SUPPLEMENTARY INFORMATION:

Abstract

Pub. L. 84–959 and Pub. L. 88–230 authorize the Department through the Bureau of Indian Affairs to help adult Indians who reside on or near Indian reservations to obtain reasonable and satisfactory employment. The Department is authorized to undertake a program of vocational training that provides vocational counseling, guidance, and training in any recognized vocation, apprenticeship, trade, or on-the-job training. The program is available to Indians who are not less than 18 years old and not more than 35 years old who reside on or near an Indian reservation. The Act authorizes the BIA to enter into contracts or agreements with Federal, State, local government agencies or associations with apprenticeship programs or on-the-job training that leads to skilled employment. The same application is used for both 25 CFR parts 26 and 27. The information collection is necessary to assess the need for Adult Vocational Training. A request for comments on this information collection was published in the Federal Register on July 8, 1999 (64 FR 36916). One individual submitted comments. The individual recommended the following changes: (1) Include an application number; (2) Collect additional identifying information of each applicant, such as maiden name, sex and education; (3) rearrange certain data on the form; (4) Clarify that identification of number of dependents means “minor” children; and (5) Collect additional information regarding previous repeat services.

The application form already has an OMB identifying number and we have determined additional numbers are not necessary. In order to reduce the burden on the public, we have decided not to collect additional identifying information for each applicant. Rearranging data on the form would be of limited use and many case workers are already familiar with the existing format. Dependents may not necessarily be minors to be considered in determining eligibility. Therefore, no change is necessary. We are in the process of changing the regulations to reflect the need to provide services more than twice to clients, where appropriate. Therefore, additional information will not be collected.
