**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Notice of Receipt of Application for Permit; Correction**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice: Correction.

**SUMMARY:** We published a notice on October 26, 2000, (65 FR 64230) identifying the population where the polar bear was harvested as Cambridge Bay population. The correct application request is for a bear harvested from the M’Clintock Channel population.

**DATES:** We will accept comments on this notice on or before October 26, 2000.

**ADDRESSES:** Written data or comments should be submitted to the Director, U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203 and must be received by the Director within 30 days of the date of this publication.

**FOR FURTHER INFORMATION CONTACT:** Charlie Chandler (800) 358–2104. Division of Management Authority, U.S. Fish and Wildlife Service.

**SUPPLEMENTARY INFORMATION:** On October 26, 2000, we published a notice requesting comment on the receipt of an application for a permit from Phil Manucco to import a polar bear (*Ursus maritimus*) sport-hunted from the Cambridge Bay population in Canada for personal use. The correct application request is for a bear harvested from the M’Clintock Channel population.

**Dated:** December 20, 2000.

Anna Barry, Branch of Permits, Division of Management Authority. [FR Doc. 00–32938 Filed 12–26–00; 8:45 am] BILLING CODE 4310–55–M

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

**Notice of Receipt of Application for Approval**

The following applicant has applied for approval to conduct certain activities with birds that are protected in accordance with the Wild Bird Conservation Act of 1992. This notice is provided pursuant to section 112(4) of the Wild Bird Conservation Act of 1992, 50 CFR 15.26(c).

**Applicant:** Mr. Jerry Jennings, Fallbrook, California, on behalf of the Toucan Preservation Center (CB006). The applicant wishes to amend approved cooperative breeding program CB006 to include Red-billed toucan (*Ramphastos tucanus tucanus*). The Toucan Preservation Center maintains responsibility for oversight of this program.

**Dated:** December 20, 2000.

Anna Barry, Branch of Permits, Division of Management Authority. [FR Doc. 00–32938 Filed 12–26–00; 8:45 am] BILLING CODE 4310–55–M

**Restrictions on Use of Public Lands**

**AGENCY:** Bureau of Land Management, Palm Springs-South Coast Field Office, Desert District, California, Department of the Interior.

**ACTION:** Notice-temporary closure of public lands to motorized vehicles.

**SUMMARY:** In compliance with title 43 Code of Federal Regulations (CFR), subpart 8341.2(a), notice is hereby given that the Bureau of Land Management (BLM) prohibits persons from operating motor vehicles on public lands within the Windy Point areas, Riverside County. The public lands hereby closed to motorized vehicles include all such lands within ¼ E Section 14, Section 22, Section 23, and W ½ / NE ¼ Section 24, Township 3S, Range 3E. This closure shall be in effect year-round from January 31, 2001 until completion of the Coachella Valley Multiple Species Habitat and Natural Communities Conservation Management Plan, which addresses all aspects of the habitat use, including any restrictions to motorized vehicles.

**SUPPLEMENTARY INFORMATION:** On September 25, 1980, the U.S. Department of the Interior Fish and Wildlife Service (USFWS) listed the Coachella Valley Fringe-toed Lizard (CVFTL), as “threatened” under the authority of the Endangered Species Act (ESA) of 1973, as amended. The State of California Fish and Game Commission designated the CVFTL as “endangered”.

These listings were prompted by the USFWS, California Department of Fish and Game, and CVFTL biologists/researchers’ concerns that the lizards’ historical range was being rapidly reduced by agricultural and urban development, along with the presence of off-highway vehicles.

The CVFTL is specially adapted to live in an environment of wind blown (aelian) sand. The lizard’s body shape, such as wedge-shaped nose and fringed toes, allow it to run easily over the sand and into loose surface to evade predators or the heat of the desert surface. In addition, insects and some plant material in the blowsand...
