DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Maternal and Child Health Federal Set-Aside Program; Welfare Reform and Women’s and Children’s Health Cooperative Agreement

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice of grant award.

SUMMARY: The Maternal and Child Health Bureau (MCHB), Health Resources and Services Administration (HRSA), is awarding $224,000 in fiscal year (FY) 2001 to support a cooperative agreement with the Mailman School of Public Health, Columbia University, in New York, NY. The award was made from funds appropriated under Public Law 106–554 (Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriation Act for FY 2001). The cooperative agreement is authorized by section 501(a)(2) of the Social Security Act, the Maternal and Child Health Federal Set-Aside Program, as a Special Project of Regional and National Significance.

Purpose: The HRSA is providing Federal financial assistance for the “Finding Common Ground” project to allow completion of a pre-existing set of tasks by Columbia University’s Mailman School of Public Health. The project is designed to provide an empirical base for assessing the impact of State welfare reform policies, implemented since 1996, on women’s and children’s health services utilization and health outcomes. These tasks include analysis of data gathered from six national and State data sets and identification of trends in welfare and Medicaid in South Carolina, Texas, and Washington. The project was initiated in 1997 through a cooperative agreement with combined support from the Maternal and Child Health Bureau (MCHB), the Centers for Disease Control and Prevention, and the Office of Population Affairs. This funding expired in 2001.

This award for a new cooperative agreement, sponsored solely by MCHB, ensures that results of the ongoing study are available on a timely basis to provide the empirical foundation to address maternal and child health issues associated with welfare reform. Data will be used to develop training and demonstration projects to inform participants in professional deliberations regarding possible future changes in welfare law.

This “Finding Common Ground” project is the only existing analytical project dedicated to exploring the impact of welfare reform policies on the health status and service utilization of women and children. While other groups are conducting studies on welfare reform, they are primarily focused on the impact on employment, earnings, and income. The project team for this study is uniquely qualified through its combination of expertise and experience in clinical, public health, and social science research to complete the project in cooperation with MCHB.

The administrative and funding instrument used for this program is the cooperative agreement, in which substantial MCHB scientific or programmatic involvement with the awardee is anticipated during performance of the project. Under the cooperative agreement, MCHB supports or stimulates the awardee’s activities by working with the awardee in a non-directive, partnership role, but not assuming direction, prime responsibility, or a dominant role in the activity.

Availability of Funds: Approximately $224,000 was made available for obligation to support this project for budget period beginning in FY 2001, extending from September 30, 2001 through August 29, 2002.

Other Award Information: This program is not subject to the provisions of Executive Order 12372, Intergovernmental Review of Federal programs (as implemented by 45 CFR part 100). The Catalog of Federal Domestic Assistance (CFDA) Number is 93.110M.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management

Notice of Availability of Proposed
Southeastern Oregon Resource
Management Plan and Final
Environmental Impact Statement; and
Proposed Area of Critical
Environmental Concern Designations

AGENCY: Bureau of Land Management, Malheur and Jordan Resource Areas, Vale District.

SUMMARY: Pursuant to section 202 of the
Federal Land Policy and Management
Act and section 102(2)(c) of the National
Environmental Policy Act, the Bureau of
Land Management (BLM) has prepared
a Proposed Southeastern Oregon
Resource Management Plan (PSEORMP) and
associated final Environmental
Impact Statement (FEIS) for the Malheur
and Jordan Resource Areas, Vale
District, Oregon. The Final SEORMP
will only provide management direction
for a portion of the original planning
area. The Draft SEORMP/EIS (October,
1998) addressed approximately 6.3
million acres of public land; however,
due to congressional action (House
Resolution 4828, Steens Mountain
Cooperative Management and Protection
Act of 2000), the Andrews Resource
Area was withdrawn from the land use
planning process and will be addressed
in a separate land use planning process
scheduled to begin in 2001 by the Burns
BLM District. Final decisions of this
SEORMP planning process will
supercede the Northern and Southern
Malheur Management Framework Plans,
as amended, and the Ironside and
Southern Malheur Rangeland Program
Summaries. The Final SEORMP will
provide direction for management of
these public lands for approximately 20
years. The PSEORMP/FEIS addresses
seven alternatives for management,
including the Proposed Resource
Management Plan (Proposed RMP), on
approximately 4.6 million acres of BLM
administered public lands in southeast
Oregon. The Proposed RMP would
result in designation of all public lands
for the management of motorized
vehicles (2,615,116 acres Open,
2,004,369 acres Limited, and 15,826
acres Closed), and would recommend
42.5 miles of streams and river segments
determined to be eligible and
administratively suitable for
congressional designation under the
Wild and Scenic Rivers Act. This notice
is also issued pursuant to 43 CFR Part
1610.7–2(b) of the BLM Planning
Regulations, with the Proposed RMP
proposing 26 Areas of Critical
Environmental Concern (ACEC)
(approximately 206,257 acres) be
designated.

DATES: The public has the opportunity
to protest the proposed resource
management plan in the Final EIS. The
BLM Planning Regulations, 43 CFR
1610.5–2, state that any person who
participated in the planning process and
has an interest which may be adversely
affected may protest. A protest may
raise only those issues which were
submitted for the record during the
planning process. The BLM will make a
decision on the SEORMP after review of
protests (if any) that must be filed by
December 5, 2001. Written protests may
be submitted at any time during the
protest period at the following address:
Director, Bureau of Land Management,
Attention: Ms. Brenda Williams,
Protests Coordinator, WO–210/LS–1075,
Department of the Interior, Washington,
DC 20240. To be considered timely,
your protest must be postmarked no
later than the last day of the protest
period. Also, although not a
requirement, we suggest that you send
your protest by certified mail, return
receipt requested.

To be considered complete, your
protest must contain, at a minimum, the
following information:

• Name, mailing address, telephone
number and the affected interest of the
person filing the protest(s).
• A statement of the issue or issues
being protested.
• A statement of the part or the parts
of the proposed plan being protested. To
the extent possible, reference specific
pages, paragraphs and sections of the
document.
• A copy of all your documents
addressing the issue or issues which
were discussed with BLM for the record.
• A concise statement explaining why
the proposed decision is believed to be
incorrect. This is a critical part of your
protest. Document all relevant facts, as
much as possible, referencing or citing
the planning and environmental
analysis documents. A protest that
merely expresses disagreement with the
State Director’s proposed decision
without any data will not provide us
with the benefit of your information
and insight. In this case, the Director’s
review will be based on the existing
analysis and supporting data.
