Endangered and Threatened Wildlife and Plants; Draft Cactus Ferruginous Pygmy-Owl Recovery Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; reopening of public comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service) announce the reopening of the comment period for the Draft Recovery Plan for the Cactus Ferruginous Pygmy-owl (Glaucidium brasilianum cactorum) (Draft Plan). The species is currently known to occur on Federal, state, tribal, and private lands in Pima and Pinal Counties in southern Arizona. We solicit review and comment from the public on this Draft Plan. Since the prior comment period, additional information from the administrative record concerning the locations of pygmy-owls has become available to the public, in part as a result of a court ruling in National Association of Home Builders v. Norton, 309 F.3d 26 (D.C. Cir. 2002). Thus, we are reopening the comment period on the Draft Plan to allow all interested parties additional time to provide comments. Comments previously submitted need not be resubmitted, because they will be incorporated into the public record as part of this reopening of the comment period, and will be fully considered in the Final Plan.

DATES: Submit comments on or before June 30, 2003.

ADDRESSES: Written comments and materials regarding the plan should be addressed to the Field Supervisor, Arizona Ecological Services Field Office, U.S. Fish and Wildlife Service, 2321 West Royal Palm Road, Suite 103, Phoenix, Arizona, 85021–4951 or faxed to 602/242–2513, or emailed to cfoa_recovery@fws.gov. The additional materials from the administrative record, as well as comments and materials received, are available for public inspection, by appointment, during normal business hours at the above address. You may also write the Field Supervisor at the address above, or call 602/242–0210 to have a copy mailed to you or made available for you to pick up at the address above. Persons wishing to review the Draft Recovery Plan may also obtain a copy by accessing the Service’s Arizona Ecological Service Field Office internet web page at Arizonaes.fws.gov.

SUPPLEMENTARY INFORMATION:
Background
Restoring an endangered or threatened animal or plant species to the point where it is again a secure, self-sustaining member of its ecosystem is a primary goal of our endangered species program. To help guide the recovery effort, we are working to prepare recovery plans for most of the listed species native to the United States. Recovery plans describe actions considered necessary for conservation of species, establish criteria for the recovery levels for delisting or delisting, and estimate time and cost for implementing the recovery measures needed. The current comment period for the Draft Plan closed on April 9, 2003.

The Endangered Species Act of 1973 (Act), as amended (16 U.S.C. 1531 et seq.), requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(g) of the Act, as amended in 1988, requires that public notice and an opportunity for public review and

The BLM planning area included oil and gas estate administered by BLM in the Powder River and Billings RMP areas. SUPPLEMENTARY INFORMATION: The Powder River RMP area encompasses the southeastern portion of Montana consisting of Treasure and Powder River counties, and portions of Rosebud, Big Horn, Carter, and Custer counties. There are approximately 2,522,950 BLM-administered oil and gas acres in the Powder River RMP area. The Billings RMP area encompasses the south-central portion of Montana consisting of Wheatland, Golden Valley, Musselshell, Sweet Grass, Stillwater, Yellowstone, and Carbon counties, and the remaining portion of Big Horn County. There are approximately 662,066 BLM-administered oil and gas acres in the Billings RMP area. The BLM-administered oil and gas acreage in Blaine, Park, and Gallatin counties is not part of this BLM planning effort.

The State of Montana was a co-lead in preparation of the EIS. Four Designated Cooperating Agencies helped the BLM and the State prepare the EIS: the Bureau of Indian Affairs, the United States Department of Energy, the Crow Tribe, and the United States Environmental Protection Agency. The Northern Cheyenne Tribe declined to become a cooperating agency, but was invited by the BLM to participate in all Cooperating Agency activities.
