Notice of Receipt of Applications for Permit

Endangered Species

The public is invited to comment on the following application(s) for a permit to conduct certain activities with endangered species. This notice is provided pursuant to Section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531, et seq.). Written data, comments, or requests for copies of these complete applications should be submitted to the Director (address below) and must be received within 30 days of the date of this notice.

Applicant: Brookfield Zoo/Chicago Zoological Park, Chicago, Illinois, PRT–046073

The applicant requests a permit to import eighteen (18) Goeldi’s monkees (Callimico goeldii) from Switzerland for the purpose of the purposes of enhancement of the survival of the species through propagation.

Applicant: Kris J. Rusak, Shelby Township, MI, PRT–045853

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Kevin M. Budney, Berlin, CT, PRT–045852

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Dale F. James, Bedminster, PA, PRT–045928

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Roger Blum, Detroit, MI, PRT–045927

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Johnnie Ray Bryan, Jacksonville, FL, PRT–046027

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (Damaliscus pygargus dorcas) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: Carlos E. Diez, San Juan, Dept. Recursos Naturales Y Ambientales, Puerto Rico, PRT–045380

The applicant requests a permit to export wild-collected Hawksbill sea turtle (Eretmochelys imbricata) eggs from Puerto Rico to the University of Toronto, Ontario, Canada, for the purpose of scientific research. This notification covers activities conducted by the applicant over a five year period.

Applicant: Peter Meylan, Eckerd College, St. Petersburg, FL, PRT–030276

The applicant requests the re-issuance of his permit to import tissue and blood samples obtained from wild Hawksbill sea turtle (Eretmochelys imbricata), from the Cayman Island Department of Environment, for the purpose of scientific research. This notification covers activities conducted by the applicant over a five year period.

Applicant: White Oak Conservation Center, Yulee, FL, PRT–046070

The applicant requests a permit to import from the Philippines blood serum samples collected from 10 live captive-held and/or captive-born Visayan deer (Cervus alfredi) for testing at the Foreign Animal Disease Diagnostic Laboratory in Plum Island, NY, as required by the U.S. Department of Agriculture. The import of these samples will enable the applicant to proceed with the import of the 10 Visayan deer previously authorized under permit MA843877–1 for the purpose of enhancing the survival of the species through captive propagation.

Applicant: White Oak Conservation Center, Yulee, FL, PRT–046071

The applicant requests a permit to import from Switzerland blood serum samples collected from 10 live captive-held and/or captive-born Visayan deer (Cervus alfredi) for testing at the Foreign Animal Disease Diagnostic Laboratory in Plum Island, NY, as required by the U.S. Department of Agriculture. The import of these samples will enable the applicant to proceed with the import of the 10 Visayan deer previously authorized under permit MA843877–1 for the purpose of enhancing the survival of the species through captive propagation.

Marine Mammals

The public is invited to comment on the following application(s) for a permit to conduct certain activities with marine mammals. The application(s) was submitted to satisfy requirements of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.) and the regulations governing marine mammals (50 CFR part 216).

Written data, comments, or requests for copies of these complete applications or requests for a public hearing on these applications should be submitted to the Director (address below) and must be received within 30 days of the date of this notice. Anyone requesting a hearing should give specific reasons why a hearing would be appropriate. The holding of such a hearing is at the discretion of the Director.

Applicant: Terrie M. Williams, University of California, Santa Cruz, PRT–045447

Permit Type: Take for scientific research

Name and Number of Animals: Southern sea otters (Enhydra lutris nereis), 12 per year

Summary of Activity to be Authorized: The applicant requests a permit to transport animals undergoing rehabilitation to UCSC Long Marine Lab, to California Department of Fish and Game, Marine Wildlife Veterinary Care and Research Center, or to open-water pens in order to conduct research studies on sea otters’ ability to thermoregulate and energy expenditure while diving.

Source of Marine Mammals: animals originally from the wild (Central California coast) undergoing rehabilitation at Monterey Bay Aquarium

Period of Activity: Up to 5 years, if issued.

Applicant: United States Fish and Wildlife Service/Marine Mammal Management, Anchorage, AK, PRT–046081

Permit Type: Take for scientific research

Name and Number of Animals: Polar bear (Ursus maritimus), Variable

Summary of Activity to be Authorized: The applicant requests a permit to conduct aerial fly overs of polar bears for the purpose of conducting population surveys of the Alaska polar bear stocks.

Source of Marine Mammals: Free ranging

Period of Activity: Up to 5 years, if issued.
DEPARTMENT OF THE INTERIOR  
Fish and Wildlife Service  

Receipt of a Permit Application (Reames) for Incidental Take of the Houston Toad  

AGENCY: Fish and Wildlife Service, Interior.  

ACTION: Notice of availability.  

SUMMARY: Hal Reames (Applicant) has applied for an incidental take permit (TE–042729–0) pursuant to section 10(a) of the Endangered Species Act (Act). The requested permit would authorize the incidental take of the endangered Houston toad. The proposed take would occur as a result of the construction and operation of a single-family residence on approximately 0.5 acres of a 20.0-acre property on Southshore Road, Bastrop County, Texas. Persons wishing to review the EA/HCP may obtain a copy by contacting Clayton Napier, U.S. Fish and Wildlife Service, 10711 Burnet Road, Suite 200, Austin, Texas 78758 (512/490–0057). Documents will be available for public inspection by written request, by appointment only, during normal business hours (8:00 to 4:30) at the U.S. Fish and Wildlife Service, Austin, Texas. Written data or comments concerning the application and EA/HCP should be submitted to the Supervisor, U.S. Fish and Wildlife Service, Austin, Texas, at the above address. Please refer to permit number TE–042731–0 when submitting comments.  

FOR FURTHER INFORMATION CONTACT: Clayton Napier at the above U.S. Fish and Wildlife Service, Austin Office.  

SUPPLEMENTARY INFORMATION: Section 9 of the Act prohibits the “taking” of endangered species such as the Houston toad. However, the Fish and Wildlife Service (Service), under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22. The Service has prepared the Environmental Assessment/Habitat Conservation Plan (EA/HCP) for the incidental take application. A determination of jeopardy to the species or a Finding of No Significant Impact (FONSI) will not be made until at least 30 days from the date of publication of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).  

Applicant: Hal Reames plans to construct a single-family residence, within 8 years, on approximately 0.5 acres of a 20.0-acre property on Southshore Road, Bastrop County, Texas. This action will eliminate 0.5 acres or less of Houston toad habitat and result in indirect impacts within the lot. The Applicant proposes to compensate for this incidental take of the Houston toad by providing $2,000.00 to the Houston Toad Conservation Fund at the National Fish and Wildlife Foundation for the specific purpose of land acquisition and management within Houston toad habitat.  

Bryan Arroyo, Acting Regional Director, Region 2.
