involve unique or unknown environmental risks.
3. Approval of the HCP would not result in any significant adverse effects on public health or safety.
4. The project does not require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), or the Fish and Wildlife Coordination Act, nor does it threaten to violate a Federal, State, local, or tribal law or requirement imposed for protection of the environment.
5. Approval of the HCP would not establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.

The Service has therefore determined that approval of the HCP qualifies as a categorical exclusion under NEPA, as provided by the Department of the Interior Manual (516 DM 2, Appendix 1 and 516 DM 6, Appendix 1). No further NEPA determination will therefore be prepared.

The Service will evaluate the HCP and comments submitted thereto to determine whether the application meets the requirements of Section 10(a) of the Act. If it is determined that those requirements are met, an ITP will be issued for the incidental taking of fish. The Service will also evaluate whether the issuance of a Section 10(a)(1)(B) ITP complies with Section 7 of the Act by conducting an in-house consultation. The results of the consultation, in combination with the above findings, will be used in the final analysis to determine whether or not to issue the ITP.

H. Dale Hall,
Acting Regional Director.

Notice of Meeting

AGENCY: Fish and Wildlife Service, Interior

ACTION: Notice of meeting.

SUMMARY: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. 1), this notice announces a meeting of the Klamath Fishery Management Council, established under the authority of the Klamath River Basin Fishery Resources Restoration Act (16 U.S.C. 460ss et seq.). The Klamath Fishery Management Council makes recommendations to agencies that regulate harvest of anadromous fish in the Klamath River Basin. The objective of this meeting is to review the progress of the 2000 Klamath Chinook salmon fishing season and plan for fishery management in 2001. The meeting is open to the public.

DATES: The Klamath Fishery Management Council will meet from 1:00 p.m. to 5:00 p.m. on Wednesday, October 25, 2000; from 8:00 a.m. to 5:00 p.m. on Thursday, October 26, 2000; and from 8:00 a.m. to 12:00 p.m. on Friday, October 27, 2000.

PLACE: The meeting will be held at the Yreka Fish and Wildlife Office, 1829 South Oregon Street, Yreka, California.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald A. Iverson, Project Leader, U.S. Fish and Wildlife Service, 1829 South Oregon Street, Yreka, California 96097, telephone (530) 842–5763.

SUPPLEMENTARY INFORMATION: For background information on the Klamath Council, please refer to the notice of their initial meeting that appeared in the Federal Register on July 8, 1987 (52 FR 25639).

Elizabeth H. Stevens.

Geological Survey

Request for Public Comments on Information Collection Submitted to the Office of Management and Budget for Review Under the Paperwork Reduction Act

A request extending the information collection described has been submitted to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). Copies of the proposed collection instrument may be obtained by contacting the USGS clearance officer at the phone number listed below. OMB has up to 60 days to approve or disapprove the information collection, but may respond after 30 days; therefore, public comments should be submitted to OMB within 30 days in order to assure their maximum consideration. Comments and suggestions for the proposal should be made directly to the Desk Officer for the Interior Department, Office of Regulatory Affairs, OMB, Washington, DC 20503 and to the USGS Clearance Officer, U.S. Geological Survey, 807 National Center, 12201 Sunrise Valley Drive, Reston, Virginia, 20192. Telephone 703–648–7313.

Specific public comments are requested as to:
1. Whether the collection of information is necessary for the proper performance of the functions on the USGS, including whether the information will have practical utility;
2. The accuracy of the USGS estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
3. The quality, utility, and clarity of the information to be collected; and
4. How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other forms of information technology.

Title: National Atlas of the United States of America.

Current OMB approval number: 1028–0057.

Abstract: Potential customers of electronic national atlas products will be asked questions that provide (1) potential uses of these products; (2) type of personal computer used; (3) current method of acquiring atlas-type information; (4) demographic information; and (5) personal expectations from the products. Survey questionnaires will be distributed by mail in a return postage-paid format and via the World Wide Web. Focus groups will be held at various locations across the United States and could include prototype product testing. Software usability studies will be conducted at various locations and will result in the development of products that are easier to use. Customer information gathered from the questionnaires, focus groups, and usability studies will be used to evaluate the National Atlas of the United States products and to make development adjustments based on customer responses. The proposed collection is limited in scope to the National Atlas products and to the capability of the products to meet customer needs. The USGS intends to develop a cooperative research and development agreement with private industry to assist in product development and to provide an additional avenue for product distribution.

Bureau form number: None.

Frequency: An estimated 2–3 surveys, and 2–5 focus groups studies per year to evaluate potential customer segments and reactions.
