programs and program amendments submitted by the States must be based solely on a determination of whether the submittal is consistent with SMCRA and its implementing Federal regulations and whether the other requirements of 30 CFR Parts 730, 731, and 732 have been met.

**National Environmental Policy Act**

This rule does not require an environmental impact statement because Section 702(d) of SMCRA (30 U.S.C. 1292[d]) provides that agency decisions on proposed State regulatory program provisions do not constitute major Federal actions within the meaning of Section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4332[2][C]).

**Paperwork Reduction Act**

This rule does not contain information collection requirements that require approval by OMB under the Paperwork Reduction Act (44 U.S.C. 3507 et seq.).

**Regulatory Flexibility Act**

The Department of the Interior has determined that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). The State submittal that is the subject of this rule is based upon counterpart Federal regulations for which an economic analysis was prepared and certification made that such regulations would not have a significant economic effect upon a substantial number of small entities. Accordingly, this rule will ensure that existing requirements previously promulgated by OSM will be implemented by the State. In making the determination as to whether this rule would have a significant economic impact, the Department relied upon the data and assumptions for the counterpart Federal regulations.

**Small Business Regulatory Enforcement Fairness Act**

This rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. This rule: a. does not have an annual effect on the economy of $100 million; b. will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; and c. does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S. based enterprises to compete with foreign-based enterprises.

This determination is based upon the fact that the State submittal which is the subject of this rule is based upon counterpart Federal regulations for which an analysis was prepared and a determination made that the Federal regulation was not considered a major rule.

**Unfunded Mandates**

OSM has determined and certifies under the Unfunded Mandates Reform Act (2 U.S.C. 1502 et seq.) that this rule will not impose a cost of $100 million or more in any given year on any local, State, or Tribal governments or private entities.

**List of Subjects in 30 CFR Part 926**

Intergovernmental relations, Surface mining, Underground mining.

Brent Wahlquist,
Regional Director, Western Regional Coordinating Center.

For the reasons set out in the preamble, 30 CFR 926 is amended as set forth below:

## PART 926—MONTANA

1. The authority citation for part 926 continues to read as follows:

   Authority: 30 U.S.C. 1201 et seq.

2. Section 926.15 is amended in the table by adding a new entry in chronological order by “Date of Final Publication” to read as follows:

<table>
<thead>
<tr>
<th>Original amendment submission date</th>
<th>Date of final publication</th>
<th>Citation/description</th>
</tr>

36 CFR Part 242

## DEPARTMENT OF THE INTERIOR

**Fish and Wildlife Service**

50 CFR Part 100

RIN 1018–AH85

**Subsistence Management Regulations for Public Lands in Alaska**

**AGENCY:** Forest Service, Agriculture; Fish and Wildlife Service, Interior.

**ACTION:** Interim rule.

**SUMMARY:** This rule amends the operating regulations of the Federal Subsistence Management Program in Alaska by expanding the authority that the Board may delegate to agency field officials and clarifying the procedures for enacting emergency or temporary restrictions, closures, or openings.

**DATES:** This rule is effective May 1, 2001. Comments on this rule must be received by August 13, 2001.

**ADDRESSES:** Submit written comments to Office of Subsistence Management, 3601 C Street, Suite 1030, Anchorage, AK 99503. Submit electronic comments to Bill_Knauer@fws.gov. Please submit as either WordPerfect or MS Word files, avoiding the use of any special characters and any form of encryption.

**FOR FURTHER INFORMATION CONTACT:** Chair, Federal Subsistence Board, c/o U.S. Fish and Wildlife Service, Thomas H. Boyd, (907) 786–3888. For questions specific to National Forest System lands, contact Ken Thompson, Regional Subsistence Program Manager, USDA, Forest Service, Alaska Region, (907) 271–2540.

**SUPPLEMENTARY INFORMATION:**

**Background**

Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126) requires that the Secretary of the Interior and the Secretary of Agriculture (Secretaries) implement a joint program to grant a preference for subsistence uses of fish and wildlife resources on public lands, unless the State of Alaska...
enacts and implements laws of general applicability that are consistent with ANILCA and that provide for the subsistence definition, preference, and participation specified in Sections 803, 804, and 805 of ANILCA. The State implemented a program that the Department of the Interior previously found to be consistent with ANILCA. However, in December 1989, the Alaska Supreme Court ruled in McDowell v. State of Alaska that the rural preference in the State subsistence statute violated the Alaska Constitution. The Court’s ruling in McDowell required the State to delete the rural preference from the subsistence statute and, therefore, negated State compliance with ANILCA. The Court stayed the effect of the decision until July 1, 1990.

As a result of the McDowell decision, the Department of Agriculture (Departments) assumed, on July 1, 1990, responsibility for implementation of Title VIII of ANILCA on public lands. On June 29, 1990, the Temporary Subsistence Management Regulations for Public Lands in Alaska were published in the Federal Register (55 FR 27114–27170). On January 8, 1999, (64 FR 1276), the Departments extended jurisdiction to include waters in which there exists a Federal reserved water right. This amended rule conformed the Federal Subsistence Management Program to the Ninth Circuit’s ruling in Alaska v. Babbitt. Consistent with Subparts A, B, and C of these regulations, the Departments established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board’s composition includes a Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; the Alaska Regional Director, U.S. National Park Service; the Alaska State Director, U.S. Bureau of Land Management; the Alaska Regional Director, U.S. Bureau of Indian Affairs; and the Alaska Regional Forester, USDA Forest Service. Through the Board, these agencies participate in the development of regulations for Subparts A, B, and C, and the annual Subpart D regulations. All Board members have reviewed this rule and agree with its substance.

Federal Subsistence Regional Advisory Councils

Alaska has been divided into ten subsistence resource regions, each of which is represented by a Federal Subsistence Regional Advisory Council. The Regional Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Alaska public lands. The Regional Council members represent geographical, cultural, and user diversity within each region.

Summary of Changes

Based on our analysis of public and agency concerns expressed over the last year, including the need for clarification in some sections, we have made the following revisions:

Section 8.6(a)(1)—Clarified that you must be an Alaska resident (but do not need a State license) to take fish or shellfish under the Federal Subsistence Management regulations;

Section 8.10(d)(6)—Expanded the authority that the Board may delegate to field officials to include possession limits, methods or means of harvest, and permit requirements.

Section 8.19—Reorganized this section and clarified what circumstances warrant a request for a Special Action; and,

Section 8.20—Clarified what circumstances warrant a Request for Reconsideration.

Nothing in this rule is intended to change the underlying rural priority that is set out in Title VIII of ANILCA or otherwise amend the statutory basis of the Federal Subsistence Management Program. Although most sections of these regulations are not being amended, for the purpose of clarity and ease of understanding, the entire text of subparts A, B, and C is being printed. The unpublished sections (portions of subpart C and Sections 8.25, 8.26, 8.27, and 8.28) relate to wildlife, fish, and shellfish regulations that are revised annually. Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical text is incorporated into 36 CFR Part 242 and 50 CFR Part 100.

The primary purpose of this rulemaking action is to delegate additional authority from the Board to local officials to make conservation decisions. We are publishing an interim rule because there is inadequate time to engage in notice-and-comment rulemaking prior to the start of the spring/summer salmon runs. Many of these runs, particularly on the Yukon and Kuskokwim Rivers, were the lowest in history last year and are expected to be very low again this season. As such, the ability to make immediate (often within hours) decisions relative to a specific run or pulse of fish is critical in protecting the health of the population while, if at all possible, providing a subsistence opportunity for the rural residents. The changes that are included in this rule have previously been discussed and supported in the public forum of Regional Council meetings around the State. Without this local regulatory authority, the continued viability of fishery populations could be seriously impacted, as well as future subsistence opportunities for rural Alaskans. This situation would generally fail to serve the overall public interest.

The Board, therefore, finds good cause under 5 U.S.C. 553(b)(3)(B) and (d)(3) (the Administrative Procedure Act) to promulgate this rule without prior notice and public procedure and to make this rule effective May 1, 2001.

Conformance with Statutory and Regulatory Authorities

National Environmental Policy Act Compliance—A Draft Environmental Impact Statement (DEIS) that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. That document described the major issues associated with Federal subsistence management as identified through public meetings, written comments and staff analysis and examined the environmental consequences of the four alternatives. Proposed regulations (Subparts A, B, and C) that would implement the preferred alternative were included in the DEIS as an appendix. The DEIS and the proposed administrative regulations presented a framework for an annual regulatory cycle regarding subsistence hunting and fishing regulations (Subpart D). The Final Environmental Impact Statement (FEIS) was published on February 28, 1992.

Based on the public comment received, the analysis contained in the FEIS, and the recommendations of the Federal Subsistence Board and the Department of the Interior’s Subsistence Policy Group, it was the decision of the Secretary of the Interior, with the concurrence of the Secretary of Agriculture, through the U.S. Department of Agriculture-Forest Service, to implement Alternative IV as identified in the DEIS and FEIS (Record of Decision on Subsistence Management for Federal Public Lands in Alaska (ROD), signed April 6, 1992). The DEIS and the selected alternative in the FEIS defined the administrative framework of an annual regulatory cycle for subsistence hunting and fishing regulations. The final rule for

An environmental assessment has been prepared on the expansion of Federal jurisdiction over fisheries and is available by contacting the office listed under FOR FURTHER INFORMATION CONTACT. The Secretary of the Interior with the concurrence of the Secretary of Agriculture has determined that the expansion of Federal jurisdiction does not constitute a major Federal action, significantly effecting the human environment and has, therefore, signed a Finding of No Significant Impact.

Compliance with Section 810 of ANILCA—A Section 810 analysis was completed as part of the FEIS process on the Federal Subsistence Management Program. The intent of all Federal subsistence regulations is to accord subsistence uses of fish and wildlife on public lands a priority over the taking of fish and wildlife on such lands for other purposes, unless restriction is necessary to conserve healthy fish and wildlife populations. The final Section 810 analysis determination appeared in the April 6, 1992, ROD which concluded that the Federal Subsistence Management Program, under Alternative IV with an annual process for setting hunting and fishing regulations, may have some local impacts on subsistence uses, but it does not appear that the program may significantly restrict subsistence uses.

During the environmental assessment process, an evaluation of the effects of this rule was also conducted in accordance with Section 810. This evaluation supports the Secretaries’ determination that the Final Rule will not reach the “may significantly restrict” threshold for notice and hearings under ANILCA Section 810(a) for any subsistence resources or uses. Paperwork Reduction Act—This rule contains information collection requirements subject to Office of Management and Budget (OMB) approval under the Paperwork Reduction Act of 1995. It applies to the use of public lands in Alaska. The information collection has been approved by OMB, Control Number 1018–0075, which expires July 31, 2003.

Currently, information is being collected by the use of a Federal Subsistence Registration Permit and Designation Application. The information collected on these two permits establishes whether an applicant qualifies to participate in a Federal subsistence hunt on public land in Alaska and provides a report of harvest and the location of harvest. The collected information is necessary to determine harvest success, harvest location, and population health in order to make management decisions relative to the conservation of healthy wildlife populations. Additional harvest information is obtained from harvest reports submitted to the State of Alaska. The recordkeeping burden for this aspect of the program is negligible (1 hour or less). This information is accessed via computer data base. The current overall annual burden of reporting and recordkeeping is estimated to average 0.25 hours per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. The estimated number of likely respondents under the existing rule is less than 5,000, yielding a total annual reporting and recordkeeping burden of 1,250 hours or less.

The collection of information under this rule will be achieved through the use of a Federal Subsistence Registration Permit Application, which would be the same form as currently approved and used for the hunting program. This information will establish whether the applicant qualifies to participate in a Federal subsistence fishery on public land in Alaska and will provide a report of harvest and location of harvest.

The likely respondents to this collection of information are rural Alaska residents who wish to participate in specific subsistence fisheries on Federal land. The collected information is necessary to determine harvest success and harvest location in order to make management decisions relative to the conservation of healthy fish populations. The annual burden of reporting and recordkeeping is estimated to average 0.50 hours per response, including time for reviewing instructions, gathering and maintaining data, and completing and reviewing the form. The estimated number of likely respondents under this rule is less than 10,000, yielding a total annual reporting and recordkeeping burden of 5,000 hours or less.

You may direct comments on the burden estimate or any other aspect of this form to: Information Collection Officer, U.S. Fish and Wildlife Service, 1849 C Street, NW. MS 222 ARLSQ, Washington, DC 20240; and the Office of Management and Budget, Department of the Interior Desk Officer, 725 17th Street, NW., Washington, DC 20503. Additional information collection requirements may be imposed if local advisory committees subject to the Federal Advisory Committee Act are established under subpart B. Such requirements will be submitted to OMB for approval prior to their implementation.

Clarity of the Rule

Executive Order 12866 requires each agency to write regulations that are easy to understand. We invite your comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (A “section” appears in bold type and is preceded by the symbol “§” and a numbered heading; for example, § .24 Customary and traditional determinations.) (5) Is the description of the rule in the SUPPLEMENTARY INFORMATION section of the preamble helpful in understanding the rule? What else could we do to make the rule easier to understand? Send a copy of any comments that concern how we could make this rule easier to understand to: Office of Regulatory Affairs, Department of the Interior, Room 7229, 1849 C Street, NW., Washington, DC 20240. You may also e-mail the comments to this address: ExecSec@ios.doi.gov.

Economic Effects

This rule is not a significant rule subject to OMB review under Executive Order 12866. This rulemaking will impose no significant costs on small entities; this rule does not restrict any existing sport or commercial fishery on the public lands and subsistence fisheries will continue at essentially the same levels as they presently occur. The exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant positive economic effect on a number of small entities, such as ammunition, snowmachine, fishing tackle, and gasoline dealers. The number of small entities affected is unknown; but, the fact that the positive effects will be seasonal in nature and will, in most cases, merely continue present uses of public lands indicates that they will not be significant.
In general, the resources to be harvested under this rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, it is estimated that 24 million pounds of fish (including 8.3 million pounds of salmon) are harvested by subsistence users annually and, if given an estimated dollar value of $3.00 per pound for salmon and $0.58 per pound for other fish, would equate to about $34 million in food value statewide.

The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 et seq.) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions. The Departments have determined based on the above figures that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. Under the Small Business Regulatory Enforcement Act (5 U.S.C. 801 et seq.), this rule is not a major rule. It does not have an effect on the economy of $100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this program is limited by definition to certain public lands. Likewise, these regulations have no potential takings of private property implications as defined by Executive Order 12630.

The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or state governments or private entities. The implementation of this rule is by Federal agencies and there is no cost imposed on any state or local entities or tribal governments.

The Secretaries have determined that these final regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988.

In accordance with Executive Order 13132, the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the State from exercising subsistence management authority over fish and wildlife resources on Federal lands unless it meets certain requirements.

Drafting Information

These regulations were drafted by William Knauer, Bob Gerhard, and Victor Starosta under the guidance of Thomas H. Boyd, of the Office of Subsistence Management, Alaska Regional Office, U.S. Fish and Wildlife Service, Anchorage, Alaska. Additional guidance was provided by Taylor Brelsford, Alaska State Office, Bureau of Land Management; Sandy Rabinowitch, Alaska Regional Office, National Park Service; Ida Hildebrand, Alaska Area Office, Bureau of Indian Affairs; Greg Bos, Fish and Wildlife Service; and Ken Thompson, USDA-Forest Service.

List of Subjects
36 CFR Part 242
Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

50 CFR Part 100
Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

For the reasons set out in the preamble, the Departments amend Title 36, Part 242, and Title 50, Part 100, of the Code of Federal Regulations, as set forth below.

PART 242—SUBSISTENCE MANAGEMENT REGULATIONS FOR PUBLIC LANDS IN ALASKA

1. The authority citation for both 36 CFR Part 242 and 50 CFR Part 100 continues to read as follows:

2. Revise subparts A and B of 36 CFR part 242 and 50 CFR part 100 to read as follows:

Subpart A—General Provisions

Sec.
.1 Purpose.
.2 Authority.
.3 Applicability and scope.
.4 Definitions.
.5 Eligibility for subsistence use.
.6 Licenses, permits, harvest tickets, tags, and reports.
.7 Restriction on use.
.8 Penalties.
.9 Information collection requirements.

Subpart B—Program Structure

.10 Federal Subsistence Board.
.11 Regional advisory councils.
.12 Local advisory committees.
.13 Board/agency relationships.
.14 Relationship to State procedures and regulations.
.15 Rural determination process.
.16 Customary and traditional use determination process.
.17 Determining priorities for subsistence uses among rural Alaska residents.
.18 Regulation adoption process.
.19 Special actions.
.20 Request for reconsideration.
.21 [Reserved].

§ .1 Purpose.

The regulations in this part implement the Federal Subsistence Management Program on public lands within the State of Alaska.

§ .2 Authority.

The Secretary of the Interior and Secretary of Agriculture issue the regulations in this part pursuant to authority vested in Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA), 16 U.S.C. 3101–3126.

§ .3 Applicability and scope.

(a) The regulations in this part implement the provisions of Title VIII of ANILCA relevant to the taking of fish and wildlife on public lands in the State of Alaska. The regulations in this part do not permit subsistence uses in Glacier Bay National Park, Kenai Fjords National Park, Katmai National Park, and that portion of Denali National Park established as Mt. McKinley National Park prior to passage of ANILCA, where subsistence taking and uses are prohibited. The regulations in this part do not supersede agency-specific regulations.

(b) The regulations contained in this part apply on all public lands including all non-navigable waters located on these lands, on all navigable and non-navigable water within the exterior boundaries of the following areas, and on inland waters adjacent to the exterior boundaries of the following areas:

(1) Alaska Maritime National Wildlife Refuge;
(2) Alaska Peninsula National Wildlife Refuge;
(3) Aniakchak National Monument and Preserve;
(4) Arctic National Wildlife Refuge;
(5) Becharof National Wildlife Refuge;
(6) Bering Land Bridge National Preserve;
(7) Cape Krusenstern National Monument;
(8) Chugach National Forest, excluding marine waters;
(9) Denali National Preserve and the 1980 additions to Denali National Park;
(10) Gates of the Arctic National Park and Preserve;
(11) Glacier Bay National Preserve;
(12) Innoko National Wildlife Refuge;
(13) Izembek National Wildlife Refuge;
(14) Katmai National Preserve;
(15) Kanuti National Wildlife Refuge;
(16) Kenai National Wildlife Refuge;
(17) Kobuk Valley National Park;
(18) Kodiak National Wildlife Refuge;
(19) Koyukuk National Wildlife Refuge;
(20) Lake Clark National Park and Preserve;
(21) National Petroleum Reserve in Alaska;
(22) Noatak National Preserve;
(23) Nowitna National Wildlife Refuge;
(24) Selawik National Wildlife Refuge;
(25) Steese National Conservation Area;
(26) Tetlin National Wildlife Refuge;
(27) Togiak National Wildlife Refuge;
(28) Tongass National Forest, including Admiralty Island National Monument and Misty Fiords National Monument, and excluding marine waters;
(29) White Mountain National Recreation Area;
(30) Wrangell-St. Elias National Park and Preserve;
(31) Yukon-Charley Rivers National Preserve;
(32) Yukon Delta National Wildlife Refuge;
(33) Yukon Flats National Wildlife Refuge;
(34) All components of the Wild and Scenic River System located outside the boundaries of National Parks, National Preserves, or National Wildlife Refuges, including segments of the Alagnak River, Beaver Creek, Birch Creek, Delta River, Fortymile River, Gulkana River, and Unalakleet River.
(c) The public lands described in paragraph (b) of this section remain subject to change through rulemaking pending a Department of the Interior review of title and jurisdictional issues regarding certain submerged lands beneath navigable waters in Alaska.

§ .4 Definitions.

The following definitions apply to all regulations contained in this part:
Agency means a subunit of a cabinet-level Department of the Federal Government having land management authority over the public lands including, but not limited to, the U.S. Fish & Wildlife Service, Bureau of Indian Affairs, Bureau of Land Management, National Park Service, and USDA Forest Service.
ANILCA means the Alaska National Interest Lands Conservation Act, Public Law 96-489, 94 Stat. 2371, (codified, as amended, in scattered sections of 16 U.S.C. and 43 U.S.C.) Area, District, Subdistrict, and Section mean one of the geographical areas defined in the codified Alaska Department of Fish and Game regulations found in Title 5 of the Alaska Administrative Code. Barter means the exchange of fish or wildlife or their parts for subsistence uses; for other fish, wildlife or their parts; or, for other food or for nonedible items other than money, if the exchange is of a limited and noncommercial nature. Board means the Federal Subsistence Board as described in § .10. Commissions means the Subsistence Resource Commissions established pursuant to section 808 of ANILCA. Conservation of healthy populations of fish and wildlife means the maintenance of fish and wildlife resources and their habitats in a condition that assures stable and continuing natural populations and species and their habitats in relation to their ecosystem, including the recognition that local rural residents engaged in subsistence use may be a natural part of that ecosystem; minimizes the likelihood of irreversible or long-term adverse effects upon such populations and species; ensures the maximum practicable diversity of options for the future; and recognizes that the policies and legal authorities of the managing agencies will determine the nature and degree of management programs affecting ecological relationships, population dynamics, and the maintenance of the components of the ecosystem. Customary trade means cash sale of fish and wildlife resources regulated in this part, not otherwise prohibited by Federal law or regulation, to support personal and family needs; and does not include trade which constitutes a significant commercial enterprise. Customary and traditional use means a long-established, consistent pattern of use, incorporating beliefs and customs which have been transmitted from generation to generation. This use plays an important role in the economy of the community. FACIA means the Federal Advisory Committee Act, Public Law 92-463, 86 Stat. 770 (codified as amended, at 5 U.S.C. Appendix II, 1–15). Family means all persons related by blood, marriage, or adoption, or any person living within the household on a permanent basis. Federal Advisory Committees or Federal Advisory Committee means the Federal Local Advisory Committees as described in § .12. Federal lands means lands and waters and interests therein the title to which is in the United States, including navigable and non-navigable waters in which the United States has reserved water rights. Fish and wildlife means any member of the animal kingdom, including without limitation any mammal, fish, bird (including any migratory, nonmigratory, or endangered bird for which protection is also afforded by treaty or other international agreement), amphibian, reptile, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or the carcass or part thereof. Game Management Unit or GMU means one of the 26 geographical areas listed under game management units in the codified State of Alaska hunting and trapping regulations and the Game Unit Maps of Alaska. Inland Waters means, for the purposes of this part, those waters located landward of the mean high tide line or the waters located upstream of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea. Inland waters include, but are not limited to, lakes, reservoirs, ponds, streams, and rivers. Marine Waters means, for the purposes of this part, those waters located seaward of the mean high tide line or the waters located seaward of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea. Person means an individual and does not include a corporation, company, partnership, firm, association, organization, business, trust, or society. Public lands or public land means:
   (1) Lands situated in Alaska which are Federal lands, except—
      (i) Land selections of the State of Alaska which have been tentatively approved or validly selected under the Alaska Statehood Act and lands which have been confirmed to, validly selected by, or granted to the Territory of Alaska or the State under any other provision of Federal law;
      (ii) Land selections of a Native Corporation made under the Alaska Native Claims Settlement Act, 43 U.S.C. 1601 et seq., which have not been conveyed to a Native Corporation, unless any such selection is determined to be invalid or is relinquished; and
      (iii) Lands referred to in section 19(b) of the Alaska Native Claims Settlement Act, 43 U.S.C. 1618(b).
   (2) Notwithstanding the exceptions in paragraphs (1)(i) through (iii) of this definition, until conveyed or interim...
Take or taking as used with respect to fish or wildlife, means to pursue, hunt, shoot, trap, net, capture, collect, kill, harm, or attempt to engage in any such conduct.

Year means calendar year unless another year is specified.

§ 31538.5 Eligibility for subsistence use.

(a) You may take fish and wildlife on public lands for subsistence uses only if you are an Alaska resident of a rural area or rural community. The regulations in this part may further limit your qualifications to harvest fish or wildlife resources for subsistence uses. If you are not an Alaska resident or are a resident of a non-rural area or community listed in § 31538.23, you may not take fish or wildlife on public lands for subsistence uses under the regulations in this part.

(b) Where the Board has made a customary and traditional use determination regarding subsistence use of a specific fish stock or wildlife population, in accordance with, and as listed in, § 31538.24, only those Alaskans who are residents of rural areas or communities designated by the Board are eligible for subsistence taking of that population or stock on public lands for subsistence uses under the regulations in this part. If you do not live in one of those areas or communities, you may not take fish or wildlife from that population or stock, on public lands under the regulations in this part.

(c) Where customary and traditional use determinations for a fish stock or wildlife population within a specific area have not yet been made by the Board (e.g. “no determination”), all Alaskans who are residents of rural areas or communities may harvest for subsistence from that stock or population under the regulations in this part.

(d) The National Park Service may regulate further the eligibility of those individuals qualified to engage in subsistence uses on National Park Service lands in accordance with specific authority in ANILCA, and National Park Service regulations at 36 CFR part 13.

§ 31538.6 Licenses, permits, harvest tickets, tags, and reports.

(a) If you wish to take fish and wildlife on public lands for subsistence uses, you must be a rural Alaska resident and:

(1) Possess the pertinent valid Alaska resident hunting and trapping licenses (no license required to take fish or shellfish, but you must be an Alaska resident) unless Federal licenses are required or unless otherwise provided for in subpart D of this part;

(2) Possess and comply with the provisions of any pertinent Federal permits (Federal Subsistence Registration Permit or Federal Designated Harvester Permit) required by subpart D of this part; and

(3) Possess and comply with the provisions of any pertinent permits, harvest tickets, or tags required by the State unless any of these documents or individual provisions in them are superseded by the requirements in subpart D of this part.

(b) If you have been awarded a permit to take fish and wildlife, you must have that permit in your possession during the taking and must comply with all requirements of the permit and the regulations in this section pertaining to validation and reporting and to regulations in subpart D of this part pertaining to methods and means, possession and transportation, and utilization. Upon the request of a State or Federal law enforcement agent, you must also produce any licenses, permits, harvest tickets, tags, or other documents required by this section. If you are engaged in taking fish and wildlife under the regulations in this part, you must allow State or Federal law enforcement agents to inspect any apparatus designed to be used, or capable of being used to take fish or wildlife, or any fish or wildlife in your possession.

(c) You must validate the harvest tickets, tags, permits, or other required documents before removing your kill from the harvest site. You must also comply with all reporting provisions as set forth in subpart D of this part.

(d) If you take fish and wildlife under a community harvest system, you must report the harvest activity in accordance with regulations specified for that community in subpart D of this part, and as required by any applicable permit conditions. Individuals may be responsible for particular reporting requirements in the conditions permitting a specific community’s harvest. Failure to comply with these conditions is a violation of the regulations in this part. Community harvests are reviewed annually under the regulations in subpart D of this part.

(e) You may not make a fraudulent application for Federal or State licenses, permits, harvest tickets or tags or intentionally file an incorrect harvest report.

§ 31538.7 Restriction on use.

(a) You may not trade or sell fish and wildlife, taken pursuant to the regulations in this part, except as

Reserved water right(s) means the State of Alaska.

Rural means any community or area of Alaska determined by the Board to qualify as such under the process described in § 31538.15.

Secretary means the Secretary of the Interior, except that in reference to matters related to any unit of the National Forest System, such term means the Secretary of Agriculture.

State means the State of Alaska.

Subsistence uses means the customary and traditional uses by rural Alaska residents of wild, renewable resources for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation; for the making and selling of handicraft articles out of nonedible byproducts of fish and wildlife resources taken for personal or family consumption or for barter, or sharing for personal or family consumption; and for customary trade.
§ 3501.8 Penalties.

If you are convicted of violating any provision of 50 CFR part 100 or 36 CFR part 242, you may be punished by a fine or by imprisonment in accordance with the penalty provisions applicable to the public land where the violation occurred.

§ 3501.9 Information collection requirements.

(a) The rules in this part contain information collection requirements subject to Office of Management and Budget (OMB) approval under 44 U.S.C. 3501-3520. They apply to fish and wildlife harvest activities on public lands in Alaska. Subsistence users will not be required to respond to an information collection request unless a valid OMB number is displayed on the information collection form.

(1) Section .6, Licenses, permits, harvest tickets, tags, and reports. The information collection requirements contained in § .6 (Federal Subsistence Registration Permit or Federal Designated Hunter Permit forms) provide for permit-specific subsistence activities not authorized through the general adoption of State regulations. Identity and location of residence are required to determine if you are eligible for a permit and a report of success is required after a harvest attempt. These requirements are not duplicative with the requirements of paragraph (a)(3) of this section. The regulations in § .6 require this information before a rural Alaska resident may engage in subsistence uses on public lands. The Department estimates that the average time necessary to obtain and comply with this permit information collection requirement is 0.25 hours.

(2) Section .20, Request for reconsideration. The information collection requirements contained in § .20 provide a standardized process to allow individuals the opportunity to appeal decisions of the Board. Submission of a request for reconsideration is voluntary but required to receive a final review by the Board. We estimate that a request for reconsideration will take 4 hours to prepare and submit.

(3) The remaining information collection requirements contained in this part imposed upon subsistence users are those adopted from State regulations. These collection requirements would exist in the absence of Federal subsistence regulations and are not subject to the Paperwork Reduction Act. The burden in this situation is negligible and information gained from these reports are systematically available to Federal managers by routine computer access requiring less than 1 hour.

(b) You may direct comments on the burden estimate or any other aspect of the burden estimate to: Information Collection Officer, U.S. Fish and Wildlife Service; 1849 C Street, NW., MS 222 ARLSQ, Washington, DC 20240; and the Office of Management and Budget, Paperwork, Reduction Project (Subsistence), Washington, DC 20503. Additional information requirements may be imposed if Local Advisory Committees or additional Regional Councils, subject to the Federal Advisory Committee Act (FACA), are established under subpart B of this part. Such requirements will be submitted to OMB for approval prior to their implementation.

Subpart B—Program Structure

§ 3501.10 Federal Subsistence Board.

(a) The Secretary of the Interior and Secretary of Agriculture hereby establish a Federal Subsistence Board, and assign them responsibility for, administering the subsistence taking and uses of fish and wildlife on public lands, and the related promulgation and signature authority for regulations of subparts C and D of this part. The Secretaries, however, retain their existing authority to restrict or eliminate hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands when such activities interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority.

(b) Membership. (1) The voting members of the Board are: a Chair to be appointed by the Secretary of the Interior with the concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; Alaska Regional Director, National Park Service; Alaska Regional Forester, USDA Forest Service; the Alaska State Director, Bureau of Land Management; and the Alaska Area Director, Bureau of Indian Affairs. Each member of the Board may appoint a designee.

(2) [Reserved]

(c) Liaisons to the Board are: a State liaison, and the Chairman of each Regional Council. The State liaison and the Chairman of each Regional Council may attend public sessions of all Board meetings and be actively involved as consultants to the Board.

(d) Powers and duties. (1) The Board shall meet at least twice per year and at such other times as deemed necessary. Meetings shall occur at the call of the Chair, but any member may request a meeting.

(2) A quorum consists of four members.

(3) No action may be taken unless a majority of voting members are in agreement.

(4) The Board is empowered, to the extent necessary, to implement Title VIII of ANILCA, to:

(i) Issue regulations for the management of subsistence taking and uses of fish and wildlife on public lands;

(ii) Determine which communities or areas of the State are rural or non-rural;

(iii) Determine which rural Alaska areas or communities have customary and traditional subsistence uses of specific fish and wildlife populations;

(iv) Allocate subsistence uses of fish and wildlife populations on public lands;

(v) Ensure that the taking on public lands of fish and wildlife for nonwasteful subsistence uses shall be accorded priority over the taking on such lands of fish and wildlife for other purposes;

(vi) Close public lands to the nonsubsistence taking of fish and wildlife;

(vii) Establish priorities for the subsistence taking of fish and wildlife on public lands among rural Alaska residents;

(viii) Restrict or eliminate taking of fish and wildlife on public lands;

(ix) Determine what types and forms of trade of fish and wildlife taken for subsistence uses constitute allowable customary trade;

(x) Authorize the Regional Councils to convene;

(xi) Establish a Regional Council in each subsistence resource region and recommend to the Secretaries the Councils, pursuant to the FACA;

(xii) Establish Federal Advisory Committees within the subsistence resource regions, if necessary and recommend to the Secretaries that members of the Federal Advisory Committees be appointed from the group of individuals nominated by rural Alaska residents;

(xiii) Establish rules and procedures for the operation of the Board, and the Regional Councils;

(xiv) Review and respond to proposals for regulations, management plans,
policies, and other matters related to subsistence taking and uses of fish and wildlife;

(xv) Enter into cooperative agreements or otherwise cooperate with Federal agencies, the State, Native organizations, local governmental entities, and other persons and organizations, including international entities to effectuate the purposes and policies of the Federal subsistence management program;

(xvi) Develop alternative permitting processes relating to the subsistence taking of fish and wildlife to ensure continued opportunities for subsistence;

(xvii) Evaluate whether hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority, and after appropriate consultation with the State of Alaska, the Regional Councils, and other Federal agencies, make a recommendation to the Secretaries for their action;

(xviii) Identify, in appropriate specific instances, whether there exists additional Federal reservations, Federal reserved water rights or other Federal interests in lands or waters, including those in which the United States holds less than a fee ownership, to which the Federal subsistence priority attaches, and make appropriate recommendation to the Secretaries for inclusion of those interests within the Federal Subsistence Management Program; and

(xix) Take other actions authorized by the Secretaries to implement Title VIII of ANILCA.

(5) The Board may implement one or more of the following harvest and harvest reporting or permit systems:

(i) The fish and wildlife is taken by an individual who is required to obtain and possess pertinent State harvest permits, tickets, or tags, or Federal permit (Federal Subsistence Registration Permit);

(ii) A qualified subsistence user may designate another qualified subsistence user (by using the Federal Designated Harvester Permit) to take fish and wildlife on his or her behalf;

(iii) The fish and wildlife is taken by individuals or community representatives permitted (via a Federal Subsistence Registration Permit) a one-time or annual harvest for special purposes including ceremonies and potlatches;

(iv) The fish and wildlife is taken by representatives of a community permitted to do so in a manner consistent with the community’s customary and traditional practices.

(6) The Board may delegate to agency field officials the authority to set harvest and possession limits, define harvest areas, specify methods or means of harvest, specify permit requirements, and open or close specific fish or wildlife harvest seasons within frameworks established by the Board.

(7) The Board shall establish a Staff Committee for analytical and administrative assistance composed of members from the U.S. Fish and Wildlife Service, National Park Service, U.S. Bureau of Land Management, Bureau of Indian Affairs, and USDA Forest Service. A U.S. Fish and Wildlife Service representative shall serve as Chair of the Staff Committee.

(8) The Board may establish and dissolve additional committees as necessary for assistance.

(9) The U.S. Fish and Wildlife Service shall provide appropriate administrative support for the Board.

(10) The Board shall authorize at least two meetings per year for each Regional Council.

(11) Relationship to Regional Councils.

(a) The Board shall consider the reports and recommendations of the Regional Councils concerning the taking of fish and wildlife on public lands within their respective regions for subsistence uses. The Board may choose not to follow any Regional Council recommendation which it determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, would be detrimental to the satisfaction of subsistence needs, or in closure situations, for reasons of public safety or administration or to assure the continued viability of a particular fish or wildlife population. If a recommendation is not adopted, the Board shall set forth the factual basis and the reasons for the decision, in writing, in a timely fashion.

(b) The Board shall provide available and appropriate technical assistance to the Regional Councils.

§11 Regional advisory councils.

(a) The Board shall establish a Regional Council for each subsistence resource region to participate in the Federal subsistence management program. The Regional Councils shall be established, and conduct their activities, in accordance with the FACA. The Regional Councils shall provide a regional forum for the collection and expression of opinions and recommendations relating to the subsistence taking and uses of fish and wildlife resources on public lands. The Regional Councils shall provide for public participation in the Federal regulatory process.

(b) Establishment of Regional Councils; membership. (1) The number of members for each Regional Council shall be established by the Board, and shall be an odd number. A Regional Council member must be a resident of the region in which he or she is appointed and be knowledgeable about the region and subsistence uses of the public lands therein. The Board shall accept nominations and recommend to the Secretaries that representatives on the Regional Councils be appointed from those nominated by subsistence users. Appointments to the Regional Councils shall be made by the Secretaries.

(2) Regional Council members shall serve 3-year terms and may be reappointed. Initial members shall be appointed with staggered terms up to 3 years.

(3) The Chair of each Regional Council shall be elected by the applicable Regional Council, from its membership, for a 1-year term and may be reelected.

(c) Powers and duties. (1) The Regional Councils are authorized to:

(i) Hold public meetings related to subsistence uses of fish and wildlife within their respective regions, after the Chair of the Board or the designated Federal Coordinator has called the meeting and approved the meeting agenda;

(ii) Elect officers;

(iii) Review, evaluate, and make recommendations to the Board on proposals for regulations, policies, management plans, and other matters relating to the subsistence take of fish and wildlife under the regulations in this part within the region;

(iv) Provide a forum for the expression of opinions and recommendations by persons interested in any matter related to the subsistence uses of fish and wildlife within the region;

(v) Encourage local and regional participation, pursuant to the provisions of the regulations in this part in the decisionmaking process affecting the taking of fish and wildlife on the public lands within the region for subsistence uses;

(vi) Prepare and submit to the Board an annual report containing—

(A) An identification of current and anticipated subsistence uses of fish and wildlife populations within the region; and

(B) An evaluation of current and anticipated subsistence needs for fish and wildlife populations from the public lands within the region;
(C) A recommended strategy for the management of fish and wildlife populations within the region to accommodate such subsistence uses and needs related to the public lands; and
(D) Recommendations concerning policies, standards, guidelines, and regulations to implement the strategy;
(vii) Appoint members to each Subsistence Resource Commission within their region in accordance with the requirements of section 808 of ANILCA;
(viii) Make recommendations on determinations of customary and traditional use of subsistence resources;
(ix) Make recommendations on determinations of rural status;
(x) Make recommendations regarding the allocation of subsistence uses among rural Alaska residents pursuant to § .17;
(xii) Develop proposals pertaining to the subsistence taking and use of fish and wildlife under the regulations in this part, and review and evaluate such proposals submitted by other sources;
(xiii) Provide recommendations on the establishment and membership of Federal Advisory Committees.
(2) The Regional Councils shall:
(i) Operate in conformance with the provisions of FACA and comply with rules of operation established by the Board;
(ii) Perform other duties specified by the Board.
§ .12 Local advisory committees.
(a) The Board shall establish such local Federal Advisory Committees within each region as necessary at such time that it is determined, after notice and hearing and consultation with the State, that the existing State fish and game advisory committees do not adequately provide advice to, and assist, the particular Regional Council in carrying out its function as set forth in § .11.
(b) Local Federal Advisory Committees, if established by the Board, shall operate in conformance with the provisions of the FACA, and comply with rules of operation established by the Board.
§ .13 Board/agency relationships.
(a) General. (1) The Board, in making decisions or recommendations, shall consider and ensure compliance with specific statutory requirements regarding the management of resources on public lands, recognizing that the management policies applicable to some public lands may entail methods of resource and habitat management and protection different from methods appropriate for other public lands.
(2) The Board shall issue regulations for subsistence taking of fish and wildlife on public lands. The Board is the final administrative authority on the promulgation of subpart C and D regulations relating to the subsistence taking of fish and wildlife on public lands.
(3) Nothing in the regulations in this part shall enlarge or diminish the authority of any agency to issue regulations necessary for the proper management of public lands under their jurisdiction in accordance with ANILCA and other existing laws.
(b) Section 808 of ANILCA establishes National Park and Park Monument Subsistence Resource Commissions. Nothing in the regulations in this part affects the duties or authorities of these commissions.
§ .14 Relationship to State procedures and regulations.
(a) State fish and game regulations apply to public lands and such laws are hereby adopted and made a part of the regulations in this part to the extent they are not inconsistent with, or superseded by the regulations in this part.
(b) The Board may close public lands to hunting and fishing, or take actions to restrict the taking of fish and wildlife despite any State authorization for taking fish and wildlife on public lands. The Board may review and adopt State openings, closures, or restrictions which serve to achieve the objectives of the regulations in this part.
(c) The Board may enter into agreements with the State in order to coordinate respective management responsibilities.
(d) Petition for repeal of subsistence rules and regulations. (1) The State of Alaska may petition the Secretaries for repeal of the subsistence rules and regulations in this part when the State has enacted and implemented subsistence management and use laws which:
(i) Are consistent with sections 803, 804, and 805 of ANILCA; and
(ii) Provide for the subsistence definition, preference, and participation specified in sections 803, 804, and 805 of ANILCA.
(2) The State’s petition shall:
(ii) Include the entire text of applicable State legislation indicating compliance with sections 803, 804, and 805 of ANILCA; and
(iii) Set forth all data and arguments available to the State in support of legislative compliance with sections 803, 804, and 805 of ANILCA.
(3) If the Secretaries find that the State’s petition contains adequate justification, a rulemaking proceeding for repeal of the regulations in this part will be initiated. If the Secretaries find that the State’s petition does not contain adequate justification, the petition will be denied by letter or other notice, with a statement of the ground for denial.
§ .15 Rural determination process.
(a) The Board shall determine if an area or community in Alaska is rural. In determining whether a specific area of Alaska is rural, the Board shall use the following guidelines:
(1) A community or area with a population of 2500 or less shall be deemed to be rural unless such a community or area possesses significant characteristics of a non-rural nature, or is considered to be socially and economically a part of an urbanized area.
(2) Communities or areas with populations above 2500 but not more than 7000 will be determined to be rural or non-rural.
(3) A community with a population of more than 7000 shall be presumed non-rural, unless such a community or area possesses significant characteristics of a rural nature.
(4) Population data from the most recent census conducted by the United States Bureau of Census as updated by the Alaska Department of Labor shall be utilized in this process.
(5) Community or area characteristics shall be considered in evaluating a community’s rural or non-rural status. The characteristics may include, but are not limited to:
(i) Use of fish and wildlife;
(ii) Development and diversity of the economy;
(iii) Community infrastructure;
(iv) Transportation; and
(v) Educational institutions.
(6) Communities or areas which are economically, socially and communally integrated shall be considered in the aggregate.
(b) The Board shall periodically review rural determinations. Rural determinations shall be reviewed on a ten year cycle, commencing with the publication of the year 2000 U.S. census. Rural determinations may be reviewed out-of-cycle in special circumstances. Once the Board makes a determination that a community has changed from rural to non-rural, a waiting period of five years shall be required before the non-rural determination becomes effective.
§ 17 Determining priorities for subsistence uses among rural Alaska residents.

(a) Whenever it is necessary to restrict the subsistence taking of fish and wildlife on public lands in order to protect the continued viability of such populations, or to continue subsistence uses, the Board shall establish a priority among the rural Alaska residents after considering any recommendation submitted by an appropriate Regional Council.

(b) The priority shall be implemented through appropriate limitations based on the application of the following criteria to each area, community, or individual determined to have customary and traditional use, as necessary:

(1) Customary and direct dependence upon the populations as the mainstay of livelihood;

(2) Local residency; and

(3) The availability of alternative resources.

(c) If allocation on an area or community basis is not achievable, then the Board shall allocate subsistence opportunity on an individual basis through application of the criteria in paragraphs (b)(1) through (3) of this section.

(d) In addressing a situation where prioritized allocation becomes necessary, the Board shall solicit recommendations from the Regional Council in the area affected.

§ 18 Regulation adoption process.

(a) Proposals for changes to the Federal subsistence regulations in subpart D of this part shall be accepted by the Board according to a published schedule. The Board may establish a rotating schedule for accepting proposals on various parts of subpart D regulations over a period of years. The Board shall develop and publish proposed regulations in the Federal Register and publish notice in local newspapers. Comments on the proposed regulations in the form of proposals shall be distributed for public review.

(1) The public shall have at least thirty (30) days to review and comment on proposals.

(b) Proposals for changes to subpart C of this part shall be accepted by the Board according to a published schedule. The Board shall develop and publish proposed regulations in the Federal Register and publish notice in local newspapers. Comments on the proposed regulations in the form of proposals shall be distributed for public review.

(1) Public and governmental proposals shall be made available for a thirty (30) day review by the regional councils. Regional Councils shall forward their recommendations on proposals to the Board. Such proposals with recommendations may be submitted within the time period as specified by the Board or as a part of the Regional Council's annual report described in § .11, whichever is earlier.

(2) The Board shall publish notice throughout Alaska of the availability of proposals received.

(3) The public shall have at least thirty (30) days to review and comment on proposals.

(c) The Board shall meet to receive public testimony and consider the proposals. The Board may choose not to follow any recommendation which the Board determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, or would be detrimental to the satisfaction of subsistence needs. If a recommendation approved by a Regional Council is not adopted by the Board, the Board shall set forth the factual basis and the
reasons for their decision in writing to the Regional Council.

(5) Following consideration of the proposals the Board shall publish final regulations pertaining to subpart C of this part in the Federal Register. A Board decision to change a community’s or area’s status from rural to non-rural will not become effective until five years after the decision has been made.

(c) [Reserved]

(d) Proposals for changes to subparts A and B of this part shall be accepted by the Secretary of the Interior in accordance with 43 CFR part 14.

§ 19 Special actions.

(a) The Board may restrict, close, or reopen the taking of fish and wildlife for non-subsistence uses on public lands when necessary to assure the continued viability of a particular fish or wildlife population, to continue subsistence uses of a fish or wildlife population, or for reasons of public safety or administration.

(b) The Board may open, close, or restrict subsistence uses of a particular fish or wildlife population on public lands to assure the continued viability of a fish or wildlife population, to continue subsistence uses of a fish or wildlife population, or for reasons of public safety or administration.

(c) The Board will accept a request for a change in seasons, methods and means, and/or harvest limits under this § 19.19 only if there are extenuating circumstances necessitating a regulatory change before the next annual subpart D proposal cycle. Extenuating circumstances include unusual and significant changes in resource abundance or unusual conditions affecting harvest opportunities that could not reasonably have been anticipated and that potentially could have significant adverse effects on the health of fish and wildlife populations or subsistence uses. Requests for Special Action that do not meet these conditions will be deferred to the next annual regulatory proposal cycle. In general, changes to Customary and Traditional Use Determinations will only be considered through the annual subpart C proposal cycle.

(d) In an emergency situation, the Board may immediately open, close, liberalize, or restrict subsistence uses of fish and wildlife on public lands, or close or restrict non-subsistence uses of fish and wildlife on public lands, if necessary to assure the continued viability of a fish or wildlife population, to continue subsistence uses of fish or wildlife, or for public safety reasons. Prior to implementing an emergency action, the Board shall consult with the State. The emergency action shall be effective when directed by the Board, may not exceed 60 days, and may not be extended unless it is determined by the Board, after notice and public hearing, that such action should be extended. The Board shall, in a timely manner, provide notice via radio announcement or personal contact of the emergency action and shall publish notice and reasons justifying the emergency action in newspapers of any area affected, and in the Federal Register thereafter.

(e) After consultation with the State, the appropriate Regional Advisory Council(s), and adequate notice and public hearing, the Board may make or direct a temporary change to close, open, or adjust the seasons, to modify the harvest limits, or to modify the methods and means of harvest for subsistence uses of fish and wildlife populations on public lands. An affected rural resident, community, Regional Council, or administrative agency may request a temporary change in seasons, harvest limits, or methods or means of harvest. In addition, a temporary change may be made only after the Board determines that the proposed temporary change will not interfere with the conservation of healthy fish and wildlife populations, will not be detrimental to the long-term subsistence use of fish or wildlife resources, and is not an unnecessary restriction on non-subsistence users. The decision of the Board shall be the final administrative action. The temporary change shall be effective when directed by the Board following notice in the affected area(s). This notice may include publication in newspapers or announcement on local radio stations. The Board shall publish notice and reasons justifying the temporary action in the Federal Register thereafter. The length of any temporary change shall be confined to the minimum time period or harvest limit determined by the Board to be necessary to satisfy subsistence uses. A temporary opening or closure will not extend beyond the regulatory year for which it is promulgated.

(f) Regulations authorizing any individual agency to direct temporary or emergency closures on public lands managed by the agency remain unaffected by the regulations in this part, which authorize the Board to make or direct restrictions, closures, or temporary changes for subsistence uses on public lands.

(g) You may not take fish and wildlife in violation of a restriction, closure, opening, or temporary change authorized by the Board.

§ 20 Request for reconsideration.

(a) Regulations in subparts C and D of this part published in the Federal Register are subject to requests for reconsideration.

(b) Any aggrieved person may file a request for reconsideration with the Board.

(c) To file a request for reconsideration, you must notify the Board in writing within sixty (60) days of the effective date or date of publication of the notice, whichever is earliest, for which reconsideration is requested.

(d) It is your responsibility to provide the Board with sufficient narrative evidence and argument to show why the action by the Board should be reconsidered. The Board will accept a request for reconsideration only if it is based upon information not previously considered by the Board, demonstrates that the existing information used by the Board is incorrect, or demonstrates that the Board’s interpretation of information, applicable law, or regulation is in error or contrary to existing law. You must include the following information in your request for reconsideration:

(1) Your name, and mailing address;

(2) The action which you request be reconsidered and the date of Federal Register publication of that action;

(3) A detailed statement of how you are adversely affected by the action;

(4) A detailed statement of the facts of the dispute, the issues raised by the request, and specific references to any law, regulation, or policy that you believe to be violated and your reason for such allegation;

(5) A statement of how you would like the action changed.

(e) Upon receipt of a request for reconsideration, the Board shall transmit a copy of such request to any appropriate Regional Council for review and recommendation. The Board shall consider any Regional Council recommendations in making a final decision.

(f) If the request is justified, the Board shall implement a final decision on a request for reconsideration after compliance with 5 U.S.C. 551–559 (APA).

(g) If the request is denied, the decision of the Board represents the final administrative action.

§ 21 [Reserved]

Subpart C—Board Determinations

3. Amend subpart C of 36 CFR part 242 and 50 CFR part 100 by revising §§ 22 and 23 to read as follows:
§22 Subsistence resource regions.

(a) The Board hereby designates the following areas as subsistence resource regions:

(1) Southeast Region;
(2) Southcentral Region;
(3) Kodiak/Aleutians Region;
(4) Bristol Bay Region;
(5) Yukon-Kuskokwim Delta Region;
(6) Western Interior Region;
(7) Seward Peninsula Region;
(8) Northwest Arctic Region;
(9) Eastern Interior Region; and
(10) North Slope Region.

(b) You may obtain maps delineating the boundaries of subsistence resource regions from the U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99503.

§23 Rural determinations.

(a) The Board has determined all communities and areas to be rural in accordance with §22.15 except the following:

Adak;
Fairbanks North Star Borough;
Juneau area— incl. Juneau, West Juneau and Douglas;
Ketchikan area— incl. Ketchikan City, Clover Pass, North Tongass Highway, Ketchikan East, Mountain Pass, Herring Cove, Saxman East, and parts of Pennock Island;
Municipality of Anchorage;
Valdez; and
Wasilla area— incl. Palmer, Wasilla, Sutton, Big Lake, Houston, and Bodenberg Butte. You may obtain maps delineating the boundaries of non-rural areas from the U.S. Fish and Wildlife Service.

(b) [Reserved].

4. Amend §24 by revising paragraph (a) introductory text to read as follows:

§24 Customary and traditional use determinations.

(a) The Federal Subsistence Board has determined that rural Alaska residents of the listed communities, areas, and individuals have customary and traditional use of the specified species on Federal public land in the specified areas. Persons granted individual customary and traditional use determinations will be notified in writing by the Board. The Fish & Wildlife Service and the local NPS Superintendent will maintain the list of individuals having customary and traditional use on National Parks and Monuments. A copy of the list is available upon request. When there is a determination for specific communities or areas of residence in a Unit, all other communities not listed for that species in that Unit have no Federal subsistence for that species in that Unit. If no determination has been made for a species in a Unit, all rural Alaska residents are eligible to harvest fish or wildlife under this part.

Gale Norton,
Secretary of the Interior.

James A. Caplan,
Acting Regional Forester, USDA-Forest Service.

BILLING CODE 3410–11–P; 4310–55–U

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[Region II Docket No. NJ43–219; FRL–6990–4]

Approval and Promulgation of Implementation Plans; New Jersey; Motor Vehicle Inspection and Maintenance Program

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) has found that the State of New Jersey has implemented the enhanced Inspection and Maintenance (I/M) program. EPA, therefore, is terminating all sanctions clocks related to the implementation of the New Jersey enhanced I/M program upon the effective date of this document. This action also reestablishes the interim approval granted under Section 348 of the National Highway Systems Designation Act of the enhanced I/M program. The interim approval became effective on December 13, 1999.

EFFECTIVE DATE: This rule will be effective July 12, 2001.

ADDRESSES: Copies of the documents relevant to this action are available at the following addresses for inspection during normal business hours:

Environmental Protection Agency, Region II Office, Air Programs Branch, 290 Broadway, 25th Floor, New York, New York 10007–1866; New Jersey Department of Environmental Protection, Office of Air Quality Management, Bureau of Air Pollution Control, 401 East State Street, CN027, Trenton, New Jersey 08625; and Environmental Protection Agency, Air and Radiation Docket and Information Center, Air Docket (6102), 401 M Street, SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. What Is EPA Taking Action On?

On November 19, 1999, New Jersey notified EPA by letter that the mandatory enhanced I/M program would be implemented on December 13, 1999. EPA had been working closely with the State during the phase-in period of the enhanced I/M program and agreed that the State would have the program implemented on December 13, 1999. Therefore, on December 17, 1999 (64 FR 70659), EPA proposed to find that the State of New Jersey had implemented its enhanced I/M program by December 13, 1999. EPA also proposed to reinstate the interim approval under Section 348 of the NHSDA of the enhanced I/M program effective on December 13, 1999.

Also in the December 17, 1999 Federal Register, EPA published an interim final rule (64 FR 70593), which stayed the application of the offset sanction and deferred the highway sanction as of December 13, 1999. Although the State of New Jersey had numerous start-up problems, the program was implemented and is currently operational. A description of EPA’s rationale for our proposed action was presented in the proposal and will not be restated here. No public comments were received on the proposal.

II. Final Action

Upon the effective date of today’s action, all sanctions clocks related to the implementation of New Jersey’s enhanced I/M program are terminated. In addition, the interim approval of New Jersey’s enhanced I/M program is reinstated. Since approximately six months of the interim period had passed by December 12, 1997, the State had the remaining 12 months of the interim approval period to demonstrate their I/M program’s test and repair network effectiveness. On December 13, 2000, New Jersey submitted their I/M program’s test and repair network effectiveness demonstration.

Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this final action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget. This final action merely approves state law as meeting federal requirements and imposes no additional requirements.
