DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Availability of a Draft Environmental Assessment for the Mandalay Bank Protection Project (Demo) Terrebonne Parish, LA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

The Service announces the availability of the draft EA for the Mandalay Bank Protection Project. A more detailed description of the project is outlined in the SUPPLEMENTARY INFORMATION section below. A Copy of the draft EA may be obtained by sending a written request to the Service’s Louisiana Field Office (see ADDRESSES). Requests must be made in writing to be processed. This notice is provided pursuant to NEPA regulations (40 CFR 1506.6).

The Service specifically requests information, views, and opinions from the public via this Notice on the Federal action, including the identification of any other aspects of the human environment not already identified in the Service’s EA.

If you wish to comment, you may submit comments by any one of several methods. You may mail comments to the Service’s Louisiana Field Office (see ADDRESSES). You also may comment via the internet to “martha_segura@fws.gov”. Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from the Service that we have received your internet message, contact us directly at the telephone numbers listed below (see FOR FURTHER INFORMATION).

Finally, you may hand deliver comments to the Service office listed below (see ADDRESSES). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be circumstances in which we would withhold from the administrative record a respondent’s identity, as allowable by law. If you wish to withhold your name and address, you must state this prominently at the beginning of your comments. We will not, however, consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

DATES: Written comments on the draft EA should be sent to the Service’s Louisiana Field Office (see ADDRESSES) and should be received on or before October 10, 2001.

ADDRESSES: Persons wishing to review the draft EA may obtain a copy by writing to the Field Supervisor, U.S. Fish and Wildlife Service, 646 Cajundome Boulevard, Suite 400, Lafayette, Louisiana 70506. Documents will be available for public inspection by appointment during normal business hours at the Service’s Louisiana Field Station (Attn: Martha Segura), or Mandalay National Wildlife Refuge, 3599 Bayou Black Drive, Houma, Louisiana 70360 (Attn: Paul Yakupzack). Written data or comments regarding the draft EA should be submitted to the Service’s Louisiana Field Office. The data and comments must be submitted in writing to be adequately considered in the Service’s decision-making process.

SUPPLEMENTARY INFORMATION: The Mandalay Bank Protection Project (Demo), is being funded through the Coastal Wetlands Planning, Protection and Restoration Act on the Ninth Priority Project List as a Demonstration Project. The project purpose is to evaluate less-costly, effective alternatives to traditional rock rip-rap for protecting and restoring highly erodible banks along waterways traversing coastal wetlands.

The project is located in Mandalay National Wildlife Refuge along the southern bank of the Gulf Intracoastal Waterway (GIWW). The banks of the GIWW are severely eroded and there are many locations where the bank has “blown out”, exposing the fragile interior marshes to erosion from the wakes and surges of passing boat and barge traffic. The preferred alternative is to install and evaluate four alternatives to rock rip-rap which would protect and restore these easily erodible banks.

H. Dale Hall,
Acting Regional Director.
