Part IV

Department of the Interior

Fish and Wildlife Service

50 CFR Part 20
Migratory Bird Hunting; Final Frameworks for Early-Season Migratory Bird Hunting Regulations; Final Rule
DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

50 CFR Part 20
RIN 1010–AG06
Migratory Bird Hunting; Final Frameworks for Early-Season Migratory Bird Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes final early-season frameworks from which the States, Puerto Rico, and the Virgin Islands may select season dates, limits, and other options for the 2000–01 migratory bird hunting seasons. Early seasons are those that generally open prior to October 1, and include seasons in Alaska, Hawaii, Puerto Rico, and the Virgin Islands. The effect of this final rule is to facilitate the selection of hunting seasons by the States and Territories to further the annual establishment of the early-season migratory bird hunting regulations. These selections will be published in the Federal Register as amendments to §§ 20.101 through 20.107, and § 20.109 of title 50 CFR part 20.

DATES: This rule takes effect on August 23, 2000.

ADDRESSES: States and Territories should send their season selections to:
Chief, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms 634–ARLSQ, 1849 C Street, NW., Washington, DC 20240. You may inspect comments during normal business hours in room 634, 4401 N. Fairfax Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Jonathan Andrew, Chief, or Ron W. Kokel, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, (703) 358–1714.

SUPPLEMENTARY INFORMATION:
Regulations Schedule for 2000

On April 25, 2000, we published in the Federal Register (65 FR 24260) a proposal to amend 50 CFR part 20. The proposal dealt with the establishment of seasons, limits, and other regulations for migratory game birds under §§ 20.101 through 20.107, 20.109, and 20.110 of subpart K. On June 20, 2000, we published in the Federal Register (65 FR 38400) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks and the proposed regulatory alternatives for the 2000–01 duck hunting season. The June 20 supplement also provided detailed information on the 2000–01 regulatory schedule and announced the Service Migratory Bird Regulations Committee and Flyway Council meetings.

On June 21–22, we held meetings that reviewed information on the current status of migratory shore and upland game birds and developed 2000–01 migratory game bird regulations recommendations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands, special September waterfowl seasons in designated States, special sea duck seasons in the Atlantic Flyway, and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl as it relates to the development and selection of the regulatory packages for the 2000–01 duck hunting season. This document is the fourth in a series of proposed, supplemental, and final rulemaking documents. It establishes final frameworks from which States may select season dates, shooting hours, and daily bag and possession limits for the 2000–01 season.

Review of Public Comments

The preliminary proposed rulemaking, which appeared in the April 25 Federal Register, opened the public comment period for migratory game bird hunting regulations. The public comment period for early-season issues ended on August 10, 2000. We have considered all pertinent comments received in developing this document. Early-season comments are summarized below and numbered in the order used in the April 25 Federal Register document. Only the numbered items pertaining to early-seasons issues for which written comments were received are included. Consequently, the issues do not follow in direct numerical or alphabetical order.

We received recommendations from all four Flyway Councils. Some recommendations supported continuation of last year’s frameworks. Due to the comprehensive nature of the Councils’ annual review of the frameworks, we assume support for continuation of last year’s frameworks for items for which we received no recommended changes. Our recommendations for changes in the frameworks are summarized below.

1. Ducks

Categories used to discuss issues related to duck harvest management are:
(A) Harvest Strategy Considerations, (B) Regulatory Alternatives, (C) Zones and Split Seasons, and (D) Special Seasons/Species Management. The categories correspond to previously published issues/discussion, and only those containing substantial recommendations are discussed below.

D. Special Seasons/Species Management

iii. September Teal Seasons

Council Recommendations: The Central Flyway Council recommended that Nebraska be allowed to have an experimental 9-day teal season in the nonproduction area of the State.

Service Response: We concur with the Central Flyway Council’s recommendation for an experimental 9-day special September teal season in the nonproduction area of Nebraska. The State is required to evaluate the impacts to nontarget waterfowl species by conducting hunter performance surveys. This season will be experimental for a 3-year period but must include a pre-sunrise evaluation in order to have shooting hours begin one-half hour before sunrise.

iv. September Teal/Wood Duck Seasons

Council Recommendations: The Lower-Region Regulations Committee of the Mississippi Flyway Council requested that the Service and the Council’s Wood Duck Technical Committee move forward during the current year (2000) to allow for implementation of a wood duck Flyway harvest management strategy by the year 2001 as scheduled. The Committee further recommended that September seasons remain an option for delineated wood duck reference areas (population units), provided that specified data-collection requirements are met. The Committee also recommended that beginning in 2001, the September duck seasons in Kentucky and Tennessee be grandfathered and given operational status in their current format.

Written Comments: Four individuals questioned the rationale for the Service’s decision to terminate September teal/wood duck seasons when information indicating that such seasons are detrimental to wood duck populations seems to be lacking.

Service Response: September teal/wood duck seasons in Florida, Kentucky, and Tennessee have been in an experimental status since their inception in 1981. We have consistently requested that States collect information
to evaluate these special seasons, including hunter and harvest surveys, banding, and population surveys. In 1986, due to decreases in wood duck survival rates in Kentucky and Tennessee, we restricted the bag limit during experimental September teal/wood duck seasons to include no more than two wood ducks. At that time, we also noted that preseasonewood duck banding in Florida was not sufficient to allow assessment of the impacts associated with the experimental September season (51 FR 24418). On March 13, 1987 (52 FR 7987), we indicated that although September teal/wood duck seasons are in principle a feasible harvest management strategy, the situation with regard to their evaluation, including flyway-wide aspects of the management of target species, and their suitability for widespread application was under review. At that time, we also reaffirmed the need for cooperative studies that are flyway-oriented in scope to better understand and manage wood ducks. On June 6, 1990 (55 FR 23179), we noted that preseasone banding programs were not meeting the regional requirements for sample size and distribution necessary to evaluate seasonal wood duck harvest on a State-by-State basis. We stated that unless arrangements could be made to initiate regional banding programs and facilitate widespread data collection, experimental seasons may be modified or suspended (55 FR 23179). During 1991–96, a cooperative Wood Duck Population Monitoring-Initiative (Initiative) was undertaken by the Atlantic and Mississippi Flyway Councils and the Service to improve population-monitoring programs. We agreed not to discontinue or expand experimental September teal/wood duck seasons until the initiative was completed. Results from the initiative indicated that wood duck population-monitoring programs at geographic scales below the flyway level were not meeting requisite sample sizes. Our evaluation of September teal/wood duck seasons in Florida, Kentucky, and Tennessee indicated that estimates of population parameters for individual States are usually imprecise, which precludes drawing meaningful conclusions about State or regional wood duck harvest-management experiments (63 FR 13751).

On August 28, 1998 (63 FR 46126), we stated our intent to discontinue September teal/wood duck seasons in Florida, Kentucky, and Tennessee after September 2000, due to our inability to adequately evaluate such seasons. We also stated that, without adequate regional population monitoring, wood duck harvest management should be approached at the flyway level during the regular season. No additional information is available that would prompt us to reconsider this decision. Therefore, September teal/wood duck seasons in Kentucky and Tennessee, as well as Florida, will not be grandfathered and granted operational status.

In 1998, we requested that a Flyway-wide wood duck harvest strategy be developed and ready for implementation during the 2001–02 regular season (63 FR 46126). In September 1999, we met with representatives from the Atlantic and Mississippi Flyway Council Technical Sections to discuss technical aspects of flyway wood duck harvest strategies. Development of the technical foundation for the strategy commenced following this meeting. A progress report on this work was made at the July 2000 Flyway Council meetings. Several Technical Section representatives have been asked to attend a follow-up meeting this fall to address Council concerns and suggestions for a flyway-wide wood duck harvest strategy. A draft harvest strategy will be distributed to Technical Sections prior to their February 2001 meetings. A final harvest strategy will be forwarded to the Flyway Councils for their consideration prior to their March 2001 meeting.

September wood duck seasons remain an option for delineated southern wood duck population units, provided that regional data-collection requirements are met. Such seasons should not be approached on a State-by-State basis. The final report of the Initiative outlined many of the sample size requirements for regional monitoring programs. We point out that the Initiative represented a period when Federal and State cooperators made special efforts to improve regional wood duck monitoring programs. The final report of the Initiative indicated that this goal was not achieved. Before a proposal for regional September wood duck seasons is considered in the future, we request that the Flyway Councils review the results of the Initiative and indicate how failure to achieve requisite regional sample sizes in the past will be avoided in the future.

v. Youth Hunt

Council Recommendations: The Lower-Region Regulations Committee of the Mississippi Flyway Council and the Central and Pacific Flyway Councils recommended expanding the special youth waterfowl hunt to 2 days.

Written Comments: The Delaware Division of Fish and Wildlife and the Maryland Department of Natural Resources opposed the current requirement that days must be held on a weekend, holidays, or other non-school days. Both Maryland and Delaware prohibit Sunday hunting by State law. Delaware proposes that States be allowed to substitute either a Friday and Saturday or that they be allowed to hold the special hunt on consecutive Saturdays. Maryland proposes that only one of the 2 youth hunting days be required to be either a weekend day or holiday.

The Georgia Wildlife Resources Division supported the proposed increase in the youth waterfowl hunt from 1 day to 2 days.

Service Response: In light of the continuing interest from the Flyway Councils, we decided to expand the special youth waterfowl hunt to 2 consecutive days. Anecdotal data suggest that the special hunt has proven to be very popular and has provided an excellent opportunity to introduce youth hunters to the sport of waterfowling and waterfowl and wetland conservation. Expansion of the special hunt to 2 consecutive days should reduce travel difficulties and scheduling conflicts inherent with the current 1 day hunt. Based on the limited number of youth participants, we do not expect any significant increase in harvest due to the expansion of the opportunity, and thus no significant impact on waterfowl populations.

Relaxation of the requirement to hold the special 2 day youth hunt on either a weekend, holidays, or other non-school days would defeat one of the most significant aspects of the special opportunity, i.e., a time when youth have the maximum opportunity to participate. Further, relaxation of this requirement would not meet Flyway-identified goals and objectives of expanding the special hunt to 2 days by reducing travel difficulties and scheduling conflicts inherent with the current 1 day hunt. Therefore, we do not support Maryland and Delaware’s requests.

4. Canada Geese

A. Special Seasons

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that Huron, Saginaw, and Tuscola Counties near Saginaw Bay, Michigan, which are currently closed in the special early Canada goose season, be allowed an experimental early season with a 2 bird daily bag limit. The Lower-
Region Regulations Committee of the Mississippi Flyway Council urged caution in changing or expanding special goose seasons.

The Central Flyway Council recommended that the framework closing date for operational September Canada goose seasons in the Central Flyway be extended to September 30 with no additional evaluation required.

The Pacific Flyway Council recommended that Wyoming’s daily bag and season limits be increased from 2 and 4, to 3 and 6 birds, respectively, and that the bag and possession limits for Washington’s September season increase from 3 to 5 and 10, respectively.

Written Comments: The Michigan Department of Natural Resources expressed disappointment that their experimental special September Canada goose season in Huron, Saginaw, and Tuscola Counties was proposed for only 10 days (September 1–10) instead of the requested 15 days. They presented an estimate of migrant Canada goose in the three county area which they believe indicates that the proportion of migrant geese in the harvest during the first half is likely to be within the special season criteria.

Service Response: The history of special early Canada goose seasons in the Saginaw Bay area suggests a cautious approach to additional experimentation. Results of the previous experimental season in the three Saginaw-Bay Counties in Michigan indicated a substantial proportion of migrant Canada geese in the special-season harvest. The current proposal for a repetition of the experiment documents a significant increase in the number of resident Canada geese in the area since that time, but information concerning the composition and quantity of Canada geese harvested during the first half of September is sketchy. We agree that the change in resident Canada goose numbers warrants another experiment, but because of the small amount of information about the proportion of migrants in early September, we feel that the season should not extend beyond September 10.

We do not support the Central Flyway recommendation to remove evaluation requirements (August 29, 1995 Federal Register) for Special September Canada goose seasons for the period between September 16–30. Past experience with these special seasons has shown seasons during September 1–15 generally achieve the objective of targeting resident Canada geese and this period has been designated as operational. In contrast, harvests during the period of September 16–30 have indicated an increasing proportional take of migrant stocks of geese. We have no experience with special seasons in the Central Flyway during September 16–30, and the impacts on nontarget populations of Canada geese have not been determined. Although impacts to nontarget populations of Canada geese are over objective levels may not be of immediate concern, we believe that evaluation during this period is necessary to insure that the objective of targeting resident geese is maintained. According to established special season guidelines, Central Flyway States have the option to conduct an experimental hunt during the late-September period with an appropriate evaluation. Although collection of neck collar data may not be possible due to low numbers of marked goose, current guidelines allow for the use of morphological information of harvested goose to access the proportion of migrant goose during this period. Because migrant Canada geese are limited to small subspecies of the Tall Grass Prairie Population in the East-Tier States and the Short Grass Prairie Population in the West-Tier States, we believe that tail fan measurements of harvested goose will be sufficient to determine the proportion of harvested migrant goose in this area. Based on the use of the morphological information available from the Service’s Parts Collection Harvest Survey, we have subsequently received proposals, including target sample sizes, for experimental seasons in North Dakota, South Dakota, and Oklahoma, which we believe will be adequate to guide evaluation during the 3-year experimental period beginning with the 2000–01 hunting season.

Regarding the Lower-Region Regulation Committee’s concern for cumulative impacts of special-season harvests on migrant Canada goose populations of concern, we are aware of the Committee’s concern and are monitoring the harvests occurring during these seasons.

We concur with the Pacific Flyway Council recommendation.

B. Regular Seasons

Council Recommendations: The Upper-Region Regulations Committee of the Mississippi Flyway Council recommended that the 1999 regular-goose-season opening date be as early as September 16 in Michigan and Wisconsin. The Committee further recommended that the framework opening date for regular goose seasons in the Mississippi Flyway be September 16.

The Central Flyway Council recommended the framework opening date for regular-dark-goose seasons in the East and West Tiers be fixed at September 1, rather than the current opening date of the Saturday nearest October 1.

Service Response: We do not support the Central Flyway’s recommendation for changing the dark-goose framework opening dates from the Saturday nearest October 1 to September 1 or the Mississippi Flyway’s light- and dark-goose seasons from the Saturday nearest October 1 to September 16. We have minimal experience with regular goose seasons that begin prior to the Saturday nearest October 1 and believe that management of several migratory goose populations would require complex spacial and temporal considerations within this period to address needs of various populations. The change in the framework opening date to earlier in September would require the movement of goose frameworks from the late- to the early-season process and, for some populations, would result in a serious timing problem in that decisions would have to be made prior to having breeding-ground information. We are also developing a management strategy for resident Canada geese that will allow for States to have more flexibility in addressing human/goose conflicts caused by growing populations of resident geese, and we believe that changes such as this may impede progress.

9. Sandhill Cranes

Council Recommendations: The Central Flyway Council recommended a 95-day season with the option for a two-way split season for the hunting of Mid-Continent sandhill cranes. This change would result in a 37-day season length increase in North Dakota, South Dakota, Nebraska, Kansas, Montana, Wyoming, and Colorado and a 2-day season length increase in Oklahoma, Texas, and New Mexico. The Council further recommended that the open area for the hunting of Mid-Continent sandhill cranes be extended eastward to the Mississippi/Central Flyway boundary. The Council recommended a season length of 37 days with outside framework dates of September 1 and February 28, and a daily bag limit of three for this expanded area.

The Pacific Flyway Council recommended a boundary modification in Box Elder County, Utah, to exclude that portion of the County known to be used by greater sandhill cranes affiliated with the Lower Colorado River Population.

Written Comments: The Texas Parks and Wildlife Department (TPW) supported the Central Flyway Council’s
recommendation for an eastward expansion of the open area for the hunting of Mid-Continent sandhill cranes. TPW took exception to statements (65 FR 46845) that changes in the hunting frameworks should be delayed until the ongoing satellite transmitter studies are completed pointing out that the 1997–99 3-year index from surveys on the Nebraska’s Central Platte River Valley should not be used for regulatory purposes, as large numbers of cranes were recorded outside the surveyed area. TPW believes that recent genetics studies have cast doubt on the validity of the existence of the subspecies, and furthermore, TPW’s current population estimates of greater sandhill cranes in Texas indicate a population of 36,000, a number three times higher than other estimates.

Lastly, TPW corrected the Council’s recommendation to be for a daily bag limit of three and a possession limit of six, not nine, as indicated by the Service. The Oklahoma Department of Wildlife Conservation (ODWC) also supported the Central Flyway Council recommendations for expanding the frameworks for Mid-Continent sandhill cranes. ODWC believed that the Mid-Continent Population has increased in recent years to record high levels rather than stabilizing. They also believed that changes in the frameworks should not be delayed until research findings from the ongoing satellite transmitter and genetics studies are completed, believing such research will never be completed.

Service Response: We do not support the Central Flyway Council’s recommendation to liberalize hunting seasons on the Mid-Continent Population of sandhill cranes. While we incorrectly stated that the recommendation included a proposed possession limit of nine, we reiterate our belief that substantive changes in the frameworks for the hunting of Mid-Continent sandhill cranes should not occur until the ongoing satellite-transmitter and genetics studies are completed. Recent genetic information on subspecies composition has further complicated management of the two identified subpopulations of Mid-Continent sandhill cranes, the Western and Gulf Coast subpopulations. Based on these findings, it may be appropriate to reconsider harvest approaches, including hunting framework changes, according to subpopulation delineation including improved knowledge of the status of recognized subspecies in this population. Although, there are no current surveys of the status of the Gulf Coast subpopulation, current genetics studies may provide important insight into the future of subpopulation management. In the long term, we believe that consideration should be given to the development of an annual operational survey of the Gulf Coast subpopulation.

We concur with the Pacific Flyway Council recommendation.

12. Rails

Council Recommendations: The Pacific Flyway Council recommended that those States divided between the Central and Pacific Flyways be allowed to select rail-season frameworks, on a statewide basis, that conform with the Central Management Unit frameworks.

Service Response: We concur.

13. Snipe

Council Recommendations: The Pacific Flyway Council recommended that those States divided between the Central and Pacific Flyways be allowed to select snipe-season frameworks, on a statewide basis, that conform with the Central Management Unit frameworks.

Service Response: We concur.

14. Woodcock

Written Comments: An individual from Minnesota felt that the daily bag limit for woodcock should be four birds, and that the framework opening date for the Mississippi Flyway should be September 1, rather than the Saturday nearest September 22.

Service Response: In 1997, in response to long-term population declines, we implemented several framework changes to reduce woodcock harvest. In the Central Region, we reduced the bag limit from five to three birds and the season length from 65 to 45 days, and changed the framework opening date to the Saturday nearest September 22 (rather than September 1). Based on harvest information for various bag limits, we determined that a reduction from five to three birds was necessary to achieve a meaningful reduction in harvest. Furthermore, a framework opening date of the Saturday nearest September 22 was contained in an interim woodcock harvest strategy proposed by the Mississippi Flyway Council in 1997 (62 FR 44232). The framework date we adopted reflected the opening date proposed in the Flyway Council strategy.

15. Band-tailed Pigeons

Council Recommendations: The Pacific Flyway Council recommended increasing the possession limit for Pacific Coast band-tailed pigeons from two to four birds.

Service Response: We concur.

16. Mourning Doves

Council Recommendations: The Pacific Flyway Council recommended a reduction in sandhill crane bag limits from three to two in that portion of the State associated with the Pacific Flyway Population of lesser sandhill cranes.

Written Comments: A law firm wrote to request reconsideration of the proposed lesser sandhill crane bag limit for southern and southeastern Alaska. An individual from Alaska requested the Service reconsider appropriate harvest regulations for sea ducks in Alaska and reviewed their population characteristics and life history strategies.

Service Response: We concur with the Pacific Flyway Council and have reduced the daily bag limit from three to two sandhill cranes in that portion of the State associated with the Pacific Flyway Population of lesser sandhill cranes. We note that the current best estimates of the number of lesser sandhill cranes in the Pacific Population is between 20,000–25,000. Further, the best evidence suggests that the total harvest of these cranes in Alaska (the only State in which they are hunted) averages 200 cranes per year. We do not believe this level of harvest to be excessive. We have reviewed the documentation regarding the existence of a “coastal segment” of lesser sandhill cranes, however, at present we do not find compelling evidence in this material that would lead us to believe that such a group exists as a separate and manageable entity. Therefore, we believe the current proposal provides
adequate protection for the Pacific Population of lesser sandhill cranes. During the next year, we will continue to review the data available for the Pacific Population of lesser sandhill cranes. Additionally, the Service and the State of Alaska have instituted a new study (using satellite telemetry) to investigate the temporal and geographic distribution of these birds throughout their annual cycle. We will evaluate harvest management for this population of cranes based on this new information as it becomes available and in light of the concerns expressed.

Regarding sea ducks, we recently reviewed Alaska sea duck regulations and imposed restrictions by reducing daily bag limits and restricting species eligible for this opportunity. We believe that these recent restrictions, coupled with the fact that sea duck harvest by sport hunters in Alaska is very low (<10,000) in comparison to population levels, supports our season structure and bag limits on this group of ducks.

NEPA Consideration

NEPA considerations are covered by the programmatic document, “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14),” filed with the Environmental Protection Agency on June 9, 1988. We published a Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). Copies are available from the address indicated under the caption ADDRESSES.

Endangered Species Act Consideration

We have considered provisions of the Endangered Species Act of 1973, as amended, (16 U.S.C. 1531–1543; hereinafter the Act) to ensure that hunting is not likely to jeopardize the continued existence of any species designated as endangered or threatened or modify or destroy its critical habitat and that the action is consistent with conservation programs for those species.

Executive Order (E.O.) 12866

This rule was reviewed by the Office of Management and Budget. The migratory bird hunting regulations are economically significant and are annually reviewed by OMB under E.O. 12866.

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail and issued a Small Entity Flexibility Analysis (Analysis) in 1998. The Analysis documented the significant beneficial economic effect on a substantial number of small entities. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The Analysis was based on the 1996 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend between $429 million and $1,084 million at small businesses in 1998. Copies of the Analysis are available upon request from the address indicated under the caption ADDRESSES.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule has an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we do not plan to defer the effective date under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. We utilize the various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, Subpart K, in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the Migratory Bird Harvest Information Program and assigned clearance number 1018–0015 (expires 9/30/2001). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. OMB has also approved the information collection requirements of the Sandhill Crane Harvest Questionnaire and assigned clearance number 1018–0023 (expires 7/31/2003). The information from this survey is used to estimate the magnitude and the geographical and temporal distribution of harvest, and the portion it constitutes of the total population. A Federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify, in compliance with the requirements of the Unfunded Mandates Act, 2 U.S.C. 1502 et seq., that this rulemaking will not “significantly or uniquely” affect small governments, and will not produce a Federal mandate of $100 million or more in any given year on local or State government or private entities. Therefore, this rule is not a “significant regulatory action” under the Unfunded Mandates Reform Act.

Civil Justice Reform-Executive Order 12988

The Department, in promulgating this rule, has determined that this rule will not unduly burden the judicial system and meets the requirements of sections 3(a) and 3(b)(2) of E.O. 12988.

Takings Implication Assessment

In accordance with E.O. 12630, this rule does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, this rule will allow hunters to exercise otherwise unavailable privileges, and, therefore, reduces restrictions on the use of private and public property.

Federalism Effects

Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections and employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and Tribes to determine which seasons meet their individual needs. Any State or Tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in
accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Regulations Promulgation

The rulemaking process for migratory game bird hunting must, by its nature, operate under severe time constraints. However, we intend that the public be given the greatest possible opportunity to comment. Thus, when the preliminary proposed rulemaking was published, we established what we believed were the longest periods possible for public comment. In doing this, we recognized that when the comment period closed, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, States would have insufficient time to select season dates and limits; to communicate those selections to us; and to establish and publicize the necessary regulations and procedures to implement their decisions. We therefore find that “good cause” exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these frameworks will, therefore, take effect immediately upon publication.

Therefore, under authority of the Migratory Bird Treaty Act (July 3, 1918), as amended, (16 U.S.C. 703–711), we prescribe final frameworks setting forth the species to be hunted, the daily bag and possession limits, the shooting hours, the season lengths, the earliest opening and latest closing season dates, and hunting areas, from which State conservation agency officials will select hunting season dates and other options. Upon receipt of season and option selections from these officials, we will publish in the Federal Register a final rulemaking amending 50 CFR part 20 to reflect seasons, limits, and shooting hours for the conterminous United States for the 2000–01 season.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

The rules that eventually will be promulgated for the 2000–01 hunting season are authorized under 16 U.S.C. 703–712 and 16 U.S.C. 742 a–j.

Stephen C. Saunders,
Acting Assistant Secretary for Fish and Wildlife and Parks.

Final Regulations Frameworks for 2000–01 Early Hunting Seasons on Certain Migratory Game Birds

Pursuant to the Migratory Bird Treaty Act and delegated authorities, the Department of the Interior approved the following frameworks which prescribe season lengths, bag limits, shooting hours, and outside dates within which States may select for certain migratory game birds between September 1, 2000, and March 10, 2001.

General

Dates: All outside dates noted below are inclusive.

Shooting and Hawking (taking by falconry) Hours: Unless otherwise specified, from one-half hour before sunrise to sunset daily.

Possession Limits: Unless otherwise specified, possession limits are twice the daily bag limit.

Flyways and Management Units

Waterfowl Flyways:

Mississippi Flyway—includes Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin.

Central Flyway—includes Colorado (east of the Continental Divide), Kansas, Montana (Counties of Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide except the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Pacific Flyway—includes Alaska, Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, and those portions of Colorado, Montana, New Mexico, and Wyoming not included in the Central Flyway.

Management Units

Mourning Dove Management Units:

Eastern Management Unit—All States east of the Mississippi River, and Louisiana.

Central Management Unit—Arkansas, Colorado, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming.

Western Management Unit—Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

Woodcock Management Regions:

Central Management Region—Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

Other geographic descriptions are contained in a later portion of this document.

Compensatory Days in the Atlantic Flyway: In the Atlantic Flyway States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, North Carolina, Pennsylvania, Virginia, and West Virginia, where Sunday hunting is prohibited statewide by State law, all Sundays are closed to all take of migratory waterfowl (including mergansers and coots).

Special September Teal Season

Outside Dates: Between September 1 and September 30, an open season on all species of teal may be selected by the following States in areas delineated by State regulations:

Atlantic Flyway—Delaware, Georgia, Maryland, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia. All seasons are experimental.

Mississippi Flyway—Alabama, Arkansas, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, Ohio, and Tennessee.

Central Flyway—Colorado (part), Kansas, Nebraska (part), New Mexico (part), Oklahoma, and Texas. The season in Nebraska is experimental.

Hunting Seasons and Daily Bag Limits: Not to exceed 9 consecutive days in the Atlantic Flyway and 16 consecutive days in the Mississippi and Central Flyways, except in Nebraska where the season is not to exceed 9 consecutive days. The daily bag limit is 4 teal.

Shooting Hours: Atlantic Flyway—One-half hour before sunrise to sunset, if evaluated; otherwise sunrise to sunset.

Mississippi and Central Flyways—One-half hour before sunrise to sunset,
except in the States of Arkansas, Illinois, Indiana, Missouri, and Ohio, where the hours are from sunrise to sunset.

Special September Duck Seasons

Florida: A 5-consecutive-day season may be selected in September. The daily bag limit may not exceed 4 teal and wood ducks in the aggregate.

Kentucky and Tennessee: In lieu of a special September teal season, a 5-consecutive-day season may be selected in September. The daily bag limit may not exceed 4 teal and wood ducks in the aggregate, of which no more than 2 may be wood ducks.

Iowa: Iowa may hold up to 5 days of its regular duck hunting season in September. All ducks that are legal during the regular duck season may be taken during the September segment of the season. The September season segment may commence no earlier than the Saturday nearest September 20 (September 23). The daily bag and possession limits will be the same as those in effect last year, but are subject to change during the late-season regulations process. The remainder of the regular duck season may not begin before October 10.

Special Youth Waterfowl Hunting Days

Outside Dates: States may select two consecutive days per duck-hunting zone, designated as “Youth Waterfowl Hunting Days,” in addition to their regular duck seasons. The days must be held outside any regular duck season on a weekend, holidays, or other non-school days when youth hunters would have the maximum opportunity to participate. The days may be held up to 14 days before or after any regular duck-season frameworks or within any split of a regular duck season, or within any other open season on migratory birds.

Daily Bag Limits: The daily bag limit may include ducks, geese, mergansers, coots, moorhens, and gallinules and would be the same as that allowed in the regular season. Flyway species and area restrictions would remain in effect. Shooting Hours: One-half hour before sunrise to sunset.

Participation Restrictions: Youth hunters must be 15 years of age or younger. In addition, an adult at least 18 years of age must accompany the youth hunter into the field. This adult could not duck hunt but may participate in other seasons that are open on the special youth day.

Scoter, Eider, and Oldsquaw Ducks (Atlantic Flyway)

Outside Dates: Between September 15 and January 20.

Hunting Seasons and Daily Bag Limits: Not to exceed 107 days, with a daily bag limit of 7, singly or in the aggregate of the listed sea-duck species, of which no more than 4 may be scoters.

Daily Bag Limits During the Regular Duck Season: Within the special sea duck areas, during the regular duck season in the Atlantic Flyway, States may choose to allow the above sea duck limits in addition to the limits applying to other ducks during the regular duck season. In all other areas, sea ducks may be taken only during the regular open season for ducks and are part of the regular duck season daily bag (not to exceed 4 scoters) and possession limits.

Areas: In all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, and New York; in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 1 mile of open water from any shore, island, and emergent vegetation in New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 800 yards of open water from any shore, island, and emergent vegetation in Delaware, Maryland, North Carolina, and Virginia; and provided that any such areas have been described, delineated, and designated as special sea-duck hunting areas under the hunting regulations adopted by the respective States.

Special Early Canada Goose Seasons

Atlantic Flyway

General Seasons

Canada goose seasons of up to 15 days during September 1–15 may be selected for the Montezuma Region of New York, the Lake Champlain Region of New York and Vermont, the Eastern Unit of Maryland, and Delaware. Seasons not to exceed 20 days during September 1–20 may be selected for the Northeast Hunt Unit of North Carolina. Seasons not to exceed 30 days during September 1–30 may be selected by New Jersey. Seasons may not extend beyond September 10. The daily bag limit may not exceed 5 Canada geese.

Experimental Seasons

An experimental Canada goose season of up to 15 days during September 15–25 may be selected by New York (Montezuma Region). Experimental seasons of up to 30 days during September 1–30 may be selected by New York (Long Island Zone), North Carolina (except in the Northeast Hunt Unit), and South Carolina. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State’s hunting regulations.

Daily Bag Limits: Not to exceed 5 Canada geese.

Mississippi Flyway

General Seasons

Canada goose seasons of up to 15 days during September 1–15 may be selected, except in the Upper Peninsula in Michigan, where the season may not extend beyond September 10. The daily bag limit may not exceed 5 Canada geese.

Experimental Seasons

An experimental Canada goose season of up to 10 consecutive days during September 1–10 may be selected by Michigan for Huron, Saginaw, and Tuscola Counties, except that the Shiawassee National Wildlife Refuge, Shiawassee River State Game Area Refuge, and the Fish Point Wildlife Area Refuge will remain closed. The daily bag limit may not exceed 2 Canada geese.

Central Flyway

General Seasons

Canada goose seasons of up to 15 days during September 1–15 may be selected. The daily bag limit may not exceed 5 Canada geese. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State’s hunting regulations.

Experimental Seasons

An experimental Canada goose season of up to 14 consecutive days during September 16–22 may be selected by Minnesota, except in the Northwest Goose Zone. The daily bag limit may not exceed 5 Canada geese.

An experimental Canada goose season of up to 10 consecutive days during September 1–10 may be selected by Michigan for Huron, Saginaw, and Tuscola Counties, except that the Shiawassee National Wildlife Refuge, Shiawassee River State Game Area Refuge, and the Fish Point Wildlife Area Refuge will remain closed. The daily bag limit may not exceed 2 Canada geese.
North Dakota. The daily bag limit may not exceed 5 Canada geese.

Pacific Flyway

General Seasons

Wyoming may select an 8-day season on Canada geese between September 1–15. This season is subject to the following conditions:

1. Where applicable, the season must be concurrent with the September portion of the sandhill crane season.
2. All participants must have a valid State permit for the special season.
3. A daily bag limit of 3, with season and possession limits of 6 will apply to the special season.

Oregon may select a special Canada goose season of up to 15 days during the period September 1–15. In addition, the NW goose management zone, a 15-day season may be selected during the period September 1–20. Any portion of the season selected between September 16 and 20 will be considered experimental. Daily bag limits may not exceed 5 Canada geese. In the NW goose zone, a minimum, Oregon must provide an annual evaluation of the number of dusky Canada geese present in the hunt zone during the period September 16–20 and agree to adjust seasons as necessary to avoid any potential harvest of dusky Canada geese.

Washington may select a special Canada goose season of up to 15 days during the period September 1–15. Daily bag limits may not exceed 5 Canada geese.

Idaho may select a 15-day season in the special East Canada Goose Zone, as described in State regulations, during the period September 1–15. All participants must have a valid State permit, and the total number of permits issued is not to exceed 110 for this zone. The daily bag limit is 2.

Idaho may select a 7-day Canada Goose Season during the period September 1–15 in Nez Perce County, with a bag limit of 4.

California may select a 9-day season in Humboldt County during the period September 1–15. The daily bag limit is 2.

Areas open to hunting of Canada geese in each State must be described, delineated, and designated as such in each State’s hunting regulations.

Regular Goose Seasons

Regular goose seasons may open as early as September 16 in Wisconsin and Michigan. Season lengths, bag and possession limits, and other provisions will be established during the late-season regulations process.

Sandhill Cranes

Regular Seasons in the Central Flyway:

Outside Dates: Between September 1 and February 28.

Hunting Seasons: Seasons not to exceed 58 consecutive days may be selected in designated portions of the following States: Colorado, Kansas, Montana, North Dakota, South Dakota, and Wyoming. Seasons not to exceed 93 consecutive days may be selected in designated portions of the following States: New Mexico, Oklahoma, and Texas.

Daily Bag Limits: 3 sandhill cranes.

Permits: Each person participating in the regular sandhill crane seasons must have a valid Federal sandhill crane hunting permit and/or, in those States where a Federal sandhill crane permit is not issued, a State-issued Harvest Information Survey Program (HISP) certification for game bird hunting, in their possession while hunting.

Special Seasons in the Central and Pacific Flyways: Arizona, Colorado, Idaho, Montana, New Mexico, Utah, and Wyoming may select seasons for hunting sandhill cranes within the range of the Rocky Mountain Population (RMP) subject to the following conditions:

Outside Dates: Between September 1 and January 31.

Hunting Seasons: The season in any State or zone may not exceed 30 days.

Bag limits: Not to exceed 3 daily and 9 per season.

Permits: Participants must have a valid permit, issued by the appropriate State, in their possession while hunting. Other provisions: Numbers of permits, open areas, season dates, protection plans for other species, and other provisions of seasons must be consistent with the management plan and approved by the Central and Pacific Flyway Councils with the following exceptions:

1. In Utah, the requirement for monitoring the racial composition of the harvest in the experimental season is waived, and 100 percent of the harvest will be assigned to the RMP quota;
2. In Arizona, the annual requirement for monitoring the racial composition of the harvest is changed to once every 3 years;
3. In Idaho, seasons are experimental, and the requirement for monitoring the racial composition of the harvest is waived; 100 percent of the harvest will be assigned to the RMP quota.

Common Moorhens and Purple Gallinules

Outside Dates: Between September 1 and January 20 in the Atlantic Flyway, and between September 1 and the Sunday nearest January 20 (January 21) in the Mississippi and Central Flyways. States in the Pacific Flyway have been allowed to select their hunting seasons between the outside dates for the season on ducks; therefore, they are late-season frameworks, and no frameworks are provided in this document.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 70 days in the Atlantic, Mississippi, and Central Flyways. Seasons may be split into 2 segments. The daily bag limit is 15 common moorhens and purple gallinules, singly or in the aggregate of the two species.

Rails

Outside Dates: States included herein may select seasons between September 1 and January 20 on clapper, king, sora, and Virginia rails.

Hunting Seasons: The season may not exceed 70 days, and may be split into 2 segments.

Daily Bag Limits:

Clapper and King Rails—in Rhode Island, Connecticut, New Jersey, Delaware, and Maryland, 10, singly or in the aggregate of the two species. In Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, and Virginia, 15, singly or in the aggregate of the two species.

Sora and Virginia Rails—in the Atlantic, Mississippi, and Central Flyways and the Pacific-Flyway portions of Colorado, Montana, New Mexico, and Wyoming, 25 daily and 25 in possession, singly or in the aggregate of the two species. The season is closed in the remainder of the Pacific Flyway.

Common Snipe

Outside Dates: Between September 1 and February 28, except in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, and Virginia, where the season must end no later than January 31.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 107 days and may be split into 2 segments. The daily bag limit is 8 snipe.

American Woodcock

Outside Dates: States in the Eastern Management Region may select hunting seasons between October 6 and January 31. States in the Central Management Region may select hunting seasons between the Saturday nearest September 22 (September 23) and January 31.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 30 days in the Eastern Region and 45 days in the
Central Region. The daily bag limit is 3. Seasons may be split into two segments. Zoning: New Jersey may select seasons in each of two zones. The season in each zone may not exceed 24 days.

**Band-tailed Pigeons**

Pacific Coast States (California, Oregon, Washington, and Nevada)

Outside Dates: Between September 15 and January 1.

Hunting Seasons and Daily Bag Limits: Not more than 9 consecutive days, with bag and possession limits of 2 and 4 band-tailed pigeons, respectively.

Zoning: California may select hunting seasons not to exceed 9 consecutive days in each of two zones. The season in the North Zone must close by October 4.

Four-Corners States (Arizona, Colorado, New Mexico, and Utah)

Outside Dates: Between September 1 and November 30.

Hunting Seasons and Daily Bag Limits: Not more than 30 consecutive days, with a daily bag limit of 5 band-tailed pigeons.

Zoning: New Mexico may select hunting seasons not to exceed 20 consecutive days in each of two zones. The season in the South Zone may not open until October 1.

**Mourning Doves**

Outside Dates: Between September 1 and January 15, except as otherwise provided, States may select hunting seasons and daily bag limits as follows:

**Eastern Management Unit**

Hunting Seasons and Daily Bag Limits: Not more than 70 days with a daily bag limit of 12, or not more than 60 days with a daily bag limit of 15.

Zoning and Split Seasons: States may select hunting seasons in each of two zones. The season within each zone may be split into not more than three periods. Texas may select hunting seasons for each of three zones subject to the following conditions:

A. The hunting season may be split into not more than two periods, except in that portion of Texas in which the special white-winged dove season is allowed, where a limited mourning dove season may be held concurrently with that special season (see white-winged dove frameworks).

B. A season may be selected for the North and Central Zones between September 1 and January 25, and for the South Zone between September 20 and January 25.

C. Each zone may have a daily bag limit of 12 doves (15 under the alternative) in the aggregate, no more than 2 of which may be white-tipped doves, except that during the special white-winged dove season, the daily bag limit may not exceed 10 white-winged, mourning, and white-tipped doves in the aggregate, of which no more than 5 may be mourning doves and 2 may be white-tipped doves.

D. Except as noted above, regulations for bag and possession limits, season length, and shooting hours must be uniform within each hunting zone.

**Western Management Unit**

Hunting Seasons and Daily Bag Limits: Idaho, Nevada, Oregon, Utah, and Washington—Not more than 30 consecutive days with a daily bag limit of 10 mourning doves (in Nevada, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate).

Arizona and California—Not more than 60 days, which may be split between two periods, September 1–15 and November 1–January 15. In Arizona, during the first segment of the season, the daily bag limit is 10 mourning and white-winged doves in the aggregate, of which no more than 6 may be white-winged doves. During the remainder of the season, the daily bag limit is restricted to 10 mourning doves. In California, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.

**White-winged and White-tipped Doves**

Hunting Seasons and Daily Bag Limits:

Except as shown below, seasons in Arizona, California, Florida, Nevada, New Mexico, and Texas must be concurrent with mourning dove seasons.

Arizona may select a hunting season for the special white-winged dove area of the South Zone between September 1 and September 19. The daily bag limit may not exceed 12 mourning and white-winged doves in the aggregate, of which no more than 5 may be mourning doves and 2 may be white-tipped doves. In New Mexico, the daily bag limit may not exceed 12 mourning and white-winged doves (15 under the alternative) in the aggregate.

In Texas, the daily bag limit may not exceed 12 mourning and white-winged doves (15 under the alternative) in the aggregate, of which not more than 2 may be white-tipped doves.

In addition, Texas may also select a hunting season of not more than 4 days for the special white-winged dove area of the South Zone between September 1 and September 19. The daily bag limit may not exceed 10 white-winged, mourning, and white-tipped doves in the aggregate, of which no more than 5 may be mourning doves and 2 may be white-tipped doves.

**Alaska**

Outside Dates: Between September 1 and January 26.

Hunting Seasons: Alaska may select 107 consecutive days for waterfowl, sandhill cranes, and common snipe in each of five zones. The season may be split without penalty in the Kodiak Zone. The seasons in each zone must be concurrent.

Closures: The season is closed on Canada geese from Unimak Pass westward in the Aleutian Island chain. The hunting season is closed on Aleutian Canada geese, emperor geese, spectacled eiders, and Steller's eiders.

Daily Bag and Possession Limits:

Ducks—Except as noted, a basic daily bag limit of 7 and a possession limit of 21 ducks. Daily bag and possession limits in the North Zone are 10 and 30, and in the Gulf Coast Zone, they are 8 and 24, respectively. The basic limits may include no more than 1 canvasback daily and 3 in possession.

In addition to the basic duck limits, there is a sea duck daily bag limit of 10, with a possession limit of 20, scoter, common and king eiders, and common and red-breasted mergansers, singly or in the aggregate. Alaska may choose to allow these sea duck limits in addition to regular duck bag limits. However, the
total daily bag limit for any duck species may not exceed 10.

Light Geese—A basic daily bag limit of 3 and a possession limit of 6.

Dark Geese—A basic daily bag limit of 4 and a possession limit of 8.

Dark-goose seasons are subject to the following exceptions:
1. In Units 5 and 6, the taking of Canada goose is permitted from September 28 through December 16. A special, permit-only Canada goose season may be offered on Middleton Island. No more than 10 permits can be issued. A mandatory goose identification class is required. Hunters must check-in and check-out. Bag limit of 1 daily and 1 in possession. Season to close if incidental harvest includes 5 dusky Canada geese. A dusky Canada goose is any dark-breasted Canada goose (Munsell 10 YR color value five or less) with a bill length between 40 and 50 millimeters.
2. In Unit 10 (except Unimak Island), the taking of Canada goose is prohibited.
3. In Unit 9(D) and the Unimak Island portion of Unit 10, the limits for dark geese are 6 daily and 12 in possession.

Brant—A daily bag limit of 2.

Common snipe—A daily bag limit of 8.

Sandhill cranes—Bag and possession limits of 2 and 4, respectively, in the Southeast, Gulf Coast, Kodiak, Aleutian, and Unit 17 in the Northern Zone. In the remainder of the Northern Zone (outside Unit 17), bag and possession limits of 3 and 6, respectively.

Tundra Swans—Open seasons for tundra swans may be selected subject to the following conditions:
1. All seasons are by registration permit only.
2. All season framework dates are September 1–October 31.
3. In Game Management Unit (GMU) 18, no more than 500 swans may be harvested during the operational season. Up to 3 tundra swans may be authorized per permit. No more than 1 permit may be issued per hunter per season.
4. In GMU 22, no more than 300 swans may be harvested during the operational season. Each permittee may be authorized to take up to 3 tundra swan per permit. No more than 1 permit may be issued per hunter per season.
5. In GMU 23, no more than 300 swans may be harvested during the experimental season. No more than 3 tundra swans may be authorized per permit with no more than 1 permit issued per hunter per season. The experimental season evaluation must adhere to the guidelines for experimental seasons as described in the Pacific Flyway Management Plan for the Western Population of (Tundra) Swans.

Hawaii

Outside Dates: Between October 1 and January 31.

Hunting Seasons: Not more than 65 days (75 under the alternative) for mourning doves.

Bag Limits: Not to exceed 15 (12 under the alternative) mourning doves.

Note: Mourning doves may be taken in Hawaii in accordance with shooting hours and other regulations set by the State of Hawaii, and subject to the applicable provisions of 50 CFR part 20.

Puerto Rico

Doves and Pigeons: Outside Dates: Between September 1 and January 15.

Hunting Seasons: Not more than 60 days.

Daily Bag and Possession Limits: Not to exceed 10 Zenaida, mourning, and white-winged doves in the aggregate. Not to exceed 5 scaly-naped pigeons.

Closed Areas: There is no open season on doves or pigeons in the following areas: Municipality of Culebra, Desecheo Island, Mona Island, El Verde Closure Area, and Cidra Municipality and adjacent areas.

Ducks, Coots, Moorhens, Gallinules, and Snipe: Outside Dates: Between October 1 and January 31.

Hunting Seasons: Not more than 55 days.

Closed Seasons: The season is closed on the ruddy duck, white-cheeked pintail, West Indian whistling duck, fulvous whistling duck, and masked duck, which are protected by the Commonwealth of Puerto Rico. The season also is closed on the purple gallinule, American coot, and Caribbean coot.

Closed Areas: There is no open season on ducks, common moorhens, and common snipe in the Municipality of Culebra and on Desecheo Island.

Virgin Islands

Doves and Pigeons: Outside Dates: Between September 1 and January 15.

Hunting Seasons: Not more than 60 days for Zenaida doves.

Daily Bag and Possession Limits: Not to exceed 10 Zenaida doves.

Closed Seasons: No open season is prescribed for ground or quail doves, or pigeons in the Virgin Islands.

Closed Areas: There is no open season for migratory game birds on Ruth Cay (just south of St. Croix).

Local Names for Certain Birds:

Zenaida dove, also known as mountain dove; bridled quail-dove, also known as Barbary dove or partridge; Common ground-dove, also known as stone dove, tobacco dove, rola, or tortolita; scaly-naped pigeon, also known as red-necked or scaled pigeon.

Ducks

Outside Dates: Between December 1 and January 31.

Hunting Seasons: Not more than 55 consecutive days.

Daily Bag Limits: Not to exceed 6.

Closed Seasons: The season is closed on the ruddy duck, white-cheeked pintail, West Indian whistling duck, fulvous whistling duck, and masked duck.

Special Falconry Regulations

Falconry is a permitted means of taking migratory game birds in any State meeting Federal falconry standards in 50 CFR 21.29(k). These States may select an extended season for taking migratory game birds in accordance with the following:

Extended Seasons: For all hunting methods combined, the combined length of the extended season, regular season, and any special or experimental seasons shall not exceed 107 days for any species or group of species in a geographical area. Each extended season may be divided into a maximum of 3 segments.

Framework Dates: Seasons must fall between September 1 and March 10.

Daily Bag and Possession Limits: Falconry daily bag and possession limits for all permitted migratory game birds shall not exceed 3 and 6 birds, respectively, singly or in the aggregate, during extended falconry seasons, any special or experimental seasons, and regular hunting seasons in all States, including those that do not select an extended falconry season.

Regular Seasons: General hunting regulations, including seasons and hunting hours, apply to falconry in each State listed in 50 CFR 21.29(k). Regular-season bag and possession limits do not apply to falconry. The falconry bag limit is not in addition to gun limits.

Area, Unit, and Zone Descriptions

Mourning and White-winged Doves

Alabama

South Zone—Baldwin, Barbour, Coffee, Conecuh, Covington, Dale,
Escanaba, Geneva, Henry, Houston, and Mobile Counties.
North Zone—Remainder of the State.
California
White-winged Dove Open Areas—Imperial, Riverside, and San Bernardino Counties.
Florida
Northwest Zone—The Counties of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Okaloosa, Santa Rosa, Walton, Washington, Leon (except that portion north of U.S. 27 and east of State Road 155), Jefferson (south of U.S. 27, west of State Road 59 and north of U.S. 98), and Wakulla (except that portion south of U.S. 98 and east of the St. Marks River).
South Zone—Remainder of State.
Georgia
Northern Zone—That portion of the State lying north of a line running west to east along U.S. Highway 280 from Columbus to Wilcox County, thence southward along the western border of Wilcox County; thence east along the southern border of Wilcox County to the Ocmulgee River, thence north along the Ocmulgee River to Highway 280, thence east along Highway 280 to the Little Ocmulgee River; thence southward along the Little Ocmulgee River to the Ocmulgee River; thence southwesterly along the Ocmulgee River to the western border of Jeff Davis County; thence south along the western border of Jeff Davis County; thence east along the southern border of Jeff Davis and Appling Counties; thence north along the eastern border of Appling County; thence to the Altamaha River; thence east to the eastern border of Tattnall County; thence north along the eastern border of Tattnall County; thence north along the western border of Evans to Telfair County; thence east along the northern border of Evans County to U.S. Highway 301; thence northeast along U.S. Highway 301 to the South Carolina line.
South Zone—Remainder of State.
Louisiana
North Zone—That portion of the State north of Interstate Highway 10 from the Texas State line to Baton Rouge. Interstate Highway 12 from Baton Rouge to Slidell and Interstate Highway 10 from Slidell to the Mississippi State line.
South Zone—The remainder of the State.
Mississippi
South Zone—The Counties of Forrest, George, Greene, Hancock, Harrison, Jackson, Lamar, Marion, Pearl River, Perry, Pike, Stone, and Walthall.
North Zone—The remainder of the State.
Nevada
White-winged Dove Open Areas—Clark and Nye Counties.
Texas
North Zone—That portion of the State north of a line beginning at the International Bridge south of Fort Hancock; north along FM 1088 to TX 20; west along TX 20 to TX 148; north along TX 148 to 1–10 at Fort Hancock; east along 1–10 to I–20; northeast along I–20 to I–30 at Fort Worth; northeast along I–30 to the Texas-Arizona State line.
South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to San Antonio; then east on I–10 to Orange, Texas.
Special White-winged Dove Area in the South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to Uvalde; south on U.S. 83 to TX 44; east along TX 44 to TX 16 at Freer; south along TX 16 to TX 285 at Hebbronville; east along TX 285 to FM 1017; southwest along FM 1017 to TX 186 at Linn; east along TX 186 to the Mansfield Channel at Port Mansfield; east along the Mansfield Channel to the Gulf of Mexico.
Area with additional restrictions—Cameron, Hidalgo, Starr, and Willacy Counties.
Central Zone—That portion of the State lying between the North and South Zones.
Band-tailed Pigeons
California
North Zone—Alpine, Butte, Del Norte, Glenn, Humboldt, Lassen, Mendocino, Modoc, Plumas, Shasta, Sierra, Siskiyou, Tehama, and Trinity Counties.
South Zone—The remainder of the State.
New Mexico
North Zone—North of a line following U.S. 60 from the Arizona State line east to I–25 at Socorro and then south along I–25 from Socorro to the Texas State line.
South Zone—Remainder of the State.
Washington
Western Washington—The State of Washington excluding those portions lying east of the Pacific Crest Trail and east of the Big White Salmon River in Klickitat County.
County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone—That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania border, except for the Montezuma Zone.

Montezuma Zone—Those portions of Cayuga, Seneca, Ontario, Wayne, and Oswego Counties north of U.S. Route 20, east of NYS Route 14, south of NYS Route 104, and west of NYS Route 34.

Northeastern Zone—That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, south along I–81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (at Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone—The remaining portion of New York.

North Carolina

Northeast Hunt Unit—Counties of Bertie, Camden, Chowan, Currituck, Dare, Hyde, Pasquotank, Perquimans, Tyrrell, and Washington.

South Carolina

Early-season Hunt Unit—Clarendon County and those portions of Orangeburg County north of SC Highway 6 and Berkeley County north of SC Highway 45 from the Orangeburg County line to the junction of SC Highway 45 and State Road S–8–31 and west of the Santee Dam.

Vermont

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area north and west of the line extending from the New York border along U.S. 4 to VT 22A at Fair Haven; VT 22A to U.S. 7 at Vergennes; U.S. 7 to the Canadian border.

Interior Zone: The remaining portion of Vermont.

Mississippi Flyway

Illinois

Northeast Canada Goose Zone—Cook, Du Page, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, and Will Counties.

North Zone: That portion of the State outside the Northeast Canada Goose Zone and north of a line extending east from the Iowa border along Illinois Highway 92 to Interstate Highway 280, east along I–280 to I–80, then east along I–80 to the Indiana border.

Central Zone: That portion of the State outside the Northeast Canada Goose Zone and south of the North Zone to a line extending east from the Missouri border along the Modoc Ferry route to Modoc Ferry Road, east along Modoc Ferry Road to Modoc Road, northeasterly along Modoc Road and St. Leo’s Road to Illinois Highway 3, north along Illinois 3 to Illinois 159, north along Illinois 159 to Illinois 161, east along Illinois 161 to Illinois 4, north along Illinois 4 to Interstate Highway 70, east along I–70 to the Bond County line, north and east along the Bond County line to Effingham County, east and south along the Effingham County line to I–70, then east along I–70 to the Indiana border.

South Zone: The remainder of Illinois.

Iowa

North Zone: That portion of the State north of a line extending east from the Nebraska border along State Highway 175 to State 37, southeast along State 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I–80 to the Illinois border.

South Zone: The remainder of Iowa.

Michigan

North Zone: The Upper Peninsula. Middle Zone: That portion of the Lower Peninsula north of a line beginning at the Wisconsin border in Lake Michigan due west of the mouth of Stony Creek in Oceana County; then due east to, and easterly and southerly along the south shore of Stony Creek to Scenic Drive, easterly and southerly along Scenic Drive to Stony Lake Road, easterly along Stony Lake and Garfield Roads to Michigan Highway 20, east along Michigan 20 to U.S. Highway 10 Business Route (BR) in the city of Midland, east along U.S. 10 BR to U.S. 10, east along U.S. 10 to Interstate Highway 75/U.S. Highway 23, north along I–75/U.S. 23 to the U.S. 23 exit at Standish, east along U.S. 23 to Shore Road in Arenac County, east along Shore Road to the tip of Point Lookout, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canada border.

South Zone: The remainder of Michigan.

Minnesota

Twin Cities Metropolitan Canada Goose Zone—

A. All of Hennepin and Ramsey Counties.

B. In Anoka County, all of Columbus Township lying south of County State Aid Highway (CSAH) 18, Anoka County; all of the cities of Ramsey, Andover, Anoka, Coon Rapids, Spring Lake Park, Fridley, Hilltop, Columbia Heights, Blaine, Lexington, Circle Pines, Lino Lakes, and Centerville; and all of the city of Ham Lake except that portion lying north of CSAH 18 and east of U.S. Highway 65.

C. That part of Carver County lying north and east of the following described line: Beginning at the northeast corner of San Francisco Township; thence west along the north boundary of San Francisco Township to the east boundary of Dahlgren Township; thence north along the east boundary of Dahlgren Township to U.S. Highway 212; thence west along U.S. Highway 212 to State Trunk Highway (STH) 284; thence north on STH 284 to County State Aid Highway (CSAH) 10; thence north and west on CSAH 10 to CSAH 30; thence north and west on CSAH 30 to STH 25; thence east and north on STH 25 to CSAH 10; thence north on CSAH 10 to the Carver County line.

D. In Scott County, all of the cities of Shakopee, Savage, Prior Lake, and Jordan, and all of the Townships of Jackson, Louisville, St. Lawrence, Sand Creek, Spring Lake, and Credit River.

F. That portion of Washington County lying south of the following described line: Beginning at County State Aid Highway (CSAH) 2 on the west boundary of the county; thence east on CSAH 2 to U.S. Highway 61; thence south on U.S. Highway 61 to State Trunk Highway (STH) 97; thence east on STH 97 to the intersection of STH 97 and STH 95; thence due east to the east boundary of the State.

Northwest Goose Zone—That portion of the State encompassed by a line extending east from the North Dakota border along U.S. Highway 2 to State Trunk Highway (STH) 32, north along STH 32 to STH 92, east along STH 92 to County State Aid Highway (CSAH) 2 in Polk County, north along CSAH 2 to CSAH 27 in Pennington County, north along CSAH 27 to STH 1, east along STH 1 to CSAH 28 in Pennington County, north along CSAH 28 to CSAH 54 in Marshall County, north along CSAH 54 to CSAH 9 in Roseau County, north along CSAH 9 to STH 11, west along STH 11 to STH 310, and north along STH 310 to the Manitoba border.
near Niagara, then south along U.S. 141 to State Highway 22, west and southwest along State 22 to U.S. 45, south along U.S. 45 to State 22, west and southwest along State 22 to State 110, south along State 110 to U.S. 10, south along U.S. 10 to State 49, south along State 49 to State 23, west along State 23 to State 73, south along State 73 to State 60, west along State 60 to State 23, south along State 23 to State 11, east along State 11 to State 78, then south along State 78 to the Illinois border.

Early-Season Subzone B—The remainder of the State.

Central Flyway

September Canada Goose Kansas City / Topeka Unit—That part of Kansas bounded by a line from the Kansas-Missouri state line west on K–68 to its junction with K–33, then north on K–33 to its junction with US–56, then west on US–56 to its junction with K–31, then west-northwest on K–31 to its junction with K–99, then north on K–99 to its junction with US–24, then east on US–24 to K–63, then north on K–63 to its junction with K–16, then east on K–16 to its junction with K–116, then east on K–116 to its junction with US–59, then northeast on US–59 to its junction with the Kansas-Missouri line, then south on the Kansas-Missouri line to its junction with K–68.

September Canada Goose Wichita Unit—That part of Kansas bounded by a line from I–135 west on US 50 to its junction with Burmac Road, then south on Burmac Road to its junction with 279 Street West (Sedgwick/Harvey County line), then south on 279 Street West to its junction with K–96, then east on K–96 to its junction with K–296, then south on K–296 to it junction with 247 Street West, then south on 247 Street West to its junction with US–54, then west on US–54 to its junction with 263 Street West, then south on 263 Street West to its junction with K–49, then south on K–49 to its junction with 90 Avenue North, then east on 90 Avenue North to its junction with KS–55, then east on KS–55 to its junction with KS–15, then east on KS–15 to its junction with US–77, then north on US–77 to its junction with Ohio Street, then north on Ohio Street to its junction with KS–254, then east on KS–254 to its junction with KS–196, then northwest on KS–196 to its junction with I–135, then north on I–135 to its junction with US–50.

South Dakota

September Canada Goose North Unit—Clark, Coddington, Day, Deuel, Grant, Hamlin, Marshall, and Roberts County.

September Canada Goose South Unit—Beadle, Brookings, Hanson, Kingsbury, Lake, Lincoln, McCook, Miner, Minnehaha, Moody, Sanborn, and Turner Counties.

Pacific Flyway

Idaho

East Zone—Bonneville, Caribou, Fremont, and Teton Counties.

Oregon

Northwest Zone—Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Polk, Multnomah, Tillamook, Washington, and Yamhill Counties.

Southwest Zone—Coos, Curry, Douglas, Jackson, Josephine, and Klamath Counties.

East Zone—Baker, Gilliam, Malheur, Morrow, Sherman, Umatilla, Union, and Wasco Counties.

Washington

Southwest Zone—Clark, Cowlitz, Pacific, and Wahkiakum Counties.

East Zone—Asotin, Benton, Columbia, Garfield, Klickitat, and Whitman Counties.

Wyoming

Bear River Area—That portion of Lincoln County described in State regulations.

Salt River Area—That portion of Lincoln County described in State regulations.

Farsen-Edon Area—Those portions of Sweetwater and Sublette Counties described in State regulations.

Teton Area—Those portions of Teton County described in State regulations.

Bridger Valley Area—The area described as the Bridger Valley Hunt Unit in State regulations.

Ducks

Atlantic Flyway

New York

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone: That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone: That area west of a line extending from Lake Ontario east along

Tennessee

Middle Tennessee Zone—Those portions of Houston, Humphreys, Montgomery, Perry, and Wayne Counties east of State Highway 13; and Bedford, Cannon, Cheatham, Coffee, Davidson, Dickson, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Moore, Robertson, Rutherford, Smith, Sumner, Trousdale, Williamson, and Wilson Counties.

Wisconsin

Early-Season Subzone A—That portion of the State encompassed by a line beginning at the intersection of U.S. Highway 141 and the Michigan border

September Canada Goose Goose Zone / Northwestern Zone—Those portions of the State encompassed by a line from the Kansas-Missouri state line west on K–68 to its junction with K–33, then north on K–33 to its junction with US–56, then west on US–56 to its junction with K–31, then west-northwest on K–31 to its junction with K–99, then north on K–99 to its junction with US–24, then east on US–24 to K–63, then north on K–63 to its junction with K–16, then east on K–16 to its junction with K–116, then east on K–116 to its junction with US–59, then northeast on US–59 to its junction with the Kansas-Missouri line, then south on the Kansas-Missouri line to its junction with K–68.

September Canada Goose Goose Zone / Northeast Zone—Those portions of the State encompassed by a line from I–135 west on US 50 to its junction with Burmac Road, then south on Burmac Road to its junction with 279 Street West (Sedgwick/Harvey County line), then south on 279 Street West to its junction with K–96, then east on K–96 to its junction with K–296, then south on K–296 to it junction with 247 Street West, then south on 247 Street West to its junction with US–54, then west on US–54 to its junction with 263 Street West, then south on 263 Street West to its junction with K–49, then south on K–49 to its junction with 90 Avenue North, then east on 90 Avenue North to its junction with KS–55, then east on KS–55 to its junction with KS–15, then east on KS–15 to its junction with US–77, then north on US–77 to its junction with Ohio Street, then north on Ohio Street to its junction with KS–254, then east on KS–254 to its junction with KS–196, then northwest on KS–196 to its junction with I–135, then north on I–135 to its junction with US–50.

South Dakota

September Canada Goose North Unit—Clark, Coddington, Day, Deuel, Grant, Hamlin, Marshall, and Roberts County.

September Canada Goose South Unit—Beadle, Brookings, Hanson, Kingsbury, Lake, Lincoln, McCook, Miner, Minnehaha, Moody, Sanborn, and Turner Counties.

Pacific Flyway

Idaho

East Zone—Bonneville, Caribou, Fremont, and Teton Counties.

Oregon

Northwest Zone—Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Polk, Multnomah, Tillamook, Washington, and Yamhill Counties.

Southwest Zone—Coos, Curry, Douglas, Jackson, Josephine, and Klamath Counties.

East Zone—Baker, Gilliam, Malheur, Morrow, Sherman, Umatilla, Union, and Wasco Counties.

Washington

Southwest Zone—Clark, Cowlitz, Pacific, and Wahkiakum Counties.

East Zone—Asotin, Benton, Columbia, Garfield, Klickitat, and Whitman Counties.

Wyoming

Bear River Area—That portion of Lincoln County described in State regulations.

Salt River Area—That portion of Lincoln County described in State regulations.

Farsen-Edon Area—Those portions of Sweetwater and Sublette Counties described in State regulations.

Teton Area—Those portions of Teton County described in State regulations.

Bridger Valley Area—The area described as the Bridger Valley Hunt Unit in State regulations.

Ducks

Atlantic Flyway

New York

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone: That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone: That area west of a line extending from Lake Ontario east along
the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania border.

Northeastern Zone: That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, south along I–81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (at Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone: The remaining portion of New York.

Mississippi Flyway

Indiana

North Zone: That portion of the State north of a line extending east from the Illinois border along State Road 18 to U.S. Highway 31, north along U.S. 31 to U.S. 24, east along U.S. 24 to Huntington, then southeast along U.S. 224 to the Ohio border.

Ohio River Zone: That portion of the State south of a line extending east from the Illinois border along Interstate Highway 64 to New Albany, east along State Road 62 to State 56, east along State 56 to Vevay, east and north on State 156 along the Ohio River to North Landing, north along State 56 to U.S. Highway 50, then northeast along U.S. 50 to the Ohio border.

South Zone: That portion of the State between the North and Ohio River Zone boundaries.

Iowa

North Zone: That portion of the State north of a line extending east from the Nebraska border along State Highway 175 to State 37, southeast along State 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I–80 to the Illinois border.

South Zone: The remainder of Iowa.

Central Flyway

Colorado

Special Teal Season Area: Lake and Chaffee Counties and that portion of the State east of a line extending east from the Wyoming border, south along U.S. 85 to I–76, south along I–76 to I–25, south along I–25 to the New Mexico border.

Kansas

High Plains Zone: That portion of the State west of U.S. 283.

Low Plains Early Zone: That portion of the State east of the High Plains Zone and west of a line extending south from the Nebraska border along KS 28 to U.S. 36, east along U.S. 36 to KS 199, south along KS 199 to Republic County Road 563, south along Republic County Road 563 to KS 148, east along KS 148 to Republic County Road 138, south along Republic County Road 138 to Cloud County Road 765, south along Cloud County Road 765 to KS 9, west along KS 9 to U.S. 24, west along U.S. 24 to U.S. 59, north along U.S. 281 to U.S. 36, west along U.S. 36 to U.S. 183, south along U.S. 183 to U.S. 24, west along U.S. 24 to KS 18, southeast along U.S. 183 to KS 4, east along KS 4 to I–135, south along I–135 to KS 61, southwest along KS 61 to KS 96, northwest on KS 96 to U.S. 56, west along U.S. 56 to U.S. 281, south along U.S. 281 to U.S. 54, then west along U.S. 54 to U.S. 283.

Low Plains Late Zone: The remainder of Kansas.

Nebraska

Special Teal Season Area: That portion of the State south of a line beginning at the Wyoming State line; east along U.S. 26 to Nebraska Highway 92; east along Nebraska Highway 92 to Nebraska Highway 61; south along Nebraska Highway 61 to U.S. 30; east along U.S. 30 to the Iowa border.

New Mexico (Central Flyway Portion)

North Zone: That portion of the State north of I–40 and U.S. 54.

South Zone: The remainder of New Mexico.

Pacific Flyway

California

Northeastern Zone: That portion of the State east and north of a line beginning at the Oregon border; south and west along the Klamath River to the mouth of Shovel Creek; south along Shovel Creek to Forest Service Road 46N10; south and east along FS 46N10 to FS 45N22; west and south along FS 45N22 to U.S. 97 at Grass Lake Summit; south and west along U.S. 97 to I–5 at the town of Weed; south along I–5 to CA 89; east and south along CA 89 to the junction with CA 49; east and north on CA 49 to CA 70; east on CA 70 to U.S. 395; south and east on U.S. 395 to the Nevada border.

Coloradan River Zone: Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada border south along U.S. 95 to Vidal Junction; south on a road known as “Aqueduct Road” in San Bernardino County through the town of Rice to the San Bernardino-Riverside County line; south on a road known in Riverside County as the “Desert Center to Rice Road” to the town of Desert Center; east 31 miles on I–10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the OIlby and Tumco Mine Road; south on this road to U.S. 80; east 7 miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican border at Algodones, Mexico.

Southern Zone: That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I–15; east on I–15 to CA 127; north on CA 127 to the Nevada border.

Southern San Joaquin Valley Temporary Zone: All of Kings and Tulare Counties and that portion of Kern County north of the Southern Zone.

Canada Geese

Michigan

North Zone: The Upper Peninsula.

Middle Zone: That portion of the Lower Peninsula north of a line beginning at the Wisconsin border in Lake Michigan due west of the mouth of Stony Creek in Oceana County; then due east to, and easterly and southerly along the south shore of, Stony Creek to Scenic Drive, easterly and southerly along Scenic Drive to Stony Lake Road, easterly along Stony Lake and Garfield Roads to Michigan Highway 20, east along Michigan 20 to U.S. Highway 10 Business Route (BR) in the city of Midland, east along U.S. 10 BR to U.S. 10, east along U.S. 10 to Interstate Highway 75/U.S. Highway 23, north along I–75/U.S. 23 to the U.S. 23 exit at Standish, east along U.S. 23 to Shore Road in Arenac County, east along Shore Road to the tip of Point Lookout, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canada border.

South Zone: The remainder of Michigan.
Sandhill Cranes

Central Flyway

Colorado

Regular-Season Open Area—The Central Flyway portion of the State except the San Luis Valley (Alamosa, Conejos, Costilla, Hinsdale, Mineral, Rio Grande, and Saguache Counties east of the Continental Divide) and North Park (Jackson County).

Kansas

Regular Season Open Area—That portion of the State west of a line beginning at the Oklahoma border, north on I–35 to Wichita, north on I–135 to Salina, and north on U.S. 81 to the Nebraska border.

New Mexico

Regular-Season Open Area—Chaves, Curry, De Baca, Eddy, Lea, Quay, and Roosevelt Counties.

Middle Rio Grande Valley Area—The Central Flyway portion of New Mexico in Socorro and Valencia Counties.

Southwest Zone—Sierra, Luna, and Dona Ana Counties.

Oklahoma

Regular-Season Open Area—That portion of the State west of I–35.

Texas

Regular-Season Open Area—That portion of the State west of a line from the International Toll Bridge at Brownsville along U.S. 77 to Victoria; U.S. 87 to Pharr; Farm Road 616 to Blessing; State 35 to Alvin; State 6 to U.S. 290; U.S. 290 to Austin; I–35 to the Texas-Oklahoma border.

North Dakota

Regular-Season Open Area—That portion of the State west of U.S. 281.

South Dakota

Regular-Season Open Area—That portion of the State west of U.S. 281.

Montana

Regular-Season Open Area—The Central Flyway portion of the State except that area south of I–90 and west of the Bighorn River.

Wyoming

Regular-Season Open Area—Campbell, Converse, Crook, Goshen, Laramie, Niobrara, Platte, and Weston Counties.

Riverton-Boysen Unit—Portions of Fremont County.

Park and Big Horn County Unit—Portions of Park and Big Horn Counties.

Pacific Flyway

Arizona

Special-Season Area—Game Management Units 30A, 30B, 31, and 32.

Montana

Special-Season Area—See State regulations.

Utah

Special-Season Area—Rich and Cache Counties and that portion of Box Elder County beginning on the Utah-Idaho State line at the Box Elder-Cache County line; west on the State line to the Pocatello Valley County Road; south on the Pocatello Valley County Road to I–15; southeast on I–15 to SR–83; south on SR–83 to Lamp Junction; west and south on the Promontory Point County Road to the tip of Promontory Point; south from Promontory Point to the Box Elder-Weber County line; east on the Box Elder-Weber County line to the Box Elder-Cache County line; north on the Box Elder-Cache County line to the Utah-Idaho State line.

Wyoming

Bear River Area—That portion of Lincoln County described in State regulations.

Eden-Farson Area—That portion of Lincoln County described in State regulations.

El Verde Closure Area—Those portions of Sweetwater and Sublette Counties described in State regulations.

All Migratory Game Birds in Alaska

North Zone—State Game Management Units 11–13 and 17–26.

Gulf Coast Zone—State Game Management Units 5–7, 9, 14–16, and 10—Unimak Island only.

Southeast Zone—State Game Management Units 1–4.

Pribilof and Alouint Islands Zone—State Game Management Unit 10—except Unimak Island.

Kodiak Zone—State Game Management Unit 8.

All Migratory Birds in the Virgin Islands

Ruth Cay Closure Area—The island of Ruth Cay, just south of St. Croix.

All Migratory Birds in Puerto Rico

Municipality of Culebra Closure Area—All of the municipality of Culebra.

Desecheo Island Closure Area—All of Desecheo Island.

Mona Island Closure Area—All of Mona Island.

El Verde Closure Area—Those areas of the municipalities of Rio Grande and Loiza delineated as follows: (1) All lands between Routes 956 on the west and 186 on the east, from Route 3 on the north to the juncture of Routes 956 and 186 (Km 13.2) in the south; (2) all lands between Routes 186 and 966 from the juncture of 186 and 966 on the north, to the Caribbean National Forest Boundary on the south; (3) all lands lying west of Route 186 for 1 kilometer from the juncture of Routes 186 and 956 south to Km 6 on Route 186; (4) all lands within Km 14 and Km 6 on the west and the Caribbean National Forest Boundary on the east; and (5) all lands within the Caribbean National Forest Boundary whether private or public.

Cidra Municipality and adjacent areas—All of Cidra Municipality and portions of Aguas Buenas, Caguas, Cayey, and Comerio Municipalities as encompassed within the following boundary: beginning on Highway 172 as it leaves the municipality of Cidra on the west edge, north to Highway 156, east on Highway 156 to Highway 1, south on Highway 1 to Highway 765, south on Highway 765 to Highway 763, south on Highway 763 to the Rio Guavate, west along Rio Guavate to Highway 1, southwest on Highway 1 to Highway 14, west on Highway 14 to Highway 729, north on Highway 729 to Cidra Municipality boundary to the point of the beginning.
