SUPPLEMENTARY INFORMATION: We published a proposed rule to establish 16 additional manatee protection areas in Florida in the Federal Register on August 10, 2001 (66 FR 42318). We are proposing this action under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.)(ESA), and the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361–1407) (MMPA), to further recovery of the Florida manatee (Trichechus manatus latirostris) through a reduction in the level of take. In evaluating the need for additional manatee protection areas, we considered the needs of the manatee at an ecosystem level with the goal of ensuring that adequate, protected areas are available throughout peninsular Florida to satisfy the biological requirements of the species, with a view toward the manatee’s recovery. We are proposing to designate four areas in Hillsborough, Pinellas, and Citrus Counties, as manatee sanctuaries in which all waterborne activities would be prohibited, with an exception for residents. The remaining 12 areas, located in Pinellas, Sarasota, Charlotte, Desoto, Lee, and Brevard Counties, would be designated as manatee refuges in which certain waterborne activities would be prohibited or regulated. We also announced the availability of a draft environmental assessment for this action.

We announced the date, time and location of the public hearing in Melbourne with the notice of the proposed rule. We stated that additional public hearings would be held at dates, times, and sites to be determined. This notice provides information regarding those additional hearings.
