SUPPLEMENTARY INFORMATION:
The purpose of this natural resource damage assessment is to confirm and quantify the suspected injuries to natural resources in the Lower Fox River, Green Bay, and Lake Michigan environment resulting from exposure to hazardous substances released by area paper mills and other potential sources. It is suspected that this exposure has caused injury to trustee resources. The injury and resultant damages will be assessed under the Comprehensive Environmental Response, Compensation, and Liability Act, as amended, and the Clean Water Act, as amended.

The objective of this Addendum is to initiate a process through which the governmental partners will attempt to arrive at a single coordinated Restoration and Compensation Determination Plan that integrates the ongoing state and federal/tribal natural resource damage assessments and to notify the public regarding this process.

William F. Hartwig,
Regional Director, Region 3, Fish and Wildlife Service.
