the Environmental Protection Agency on June 9, 1988. We published a Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). Copies are available from the address indicated under the caption ADDRESSES.

Endangered Species Act Considerations

As in the past, we design hunting regulations to remove or alleviate chances of conflict between migratory game bird hunting seasons and the protection and conservation of endangered and threatened species. We conducted consultations to ensure that actions resulting from these regulatory proposals will not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion and may have caused modification of some regulatory measures previously proposed. Final frameworks reflect any modifications. The biological opinions resulting from Section 7 consultation are public documents available for inspection in the Service’s Division of Endangered Species and the Office of Migratory Bird Management, at the address indicated under the caption ADDRESSES.

Executive Order (E.O.) 12866

This rule is economically significant and was reviewed by the Office of Management and Budget (OMB) under E.O. 12866.

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail and issued a Small Entity Flexibility Analysis (Analysis) in 1998. The Analysis documented the significant beneficial economic effect. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The Analysis was based on the 1996 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns from which it was estimated that migratory bird hunters would spend between $429 and $1,084 million at small businesses in 1998. Copies of the Analysis are available upon request.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule has an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we do not plan to defer the effective date under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. We utilize the various recordkeeping and reporting requirements imposed under regulations established in 50 CFR Part 20, Subpart K, in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the Migratory Bird Harvest Information Program and assigned clearance number 1018–0015 (expires 09/30/2001). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations.

A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify in compliance with the requirements of the Unfunded Mandates Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State government or private entities.

Civil Justice Reform—Executive Order 12988

The Department, in promulgating this rule, has determined that these regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988.

Takings Implication Assessment

In accordance with Executive Order 12690, these rules, authorized by the Migratory Bird Treaty Act, do not have significant takings implications and do not affect any constitutionally protected
property rights. These rules will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, these rules allow hunters to exercise privileges that would be otherwise unavailable; and, therefore, reduce restrictions on the use of private and public property.

**Federalism Effects**

Due to the migratory nature of certain species of birds, the Federal government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections and employs guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and Tribes to determine which seasons meet their individual needs.

Any State or Tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulation. These rules do not have a substantial direct effect on fiscal capacity, change the rules or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 12612, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

**Government-to-Government Relationship With Tribes**

In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American tribal Governments” (59 FR 22951) and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects.

**Regulations Promulgation**

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, we intend that the public be given the greatest possible opportunity to comment on the regulations. Thus, when the preliminary proposed rulemaking was published, we established what we believed were the longest periods possible for public comment. In doing this, we recognized that when the comment period closed, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the States would have insufficient time to select season dates and limits; to communicate those selections to us; and to establish and publicize the necessary regulations and procedures to implement their decisions. We therefore find that “good cause” exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these frameworks will, therefore, take effect immediately upon publication.

Therefore, under authority of the Migratory Bird Treaty Act (July 3, 1918), as amended, (16 U.S.C. 703–711), we prescribe final frameworks setting forth the species to be hunted, the daily bag and possession limits, the shooting hours, the season lengths, the earliest opening and latest closing season dates, and hunting areas, from which State conservation agency officials will select hunting season dates and other options. Upon receipt of season and option selections from these officials, we will publish in the [Federal Register](https://www.federalregister.gov/) a final rulemaking amending 50 CFR part 20 to reflect seasons, limits, and shooting hours for the conterminous United States for the 1999–2000 season.

**List of Subjects in 50 CFR Part 20**

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Donald J. Barry, Assistant Secretary for Fish and Wildlife and Parks.

**Final Regulations Frameworks for 1999–2000 Late Hunting Seasons on Certain Migratory Game Birds**

Pursuant to the Migratory Bird Treaty Act and delegated authorities, the Department has approved frameworks for season lengths, shooting hours, bag and possession limits, and outside dates within which States may select seasons for hunting waterfowl and coots between the dates of September 1, 1999, and March 10, 2000.

**General**

Dates: All outside dates noted below are inclusive.

Shooting and Hawking (taking by falconry) Hours: Unless otherwise specified, from one-half hour before sunrise to sunset daily.

Possession Limits: Unless otherwise specified, possession limits are twice the daily bag limit.

**Flyways and Management Units**

**Waterfowl Frameworks**

**Atlantic Flyway**—includes Connecticut, Delaware, Florida, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia.

**Mississippi Flyway**—includes Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin.

**Central Flyway**—includes Colorado (east of the Continental Divide), Kansas, Montana (Counties of Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide except the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

**Pacific Flyway**—includes Alaska, Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, and those portions of Colorado, Montana, New Mexico, and Wyoming not included in the Central Flyway.

Management Units: High Plains Mallard Management Unit—roughly defined as that portion of the Central Flyway which lies west of the 100th meridian.

Definitions: For the purpose of hunting regulations listed below, the collective terms “dark” and “light” geese include the following species:

- Dark geese—Canada geese, white-fronted geese, brant, and all other goose species except light geese.
- Light geese—snow (including blue) geese and Ross’ geese.

**Area, Zone, and Unit Descriptions:** Geographic descriptions related to late-season regulations are contained in a later portion of this document.

**Area-Specific Provisions:** Frameworks for open seasons, season lengths, bag and possession limits, and other special provisions are listed below by Flyway.

**Compensatory Days in the Atlantic Flyway:** In the Atlantic Flyway States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, North Carolina, Pennsylvania, Virginia, and West Virginia, where Sunday hunting is prohibited statewide by State law, all Sundays are closed to all take of migratory waterfowl (including mergansers and coots).
Atlantic Flyway

Ducks, Mergansers, and Coots

Outside Dates: Between October 1 and January 20.

Hunting Seasons and Duck Limits: 60 days and daily bag limit of 6 ducks, including no more than 4 mallards (2 hens), 3 scaup, 1 black duck, 1 pintail, 1 mottled duck, 1 fulvous whistling duck, 2 wood ducks, 2 redheads, 1 canvasback, and 4 scoters.

Closures: The season on harlequin ducks is closed.

Sea Ducks: Within the special sea duck areas, during the regular duck season in the Atlantic Flyway, States may choose to allow the above sea duck limits in addition to the limits applying to other ducks during the regular duck season. In all other areas, sea ducks may be taken only during the regular open season for ducks and are part of the regular duck season daily bag (not to exceed 4 scoters) and possession limits.

Merganser Limits: The daily bag limit of mergansers is 5, only 1 of which may be a hooded merganser.

Coot Limits: The daily bag limit is 15 coots.

Lake Champlain Zone, New York: The waterfowl seasons, limits, and shooting hours shall be the same as those selected for the Lake Champlain Zone of Vermont.

Zoning and Split Seasons: Delaware, Florida, Georgia, Maryland, North Carolina, Rhode Island, South Carolina, and Virginia may split their seasons into three segments; Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Vermont, and West Virginia may select hunting seasons by zones and may split their seasons into two segments in each zone.

Canada Geese

Season Lengths, Outside Dates, and Limits: Specific regulations for Canada geese are shown below by State. Unless specified otherwise, seasons may be split into two segments. In areas within States where the framework closing date for Atlantic Population (AP) goose seasons overlaps with special late season frameworks for resident geese, the framework closing date for AP goose season is January 14.

Connecticut:
North Atlantic Population (NAP) Zone: A 40-day season may be held between October 1 and December 15 with a 2-bird daily bag limit.

Atlantic Population (AP) Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

South Zone: A special experimental season may be held in the between January 15 and February 15, with a 5-bird daily bag limit.

Delaware: A 6-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit (tagging required to harvest). The harvest of Canada geese is limited to 2,100.

Florida: A 70-day season may be held between November 15 to February 15, with a 5-bird daily bag limit.

Georgia: In specific areas, a 70-day season may be held between November 15 and February 15, with a 5-bird daily bag limit.

Maine: A 40-day season may be held Statewide between October 1 and December 15 with a 2-bird daily bag limit.

Maryland: Southern James Bay Population (SJBP) Zone: A 40-day season may be held between November 15 to January 14, with a 2-bird daily bag limit. The season may be split 3-ways. Additionally, an experimental season may be held from January 15 to February 15, with a 5-bird daily bag limit.

AP Zone: A 6-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 1-bird daily bag limit.

Pymatuning Zone: A 35-day season may be held between October 1 and January 20, with a 1-bird daily bag limit.

Rhode Island: A 40-day season may be held between October 1 and December 15 with a 2-bird daily bag limit. An experimental season may be held in a designated area from January 15 to February 15, with a 5-bird daily bag limit.

South Carolina: A 15-day season may be held concurrent with the duck season between November 15 and January 20 with a 5-bird daily bag limit.

New Hampshire: A 40-day season may be held statewide between October 1 and December 15 with a 2-bird daily bag limit.

New Jersey: Statewide: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

NAP Zone: A 40-day season may be held between October 1 and December 31 with a 2-bird daily bag limit.

Special Late Goose Season Area: An experimental season may be held between January 15 and February 15, with a 5-bird daily bag limit in designated areas of Chemung, Delaware, Tioga, Broome, Sullivan, Westchester, Nassau, Suffolk, Orange, Dutchess, Putnam, and Rockland Counties.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

AP Zone: A 15-day season may be held concurrent with the duck season between November 1 and January 20 with a 1-bird daily bag limit.

Light Geese

Season Lengths, Outside Dates, and Limits: States may select a 107-day season between October 1 and March 10, with a 15-bird daily bag limit and no
Tennessee may extend to January 31. Season lengths, outside dates, and limits: States may select a 50-day season between October 1 and January 20, with a 2-bird daily bag limit. States may split their seasons into two segments.

**Mississippi Flyway**

Ducks, Mergansers, and Coots

Outside dates: Between the Saturday nearest October 1 (October 2) and the Sunday nearest January 20 (January 23). Seasons in Alabama, Mississippi, and Tennessee may extend to January 31.

Hunting seasons and duck limits: 60 days with a daily bag limit of 6 ducks, including no more than 4 mallards (no more than 2 of which may be females), 3 mottled ducks, 3 scaup, 1 black duck, 1 pintail, 2 wood ducks, 1 canvasback, and 2 redheads. In the States of Alabama, Mississippi, and Tennessee, if a season extending beyond the Sunday nearest January 20 (January 23) is selected in any portion of the State, the season length will be 51 days throughout the State.

Merganser limits: The daily bag limit is 5, only 1 of which may be a hooded merganser.

Coot limits: The daily bag limit is 15 coots.

Zoning and split seasons: Alabama, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin may select hunting seasons by zones.

In Alabama, Indiana, Iowa, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin, the season may be split into two segments in each zone.

In Minnesota and Arkansas, the season may be split into three segments.

**Geese**

Split seasons: Seasons for geese may be split into three segments. Three-way split seasons for Canada goose require Mississippi Flyway Council and U.S. Fish and Wildlife Service approval, and a 3-year evaluation, by each participating State.

Season lengths, outside dates, and limits: States may select seasons for light geese not to exceed 107 days with 20 geese daily between the Saturday nearest October 1 (October 2) and March 10; for white-fronted geese not to exceed 86 days with 2 geese daily or 107 days with 1 goose daily between the Saturday nearest October 1 (October 2) and the Sunday nearest February 15 (February 13); and for brant not to exceed 70 days with 2 brant daily or 107 days with 1 brant daily between the Saturday nearest October 1 (October 2) and January 31. There is no possession limit for light geese. Specific regulations for Canada goose and exceptions to the above general provisions are shown below by State. Except as noted below, the outside dates for Canada geese are the Saturday nearest October 1 (October 2) and January 31.

Alabama: In the Southern James Bay Population (SJB) Goose Zone, the season for Canada goose may extend for 35 days. Elsewhere, the season for Canada goose may extend for 70 days in the respective duck-hunting zones. The daily bag limit is 2 Canada geese.

Arkansas: The season for Canada goose may extend for 23 days in the East Zone and 16 days in the West Zone. In both zones, the season may extend to February 15. The daily bag limit is 2 Canada geese. In the remainder of the State, the season for Canada goose is closed.

Illinois: The total harvest of Canada geese in the State will be limited to 119,600 birds. The possession limit is 10 Canada geese.

(a) North Zone—The season for Canada goose will close after 91 days or when 16,700 birds have been harvested in the Northern Illinois Quota Zone, whichever occurs first. The daily bag limit is 2 Canada geese during the first 73 days and 3 Canada geese thereafter.

(b) Central Zone—The season for Canada goose will close after 91 days or when 22,100 birds have been harvested in the Central Illinois Quota Zone, whichever occurs first. The daily bag limit is 2 Canada geese during the first 77 days and 3 Canada geese thereafter.

(c) South Zone—The harvest of Canada geese in the Southern Illinois and Rend Lake Quota Zones will be limited to 36,100 and 6,600 birds, respectively. The season for Canada goose in each zone will close after 67 days or when the harvest limit has been reached, whichever occurs first. The daily bag limit is 2 Canada geese. In the Southern Illinois Quota Zone, if any of the following conditions exist after December 20, the State, after consultation with the Service, will close the season by emergency order with 48 hours notice:

(1) Average body weights of adult female geese less than 3,200 grams as measured from a weekly sample of a minimum of 50 geese.

(2) Starvation or a major disease outbreak resulting in observed mortality exceeding 5,000 birds in 10 days, or a total mortality exceeding 10,000 birds.

In the remainder of the South Zone, the season may extend for 67 days or until both the Southern Illinois and Rend Lake Quota Zones have been closed, whichever occurs first. The daily bag limit is 2 Canada geese.

Indiana: The total harvest of Canada geese in the State will be limited to 25,675 birds. The daily bag limit is 2 Canada geese.

(a) Posey County—The season for Canada goose will close after 66 days or when the Canada goose harvest at the Hovey Lake Fish and Wildlife Area exceeds 950 birds, whichever occurs first.

(b) Remainder of the State—The season for Canada goose may extend for 56 days, except in the SJB Zone, where the season may not exceed 35 days.

Iowa: The season may extend to 70 days. The daily bag limit is 2 Canada geese.

Kentucky:

(a) Western Zone—The season for Canada goose may extend for 59 days (74 days in Fulton County), and the harvest will be limited to 22,900 birds. Of the 22,900 bird quota, 14,885 birds will be allocated to the Ballard Reporting Area and 4,350 birds will be allocated to the Henderson/Union Reporting Area. If the quota in either reporting area is reached prior to completion of the 59-day season, the season in that reporting area will be closed. If the quotas in both the Ballard and Henderson/Union reporting areas are reached prior to completion of the 59-day season, the season in the counties and portions of counties that comprise the Western Goose Zone (listed in State regulations) may continue for an additional 7 days, not to exceed a total of 59 days (74 days in Fulton County). The season in Fulton County may extend to February 15. The daily bag limit is 2 Canada geese.

(b) Pennyroyal/Coalfield Zone—The season may extend for 35 days. The daily bag limit is 2 Canada geese.

(c) Remainder of the State—The season may extend for 50 days. The daily bag limit is 2 Canada geese.

Louisiana: The season for Canada goose may extend for 9 days. During the season, the daily bag limit is 1 Canada goose and 2 white-fronted goose with an 86-day white-fronted goose season or 1 white-fronted goose with a 107-day season. Hunters pursuing the Canada goose season must possess a special permit issued by the State.
Michigan: The total harvest of Canada geese in the State will be limited to 56,800 birds. The framework opening date for all geese is September 19. (a) North and Middle zones—The season for Canada geese may extend for 15 days. The daily bag limit is 2 Canada geese. (b) South Zone: (1) Allegan County GMU—The season for Canada geese will close after 21 days or when 880 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose. (2) Muskegon Wastewater GMU—The season for Canada geese will close after 22 days or when 280 birds have been harvested, whichever occurs first. The daily bag limit is 2 Canada geese. (3) Saginaw County GMU—The season for Canada geese will close after 50 days or when 2,000 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose. (4) Tuscola/Huron GMU—The season for Canada geese will close after 50 days or when 750 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose. (5) Remainder of South Zone—The season for Canada geese will open September 19 and may extend for 15 days. The daily bag limit is 2 Canada geese. (d) Southern Michigan GMU—A special Canada goose season may be held between January 8 and February 6. The daily bag limit is 5 Canada geese. (e) Central Michigan GMU—An experimental special Canada goose season may be held between January 8 and February 6. The daily bag limit is 5 Canada geese. (f) Remainder of the state—(1) West Zone—The season for Canada geese may extend for 30 days. In the Lac Qui Parle Zone, the season will close after 30 days or when 16,000 birds have been harvested, whichever occurs first. Throughout the West Central Zone, the daily bag limit is 1 Canada goose. (2) Remainder of West Zone—The season for Canada geese may extend for 40 days. The daily bag limit is 1 Canada goose. (b) Northwest Zone—The season for Canada geese may extend for 40 days. The daily bag limit is 1 Canada goose. (c) Remainder of the State—The season for Canada geese may extend for 70 days. The daily bag limit is 2 Canada geese. (d) Special Late Canada Goose Season—An experimental Special Canada goose season of up to 10 days may be held December 1 through December 31, except in the West Central and Lac qui Parle Goose zones. During the special season, the daily bag limit is 5 Canada geese, except in the Southeast Dorset Zone, where the daily bag limit is 2. (e) Other Areas—The season for Canada geese may extend for 70 days. The daily bag limit is 3 Canada geese. Missouri: (a) Swan Lake Zone—The season for Canada geese may extend for 70 days, with no more than 30 days occurring after November 30. The season may be split into 3 segments. The daily bag limit is 2 Canada geese. (b) Southeast Zone—The season for Canada geese may extend for 70 days. The season may be split into 3 segments, provided that at least 1 segment occurs prior to December 1. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter. (c) Remainder of the state—(1) North Zone—The season for Canada geese may extend for 70 days, with no more than 30 days occurring after November 30. The season may be split into 3 segments, provided that at least 1 segment of at least 9 days occurs prior to October 15. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter. (2) Middle Zone—The season for Canada geese may extend for 70 days, with no more than 30 days occurring after November 30. The season may be split into 3 segments, provided that at least 9 days occur prior to October 15. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter. (3) South Zone—The season for Canada geese may extend for 70 days. The season may be split into 3 segments, provided that at least 1 segment occurs prior to December 1. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter. Ohio: The season for Canada geese may extend for 70 days in the respective duck-hunting zones, with a daily bag limit of 2 Canada geese, except in the Lake Erie SJBP Zone, where the season may not exceed 40 days, and the daily bag limit is 1 Canada goose. A special experimental Canada goose season of up to 22 days, beginning the first Saturday after January 10, may be held in selected areas of the State. During the special season, the daily bag limit is 2 Canada geese. Tennessee: (a) Northwest Zone—The season for Canada geese will close after 74 days or when 8,500 birds have been harvested, whichever occurs first. The season may extend to February 16. The 6,000 bird harvest quota will be monitored in the Reelfoot Quota Zone. The remaining 2,500 quota will be assigned to the area outside the Reelfoot Zone. If the quota in the Reelfoot Quota Zone is reached prior to completion of the 74-day season, the season in the entire Northwest Zone will close. The daily bag limit is 2 Canada geese. (b) Southwest Zone—The season for Canada geese may extend for 59 days, and the harvest will be limited to 1,000 birds. The daily bag limit is 2 Canada geese. (c) Kentucky/Barkley Lakes Zone—The season for Canada geese will close after 50 days or when 1,800 birds have been harvested, whichever occurs first. All geese harvested must be tagged. The daily bag limit is 2 Canada geese. In lieu of the quota and tagging requirement above, the State may select either a 50-day season with a 1-bird daily bag limit or a 35-day season with a 2-bird daily bag limit for this Zone. (d) Remainder of the State—The season for Canada geese may extend for 70 days. The daily bag limit is 2 Canada geese. Wisconsin: The total harvest of Canada geese in the State will be limited to 79,800 birds. (a) Horicon Zone—The framework opening date for all geese is September 18. The harvest of Canada geese is limited to 39,500 birds. The season may not exceed 95 days. All Canada geese harvested must be tagged. The daily bag limit is 2 Canada geese and the season limit will be the number of tags issued to each permittee. (b) Collins Zone—The framework opening date for all geese is September 18. The harvest of Canada geese is limited to 1,300 birds. The season may not exceed 68 days. All Canada geese harvested must be tagged. The daily bag limit is 2 Canada geese and the season limit will be the number of tags issued to each permittee. (c) Exterior Zone—The framework opening date for all geese is September 25. The harvest of Canada geese is limited to 34,500 birds, with 500 birds allocated to the Mississippi River Subzone. The season may not exceed 94 days, except in the Mississippi River Subzone, where the season may not exceed 80 days. The daily bag limit is 1 Canada goose. In that portion of the Exterior Zone outside the Mississippi River Subzone, the progress of the harvest must be monitored, and the season closed, if necessary, to ensure that the harvest does not exceed 34,000 birds. Additional Limits: In addition to the harvest limits stated for the respective zones above, an additional 4,500 Canada geese may be taken in the Horicon Zone under special agricultural permits.
Quota Zone Closures: When it has been determined that the quota of Canada geese allotted to the Northern Illinois, Central Illinois, Southern Illinois, and Rend Lake Quota Zones in Illinois, Posey County in Indiana, the Ballard and Henderson-Union Subzones in Kentucky, the Allegan County, Muskegon Wastewater, Saginaw County, and Tuscola/Huron Goose Management Units in Michigan, the Lac Qui Parle Zone in Minnesota, the Northwest and Kentucky/Barkley Lakes (if applicable) Zones in Tennessee, and the Exterior Zone in Wisconsin will have been filled, the season for taking Canada geese in the respective zone (and associated area, if applicable) will be closed by either the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing, or by the State through State regulations with such notice and time (not less than 48 hours) as they deem necessary.

Central Flyway

Ducks, Mergansers, and Coots

Outside Dates: Between October 2 and January 23.

Hunting Seasons and Duck Limits: (1) High Plains Mallard Management Unit (roughly defined as that portion of the Central Flyway which lies west of the 100th meridian): 97 days and a daily bag limit of 6 ducks, including no more than 5 mallards (no more than 2 of which may be hens) 1 mottled duck, 1 canvasback, 1 pintail, 2 redheads, 3 scaup, and 2 wood ducks. The last 23 days may start no earlier than the Saturday nearest December 10 (December 11).

(2) Remainder of the Central Flyway: 74 days and a daily bag limit of 6 ducks, including no more than 5 mallards (no more than 2 of which may be hens), 1 mottled duck, 1 canvasback, 1 pintail, 2 redheads, 3 scaup, and 2 wood ducks.

Merganser Limits: The daily bag limit is 5 mergansers, only 1 of which may be a hooded merganser.

Coot Limits: The daily bag limit is 15 coots.

Zoning and Split Seasons: Kansas (Low Plains portion), Montana, Nebraska (Low Plains portion), New Mexico, Oklahoma (Low Plains portion), South Dakota (Low Plains portion), Texas (Low Plains portion), and Wyoming may select hunting seasons by zones.

In Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming, the regular season may be split into two segments.

In Colorado, the season may be split into three segments.

Geese

Split Seasons: Seasons for geese may be split into three segments. Three-way split seasons for Canada geese require Central Flyway Council and U.S. Fish and Wildlife Service approval, and a 3-year evaluation by each participating State.

Outside Dates: For dark geese, seasons may be selected between the outside dates of the Saturday nearest October 1 (October 2) and the Sunday nearest February 15 (February 13). For light geese, outside dates for seasons may be selected between the Saturday nearest October 1 (October 2) and March 10. In the Rainwater Basin Light Goose Area (East and West) of Nebraska, temporal and spatial restrictions consistent with the experimental late-winter snow goose hunting strategy endorsed by the Central Flyway Council in July 1999, are required.

Season Lengths and Limits:

Light Geese: States may select a light goose season not to exceed 107 days. The daily bag limit for light geese is 20 with no possession limit.

Dark Geese: In Kansas, Nebraska, North Dakota, Oklahoma, South Dakota, and the Eastern Goose Zone of Texas, States may select a season for Canada geese (or any other dark goose species except white-fronted geese) not to exceed 95 days with a daily bag limit of 3. Additionally, in the Eastern Goose Zone of Texas, an alternative season of 107 days with a daily bag limit of 1 Canada goose may be selected. For white-fronted geese, these States may select either a season of 86 days with a bag limit of 2 or a 107-day season with a bag limit of 1.

In South Dakota, for Canada geese in the Big Stone Power Plant Area of Dark Goose Unit 1, the daily bag limit is 3 until November 30 and 2 thereafter.

In Colorado, Montana, New Mexico and Wyoming, States may select seasons not to exceed 107 days. The daily bag limit for dark geese is 5 in the aggregate.

In the Western Goose Zone of Texas, the season may not exceed 107 days. The daily bag limit for Canada geese (or any other dark goose species except white-fronted geese) is 5. The daily bag limit for white-fronted geese is 1.

Pacific Flyway

Ducks, Mergansers, Coots, and Common Moorhens

Hunting Seasons and Duck Limits: Concurrent 107 days and daily bag limit of 7 ducks and mergansers, including no more than 2 female mallards, 1 pintail, 4 scaup, 2 redheads and 1 canvasback. The season on coots and common moorhens may be between the outside dates for the season on ducks, but not to exceed 107 days.

Coot and Common Moorhen Limits: The daily bag and possession limits of coots and common moorhens are 25, singly or in the aggregate.

Outside Dates: Between the Saturday nearest October 1 (October 2) and the Sunday nearest January 20 (January 23).

Zoning and Split Seasons: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington may select hunting seasons by zones.

Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington may split their seasons into two segments.

Colorado, Montana, New Mexico, and Wyoming may split their seasons into three segments.

Colorado River Zone, California: Seasons and limits shall be the same as seasons and limits selected in the adjacent portion of Arizona (South Zone).

Geese

Season Lengths, Outside Dates, and Limits: Except as subsequently noted, 100-day seasons may be selected, with outside dates between the Saturday nearest October 1 (October 2), and the Sunday nearest January 20 (January 23), and the basic daily bag limits are 3 light geese and 4 dark geese, except in California, Oregon, and Washington, where the dark goose bag limit does not include brant.

Split Seasons: Unless otherwise specified, seasons for geese may be split into up to 3 segments. Three-way split seasons for Canada goose and white-fronted goose require Pacific Flyway Council and U.S. Fish and Wildlife Service approval and a 3-year evaluation by each participating State.

Brant Season—A 16-consecutive-day season may be selected in Oregon and Washington, and a 30-consecutive-day season may be selected in California. In these States, the daily bag limit is 2 and is in addition to dark goose limits.

Closures: There will be no open season on Aleutian Canada goose in the Pacific Flyway. The States of California, Oregon, and Washington must include a statement on the closure for that subspecies in their respective regulations leaflet. Emergency closures may be invoked for all Canada goose should Aleutian Canada goose distribution patterns or other circumstances justify such actions.

Arizona: The daily bag limit for dark geese is 3.

California: Northeastern Zone—White-fronted geese and cackling Canada geese may be taken only during the first 44 days of the
goose season. The daily bag limit is 3 geese and may include no more than 2 dark geese; including not more than 1 cackling Canada goose.

Colorado River Zone—The seasons and limits must be the same as those selected in the adjacent portion of Arizona (South Zone).

Southern Zone—The daily bag limit for dark geese is 3 geese, including not more than 1 cackling Canada goose.

Balance-of-the-State Zone—A 79-day season may be selected. Limits may not include more than 3 geese per day and 6 in possession, of which not more than 2 daily and 4 in possession may be white-fronted geese and not more than 1 daily or 2 in possession may be cackling Canada goose. Three areas in the Balance-of-the-State Zone are restricted in the hunting of certain geese:

(1) In the Counties of Del Norte and Humboldt, there will be no open season for Canada geese, except for the Special September Canada goose hunt in Humboldt County.

(2) In the Sacramento Valley Special Management Area (West), the season on white-fronted geese must end on or before December 14, and, in the Sacramento Valley Special Management Area (East), there will be no open season for Canada geese.

(3) In the San Joaquin Valley Special Management Area, there will be no open season for Canada geese.

Colorado: The daily bag limit for dark geese is 3 geese.

Idaho: Northern Unit—The daily bag limit is 4 geese, including 4 dark geese, but not more than 3 light geese.

Southwest Unit and Southeastern Unit—The daily bag limit on dark geese is 4.

Montana:

West of Divide Zone and East of Divide Zone—The daily bag limit of dark geese is 4.

Nevada:

Lincoln and Clark County Zone—The daily bag limit of dark geese is 2.

New Mexico: The daily bag limit of dark geese is 3.

Oregon: Except as subsequently noted, the dark goose daily bag limit is 4, including not more than 1 cackling Canada goose.

Lake County Zone—The season length may be 100 days. The dark goose limit is 4, including not more than 2 white-fronted geese and 1 cackling Canada goose.

Western Zone—In the Special Canada Goose Management Area, except for designated areas, there shall be no open season on Canada geese. In the designated areas, individual quotas shall be established which collectively shall not exceed 165 dusky Canada geese. See section on quota zones. In those designated areas, the daily bag limit of dark geese is 4 and may include 4 cackling Canada goose.

Utah: The daily bag limit for dark geese is 3 geese.

Washington: The daily bag limit is 4 geese, including 4 dark geese but not more than 3 light geese.

West Zone—In the Lower Columbia River Special Goose Management Area, except for designated areas, there shall be no open season on Canada geese. In the designated areas, individual quotas shall be established which collectively shall not exceed 85 dusky Canada geese. See section on quota zones. In this area, the daily bag limit of dark geese is 4 and may include 4 cackling Canada geese.

Wyoming: The daily bag limit is 4 dark geese.

Quota Zones: Seasons on dark geese must end upon attainment of individual quotas of dusky Canada geese allotted to the designated areas of Oregon and Washington. The September Canada goose season, the regular goose season, any special late dark goose season, and any extended falconry season, combined, must not exceed 107 days and the established quota of dusky Canada geese must not be exceeded. Hunting of dark geese in those designated areas shall only be by hunters possessing a State-issued permit authorizing them to do so. In a Service-approved investigation, the State must obtain quantitative information on hunter compliance of those regulations aimed at reducing the take of dusky Canada geese and eliminating the take of Aleutian Canada geese. In the designated areas of the Washington Quota Zone, a special late dark goose season may be held between January 22 and March 10. The daily bag limit may not include Aleutian Canada goose. In the Special Canada Goose Management Area of Oregon, the framework closing date is extended to the Sunday closest to March 1 (Feb. 28). In the Special Canada Goose Management Area of Oregon, the framework closing date is extended to the Sunday closest to March 1 (Feb. 28). Regular dark goose seasons may be split into 3 segments within the Oregon and Washington quota zones. The 3-way split seasons are considered experimental for the next 3 years. An evaluation of the 3-way split seasons is required and must be submitted by July 1, 2002. Swans

In designated areas of Utah, Nevada, and the Pacific Flyway portion of Montana, an open season for taking a limited number of swans may be selected. Permits will be issued by States and will authorize each permittee to take no more than 1 swan per season. The season may open no earlier than the Saturday nearest October 1 (October 2). The States must implement a harvest-monitoring program to measure the species composition of the swan harvest. In Utah and Nevada, the harvest-monitoring program must require that all harvested swans or their species-determinant parts be examined by either State or Federal biologists for the purpose of species classification. All States should use appropriate measures to maximize hunter compliance in providing bagged swans for examination or, in the case of Montana, reporting bill-measurement and color information. All States must provide to the Service by June 30, 1998, a report covering harvest, hunter participation, reporting compliance, and monitoring of swan populations in the designated hunt areas. These seasons will be subject to the following conditions:

In Utah, no more than 2,750 permits may be issued. The season must end no later than the first Sunday in December (December 6) or upon attainment of 15 trumpeter swans in the harvest, whichever occurs earliest.

In Nevada, no more than 650 permits may be issued. The season must end no later than the Sunday following January 1 (January 2) or upon attainment of 5 trumpeter swans in the harvest, whichever occurs earliest.

In Montana, no more than 500 permits may be issued. The season must end no later than December 1. Tundra Swans

In Central Flyway portion of Montana, and in North Carolina, North Dakota, South Dakota (east of the Missouri River), and Virginia, an open season for taking a limited number of tundra swans may be selected. Permits will be issued by the States and will authorize each permittee to take no more than 1 tundra swan per season. The States must obtain harvest and hunter participation data. These seasons will be subject to the following conditions:

In the Atlantic Flyway

—The season will be experimental.
—The season may be 90 days, from October 1 to January 31.
—In North Carolina, no more than 5,000 permits may be issued.
—In Virginia, no more than 600 permits may be issued.

In the Central Flyway

—The season may be 107 days and must occur during the light goose season.
—In the Central Flyway portion of Montana, no more than 500 permits may be issued.
—In North Dakota, no more than 2,000 permits may be issued.
—In South Dakota, no more than 1,500 permits may be issued.

Area, Unit and Zone Descriptions

Ducks (Including Mergansers) and Coots

Atlantic Flyway

Connecticut

North Zone: That portion of the State north of I–95.
South Zone: Remainder of the State.

Maine

North Zone: That portion north of the line extending east along Maine State Highway 110 from the New Hampshire and Maine border to the intersection of Maine State Highway 11 in Newfield; then north and east along Route 11 to the intersection of U.S. Route 202 in Auburn; then north and east on Route 202 to the intersection of Interstate Highway 95 in Augusta; then north and east along I–95 to Route 15 in Bangor; then east along Route 15 to Route 9; then east along Route 9 to Stony Brook in Baileyville; then east along Stony Brook to the United States border.
South Zone: Remainder of the State.

Massachusetts

Western Zone: That portion of the State west of a line extending south from the Vermont border on I–91 to MA 9, west on MA 9 to MA 10, south on MA 10 to U.S. 202, south on U.S. 202 to the Connecticut border.

Central Zone: That portion of the State east of the Berkshire Zone and west of a line extending south from the New Hampshire border on I–95 to U.S. 1, south on U.S. 1 to I–93, south on I–93 to MA 3, south on MA 3 to U.S. 6, west on U.S. 6 to MA 28, west on MA 28 to I–195, west to the Rhode Island border; except the waters, and the lands 150 yards inland from the high-water mark, of the Assonet River upstream to the MA 24 bridge, and the Taunton River upstream to the Center St.-Elm St. bridge shall be in the Coastal Zone.

Coastal Zone: That portion of Massachusetts east and south of the Central Zone.

New Hampshire

Coastal Zone: That portion of the State east of a line extending west from Maine border in Rollinsford on NH 4 to the city of Dover, south to NH 108, south along NH 108 through Madbury, Durham, and Newmarket to NH 85 in Newfields, south to NH 101 in Exeter, east to NH 51 (Exeter-Hampton Expressway), east to I–95 (New Hampshire Turnpike) in Hampton, and south along I–95 to the Massachusetts border.

Inland Zone: That portion of the State north and west of the above boundary.

New Jersey

Coastal Zone: That portion of the State seaward of a line beginning at the New York border in Raritan Bay and extending west along the New York border to NJ 440 at Perth Amboy; west on NJ 440 to the Garden State Parkway; south on the Garden State Parkway to the shoreline at Cape May and continuing to the Delaware border in Delaware Bay.

North Zone: That portion of the State west of the Coastal Zone and north of a line extending west from the Garden State Parkway on NJ 70 to the New Jersey Turnpike, north on the turnpike to U.S. 206, north on U.S. 206 to U.S. 1 at Trenton, west on U.S. 1 to the Pennsylvania border in the Delaware River.

South Zone: That portion of the State not within the North Zone or the Coastal Zone.

New York

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 98 from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keesville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone: That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone: That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania border.

Northeastern Zone: That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, south along I–81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (Exit 20), north along U.S. 9 to NY 149, eastern NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone: That remaining portion of New York.

Pennsylvania

Lake Erie Zone: The Lake Erie waters of Pennsylvania and a shoreline margin along Lake Erie from New York on the east to Ohio on the west extending 150 yards inland, but including all of Presque Isle Peninsula.

Northwest Zone: That area bounded on the north by the Lake Erie Zone and including all of Erie and Crawford Counties and those portions of Mercer and Venango Counties north of I–80.
South Zone: That remaining portion of Pennsylvania.

Vermont

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area north and west of the line extending from the New York border along U.S. 4 to VT 22A at Fair Haven; VT 22A to U.S. 7 at Vergennes; U.S. 7 to the Canadian border.

Interior Zone: That remaining portion of Vermont.

West Virginia

Zone 1: That portion outside the boundaries in Zone 2.
Zone 2 (Allegheny Mountain Upland): That area bounded by a line extending southeast along U.S. 220 through Keyser to U.S. 50; U.S. 50 to WV 93; WV 93 south to WV 42; WV 42 south to Petersburg; WV 28 south to Minnehaha Springs; WV 39 west to U.S. 219; U.S. 219 south to I–64; I–64 west to U.S. 60; U.S. 60 west to U.S. 19; U.S. 19 north to I–79; I–79 north to U.S. 48; U.S. 48 east to the Maryland border; and along the border to the point of beginning.

Mississippi Flyway

Alabama

South Zone: Mobile and Baldwin Counties.

North Zone: The remainder of Alabama.

Illinois

North Zone: That portion of the State north of a line extending east from the Iowa border along Illinois Highway 92 to Interstate Highway 280, east along I–280 to I–80, then east along I–80 to the Indiana border.

Central Zone: That portion of the State south of the North Zone to a line extending east from the Missouri border along the Modoc Ferry route to Modoc Ferry Road, east along Modoc Ferry Road to Modoc Road, northeasterly along Modoc Road and St. Leo’s Road to
Illinois Highway 3, north along Illinois 3 to Illinois 59, north along Illinois 159 to Illinois 161, east along Illinois 161 to Illinois 4, north along Illinois 4 to Interstate Highway 70, east along I-70 to the Bond County line, north and east along the Bond County line to Fayette County, north and east along the Fayette County line to Effingham County, east and south along the Effingham County line to I-70, then east along I-70 to the Indiana border.

South Zone: The remainder of Illinois.

Indiana

North Zone: That portion of the State north of a line extending east from the Illinois border along State Road 18 to U.S. Highway 31, north along U.S. 31 to U.S. 24, east along U.S. 24 to Huntington, then southeast along U.S. 224 to the Ohio border.

Ohio River Zone: That portion of the State south of a line extending east from the Illinois border along Interstate Highway 64 to New Albany, east along State Road 62 to State 56, east along State 56 to Vevay, east and north on State 156 along the Ohio River to North Landing, north along State 56 to U.S. Highway 50, then northeast along U.S. 50 to the Ohio border.

South Zone: That portion of the State between the North and Ohio River Zone boundaries.

Iowa

North Zone: That portion of the State north of a line extending east from the Nebraska border along State Highway 175 to State 37, southeast along State 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I-80 to the Illinois border.

South Zone: The remainder of Iowa.

Kentucky

West Zone: All counties west of and including Butler, Daviess, Ohio, Simpson, and Warren Counties.

East Zone: The remainder of Kentucky.

Louisiana

West Zone: That portion of the State west of a line extending south from the Arkansas border along Louisiana Highway 3 to Bossier City, east along Interstate Highway 20 to Minden, south along Louisiana 7 to Ringgold, east along Louisiana 4 to Jonesboro, south along U.S. Highway 167 to Lafayette, southeast along U.S. 90 to Houma, then south along the Houma Navigation Channel to the Gulf of Mexico through Cat Island Pass.

East Zone: The remainder of Louisiana.

Catahoula Lake Area: All of Catahoula Lake, including those portions known locally as Round Prairie, Catfish Prairie, and Frazier’s Arm. See State regulations for additional information.

Michigan

North Zone: The Upper Peninsula.

Middle Zone: That portion of the Lower Peninsula of a line beginning at the Wisconsin border in Lake Michigan due west of the mouth of Stony Creek in Oceana County; then due east to, and easterly and southerly along the south shore of, Stony Creek to Scenic Drive, easterly and southerly along Scenic Drive to Stony Lake Road, easterly along Stony Lake and Garfield Roads to Michigan Highway 20, east along Michigan 20 to U.S. Highway 10 Business Route (BR) in the city of Midland, east along U.S. 10 BR to U.S. 10, east along U.S. 10 to Interstate Highway 75/U.S. Highway 23, north along I-75/U.S. 23 to the U.S. 23 exit at Standish, east along U.S. 23 to Shore Road in Arenac County, east along Shore Road to the tip of Point Lookout, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canada border.

South Zone: The remainder of Michigan.

Mississippi

Zone 1: Hancock, Harrison, and Jackson Counties.

Zone 2: The remainder of Mississippi.

Missouri

North Zone: That portion of Missouri north of a line running west from the Illinois border along Interstate Highway 70 to U.S. Highway 54, south along U.S. 54 to U.S. 50, then west along U.S. 50 to the Kansas border.

South Zone: That portion of Missouri south of a line running west from the Illinois border along Missouri Highway 34 to Interstate Highway 55; south along I-55 to U.S. Highway 62, west along U.S. 62 to Missouri 53, north along Missouri 53 to Missouri 51, north along Missouri 51 to U.S. 60, west along U.S. 60 to Missouri 21, north along Missouri 21 to Missouri 72, west along Missouri 72 to Missouri 32, west along Missouri 32 to U.S. 65, north along U.S. 65 to U.S. 54, west along U.S. 54 to Missouri 32, south along Missouri 32 to Missouri 97, south along Missouri 97 to Dade County NN, west along Dade County NN to Missouri 37, west along Missouri 37 to Jasper County N, west along Jasper County N to Jasper County M, west along Jasper County M to the Kansas border.

Middle Zone: The remainder of Missouri.

Ohio

North Zone: The Counties of Darke, Miami, Clark, Champaign, Union, Delaware, Licking (excluding the Buckeye Lake Area), Muskingum, Guernsey, Harrison and Jefferson and all counties north thereof.

South Zone: That portion of the State between the North and Ohio River Zone boundaries, including the Buckeye Lake Area in Licking County bounded on the west by State Highway 37, on the north by U.S. Highway 40, and on the east by State 13.

Tennessee

Reelfoot Zone: All or portions of Lake and Obion Counties.

State Zone: The remainder of Tennessee.

Wisconsin

North Zone: That portion of the State north of a line extending east from the Minnesota border along State Highway 77 to State 27, south along State 27 and 77 to U.S. Highway 63, and continuing south along State 27 to Sawyer County Road B, south and east along County B to State 70, southwest along State 70 to State 27, south along State 27 to State 64, west along State 64/27 and south along State 27 to U.S. 12, south and east on State 27/U.S. 12 to U.S. 10, east on U.S. 10 to State 310, east along State 310 to State 42, north along State 42 to State 147, north along State 147 to State 163, north along State 163 to Kewaunee County Trunk A, north along County Trunk A to State 57, north along State 57 to the Kewaunee/Door County Line, west along the Kewaunee/Door County Line to the Door/Brown County Line, west along the Door/Brown County Line to the Door/Oconto/Brown County Line, northeast along the Door/Oconto County Line to the Marinette/Door County Line, northeast along the Marinette/Door County Line to the Michigan border.

South Zone: The remainder of Wisconsin.

Central Flyway

Kansas

High Plains Zone: That portion of the State west of U.S. 283.

Low Plains Early Zone: That portion of the State east of the High Plains Zone and west of a line extending south from the Nebraska border along KS 28 to U.S. 36, east along U.S. 36 to KS 199, south along KS 199 to Republic County Road 563, south along Republic County Road 563 to KS 148, east along KS 148 to Republic County Road 138, south along
Montana (Central Flyway Portion)

That portion of the

High Plains Zone: That portion of the State east of the High Plains Zone, excluding Low Plains Zone 1.

Low Plains Zone 1: That portion of the State east of the High Plains Zone and south of Zone 2.

South Dakota

Low Plains Zone 2: That portion of the State east of the High Plains Zone and south of Zone 2.

Low Plains Zone 3: The area east of the High Plains Zone, excluding Low Plains Zone 1, north of Low Plains Zone 2.

Low Plains Zone 4: The area east of the High Plains Zone and south of Zone 2.

New Mexico (Central Flyway Portion)

North Zone: That portion of the State north of I-40 and U.S. 54.

South Zone: The remainder of New Mexico.

North Dakota

High Plains Unit: That portion of the State south and west of a line from the South Dakota border along U.S. 83 and I-94 to ND 41, north to U.S. 2, west to the Williams/Divide County line, then north along the County line to the Canadian border.

Low Plains: The remainder of North Dakota.

Oklahoma

High Plains Zone: The Counties of Beaver, Cimarron, and Texas.

Low Plains Zone 1: That portion of the High Plains Zone and north and east of a line extending from the South Dakota border along NE 26E Spur to U.S. 20, west on U.S. 20 to NE 12, west on NE 12 to the Knox/Keya Paha County line, south along the county line to the Niobrara River and along the Niobrara River to U.S. 183 (the High Plains Zone line). Where the Niobrara River forms the boundary, both banks will be in Zone 1.

Low Plains Zone 2: That portion of the State east of the High Plains Zone and bounded by designated highways and political boundaries starting on U.S. 73 at the Kansas border, north to NE 67, north to U.S. 75, north to NE 2, west to NE 43, north to U.S. 34, east to NE 63, north and west to U.S. 77, north to NE 92, west to U.S. 81, south to NE 66, west to NE 14, south to U.S. 34, west to NE 2, south to I-80, west to Hamilton/Hall County line (Gunnarbal Road), south to Giltner Road; west to U.S. 34, west to U.S. 136, east on U.S. 136 to NE 10, south to the State line, west to U.S. 283, north to NE 23, west to NE 47, north to U.S. 30, east to NE 14, north to NE 52, northwesterly to NE 91, west to U.S. 281, north to NE 91 in Wheeler County, extending east along US 212 to SD 15, then north along SD 15 to Big Stone Lake at the Minnesota border.

South Zone: That portion of Gregory County east of SD 47, Charles Mix County south of SD 44 to the Douglas County line, south on SD 50 to Geddes, east on the Geddes Hwy. to U.S. 281, south on U.S. 281 and U.S. 18 to SD 50, south and east on SD 50 to Bon Homme County line, the Counties of Bon Homme, Yankton, and Clay south of SD 50, and Union County south and west of SD 50 and I-29.

Middle Zone: The remainder of South Dakota.

Texas

High Plains Zone: That portion of the State west of a line extending south from the Oklahoma border along U.S. 183 to Vernon, south along U.S. 283 to Albany, south along TX 6 to TX 351 to Abilene, south along U.S. 277 to Del Rio, then south along the Del Rio International Toll Bridge access road to the Mexico border.

Low Plains North Zone: That portion of northeastern Texas east of the High Plains Zone and north of a line beginning at the International Toll Bridge south of Del Rio, then extending east on U.S. 90 to San Antonio, then continuing east on I-10 to the Louisiana border at Orange, Texas.

Low Plains South Zone: The remainder of Texas.

Wyoming (Central Flyway portion)

Zone 1: The Counties of Converse, Goshen, Hot Springs, Natrona, Platte, Washakie, and that portion of Park County south of T58N and not within the boundary of the Shoshone National Forest.

Zone 2: The remainder of Wyoming.

Pacific Flyway

Arizona—Game Management Units (GMU) as follows:

South Zone: Those portions of GMUs 6 and 9 in Yavapai County, and GMUs 10 and 12B–45.

North Zone: GMUs 1–5, those portions of GMUs 6 and 8 within Coconino County, and GMUs 7, 9, 12A.

California

Northeastern Zone: That portion of the State east and north of a line beginning at the Oregon border; south and west along the Klamath River to the mouth of Shovel Creek; south along Shovel Creek to Forest Service Road 46N10; south and east along FS 46N10 to FS 45N22; west and south along FS 45N22 to U.S. 97 at Grass Lake Summit; south and west along U.S. 97 to I-5 at the town of Weed; south along I-5 to CA
Nevada border. Junction with CA 49; east and north on 89; east and south along CA 89 to the Nevada border.

Colorado River Zone: Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada border south along U.S. 95 to Vidal Junction; south on a road known as "Aqueduct Road" in San Bernardino County through the town of Rice to the San Bernardino-Riverside County line; south on a road known in Riverside County as the "Desert Center to Rice Road" to the town of Desert Center; east 31 miles on I-10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the Ogilby and Tumco Mine Road; south on this road to U.S. 80; east seven miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican border at Algodones, Mexico.

Southern Zone: That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I-15; east on I-15 to CA 127; north on CA 127 to the Nevada border.

Southern San Joaquin Valley Temporary Zone: All of Kings and Tulare Counties and that portion of Kern County north of the Southern Zone.

Idaho

Zone 1: Includes all lands and waters within the Fort Hall Indian Reservation, including private inholdings; Bannock County; Bingham County, except that portion within the Blackfoot Reservoir drainage; and Power County east of ID 37 and ID 39.

Zone 2: Includes the following Counties or portions of Counties: Adams; Bear Lake; Benewah; Bingham within the Blackfoot Reservoir drainage; those portions of Blaine west of ID 75, south and east of U.S. 93, and between ID 75 and U.S. 93 north of U.S. 20 outside the Silver Creek drainage; Bonner; Bonneville; Boundary; Butte; Camas; Caribou except the Fort Hall Indian Reservation; Cassia within the Minidoka National Wildlife Refuge; Clark; Clearwater; Custer; Elmore within the Camas Creek drainage; Franklin; Fremont; Idaho; Jefferson; Kootenai; Latah; Lemhi; Lewis; Madison; Nez Perce; Oneida; Power within the Minidoka National Wildlife Refuge; Shoshone; Teton; and Valley Counties.

Zone 3: Includes the following Counties or portions of Counties: Ada; Blaine between ID 75 and U.S. 93 south of U.S. 20 and that additional area between ID 75 and U.S. 93 north of U.S. 20 within the Silver Creek drainage; Boise; Canyon; Cassia except within the Minidoka National Wildlife Refuge; Elmore except the Camas Creek drainage; Gem; Gooding; Jerome; Lincoln; Minidoka; Owyhee; Payette; Power west of ID 37 and ID 39 except that portion within the Minidoka National Wildlife Refuge; Elmore except the Camas Creek drainage; Gem; Gooding; Jerome; Lincoln; Minidoka; Owyhee; Payette; Power west of ID 37 and ID 39 except that portion within the Minidoka National Wildlife Refuge; Twin Falls; and Washington Counties.

Nevada

Lincoln and Clark County Zone: All of Clark and Lincoln Counties.

Remainder-of-the-State Zone: The remainder of Nevada.

Oregon

Zone 1: Clatsop, Tillamook, Lincoln, Lane, Douglas, Coos, Curry, Josephine, Jackson, Linn, Benton, Polk, Marion, Yamhill, Washington, Columbia, Multnomah, Clackamas, Hood River, Wasco, Sherman, Gilliam, Morrow and Umatilla Counties.

Columbia Basin Mallard Management Unit: Gilliam, Morrow, and Umatilla Counties.

Zone 2: The remainder of the State.

Utah

Zone 1: All of Box Elder, Cache, Daggett, Davis, Duchesne, Morgan, Rich, Salt Lake, Summit, Uintah, Utah, Wasatch, and Weber Counties and that part of Tooele County north of I-80.

Zone 2: The remainder of Utah.

Washington

East Zone: All areas east of the Pacific Crest Trail and east of the Big White Salmon River in Klickitat County.

Columbia Basin Mallard Management Unit: Same as East Zone.

West Zone: All areas to the west of the East Zone.

Geese

Atlantic Flyway

Connecticut

NAP Zone: Statewide, except for Hartford and Litchfield Counties west of the Connecticut River.

AP Zone: Remainder of the State.

South Zone: Same as for ducks.

North Zone: Same as for ducks.

Maryland

SJBP Zone: Allegheny, Carroll, Frederick, Garrett, Washington counties and the portion of Montgomery County south of Interstate 270 and west of Interstate 495 to the Potomac River.

AP Zone: Remainder of the State.

Massachusetts

NAP Zone: Central Zone (same as for ducks) and that portion of the Coastal Zone that lies north of route 139 from Green Harbor.

AP Zone: Remainder of the State.

New Hampshire

Same zones as for ducks.

New Jersey

North—that portion of the State within a continuous line that runs east along the New York State boundary line to the Hudson River; then south along the New York State boundary to its intersection with Route 440 at Perth Amboy; then west on Route 440 to its intersection with Route 287; then west along Route 287 to its intersection with Route 206 in Bedminster (Exit 18); then north along Route 206 to its intersection with Route 94; then west along Route 94 to the tollbridge in Columbia; then north along the Pennsylvania State boundary in the Delaware River to the beginning point.

South—that portion of the State within a continuous line that runs west from the Atlantic Ocean at Ship Bottom along Route 72 to the Garden State Parkway; then south along the Garden State Parkway to Route 9; then south along Route 9 to Route 542; then west along Route 542 to the Mullica River (at Pleasant Mills); then north (upstream) along the Mullica River to Route 206; then south along Route 206 to Route 536; then west along Route 536 to Route 322; then west along Route 322 to Route 55; then south along Route 55 to Route 553 (Buck Road); then south along Route 553 to Route 40; then east along Route 40 to Route 55; then south along Route 55 to Route 552 (Sherman Avenue); then west along Route 552 to Carmel Road; then south along Carmel Road to Route 49; then south along Route 49 to Route 50; then east along Route 50 to Route 9; then south along Route 9 to Route 625 (Sea Isle City Boulevard); then east along Route 625 to the Atlantic Ocean; then north to the beginning point.

New York

Special Late Season Area for Canada Geese: that area of Chemung County...
lying east of a continuous line extending south along State Route 13 from the Schuylerville County line to State Route 17 and then south along Route 17 to the New York-Pennsylvania boundary; all of Tioga and Broome Counties; that area of Delaware, Sullivan, and Orange Counties lying southwest of a continuous line extending east along State Route 17 from the Schuylerville County line to U.S. Route 209 at Wurtsboro and then south along Route 209 to the New York-Pennsylvania boundary at Port Jervis, excluding areas on or within 50 yards of the Delaware River between the confluence of the West Branch and East Branch below Hancock and the mouth of the Shingle Kill (3 miles upstream from Port Jervis); that area of Orange, Rockland, Dutchess, Putnam and Westchester Counties lying southeast of a continuous line extending north along Route 17 from the New York-New Jersey boundary at Suffern to Interstate Route 87, then north along Route 87 to Interstate Route 84, then east along Route 84 to the northern boundary of Putnam County, then east along that boundary to the New York-Connecticut cut boundary; that area of Nassau and Suffolk Counties lying north of State Route 25A and west of a continuous line extending northward from State Route 25A along Randall Road (near Shoreham) to North Country Road, then east to Sound Road and then north to Long Island Sound and then due north to the New York-Connecticut cut boundary.

Long Island (NAP) Zone: Same as Long Island Duck Zone.

Southwest (SJBP) Zone: all of Allegheny, Cattaraugus, and Chautauqua Counties; that area of Erie, Wyoming and Niagara Counties lying south and west of a continuous line extending from the Rainbow Bridge below Niagara Falls, north along the Robert Moses Parkway to US Route 62A, then east along Route 62A to US Route 62, then southeast along US Route 62 to Interstate Route 290, then south along Route 290 to Exit 50 of the NY State Thruway, then east along I-90 to State Route 98, then south along State Route 98 to the Cattaraugus County line; and that area of Steuben and Chemung Counties lying south of State Route 17.

AP Zone: Remainder of the State.

North Carolina

Regular Season for Canada Geese: Statewide, except for Northampton County and the Northeast Hunt Unit—Counties of Bertie, Camden, Chowan, Currituck, Dare, Hyde, Pasquotank, Perquimans, Tyrrell, and Washington.

Pennsylvania

SJBP Zone: Area from the New York State line west of U.S. Route 220 to intersection of I-180, west of I-180 to intersection of SR 147, west of SR 147 to intersection of U.S. Route 322, west of U.S. Route 322 to intersection of I-81, west of I-81 to intersection of I-83, west of I-83 to I-283, west of I-283 to SR 441, west of SR 441 to U.S. Route 30, west of U.S. Route 30 to I-83, west of I-83 to Maryland State line, except for the Pymatuning Zone.

Pymatuning Zone: Area south of SR 198 from the Ohio State line to the intersection of SR 18, to the intersection of U.S Route 322/SR 18, to the intersection of SR 3013, then south to the Crawford/Mercer County line.

Special Late Season Area for Canada Geese: Same as SJBP Zone and the area from New York State line east of U.S. Route 220 to intersection of I-180, east of I-180 to intersection of SR 147, west of SR 147 to intersection of U.S. Route 322, east of Route 322 to intersection of I-81, north of I-81 to intersection of I-80, north of I-80 to New Jersey State line.

AP Zone: Remainder of the State.

Rhode Island

Special Area for Canada Geese: Kent and Providence Counties and portions of the towns of Exeter and North Kingston within Washington County (see State regulations for detailed descriptions).

South Carolina

Canada Goose Area: Statewide except for Clarendon County and that portion of Lake Marion in Orangeburg County and Berkeley County.

Vermont

Same zones as for ducks.

Virginia

SJBP Zone and Special Late Season Area for Canada Geese: All areas west of I-95.

Back Bay Area: The waters of Back Bay and its tributaries and the marshes adjacent thereto, and on the land and marshes between Back Bay and the Atlantic Ocean from Sandbridge to the North Carolina line, and on and along the shore of the North Landing River and the marshes adjacent thereto, and on and along the shores of Binson Inlet Lake (formerly known as Lake Tecumseh) and Red Wing Lake and the marshes adjacent thereto.

AP Zone: Remainder of the State.

West Virginia

Same zones as for ducks.

Mississippi Flyway

Alabama

Same zones as for ducks, but in addition:

SJBP Zone: That portion of Morgan County east of U.S. Highway 31, north of State Highway 36, and west of U.S. 231; that portion of Limestone County south of U.S. 72; and that portion of Madison County south of Swancott Road and west of Triana Road.

Arkansas

West Zone: Baxter, Benton, Boone, Carroll, Cleburne, Conway, Crawford, Faulkner, Franklin, Fulton, Izard, Johnson, Madison, Marion, Newton, Pope, Searcy, Sharp, Stone, Van Buren, and Washington Counties, and those portions of Logan, Perry, Sebastian, and Yell Counties lying north of a line extending east from the Oklahoma border along State Highway 10 to Perry, south on State 9 to State 60, then east on State 60 to the Faulkner County line.

Illinois

Same zones as for ducks, but in addition:

North Zone: Northern Illinois Quota Zone: The Counties of McHenry, Lake, Kane, DuPage, and those portions of Lake and Will Counties north of Interstate Highway 80.

Central Zone: Central Illinois Quota Zone: The Counties of Grundy, Woodford, Peoria, Knox, Fulton, Tazewell, Mason, Cass, Morgan, Pike, Calhoun, and Jersey, and those portions of LaSalle and Will Counties south of Interstate Highway 80.

South Zone: Southern Illinois Quota Zone: Alexander, Jackson, Union, and Williamson Counties.

Rend Lake Quota Zone: Franklin and Jefferson Counties.

Indiana

Same zones as for ducks, but in addition:

SJBP Zone: Jasper, LaGrange, LaPorte, Starke, and Steuben Counties, and that portion of the Jasper-Pulaski Fish and Wildlife Area in Pulaski County.

Iowa

Same zones as for ducks.
Kentucky

Western Zone: That portion of the State west of a line beginning at the Tennessee border at Fulton and extending north along the Purchase Parkway to Interstate Highway 196, east along Interstate Highway 24, east along 1-24 to U.S. Highway 641, north along U.S. 641 to U.S. 60, northeast along U.S. 60 to the Henderson County line, then south, east, and northerly along the Henderson County line to the Indiana border.

Ballard Reporting Area: That area encompassed by a line beginning at the northwest city limits of Wickliffe in Ballard County and extending westward to the middle of the Mississippi River, north along the Mississippi River and along the low-water mark of the Ohio River on the Illinois shore to the Ballard-McCracken County line, south along the county line to Kentucky Highway 358, south along Kentucky 358 to U.S. Highway 60 at LaCenter; then southwest along U.S. 60 to the northeast city limits of Wickliffe.

Henderson-Union Reporting Area: Henderson County and that portion of Union County within the Western Zone.

Pennyroyal/Coalfield Zone: Butter, Daviess, Ohio, Simpson, and Warren Counties and all counties lying west to Daviess, Ohio, Simpson, and Warren Counties and all counties lying west to the boundary of the Western Goose Zone.

Michigan

Same zones as for ducks, but in addition:

South Zone

Tuscola/Huron Goose Management Unit (GMU): Those portions of Tuscola and Huron Counties bounded on the south by Michigan Highway 138 and Bay City Road, on the east by Colwood and Bay Port Roads, on the north by Kilmanagh Road and a line extending directly west off the end of Kilmanagh Road into Saginaw Bay to the west boundary, and on the west by the Tuscola-Bay County line and a line extending directly north off the end of the Tuscola-Bay County line into Saginaw Bay to the north boundary.

Allegan County GMU: That area encompassed by a line beginning at the junction of 136th Avenue and Interstate Highway 196 in Lake Town Township and extending easterly along 136th Avenue to Michigan Highway 40, southerly along Michigan 40 through the city of Allegan to 108th Avenue in Trowbridge Township, westerly along 108th Avenue to 46th Street, northerly ½ mile along 46th Street to 109th Avenue, westerly along 109th Avenue to 1-196 in Casco Township, then northerly along I-196 to the point of beginning.

Saginaw County GMU: That portion of Saginaw County bounded by Michigan Highway 46 on the north; Michigan 52 on the west; Michigan 57 on the south; and Michigan 13 on the east.

Muskegon Wastewater GMU: That portion of Muskegon County within the boundaries of the Muskegon County wastewater system, east of the Muskegon State Game Area, in sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 32, T10N R4W, and sections 1, 2, 10, 11, 12, 13, 14, 24, and 25, T10N R15W, as posted.

Special Canada Goose Seasons: Southern Michigan GMU: That portion of the State, including the Great Lakes and interconnecting waterways and excluding the Allegan County GMU, south of a line beginning at the Ontario border at the Bluewater Bridge in the city of Port Huron and extending westerly and southerly along Interstate Highway 94 to I-69, westerly along I-69 to Michigan Highway 21, westerly along Michigan 21 to I-96, northerly along I-96 to I-196, westerly along I-196 to Lake Michigan Drive (M-45) in Grand Rapids, westerly along Lake Michigan Drive to the Lake Michigan shore, then directly west from the end of Lake Michigan Drive to the Wisconsin border.

Central Michigan GMU: That portion of the South Zone north of the Southern Michigan GMU, excluding the Tuscola/Huron GMU, Saginaw County GMU, and Muskegon Wastewater GMU.

Minnesota

West Zone: That portion of the state encompassed by a line beginning at the junction of State Trunk Highway (STH) 60 and the Iowa border, then north and east along STH 60 to U.S. Highway 71, north along U.S. 71 to Interstate Highway 94, then north and west along I-94 to the North Dakota border.

West Central Zone: That area encompassed by a line beginning at the intersection of State Trunk Highway (STH) 29 and U.S. Highway 212 and extending west along U.S. 212 to U.S. 59, south along U.S. 59 to STH 67, west along STH 67 to U.S. 75, north along U.S. 75 to County State Aid Highway (CSAH) 30 in Lac qui Parle County, west along CSAH 30 to the western boundary of the State, north along the western boundary of the State to a point due south of the intersection of STH 7 and CSAH 7 in Big Stone County, and continuing due north to said intersection, then north along CSAH 7 to CSAH 6 in Big Stone County, east along CSAH 6 to CSAH 21 in Big Stone County, south along CSAH 21 to CSAH 10 in Big Stone County, east along CSAH 10 to CSAH 22 in Swift County, east along CSAH 22 to CSAH 5 in Swift County, south along CSAH 5 to U.S. 12, east along U.S. 12 to CSAH 17 in Swift County, south along CSAH 17 to CSAH 9 in Chippewa County, south along CSAH 9 to STH 40, east along STH 40 to STH 29, then south along STH 29 to the point of beginning.

Lac qui Parle Zone: That area encompassed by a line beginning at the intersection of U.S. Highway 212 and County State Aid Highway (CSAH) 27 in Lac qui Parle County and extending north along CSAH 27 to CSAH 20 in Lac qui Parle County, west along CSAH 20 to State Trunk Highway (STH) 40, north along STH 40 to STH 119, north along STH 119 to CSAH 34 in Lac qui Parle County, west along CSAH 34 to CSAH 19 in Lac qui Parle County, north and west along CSAH 19 to CSAH 38 in Lac qui Parle County, west along CSAH 38 to U.S. 75, north along U.S. 75 to STH 7, east along STH 7 to CSAH 6 in Swift County, east along CSAH 6 to County Road 65 in Swift County, south along County 65 to County 34 in Chippewa County, south along County 34 to CSAH 12 in Chippewa County, east along CSAH 12 to CSAH 9 in Chippewa County, south along CSAH 9 to STH 7, southeast along STH 7 to Montevideo and along the municipal boundary of Montevideo to U.S. 212; then west along U.S. 212 to the point of beginning.

Northwest Zone: That portion of the state encompassed by a line extending east from the North Dakota border along U.S. Highway 2 to State Trunk Highway (STH) 32, north along STH 32 to STH 92, east along STH 92 to County State Aid Highway (CSAH) 30 in Chippewa County, north along CSAH 2 to CSAH 27 in Pennington County, north along CSAH 27 to STH 1, east along STH 1 to CSAH 28 in Pennington County, north along CSAH 28 to CSAH 54 in Marshall County, north along CSAH 54 to CSAH 9 in Roseau County, north along CSAH 9 to STH 11, west along STH 11 to STH 310, and north along STH 310 to the Manitoba border.

Special Canada Goose Seasons:

Southeast Zone: That portion of the state encompassed by a line extending north from the Iowa border along U.S. Highway 63 to State Trunk Highway [STH] 30, west on STH 30 to County State Aid Highway [CSAH] 13 in Dodge County, north on CSAH 13 to STH 57, north on STH 57 to U.S. Highway 52, north on U.S. Highway 52 to the southern boundary of the Twin Cities Metro Goose Zone, east on the southern boundary of the Twin Cities Metro Goose Zone to the Wisconsin border.

Missouri

Same zones as for ducks, but in addition:
North Zone

Middle Zone
Middle Zone: That portion of the State encompassed by a line beginning at the intersection of Missouri Highway (MO) 34 and Interstate 55 and extending south along I-55 to U.S. Highway 62, west along U.S. 62 to MO 53, north along MO 53 to MO 51, north along MO 51 to U.S. 60, west along U.S. 60 to MO 21, north along MO 21 to MO 72, east along MO 72 to MO 34, then east along MO 34 to I-55.

South Zone
South along I-55 to U.S. Highway 62, (MO) 34 and Interstate 55 and extending at the intersection of Missouri Highway south along Missouri State encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.

North Zone
Lake Erie SJBP Zone: That portion of the state encompassed by a line beginning in Lucas county at the Michigan state line on I-75, and extending south along I-75 to I-280, south along I-280 to I-80, east along I-80 to the Pennsylvania state line in Trumbull county, north along the Pennsylvania state line to SR 6 in Ashtabula county, west along SR 6 to the Lake/Cuyahoga county line, north along the Lake/Cuyahoga county line to the shore of Lake Erie.

Tennessee
Southwest Zone: That portion of the State south of State Highways 20 and 45W.
then south and west on K–39 to its junction with K–96, then west on K–96 to its junction with US–77, then north on US–77 to its junction with I–70, then east on I–70 to its junction with US–75, then south on US–75 to its junction with I–35, then west on I–35 to its junction with K–57, except federal and state sanctuaries.

Montana (Central Flyway Portion)

Sheridan County: Includes all of Sheridan County.

Remainder: Includes the remainder of the Central Flyway portion of Montana.

Nebraska

Dark Geese

North Unit: Keya Paha County east of U.S. 183 and all of Boyd County, including the boundary waters of the Niobrara River, all of Knox County and that portion of Cedar County west of U.S. 81.

Southcentral Unit: That area south and west of U.S. 281 at the Kansas/Nebraska border, north to Giltnner Road (near Doniphan), east to NE 14, north to NE 91, west to U.S. 183, south to NE 92, west to NE 61, north to U.S. 2, west to the intersection of Garden, Grant, and Sheridan counties, then west along the northern border of Garden, Morrill, and Scotts Bluff counties to the Wyoming border.

Northcentral Unit: That area north of the Southcentral Unit and west of U.S. 183.

East Unit: The remainder of Nebraska.

Light Geese

Rainwater Basin Light Goose Area (West): The area bounded by the junction of U.S. 283 and U.S. 30 at Lexington, east on U.S. 30 to U.S. 281, south on U.S. 281 to NE 4, west on NE 4 to U.S. 34, continue west on U.S. 34 to U.S. 283, then north on U.S. 283 to the beginning.

Rainwater Basin Light Goose Area (East): The area bounded by the junction of U.S. 281 and US 30 at Grand Island, north and east on U.S. 30 to NE 92, east on NE 92 to NE 15, south on NE 15 to NE 4, west on NE 4 to U.S. 281, north on U.S. 281 to the beginning.

Remainder of State: The remainder portion of Nebraska.

New Mexico (Central Flyway Portion)

Dark Geese

Middle Rio Grande Valley Unit: Sierra, Socorro, and Valencia counties.

Remainder: The remainder of the Central Flyway portion of New Mexico.

North Dakota

Canada Geese

September Canada Goose Unit: Richland and Sargent Counties.

Statewide: The remainder of North Dakota.

South Dakota

Canada Geese

Unit 1: Statewide except for Units 2. Big Stone Power Plant Area: That portion of Grant and Roberts Counties east of SD 15 and north of SD 20.

Unit 2: Brule, Buffalo, Campbell, Charles Mix, Dewey, Gregory, Hughes, Hyde, Lyman, Potter, Stanley, Sully, and Walworth Counties and that portion of Corson County east of South Dakota State Highway 65.

Texas

West Unit: That portion of the State laying west of a line from the international toll bridge at Laredo; north along I–35 and I–35W to Fort Worth; northwestern U.S. 81 and U.S. 287 to Bowie; and north along U.S. 81 to the Oklahoma border.

East Unit: Remainder of State.

Wyoming (Central Flyway Portion)

Area 1: Hot Springs, Natrona, and Washakie Counties, and that portion of Park County south of T58N.

Area 2: Converse and Platte County.

Area 3: Albany, Big Horn, Campbell, Crook, Fremont, Johnson, Laramie, Niobrara, Sheridan, and Weston Counties and those portions of Carbon County east of the Continental Divide and Park County north of T58N.

Area 4: Goshen County.

Pacific Flyway

Arizona

GMU 22 and 23: Game Management Units 22 and 23.

Remainder of State: The remainder of Arizona.

California

Northeastern Zone: That portion of the State east and north of a line beginning at the Oregon border; south and west along the Klamath River to the mouth of Shovel Creek; south along Shovel Creek to Forest Service Road 46N10; south and east along FS 46N10 to FS 45N22; west and south along FS 45N22 to U.S. 97 at Grass Lake Summit; south and west along U.S. 97 to I–5 at the town of Weed; south along I–5 to CA 89; east and south along CA 89 to the junction with CA 49; east and north on CA 49 to CA 70; east on CA 70 to U.S. 395; south and east on U.S. 395 to the Nevada border.

Colorado River Zone: Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada border south along U.S. 95 to Vital Junction; south on a road known as “Aqueduct Road” in San Bernardino County through the town of Rice to the San Bernardino-Riverside County line; south on a road known in Riverside County as the “Desert Center to Rice Road” to the town of Desert Center; east 31 miles on I–10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the Ogilby and T umo M ine Road; south on this road to U.S. 80; east seven miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican border at Algodones, Mexico.

Southern Zone: That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I–15; east on I–15 to CA 127; north on CA 127 to the Nevada border.

Balance-of-the-State Zone: The remainder of California not included in the Northeastern, Southern, and the Colorado River Zones.

Del Norte and Humboldt Area: The Counties of Del Norte and Humboldt.

Sacramento Valley Special Management Area (East): That area bounded by a line beginning at the junction of the Gridley-Colusa Highway and the Cherokee Canal; west on the Gridley-Colusa Highway to Gould Road; west on Gould Road and due west 0.75 miles directly to Highway 45; south on Highway 45 to Highway 20; east on Highway 20 to West Butte Road; north on West Butte Road to Pass Road; west on Pass Road to West Butte Road; north on West Butte Road to North Butte Road; west on North Butte Road and due west 0.5 miles directly to the Cherokee Canal; north on the Cherokee Canal to the point of beginning.

Sacramento Valley Special Management Area (West): That area bounded by a line beginning at Willows south on I–5 to Hahn Road; easterly on Hahn Road and the Grimes-Arboardle Road to Grimes; northerly on CA 45 to the junction with CA 162; northerly on CA 45/162 to Glenn; and westerly on
CA 162 to the point of beginning in Willows.
San Joaquin Valley Special Management Area: That area bounded by a line beginning at the intersection of Highway 5 and Highway 120; south on Highway 5 to Highway 33; southeast on Highway 33 to Crows Landing Road; north on Crows Landing Road to Highway 99; north on Highway 99 to Highway 120; west on Highway 120 to the point of beginning.

Western Canada Goose Hunt Area: That portion of the above described Sacramento Valley Area lying east of a line formed by Butte Creek from the Gridley-Colusa Highway south to the Cherokee Canal; easterly along the Cherokee Canal and North Butte Road to Cherokee Canal; easterly along the Cameron-Colusa Highway south to the line formed by Butte Creek from the Gridley-Colusa Highway south to the Cherokee Canal; southerly on West Butte Road to Pass Road; southerly on west Butte Road to CA 20; and westerly along CA 20 to the Sacramento River.

Colorado (Pacific Flyway Portion)
West Central Area: Archuleta, Delta, Dolores, Gunnison, La Plata, Montezuma, Montrose, Ouray, San Juan, and San Miguel Counties and those portions of Hinsdale, Mineral and Montezuma, Montrose, Ouray, San Juan, Dolores, Gunnison, La Plata, Colorado (Pacific Flyway Portion) River.

California (Pacific Flyway Portion)
That portion of the above described Sacramento Valley Area lying east of a line formed by Butte Creek from the Gridley-Colusa Highway south to the Cherokee Canal; easterly along the Cherokee Canal and North Butte Road to Cherokee Canal; easterly along the Cameron-Colusa Highway south to the line formed by Butte Creek from the Gridley-Colusa Highway south to the Cherokee Canal; southerly on West Butte Road to Pass Road; southerly on west Butte Road to CA 20; and westerly along CA 20 to the Sacramento River.

West Zone: The counties of Ada; A dams; Boise; Canyon; those portions of Elmore north and east of I-84, and south and west of I-84, west of ID 51, except the Camas Creek drainage; Gem; Owyhee west of ID 51; Payette; Valley; and Washington.

Zone 3: The Counties of Blaine; Camas; Cassia; those portions of Elmore south of I-84 east of ID 51, and within the Camas Creek drainage; Gooding; Jerome; Lincoln within the Minidoka; Owyhee east of ID 51; Power within the Minidoka National Wildlife Refuge; and Twin Falls.

Zone 4: The Counties of Bear Lake; Bingham within the Blackfoot Reservoir drainage; Bonneville, Butte; Caribou except the Fort Hall Indian Reservation; Clark; Custer; Franklin; Fremont; Jefferson; Lemhi; Madison; Oneida; Power west of ID 37 and ID 39 except the Minidoka National Wildlife Refuge; and Teton.

Zone 5: All lands and waters within the Fort Hall Indian Reservation, including private inholdings; Bannock County; Bingham, except that portion within the Blackfoot Reservoir drainage; and Power County east of ID 37 and ID 39.

In addition, goose frameworks are set by the following geographical areas:

Southwestern Unit: That area west of the line formed by U.S. 93 north from the Nevada border to Shoshone, northerly on ID 75 (formerly U.S. 93) to Challis, northerly on U.S. 93 to the Montana border (except the Northern Unit and except Custer and Lemhi Counties).

Southeastern Unit: That area east of the line formed by U.S. 93 north from the Nevada border to Shoshone, northerly on ID 75 (formerly U.S. 93) to Challis, northerly on U.S. 93 to the Montana border, including all of Custer and Lemhi Counties.

Montana (Pacific Flyway Portion)
East of the Divide Zone: The Pacific Flyway portion of the State located east of the Continental Divide.
West of the Divide Zone: The remainder of the Pacific Flyway portion of Montana.

Nevada
Lincoln Clark County Zone: All of Lincoln and Clark Counties.

New Mexico (Pacific Flyway Portion)
North Zone: The Pacific Flyway portion of New Mexico located north of I-40.
South Zone: The Pacific Flyway portion of New Mexico located south of I-40.

Oregon
Southwest Zone: Douglas, Coos, Curry, Josephine and Jackson Counties.
Northwest Special Permit Zone: That portion of western Oregon west and north of a line running south from the Columbia River in Portland along I-5 to OR 22 at Salem; then east on OR 22 to the Stayton Cutoff; then south on the Stayton Cutoff to Stayton and due south to the Santiam River; then west along the north shore of the Santiam River to I-5; then south on I-5 to OR 126 at Eugene; then west on OR 126 to Greenhill Road; then south on Greenhill Road to Crow Road; then west on Crow Road to Territorial Hwy; then west on Territorial Hwy to OR 126; then west on OR 126 to OR 36; then north on OR 36 to Forest Road 5070 at Brackerville; then west and south on Forest Road 5070 to OR 126; then west on OR 126 to the Pacific Coast.

Washington
Eastern Washington: All areas east of the Pacific Crest Trail and east of the Big White Salmon River in Kittitas County.

Northwest Zone: Those portions of Clark, Lane, Linn, Marion, Multnomah, and Washington Counties outside of the Northwest Special Permit Zone.

Closed Zone: Those portions of Coos, Curry, Douglas and Lane Counties west of US 101.

Lake County Zone: All of Lake County.

Utah
Washington County Zone: All of Washington County.

Remainder of the State Zone: The remainder of Utah.

Washington

Western Washington: All areas west of the Columbia River in Portland along I-5 to OR 22 at Salem; then east on OR 22 to the Stayton Cutoff; then south on the Stayton Cutoff to Stayton and due south to the Santiam River; then west along the north shore of the Santiam River to I-5; then south on I-5 to OR 126 at Eugene; then west on OR 126 to Greenhill Road; then south on Greenhill Road to Crow Road; then west on Crow Road to Territorial Hwy; then west on Territorial Hwy to OR 126; then west on OR 126 to OR 36; then north on OR 36 to Forest Road 5070 at Brackerville; then west and south on Forest Road 5070 to OR 126; then west on OR 126 to the Pacific Coast.

Northwest Zone: Those portions of Clackamas, Lane, Linn, Marion, Multnomah, and Washington Counties outside of the Northwest Special Permit Zone.

Closed Zone: Those portions of Coos, Curry, Douglas and Lane Counties west of US 101.

Lake County Zone: All of Lake County.

Utah
Washington County Zone: All of Washington County.

Remainder of the State Zone: The remainder of Utah.

Washington

Eastern Washington: All areas east of the Pacific Crest Trail and east of the Big White Salmon River in Kittitas County.

Area 1: Lincoln, Spokane, and Walla Walla Counties; that part of Grant County east of a line beginning at the Douglas-Lincoln County line on WA 174, southwest on WA 174 to WA 155, south on WA 155 to US 2, southwest on US 2 to Pinto Ridge Road, south on Pinto Ridge Road to WA 28, east on WA 28 to the Stratford Road, south on the Stratford Road to WA 17, south on WA 17 to the Grant-Adams County line; those parts of Adams County east of State Highway 17; those parts of Franklin County east and south of a line beginning at the Adams-Franklin County line on WA 17, south on WA 17 to US 395, south on US 395 to I-182, west on I-182 to the Franklin-Benton County line; those parts of Benton County south of I-182 and I-82; and those parts of Kittitas County east of U.S. Highway 97.

Area 2: All of Okanogan, Douglas, and Kittitas Counties and those parts of Grant, Adams, Franklin, and Benton Counties not included in Eastern Washington Goose Management Area 1.

Area 3: All other parts of eastern Washington not included in Eastern Washington Goose Management Areas 1 and 2.

Western Washington: All areas west of the East Zone.

Area 1: Skagit, Island, and Snohomish Counties.

Area 3: All parts of western Washington not included in Western Washington Goose Management Areas 1 and 2.

Lower Columbia River Early-Season Canada Goose Zone: Beginning at the Washington-Oregon border on the I-5 Bridge near Vancouver, Washington; north on I-5 to Kelso; west on Highway 4 from Kelso to Highway 401; south and west on Highway 401 to Highway 101 at the Astoria-Megler Bridge; west on Highway 101 to Gray Drive in the City of Ilwaco; west on Gray Drive to Canby Road; southwest on Canby Road to the North Jetty; southwest on the North Jetty to its end; southeast to the Washington-Oregon border; upstream along the Washington-Oregon border to the point of origin.

Wyoming (Pacific Flyway Portion):
Bear River Area: That portion of Lincoln County described in State regulations.

Salt River Area: That portion of Lincoln County described in State regulations.

Eden-Farson Area: Those portions of Sweetwater and Sublette Counties described in State regulations.

Swans

Central Flyway

South Dakota: Aurora, Beadle, Brookings, Brown, Brule, Buffalo, Campbell, Clark, C&I, Davison, Deuel, Day, Edmunds, Faulk, Grant, Hamlin, Hand, Hanson, Hughes, Hyde, Jerauld, Ksby, Lake, Marshall, McCook, McPherson, Miner, Minnehaha, Moody, Potter, Roberts, Sanborn, Spink, Sully, and Walworth Counties.

Pacific Flyway

Montana (Pacific Flyway Portion)

Open Area: Cascade, Chouteau, Hill, Liberty, and Toole Counties and those portions of Pondera and Teton Counties lying east of U.S. 287–89.

Nevada

Open Area: Churchill, Lyon, and Pershing Counties.

Utah
