treatment of cancers or in the treatment of ocular diseases such as age-related macular degeneration and diabetic retinopathy, which may be related to both angiogenesis and the neuronal tissue properties of the eye.

The prospective exclusive license will be royalty bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. This prospective exclusive license may be granted unless within sixty (60) days from the date of this published notice, NIH receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Applications for a license (i.e., a completed “Application for License to Public Health Service Inventions”) in the indicated exclusive field of use filed in response to this notice will be treated as objections to the grant of the contemplated license. Any objections to the grant of the contemplated license must specifically and separately, if more than one Notice of Intent to Grant related to these patents and patent applications is being responded to, reference the particular Notice of Intent to Grant being responded to and address only the proposed grant as set forth in the particular Notice of Intent to Grant (i.e., an objection to the proposed grant as set forth in this Notice of Intent to Grant to GenVec, Incorporated will not be considered an objection to the proposed grant as set forth in the concurrently published Notice of Intent to Grant to EyeTech Pharmaceuticals, Incorporated). Comments and objections will not be made available for public inspection and, to the extent permitted by law, will not be subject to disclosure under the Freedom of Information Act 35 U.S.C. 552.

Dated: April 24, 2002.

Jack Spiegel, Director, Division of Technology Development and Transfer, Office of Technology Transfer.

DEPARTMENT OF THE INTERIOR
Office of American Indian Trust

Agency Information Collection Activities Under OMB Review

AGENCY: Office of American Indian Trust, Interior.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act, this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and renewal.

DATES: Comment must be received on or before June 3, 2002.

ADDRESS: Comments should be sent to: Document Library, Room 10102, Attn: Desk Officer for the Department of the Interior, Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503.

Copies of any comments should be sent to: Director, Office of American Indian Trust, United States Department of the Interior, 1849 C Street, NW., Room 2472, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: James I. Pace, (202) 208–3338.

SUPPLEMENTARY INFORMATION: The Department of the Interior invites comments by the public on: Whether the validity of the methodology and assumptions used; ways to enhance the quality, usefulness, and clarity of the information to be collected; and minimizing the burden of collection on those who are to respond. The Information Collection Request describes the nature of the information collection and its expected cost and burden. OMB has up to 60 days to approve or disapprove this information collection but may respond after 30 days; therefore, public comments submitted to OMB closer to 30 days will have more chance for review. An Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 1076–0146. The Federal Register Notice with a 60-day comment period soliciting comments on this collection of information was published on February 14, 2002 (67 FR 6941). There were no comments received.

Title: Evaluation of the Performance of Trust Functions Performed by Tribes under Self-Governance Compacts, 25 CFR part 1000, subpart O (OMB Control No. 1076–0146). This is a request for an extension of a currently approved information collection.

Abstract: This collection of information will be made to ensure compliance with 25 U.S.C. 458cc(d) which requires that the Secretary of the Interior monitor the performance of trust functions which have been assumed under Self-Governance funding agreements negotiated between the Secretary and an Indian Tribe/Consortia (hereinafter the respondent).

This information collection addresses those statutory and regulatory performance requirements imposed upon the respondent through the assumption of a particular trust function, through a formal Self-Governance agreement pursuant to the Self-Governance Act (Pub. L. 103–413) which, if not performed properly, may create imminent jeopardy to a trust asset. The information will be used by the Department of the Interior to determine if there is imminent jeopardy to any asset held in trust by the United States for an Indian Tribe or individual Indian that are being managed by a Tribe/Consortium on behalf of the United States pursuant to a Self-Governance agreement.

Burden Statement: There is no preliminary work nor is any follow-up work required of the respondents. There are no forms to complete. The annual hour burden is calculated by the amount of time that the reviewer spends at each program site interviewing the respondents and collecting file information. Currently there are 70 respondents. The time required ranges from 4 person/hours to 80 person/hours. Based on the size and complexity of the current programs, the average hours spent for each annual evaluation is estimated at 24 person/hours. 70 × 24 = 1,680 total burden hours per year for the collection of information.

Dated: April 18, 2002.

Neal A. McCaleb, Assistant Secretary—Indian Affairs.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

Information Collections Submitted to the Office of Management and Budget for Approval Under the Paperwork Reduction Act; Grants Programs Authorized by the North American Wetlands Conservation Act (NAWCA)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of information collection; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (Service) plans to submit to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995. Copies of the specific information collection requirements, related forms and explanatory material may be obtained by contacting the Service Information Collection
Description and use: The North American Waterfowl Management Plan (NAWMP), first signed in 1986, is a tripartite agreement among Canada, Mexico and the United States to enhance, restore and otherwise protect continental wetlands to benefit waterfowl and other wetland associated wildlife through partnerships between and among the private and public sectors. Because the 1986 NAWMP did not carry with it a mechanism to provide for broadly-based and sustained financial support for wetland conservation activities, Congress passed and the President signed into law the NAWCA to fill that funding need. The purpose of NAWCA, as amended, is to promote long-term conservation of North American wetland ecosystems and the waterfowl and other migratory birds, fish and wildlife that depend upon such habitat through partnerships. Principal conservation actions supported by NAWCA are acquisition, enhancement and restoration of wetlands and wetlands-associated habitat.

As well as providing for a continuing and stable funding base, NAWCA establishes an administrative body, made up of a State representative from each of the four Flyways, three representatives from wetlands conservation organizations, the Secretary of the Board of the National Fish and Wildlife Foundation, and the Director of the Service. This administrative body is chartered, under the Federal Advisory Committee Act, by the U.S. Department of the Interior as the North American Wetlands Conservation Council (Council). As such, the purpose of the Council is to recommend wetlands conservation project proposals to the Migratory Bird Conservation Commission (MBCC) for funding.

Subsection (c) of section 5 (Council Procedures) provides that the "... * * * Council shall establish practices and procedures for the carrying out of its functions under subsections (a) and (b) of this section * * * which are consideration of projects and recommendations to the MBCC, respectively. The means by which the Council decides which project proposals are important to recommend to the MBCC is through grants programs that are coordinated through the Council Coordinator’s office (NAWWO) within the Service.

Competing for grant funds involves applications from partners that describe in substantial detail project locations and other characteristics, to meet the standards established by the Council and the requirements of NAWCA. The Council Coordinator’s office publishes and distributes Standard and Small Grants instructional booklets that assist the applicants in formulating project proposals for Council consideration. The instructional booklets and other instruments, e.g., Federal Register notices on request for proposals, are the basis for this information collection request for OMB clearance. Information collected under this program is used to respond to such needs as: Audits, program planning and management, program evaluation, Government Performance and Results Act reporting, Standard Form 424 (Application For Federal Assistance), grant agreements, budget reports and justifications, public and private requests for information, data provided to other programs for databases on similar programs, Congressional inquiries and reports required by NAWCA, etc.

In summary, information collection under these programs is required to obtain a benefit, i.e., a cash reimbursable grant that is given competitively to some applicants based on eligibility and relative scale of resource values involved in the projects. The information collection is subject to the Paperwork Reduction Act requirements for such activity, which includes soliciting comments from the general public regarding the nature and burden imposed by the collection.

Frequency of collection: Occasional. The Small Grants program has one project proposal submission window per year and the Standard Grants program has two per year.

Description of respondents: Households and/or individuals; business and/or other for-profit; not-for-profit institutions; farms; Federal Government; and State, local and/or Tribal governments.

Estimated completion time: The reporting burden, or time involved in writing project proposals, is estimated to be 80 hours for a small grants submission and 400 hours for a standard grants submission.

Number of respondents: It is estimated that 150 proposals will be submitted each year, 70 for the small grants program and 80 for the standard grants program.

Annual burden hours: 37,600.

Rebecca Mullin,
Information Collection Officer, Fish and Wildlife Service.
