See SUPPLEMENTARY INFORMATION for meeting information.

DATES: To ensure that the Service has adequate time to evaluate and incorporate suggestions and other input into the planning process, comments should be received within 30 days from the date of this notice.

ADDRESSES: Send written comments or requests to be added to the mailing list to: Planning Team Leader—Stone Lakes NWR, California/Nevada Refuge Planning Office, U.S. Fish and Wildlife Service, 2800 Cottage Way, W–1916, Sacramento, California 95825.

FOR FURTHER INFORMATION CONTACT: Address comments and requests for additional information to: Mr. Miki Fujitsubo, Planning Team Leader, (916) 414–6507.

SUPPLEMENTARY INFORMATION: The Stone Lakes National Wildlife Refuge is in southern Sacramento County, California, adjacent to the community of Elk Grove. The refuge is situated within the Morrison Creek, Cosumnes River, and Mokelumne River watersheds, and the Sacramento-San Joaquin River Delta (Delta).

The beginnings of the refuge started in the early 1970s with the recognition of the importance of the Stone Lakes Basin floodplain by the State of California and the County of Sacramento. There was strong support for a refuge because the unique lakes and waterways of the basin are entirely within the 100-year floodplain. The basin also occupies a strategic location for buffering urban encroachment into the Delta.

The refuge boundary was established in 1992 and with its first land acquisition in 1994 was officially designated the 505th unit in the National Wildlife Refuge System. The approved refuge boundary is 18,000 acres with the refuge currently owning or managing more than 4,000 acres.

The National Wildlife Refuge System Administration Act of 1966, as amended, mandates that all lands within the National Wildlife Refuge

scope of issues to include in the environmental documents.
