Endangered Species Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications.

SUMMARY: The following applicants have applied for a scientific research permit to conduct certain activities with endangered species pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Permit No. TE-028876

Applicant: The Nature Conservancy, Portland, Oregon.

The applicant requests a permit to take (capture, handle, and release) the Lost River sucker (Deltistes luxatus) and shortnose sucker (Chasmistes brevirostris) in conjunction with restoration actions in the Williamson River and Agency Lake, Oregon, for the purpose of enhancing their survival.

Permit No. TE-026227

Applicant: Joseph Silveira, Willows, California.

The applicant requests a permit to take (harass by survey, collect and sacrifice) the Conservancy fairy shrimp (Brachinecta conservatio), longhorn fairy shrimp (Branchinecta longianenna), vernal pool tadpole shrimp (Lepidurus packardi), San Diego fairy shrimp (Brachinecta sandiegensis), and the Riverside fairy shrimp (Streptocephalus woottoni), and remove and reduce to possession specimens of Cordylyanthus palmatus, Cordylyanthus mollis ssp. mollis, Orcuttia californica, Orcuttia pilosa, Orcuttia viscida, Tuctoria greenei, and Tuctoria mucrobrana in conjunction with surveys and the collection of voucher specimens throughout each species' range in California for the purpose of enhancing their survival.

Permit No. TE-002716

Applicant: Kenneth J. Halama, Riverside, California.

The applicant requests a permit to take (capture and handle) the arroyo southwestern toad (Bufo microscaphus californicus) in conjunction with conducting natural history research throughout the species' range for the purpose of enhancing its survival.

Permit No. TE-839213

Applicant: David Philip Muth, Jr., Martinez, California.

The permittee requests an amendment to take (harass by survey, collect and sacrifice) the San Diego fairy shrimp (Brachinecta sandiegensis) and the Riverside fairy shrimp (Streptocephalus woottoni) in conjunction with surveys throughout each species' range in California for the purpose of enhancing their survival.

Permit No. TE-839480

Applicant: Richard Zembal, Laguna Hills, California.

The applicant requests a permit to take (harass by survey, locate and monitor nests) the southwestern willow flycatcher (Empidonax traillii extimus) and take (monitor nests, capture, mark, band, and release) the least Bell's vireo (Vireo bellii pusillus) in conjunction with scientific research throughout each species range in California for the purpose of enhancing their survival.

Permit No. TE-028810

Applicant: Althouse and Meade, Inc., Paso Robles, California.

The applicant requests a permit to take (capture and handle) the California tiger salamander (Ambystoma californiense) in conjunction with presence or absence surveys in Santa Barbara County, California for the purpose of enhancing its survival.

DATES: Written comments on these permit applications must be received on or before July 26, 2000.

ADDRESSES: Written data or comments should be submitted to the Chief—Endangered Species, Ecological Services, Fish and Wildlife Service, 911 NE. 11th Avenue, Portland, Oregon 97232-4181; Fax: (503) 231-6243. Please refer to the respective permit number for each application when submitting comments. All comments received, including names and addresses, will become part of the official administrative record and may be made available to the public.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 20 days of the date of publication of this notice to the address above; telephone: (503) 231-2063. Please refer to the respective permit number for each application when requesting copies of documents.

Don Weathers, Acting Regional Director, Region 1, Portland, Oregon.

Notice of Availability of a “Lost Pines” Environmental Assessment/Habitat Conservation Plan for Assigned Permit Number TE-025997-0. For Issuance of an Endangered Species Act Section 10(a)(1)(B) Permit for the Incidental Take of the Endangered Houston Toad (Bufo houstonensis). During the Construction and Occupation of Single Family Residences (each on home-sites of 0.5 acres or less) in 45 subdivisions in Bastrop County, TX

SUMMARY: The U.S. Fish and Wildlife Service Office has prepared an Environmental Assessment/Habitat Conservation Plan for assigned permit number TE-025997-0 for issuance of an Endangered Species Act Section 10(a)(1)(B) permit for the incidental take of the Endangered Houston Toad. The Service proposes issuing endangered species permits to individual lot owners under an EA/HCP, where each permit would authorize the incidental take of the endangered Houston toad, directly or indirectly, from the construction and occupation of a single-family residence on an undeveloped lot in the 45 subdivisions covered under this EA/HCP. This alternative was selected as the Preferred Alternative as it will allow for responsible development of the lots while minimizing and offsetting impacts to the Houston toad by providing for on-site and off-site conservation measures that will be used to promote the long-term survival of the species. It is also considered to provide the most simplified, expeditious, and effective
