50 CFR Part 20
Migratory Bird Hunting; Proposed Frameworks for Late-Season Migratory Bird Hunting Regulations; Proposed Rules
DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

50 CFR Part 20
RIN 1018–AI93

Migratory Bird Hunting; Proposed Frameworks for Late-Season Migratory Bird Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Proposed rule; supplemental.
SUMMARY: The Fish and Wildlife Service (hereinafter Service or we) is proposing to establish the 2003–04 late-season hunting regulations for certain migratory game birds. We annually prescribe frameworks, or outer limits, for dates and times when hunting may occur and the number of birds that may be taken and possessed in late seasons. These frameworks are necessary to allow State selections of seasons and limits and to allow recreational harvest at levels compatible with population and habitat conditions.
DATES: You must submit comments on the proposed migratory bird hunting late-season frameworks by September 2, 2003.
ADDRESSES: Send your comments on the proposals to the Chief, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, ms MBSP–4107–ARLSQ, 1849 C Street, NW., Washington, DC 20240. All comments received, including names and addresses, will become part of the public record. You may inspect comments during normal business hours at the Service’s office in room 4107, Arlington Square Building, 4501 N. Fairfax Drive, Arlington, Virginia.
FOR FURTHER INFORMATION CONTACT: Brian Millsap, Chief, or Ron W. Kokel, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, (703) 358–1714.
SUPPLEMENTARY INFORMATION: Regulations Schedule for 2003
On May 6, 2003, we published in the Federal Register (68 FR 24324) a proposal to amend 50 CFR part 20. The proposal provided a background and overview of the migratory bird hunting regulations process, and dealt with the establishment of seasons, limits, the proposed regulatory alternatives for the 2003–04 duck hunting season, and other regulations for migratory game birds under §§ 20.101 through 20.107, 20.109, and 20.110 of subpart K. On June 23, 2003, we published in the Federal Register (68 FR 37362) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks and finalized the regulatory alternatives for the 2003–04 duck hunting season. The June 23 supplement also provided detailed information on the 2003–04 regulatory schedule and announced the Service Migratory Bird Regulations Committee (SRC) and Flyway Council meetings.
On June 18–19, we held open meetings with the Flyway Council Consultants at which the participants reviewed information on the current status of migratory shore and upland game birds and developed recommendations for the 2003–04 regulations for these species plus regulations for migratory game birds in Alaska, Puerto Rico, and the Virgin Islands, special September waterfowl seasons in designated States, special sea duck seasons in the Atlantic Flyway, and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl as it relates to the development and selection of the regulatory packages for the 2003–04 regular waterfowl seasons. On July 17, 2003, we published in the Federal Register (68 FR 42546) a third document specifically dealing with the proposed frameworks for early-season regulations. In late August, we will publish a rulemaking establishing final frameworks for early-season migratory bird hunting regulations for the 2003–04 season.
On July 30–31, 2003, we held open meetings with the Flyway Council Consultants, at which the participants reviewed the status of waterfowl and developed recommendations for the 2003–04 regulations for these species. This document deals specifically with proposed frameworks for the late-season migratory bird hunting regulations. It will lead to final frameworks from which States may select season dates, shooting hours, areas, and limits.
We have considered all pertinent comments received through July 31, 2003, in developing this document. In addition, new proposals for certain late-season regulations are provided for public comment. The comment period is specified above under DATES. We will publish final regulatory frameworks for late-season migratory game bird hunting in the Federal Register on or about September 19, 2003.
Population Status and Harvest
The following paragraphs provide a brief summary of information on the status and harvest of waterfowl excerpted from various reports. For more detailed information on methodologies and results, you may obtain complete copies of the various reports at the address indicated under ADDRESSES or from our Web site at http://migratorybirds.fws.gov.

Status of Ducks
Federal, provincial, and State agencies conduct surveys each spring to estimate the size of breeding populations and to evaluate the conditions of the habitats. These surveys are conducted using fixed-wing aircraft and encompass principal breeding areas of North America, and cover over 2.0 million square miles. The Traditional survey area is comprised of Alaska, Canada, and the northcentral United States, and includes approximately 1.3 million square miles. The Eastern survey area includes parts of Ontario, Quebec, Labrador, Newfoundland, Nova Scotia, Prince Edward Island, New Brunswick, New York, and Maine, an area of approximately 0.7 million square miles.

Breeding Ground Conditions
Habitat conditions for breeding waterfowl have greatly improved over last year in most of the prairie survey areas. These improved conditions are reflected in the numbers of ponds counted this year. The estimate of May ponds (U.S. Prairies and Prairie and parkland Canada combined) of 5.2 ± 0.2 [SE] million is 91% higher than last year (P = 0.001) and 7% above the long-term average (P = 0.034). Numbers of ponds in Canada (3.5 ± 0.2 million) and the United States (1.7 ± 0.1 million) were above 2002 estimates (+145% in Canada and +30% in the U.S.; P < 0.001). Canadian ponds were similar to the 1974–2002 average (P = 0.297), while ponds in the United States were 10% above the 1974–2002 average (P = 0.037).

Most prairie areas had warm temperatures and abundant rain this spring. Two areas of dramatic improvement over the past several years were south-central Alberta and southern Saskatchewan, where conditions went from poor to good after much-needed precipitation relieved several years of drought. Other areas in the prairies also improved compared with 2002, but to a lesser extent. However, years of dry conditions in parts of the United States and Canadian prairies, combined with agricultural practices, have reduced the quality and quantity of residual nesting cover and overwater nest sites in many regions. This could potentially limit production for both dabbling and diving ducks, if the warm spring temperatures and good moisture of 2003 do not result...
in rapid growth of new cover. Eastern South Dakota was the one area of the prairies where wetland habitat conditions were generally worse than last year, mostly due to low soil moisture, little winter precipitation, and no significant rains in April. This region received several inches of rain in May, but most birds had probably flown to other regions with more favorable wetland conditions.

In the northern part of the traditional survey area, habitat was in generally good condition and most areas had normal water levels. The exception was northern Manitoba, where low water levels in small streams and beaver ponds resulted in overall breeding habitat conditions that were only fair. Warm spring temperatures arrived much earlier this year than the exceptionally late spring last year. However, a cold snap in early May may have hurt early nesting species such as mallards and pintails, particularly in the northern Northwest Territories.

Habitat conditions in the eastern survey area ranged from excellent to fair. In the southern and western part of this survey area, water and nesting cover were plentiful and temperatures were mild. Habitat quality decreased to the north, especially in northern and western Quebec, where many shallow marshes and bogs were either completely dry or reduced to mudflats. Beaver pond habitat was also noticeably less common than normal. To the east in Maine and most of the Maritime provinces, conditions were excellent with adequate water and vegetation, and warm spring temperatures.

Weather and habitat conditions during the summer months can influence waterfowl production. Good wetland conditions increase renesting and brood survival. July wetland conditions were rated fair to good over most of Prairie Canada, the Dakotas, and eastern Montana, but poor conditions prevailed in eastern South Dakota, south-central Manitoba, central Saskatchewan, and north-central Montana. However, uniformly good conditions were found in the northern portions of the prairie provinces, and spring and summer rains made for good-to-excellent conditions along the border of Saskatchewan and eastern Montana.

Results of the July Production Survey indicate that the number of ponds in Prairie Canada and the north-central United States combined was 2.5 ± 0.1 million ponds. This was 35 percent above last year’s estimate of 1.8 ± 0.1 million ponds. Although Montana received 8 percent below the long-term average, July ponds in Prairie Canada were estimated to be 1.5 ± 0.1 million. This was 47 percent above last year’s estimate of 1.0 ± 0.1 million but 16 percent below the long-term average. July ponds in the north-central United States were estimated at 1.0 ± 0.1 million. This was 21 percent above last year’s estimate of 0.8±: 0.1 million, but similar to the long-term average.

**Breeding Population Status**

In the traditional survey area, the total duck population estimate was 36.2 ± 0.7 million birds, 16 percent above last year’s (P < 0.001) last year’s estimate of 31.2 ± 0.5 million birds, and 9 percent above the long-term average (P < 0.001) the 1955–2002 long-term average. Mallard abundance was 7.9 ± 0.3 million birds, which was similar to last year’s estimate of 7.5 ± 0.2 million birds (P = 0.220) and the long-term average (P = 0.100). Blue-winged teal abundance was estimated to be 5.5 ± 0.3 million birds. This value was 31 percent above last year’s estimate of 4.2 ± 0.2 million birds (P < 0.001) and 23 percent above the long-term average (P = 0.001). Estimates of shoveler (3.6 ± 0.2 million; +56%) and pintails (2.6 ± 0.2 million; +43%) were above 2002 estimates (P < 0.001), while estimates of gadwall (2.5 ± 0.2 million), wigeon (2.6 ± 0.2 million), green-winged teal (2.7 ± 0.2 million), redheads (0.6 ± 0.1 million), canvasbacks (0.6 ± 0.1 million), and scaup (3.7 ± 0.2 million) were unchanged from 2002 estimates (P ≥ 0.149). Gadwall (+55%) and shoveler (+72%) were above their 1955–2002 averages (P < 0.001), while estimates of green-winged teal (+46%; P < 0.001), which were at this level since 1955. Pintails (−39%) and scaup (−29%) remained well below their long-term averages (P < 0.001). Estimates of wigeon, redheads, and canvasbacks were unchanged from their long-term averages (P ≥ 0.582).

The eastern survey area comprises strata 51–56 and 62–69. The 2003 total duck population estimate for this area was 3.6 ± 0.3 million birds. This estimate is 17 percent lower than that of last year (4.4 ± 0.3 million birds, P = 0.063), but is similar to the 1996–2002 average (P = 0.72%). Numbers of the individual species were similar to those of last year and the 1996–2002 average, with the exception of mergansers (0.6 ± 0.1 million), which decreased 30 percent from the 2002 estimate (P = 0.035).

**Breeding Activity and Production**

The number of broods in the north-central United States and Prairie Canada combined was 434,900, 29 percent higher than the 2002 estimate and 7 percent below the long-term average. The number of broods in Prairie Canada and the north-central United States were 142 percent and 18 percent above last year’s estimates, respectively. Brood indices in Prairie Canada were 24 percent below the long-term average, while brood counts were 31% above the long-term average in the north-central United States. Reflecting the lower concentration of ducks in the Canadian boreal forest this year compared to 2002, the brood index in this region was 72 percent lower than last year, and 76 percent below the long-term average. The late nesting index, that is, the number of pairs and lone drakes without broods seen during July surveys, was 17 percent higher than last year, and 51 percent lower than the long-term average, for all areas combined. The late nesting index was down 43 percent and 30 percent relative to last year in boreal Canada and Prairie Canada, respectively, but up 67 percent in the north-central United States. Late nesting indices were below the long-term average by 74 percent in boreal Canada, by 43 percent in the north-central United States, and by 46 percent in Prairie Canada.

**Fall Flight Estimate**

The size of the mid-continent mallard population, which comprises mallards from the traditional survey area, plus Michigan, Minnesota, and Wisconsin, was 8.8 million birds. This is similar to that of 2002 (8.6 million). The 2003 mid-continent mallard fall-flight estimate is 10.3 million birds, statistically similar to the 2002 estimate of 9.1 million birds. These estimates were based on revised mid-continent mallard population models and, therefore, differ from those previously published.

See section 1.B. Regulatory Alternatives for further discussion on the implications of this information for this year’s selection of the appropriate hunting regulations.

**Status of Geese and Swans**

We provide information on the population status and productivity of North American Canada goose (Branta canadensis), brant (B. bernicla), snow goose (Chen caerulescens), Ross’s goose (C. rossii), emperor goose (C. canagicus), white-fronted goose (Anser albifrons) and tundra swans (Cygnus columbianus). The timing of snowmelt and goose nesting activities in most areas of the Arctic and subarctic was near average in 2003. Only Alaska’s North Slope, Banks and adjacent Arctic Islands, and Akimiski Island reported substantially delayed nesting phenology this year. Although Alaska’s Yukon-Kuskokwim Delta experienced an early
spring snowmelt, we observed poor production of young by brant, cackling Canada goose, and emperor goose, likely due to low wetland levels and high fox predation. Conditions in 2003 were especially favorable for greater snow geese. Of the 25 populations for which current primary population indices were available, 8 populations (Atlantic Population, Aleutian, Dusky, and 3 temperate-nesting populations of Canada goose; Pacific Population White-fronted Geese; and Eastern Population Tundra Swans) displayed significant positive trends, and only Short Grass Prairie Population Canada goose displayed a significant negative trend over the most recent 10-year period. Forecasts for production of geese and swans in North America in 2003 varied regionally, but generally will be similar to or higher than in 2002.

Waterfowl Harvest and Hunter Activity

During the 2002–03 hunting season, duck stamp sales, duck harvest, and goose harvest all declined from the previous year. United States waterfowl hunters bagged about 8 percent fewer ducks and 7 percent fewer than in 2001. Duck stamp sales totaled 1,583,847 (4 percent decrease) and 12,740,300 ducks (–8%) and 3,378,600 geese (–7%) were harvested. The five most commonly harvested duck species were mallard (4,915,600), green-winged teal (1,389,500), gadwall (1,251,400), wood duck (1,212,800), and blue-winged/cinnamon teal (765,700).

Review of Public Comments and Flyway Council Recommendations

The preliminary proposed rulemaking, which appeared in the May 6, 2003, Federal Register, opened the public comment period for migratory game bird hunting regulations. The supplemental proposed rule, which appeared in the June 23, 2003, Federal Register, discussed the regulatory alternatives for the 2003–04 duck hunting season. Late-season comments are summarized below and numbered in the order used in the May 6 Federal Register document. We have included only the numbered items pertaining to late-season issues for which we received written comments. Consequently, the issues do not follow in direct numerical or alphabetical order.

We received recommendations from all four Flyway Councils. Some recommendations supported continuation of last year’s frameworks. Due to the comprehensive nature of the annual review of the frameworks performed by Councils, support for continuation of last year’s frameworks is assumed for items for which no recommendations were received. Council recommendations for changes in the frameworks are summarized below.

We seek additional information and comments on the recommendations in this supplemental proposed rule. New proposals and modifications to previously described proposals are discussed below. Wherever possible, they are discussed under headings corresponding to the numbered items in the May 6, 2003, Federal Register document.

1. Ducks

Categories used to discuss issues related to duck harvest management are: (A) Harvest Strategy Considerations, (B) Regulatory Alternatives, (C) Zones and Split Seasons, and (D) Special Seasons/Species Management. The categories correspond to previously published issues/discussion, and only those containing substantial recommendations are discussed below.

A. Harvest Strategy Considerations

Service Response: Currently, two stocks of mallards (midcontinent and eastern) are recognized for the purposes of Adaptive Harvest Management (AHM). This year, we will again use an approach to the optimization of these stocks’ harvest, whereby the Atlantic Flyway regulatory strategy is based exclusively on the status of eastern mallards, and the regulatory strategy for the remaining Flyways is based exclusively on the status of midcontinent mallards. However, this approach continues to be considered provisional until its implications are better understood, and until such time that a more comprehensive approach to managing multiple duck stocks is developed.

For the 2003 hunting season, the Service made two significant changes to AHM, based on recommendations from the Flyway Councils: (1) The “very-restrictive” option was eliminated from the set of regulatory alternatives, and (2) consideration of a closed season in the western three Flyways is restricted to midcontinent (traditional survey plus Minnesota, Wisconsin, and Michigan) mallard breeding population levels <5.5 million. We also continue to offer extended framework dates in the “moderate” and “liberal” regulatory alternatives. The regulatory alternatives were discussed in the June 23 Federal Register.

The 2003 optimal regulatory strategy for midcontinent mallards was based on: (1) The revised regulatory alternatives, including the closed-season constraint; (2) updates of regulation-specific harvest rates; (3) current population models and updated model weights; and (3) the dual objectives to maximize long-term cumulative harvest and achieve a population goal of 8.8 million midcontinent mallards. Based on a spring population survey of 8.80 million mallards and 3.52 million Canadian ponds, the prescription is for a “liberal” season in 2003 for the three western Flyways.

The final optimal regulatory strategy for eastern mallards was based on: (1) The revised regulatory alternatives; (2) current population models and updated model weights; and (3) an objective to maximize long-term cumulative harvest. The spring population size of eastern mallards (Northeast plot survey + Canada) this year was 1.04 million, suggesting that a “liberal” season in 2003 is appropriate for the Atlantic Flyway.

We support the recommendations of the Atlantic, Mississippi, Central and Pacific Flyways regarding selection of the “liberal” regulatory alternative and therefore propose to adopt the “liberal” regulatory alternative, as described in the June 23 Federal Register.

B. Regulatory Alternatives

Council Recommendations: The Central Flyway Council recommended the availability of two daily bag limit options, termed Options A and B. Under Option A, the daily bag limit would be 6 ducks, with species and sex restrictions as follows: 5 mallards (no more than 2 of which may be females) 3 scaup, 2 redheads, 2 wood ducks, 1 pintail, 1 mottled duck, and 1 canvasback. The season for pintails and canvasbacks would be limited to 39 days (see further discussion under section 1.D. Special Seasons/Species Management). Under Option B, the daily bag limit would be 5 ducks, with species and sex restrictions as follows: 3 scaup, 2 redheads, 2 wood ducks, 1 pintail, 1 mottled duck, 1 hen mallard, and 1 canvasback. There would be no restrictions on the season length for canvasbacks or pintails.
D. Special Seasons/Species Management

iii. Black Ducks

Council Recommendations: The Atlantic Flyway Council recommended allowing States the opportunity to return to a 2-black-duck daily bag limit providing they close the black duck season one day for each day a 2-black-duck bag limit is employed. No offset would be required for days when the black duck bag limit was restricted to 1 bird. Both increased bag days and closed days must be consecutive, except that 1 split is allowed. This regulation will be evaluated annually by the Atlantic Flyway Council.

Service Response: We do not support the Atlantic Flyway Council’s recommendation. This request is similar to the Council’s request last year, which the Service denied due to the difficulty in assessing options on a Flyway basis and the inability to assess whether or not these options are harvest-neutral. Until there is some formal agreement to manage black duck harvests on something less than a rangewide basis, we believe black ducks should continue to be managed at that level. Although black duck numbers may have improved slightly in recent years in some areas, they still remain below goal, and this spring’s breeding population estimates declined 13 percent.

Presently, we are waiting for the International Black Duck Harvest Management Working Group to complete its report, which is due in November. Until we have some formal agreement among the stakeholders, including the Mississippi Flyway, we believe it is premature to consider the harvest strategy proposed by the Flyway.

iv. Canvasbacks

Council Recommendations: The Atlantic Flyway Council recommended modifying the 1994 Canvasback Harvest Strategy to allow for a limited canvasback harvest (season within a season) during years when the predicted harvest exceeds the allowable harvest, but can still be achieved by a more restrictive package (moderate, restrictive, or very restrictive). The season closure threshold would remain at a predicted spring breeding population of 500,000. For 2003, the Council recommended that the Service allow a restrictive canvasback season of 30 consecutive hunt days for the Atlantic Flyway, with a one-bird daily limit.

The Upper- and Lower-Regulations Committees of the Mississippi Flyway Council recommended that the Service allow a restrictive canvasback season of 30 consecutive hunt days for the Mississippi Flyway, with a one-bird daily limit.

The Central Flyway Council recommended that the existing interim harvest strategy for canvasbacks be followed during the 2003–04 season. The Council further recommended under Option A (described in section 1.B. Regulatory Alternatives) that the canvasback season be 39 days, which may be split according to applicable zones/split duck hunting configurations approved for each State.

The Pacific Flyway Council recommended a canvasback season of 86 days, plus 2 youth hunt days in the Pacific Flyway, with a daily bag limit of 1, and flexibility for States to select dates for canvasback seasons during any period within the duck season framework dates.

Service Response: We continue to support the harvest strategy adopted in 1994. This year, the strategy suggests that current population and habitat status, combined with the predicted harvests, would not support harvest of canvasbacks in the “liberal” season alternative. This spring, the estimate of canvasback abundance during the May survey was 558,000 birds, and the number of ponds in Prairie Canada was about 3.5 million. Using the model from the canvasback harvest management strategy, the number of birds that could be harvested in the United States during the 2003–04 hunting season, while still attaining the objective of 500,000 birds next spring, is about 102,000. The predicted harvest in the United States, associated with the “liberal” regulatory alternative in the United States, is about 119,000 birds.

We believe that if the harvest strategy indicates a full season cannot be allowed, in some cases, a limited harvest might be possible and still attain the spring abundance objective. Thus, we propose a 30-day season length at the level of the “restrictive” AHM alternative (i.e., 30 days in the Atlantic and Mississippi Flyways, 39 days in the Central Flyway, and 60 days in the Pacific Flyway) for this year. Hunting days must be taken consecutively and must be consistent with established zone/split hunting configurations approved for the regular duck season in each State.

Further, for the second time in the past 3 years, we have proposed a departure from the 1994 canvasback harvest strategy. During the coming year, we encourage the Flyway Councils to review the harvest strategy.

v. Pintails

Council Recommendations: The Atlantic Flyway Council and the Upper- and Lower-Regulations Committees of the Mississippi Flyway Council recommended that the regulations for pintails in 2003–04 be a 60-day season with a 1-bird bag limit.

The Central Flyway Council recommended that the existing interim harvest strategy for pintails be followed during the 2003–04 season. The Council further recommended under Option A (described in section 1.B. Regulatory Alternatives) that the pintail season be 39 days, which may be split according to applicable zones/split duck hunting configurations approved for each State.

The Pacific Flyway Council recommended a full-season framework for pintails, with a daily bag limit of 1 bird.

Service Response: Last year, the Flyway Councils and the Service agreed to depart from the established pintail harvest strategy and implement a “season-within-a-season” in all four Flyways for northern pintails. The season length employed was the season length for the restrictive alternative under the AHM protocol in all four Flyways. The overall harvest declined, although not as much as predicted by the current models. This year, the breeding population estimate increased to 2.6 million; however, this estimate is still about 40 percent below the long-term population average. The interim strategy recommends a 1-pintail daily bag limit nationwide. However, based on the models, the predicted harvest (slightly more than 600,000) is projected to result in a lower breeding population in 2004.

Implementation of another year of the restrictive season length for pintails is projected to result in about a 7 percent population increase. Since the use of the strategy has not achieved the desired population growth, and model projections suggest a population decline under a “liberal” season length with a 1-bird daily bag limit in all four Flyways, we propose that we again
depart from the harvest strategy and restrict pintail season length to those in the “restrictive” AHM alternative. Season length would be 30 days in the Atlantic and Mississippi Flyways, 39 days in the Central Flyway, and 60 days in the Pacific Flyway. Hunting days must be consistent with established zone/split hunting configurations approved for the regular duck season in each State.

Further, for the second year in a row, we are proposing a departure from the interim harvest strategy for the reasons noted above, and in recognition that the habitat conditions in key pintail breeding areas offer some real chance to achieve population growth. During the coming year, we would like to review the harvest strategy with the Councils with regard to the provision in the interim strategy that permits seasons that are expected to reduce future breeding populations.

viii. Wood Ducks
Council Recommendations: The Atlantic Flyway Council recommends increasing the wood duck bag limit to three birds during October 1 through November 6 in the Atlantic Flyway for a 3-year experimental period (2003/04—2005/06).

Service Response: We do not support the Atlantic Flyway Council’s recommendation. We are continuing to evaluate the usefulness of a modeling approach to the management of wood duck harvests; however, this work is not yet completed and we believe that changes in bag limits are premature at this time. Further, we are concerned about the potential effects of this change on local breeding populations.

4. Canada Geese
B. Regular Seasons
The Central Flyway Council recommended that regular season frameworks for dark geese in the western States consist of a framework opening date of the Saturday nearest September 24 (September 27, 2003) and a framework closing date of the Sunday nearest February 15 (February 14, 2004). The season could be divided into 2 segments, except in Wyoming, where the season could be divided into 3 segments and evaluated in accordance with Service criteria. Season length would be 107 days, except in Colorado and Texas, where the season length would be 95 days. Daily bag limit would be five dark geese in the aggregate, with the following exceptions: (a) In the Western Goose Zone of Texas, the daily bag limit would be one white-fronted goose and three other dark geese (in the aggregate), and (b) in Colorado, the daily bag limit would be three dark geese in the aggregate. The possession limit would be twice the daily bag limit.

The Pacific Flyway Council recommended increasing the goose season length in eastern Washington from 100 to 107 days, creation of a new management area within Oregon’s Northwest Special Permit Zone, elimination of California’s San Joaquin Valley Special Management Area, and increasing the goose season length in Humboldt and Del Norte Counties, California, from 9 to 16 days.

Service Response: We concur with all the Council recommendations except for one aspect regarding the creation of a new management area within Oregon’s Northwest Special Permit Zone. We continue to support efforts to address long-standing concerns about agricultural damage caused by Canada geese in this area, and would support the creation of the recommended zone with the condition that the daily bag limit on cackling Canada geese be reduced to two birds in the four-bird goose bag during the early portion of the goose season chosen for the new zone. We believe this restriction will help to minimize possible impacts on cackling Canada geese present in the area during this season. Cackling Canada geese are an important sport and subsistence resource and the population is currently 30 percent below objective levels and has not shown any increase in recent years. We believe that additional take of cackling Canada geese should not be encouraged at this time.

C. Special Late Season
Council Recommendations: The Atlantic Flyway Council recommended that Massachusetts’ late Canada goose southern boundary of the coastal zone be extended from the present boundary in Duxbury, south to the Cape Cod Canal.

The Upper- and Lower-Region Regulations Committees of the Mississippi Flyway Council recommended that the experimental late (December) special Canada goose season in Minnesota be granted operational status.

Service Response: We concur.

B. Swans
Council Recommendations: The Central Flyway Council recommended that up to 200 tundra swan permits be temporarily transferred from South Dakota to North Dakota beginning in the 2003 season.

Service Response: We concur. The transfer of swan hunting permits within a Flyway is in accordance with guidelines in the Cooperative Flyway Management Plan for the Eastern Population of Tundra Swans.

In addition, the Service has completed the final environmental assessment (EA) for general swan seasons in the Pacific Flyway (the availability of the draft EA was announced in the May 16, 2003, Federal Register [68 FR 26642]). The EA includes a review of the 5-year experimental general swan hunting seasons that took place from 1995 to 2000, as well as a summary of the results of subsequent 2000–03 hunting seasons. Information from the most recent breeding and wintering populations surveys is also included in the EA. Three alternatives are evaluated to address the future of operational swarm hunting seasons in Utah, Nevada, and the Pacific Flyway portion of Montana. The issuance of a new EA fulfills the Service commitment to assess the Pacific Flyway swan seasons at the end of the 2002–03 hunting season as established in the most recent EA on the issue, the availability of which was announced in the April 25, 2001, Federal Register (66 FR 20828). The EA focuses on the issue of whether or not to establish an operational approach for swan hunting. Related efforts to address population status and distributional concerns regarding the Rocky Mountain Population of trumpeter swans are also discussed. Three alternatives, including the proposed action, were considered. Copies are available from the Service’s Web site at www.migratorybirds.fws.gov or by writing to Robert Trost, Pacific Flyway Representative, U.S. Fish and Wildlife Service, Division of Migratory Bird Management, 911 N.E., 11th Avenue, Portland, Oregon 97232–4181.

Public Comment Invited
The Department of the Interior’s policy is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. We intend that adopted final rules be as responsive as possible to all concerned interests and, therefore, seek the comments and suggestions of the public, other concerned governmental agencies, nongovernmental organizations, and other private interests on these proposals. Accordingly, we invite interested persons to submit written comments, suggestions, or recommendations regarding the proposed regulations to the address indicated under ADDRESSES.

Special circumstances involved in the establishment of the regulations limit the amount of time that we can allow for public comment. Specifically, two
considerations compress the time in which the rulemaking process must operate: (1) The need to establish final rules at a point early enough in the summer to allow affected State agencies to adjust their licensing and regulatory mechanisms; and (2) the unavailability, before mid-June, of specific, reliable data on this year’s status of some waterfowl and migratory shore and upland game bird populations. Therefore, we believe that to allow comment periods past the dates specified in DATES is contrary to the public interest.

Before promulgation of final migratory game bird hunting regulations, we will take into consideration all comments received. Such comments, and any additional information received, may lead to final regulations that differ from these proposals. You may inspect comments received on the proposed annual regulations during normal business hours at the Service’s office in room 4107, 4501 North Fairfax Drive, Arlington, Virginia. For each series of proposed rulemakings, we will establish specific comment periods. We will consider, but possibly may not respond in detail to, each comment. However, as in the past, we will summarize all comments received during the comment period and respond to them in the final rule.

NEPA Consideration

NEPA considerations are covered by the programmatic document, “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14),” filed with the Environmental Protection Agency on June 9, 1988. We published Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582) and our Record of Decision on August 18, 1988 (53 FR 31341). In addition, in a proposed rule published in the April 30, 2001, Federal Register (66 FR 21298), we expressed our intent to begin the process of developing a new EIS for the migratory bird hunting program. We plan to begin the public scoping process in the near future.

The Service has also completed the final environmental assessment (EA) for the 1995 to 2000, as well as a summary of the results of subsequent 2000–02 hunting seasons. Copies are available from the Service’s Web site at www.migratorybirds.fws.gov or by writing to Robert Troost, Pacific Flyway Representative, U.S. Fish and Wildlife Service, Division of Migratory Bird Management, 911 N.E., 11th Avenue, Portland, Oregon 97232–4181.

Endangered Species Act Consideration

Prior to issuance of the 2003–04 migratory game bird hunting regulations, we will consider provisions of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531–1543; hereinafter the Act), to ensure that hunting is not likely to jeopardize the continued existence of any species designated as endangered or threatened or modify or destroy its critical habitat, and is consistent with conservation programs for those species. Consultations under Section 7 of this Act may cause us to change proposals in this and future supplemental proposed rulemaking documents.

Executive Order 12866

The migratory bird hunting regulations are economically significant and are annually reviewed by the Office of Management and Budget (OMB) under Executive Order 12866. As such, a cost/benefit analysis was initially prepared in 1981. This analysis was subsequently revised annually from 1990–96, and then updated in 1998. We will update again in 2004. It is further discussed below under the heading Regulatory Flexibility Act. Copies of the cost/benefit analysis are available upon request from the address indicated under ADDRESSES.

Executive Order 12866 also requires each agency to write regulations that are easy to understand. We invite comments on how to make this rule easier to understand, including answers to questions such as the following:

(1) Are the requirements in the rule clearly stated?
(2) Does the rule contain technical language or jargon that interferes with its clarity?
(3) Does the format of the rule (e.g., grouping and order of sections, use of headings, paragraphing) aid or reduce its clarity?
(4) Would the rule be easier to understand if it were divided into more (but shorter) sections?
(5) Is the description of the rule in the “Supplementary Information” section of the preamble helpful in understanding the rule?
(6) What else could we do to make the rule easier to understand?

Send a copy of any comments that concern how we could make this rule easier to understand to: Office of the Executive Secretariat and Regulatory Affairs, U.S. Department of the Interior, Room 7229, 1849 C Street NW., Washington, DC 20240. You may also e-mail comments to this address: Exsec@ios.doi.gov.

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail as part of the 1981 cost/benefit analysis discussed under Executive Order 12866. This analysis was revised annually from 1990–95. In 1995, the Service issued a Small Entity Flexibility Analysis (Analysis). The Analysis was subsequently updated in 1996 and 1998 and will be updated again in 2004. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The 1998 Analysis was based on the 1996 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend between $429 million and $1.084 billion at small businesses in 2003. Copies of the Analysis are available upon request from the address indicated under ADDRESSES.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule has an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we do not plan to defer the effective date required by 5 U.S.C. 801 under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. The various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, Subpart K, are utilized in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the Migratory Bird Harvest Information Program and assigned clearance number 1018–0015 (expires 10/31/2004). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. The Federal agency may not conduct or sponsor, and a person is not required to respond to, a
Federalism Effects
Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections regarding the hunting of migratory birds, and we employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and Tribes to determine which seasons meet their individual needs. Any State or tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

List of Subjects in 50 CFR Part 20
Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Proposed Regulations Frameworks for 2003–04 Late Hunting Seasons on Certain Migratory Game Birds
Pursuant to the Migratory Bird Treaty Act and delegated authorities, the Department has approved frameworks for season lengths, shooting hours, bag and possession limits, and outside dates within which States may select seasons for hunting waterfowl and coots between the dates of September 1, 2003, and March 10, 2004.

General
Dates: All outside dates noted below are inclusive. Shooting and Hawking (taking by falconry) Hours: Unless otherwise specified, from one-half hour before sunrise to sunset daily.

Possession Limits: Unless otherwise specified, possession limits are twice the daily bag limit.

Flyways and Management Units

Waterfowl Flyways

Mississippi Flyway—includes Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin.

Central Flyway—includes Colorado (east of the Continental Divide), Kansas, Montana (Counties of Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide except the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Pacific Flyway—includes Alaska, Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, and those portions of Colorado, Montana, New Mexico, and Wyoming not included in the Central Flyway.

Management Units

High Plains Mallard Management Unit—roughly defined as that portion of the Central Flyway that lies west of the 100th meridian.

Definitions: For the purpose of hunting regulations listed below, the collective terms “dark” and “light” geese include the following species: Dark geese: Canada geese, white-fronted geese, brant, and all other goose species except light geese. Light geese: snow (including blue) geese and Ross’ geese.

Area, Zone, and Unit Descriptions: Geographic descriptions related to late-season regulations are contained in a later portion of this document.

Area-Specific Provisions: Frameworks for open seasons, season lengths, bag and possession limits, and other special provisions are listed below by Flyway.

Compensatory Days in the Atlantic Flyway: In the Atlantic Flyway States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, North Carolina, Pennsylvania, and Virginia, where Sunday hunting is prohibited statewide by State law, all Sundays are closed to all take of

Unfunded Mandates Reform Act
We have determined and certify, in compliance with the requirements of the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State government or private entities. Therefore, this rule is not a “significant regulatory action” under the Unfunded Mandates Reform Act.

Civil Justice Reform—Executive Order 12988
The Department, in promulgating this proposed rule, has determined that it will not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of Executive Order 12988.

Takings Implication Assessment
In accordance with Executive Order 12630, this proposed rule, authorized by the Migratory Bird Treaty Act, does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, these rules allow hunters to exercise otherwise unavailable privileges and, therefore, reduce restrictions on the use of private and public property.

Government-to-Government Relationship with Tribes
In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no effects.

Energy Effects—Executive Order 13211
On May 18, 2001, the President issued Executive Order 13211 on regulations that significantly affect energy supply, distribution, and use. Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. While this proposed rule is a significant regulatory action under Executive Order 12866, it is not expected to adversely affect energy supplies, distribution, or use. Thus, it is not a significant energy action and no Statement of Energy Effects is required.

Federal Register / Vol. 68, No. 160 / Tuesday, August 19, 2003 / Proposed Rules
migratory waterfowl (including mergansers and coots).

**Atlantic Flyway**

*Ducks, Mergansers, and Coots*

**Outside Dates:** Between the Saturday nearest September 24 (September 27) and the last Sunday in January (January 25).

**Hunting Seasons and Duck Limits:** 60 days, except pintails and canvasesback which may not exceed 30 days, and season splits must conform to each State's zone/split configuration for duck hunting. The daily bag limit is 6 ducks, including no more than 4 mallards (2 hens), 3 scaup, 1 black duck, 1 pintail, 1 canvassback, 1 mottled duck, 1 fulvous whistling duck, 2 wood ducks, 2 redheads, and 4 scoters. A single pintail and canvassback may also be included in the 6-bird daily bag limit for designated youth-hunt days.

**Closures:** The season on harlequin ducks is closed.

**Sea Ducks:** Within the special sea duck areas, during the regular duck season in the Atlantic Flyway, States may choose to allow the above sea duck limits in addition to the limits applying to other ducks during the regular duck season. In all other areas, sea ducks may be taken only during the regular open season for ducks and are part of the regular duck season daily bag (not to exceed 4 scoters) and possession limits.

**Merganser Limits:** The daily bag limit of mergansers is 5, only 1 of which may be a hooded merganser.

**Coot Limits:** The daily bag limit is 15 coots.

**Lake Champlain Zone, New York:** The waterfowl seasons, limits, and shooting hours shall be the same as those selected for the Lake Champlain Zone of Vermont.

**Connecticut River Zone, Vermont:** The waterfowl seasons, limits, and shooting hours shall be the same as those selected for the Inland Zone of New Hampshire.

**Zoning and Split Seasons:** Delaware, Florida, Georgia, Maryland, North Carolina, Rhode Island, South Carolina, and Virginia may split their seasons into three segments; Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Vermont, and West Virginia may select hunting seasons by zones and may split their seasons into two segments in each zone.

**Canada Geese**

**Season Lengths, Outside Dates, and Limits:** Specific regulations for Canada geese are shown below by State. Unless specified otherwise, seasons may be split into two segments. In areas within States where the framework closing date for Atlantic Population (AP) goose seasons overlaps with special late season frameworks for resident geese, the framework closing date for AP goose seasons is January 14.

**Connecticut:**

- **North Atlantic Population (NAP) Zone:** Between October 1 and January 31, a 60-day season may be held with a 2-bird daily bag limit in the H Unit and a 70-day season with a 3-bird daily bag in the L Unit.
- **Atlantic Population (AP) Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.
- **South Zone:** A special experimental season may be held between January 15 and February 15, with a 5-bird daily bag limit.

**South Carolina:** A special experimental season may be held between January 15 and February 15, with a 3-bird daily bag limit in the Low Harvest areas.

- **Special Late Goose Season Area:** An experimental season may be held between January 15 and February 15, with a 5-bird daily bag limit in designated areas of Chemung, Delaware, Tioga, Broome, Sullivan, Westchester, Nassau, Suffolk, Orange, Dutchess, Putnam, and Rockland Counties.

- **AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**PP Zone:** A 70-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

- **AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**North Carolina:** A 70-day season may be held between November 15 and January 14, with a 2-bird daily bag limit.

**Pennsylvania:** A 40-day season may be held between November 15 and January 14, with a 2-bird daily bag limit.

**Pymatuning Zone:** A 35-day season may be held between October 1 and January 15, with a 1-bird daily bag limit.

**AP Zone:** A 40-day season may be held during the experimental season in designated areas of Chemung, Delaware, Tioga, Broome, Sullivan, Westchester, Nassau, Suffolk, Orange, Dutchess, Putnam, and Rockland Counties.

**AP Zone:** A 45-day season may be held between October 1 and January 31, with a 2-bird daily bag limit.

**Ohio:** A 70-day season may be held between November 15 and January 14, with a 2-bird daily bag limit.

**Rhode Island:** A 60-day season may be held between November 15 and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 70-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**Virginia:** A 70-day season may be held between November 15 and January 31, with a 2-bird daily bag limit.

**Special Late Goose Season Area:** An experimental season may be held between January 15 and February 15, with a 5-bird daily bag limit in designated areas of Chemung, Delaware, Tioga, Broome, Sullivan, Westchester, Nassau, Suffolk, Orange, Dutchess, Putnam, and Rockland Counties.

**PP Zone:** A 70-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.

**AP Zone:** A 45-day season may be held between the last Saturday in October (October 25) and January 31, with a 2-bird daily bag limit.
January 14, with a 2-bird daily bag limit. Additionally, an experimental season may be held between January 15 and February 15, with a 5-bird daily bag limit.

AP Zone: A 45-day season may be held between November 15 and January 31, with a 1-bird daily bag limit. RP Zone: A 70-day season may be held between November 15 and February 15, with a 5-bird daily bag limit.

Back Bay Area: Season is closed. West Virginia: A 70-day season may be held between October 1 and January 31, with a 3-bird daily bag limit.

**Light Geese**

**Season Lengths, Outside Dates, and Limits:** States may select a 107-day season between October 1 and March 10, with a 15-bird daily bag limit and no possession limit. States may split their seasons into three segments, except in Delaware and Maryland, where, following the completion of their duck season, and until March 10, Delaware and Maryland may split the remaining portion of the season to allow hunting on Mondays, Wednesdays, Fridays, and Saturdays only.

**Mississippi Flyway**

**Ducks, Mergansers, and Coots**

**Outside Dates:** Between the Saturday nearest September 24 (September 27) and the last Sunday in January (January 25).

**Hunting Seasons and Duck Limits:** 60 days, except that the season for pintails and canvasbacks may not exceed 30 days for each species, and season splits must conform to each State’s zone/split configuration for duck hunting. The daily bag limit is 6 ducks, including no more than 4 mallards (no more than 2 of which may be females), 3 mottled ducks, 3 scaup, 1 black duck, 1 pintail, 1 canvasback, 2 wood ducks, and 2 redheads. A single pintail and canvasback may also be included in the 6-bird daily bag limit for designated youth-hunt days.

**Merganser Limits:** The daily bag limit is 5, only 1 of which may be a hooded merganser. In States that include mergansers in the duck bag limit, the daily limit is the same as the duck bag limit, only one of which may be a hooded merganser.

**Coot Limits:** The daily bag limit is 15 coots.

**Zoning and Split Seasons:** Alabama, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Missouri, Ohio, Tennessee, and Wisconsin may select hunting seasons by zones.

In Alabama, Indiana, Iowa, Kentucky, Louisiana, Michigan, Ohio, Tennessee, and Wisconsin, the season may be split into two segments in each zone. In Arkansas, Minnesota, and Mississippi, the season may be split into three segments.

**Geeese**

**Split Seasons:** Seasons for geese may be split into three segments. Three-way split seasons for Canada goose require Mississippi Flyway Council and U.S. Fish and Wildlife Service approval and a 3-year evaluation by each participating State.

**Season Lengths, Outside Dates, and Limits:** States may select seasons for light geese not to exceed 107 days, with 20 geese daily between the Saturday nearest September 24 (September 27) and March 10; for white-fronted geese not to exceed 86 days, with 2 geese daily or 107 days with 1 goose daily between the Saturday nearest September 24 (September 27) and January 31. There is no possession limit for light geese. Specific regulations for Canada goose and exceptions to the above general provisions are shown below by State. Except as noted below, the outside dates for Canada geese are the Saturday nearest September 24 (September 27) and January 31.

**Alabama:** In the SJBP Goose Zone, the season for Canada goose may not exceed 50 days. Elsewhere, the season for Canada goose may extend for 70 days in the respective duck-hunting zones. The daily bag limit is 2 Canada geese.

**Arkansas:** In the Northwest Zone, the season for Canada goose may extend for 33 days, provided that one segment of at least 9 days occurs prior to October 15. In the remainder of the State, the season may not exceed 23 days. The season may extend to February 15, and may be split into 2 segments. The daily bag limit is 2 Canada geese.

**Illinois:** The total harvest of Canada goose in the State will be limited to 126,400 birds. The daily bag limit is 2 Canada geese. The possession limit is 10 Canada geese.

**Kankakee Zone:** The season for Canada goose will close after 92 days or when 19,300 birds have been harvested in the Northern Illinois Quota Zone, whichever occurs first.

(b) Central Zone—The season for Canada goose will close after 92 days or when 24,100 birds have been harvested in the Central Illinois Quota Zone, whichever occurs first.

(c) South Zone—The season for Canada goose will close after 92 days or when 28,600 birds have been harvested in the Southern Illinois Quota Zone, whichever occurs first.

**Indiana:** The season for Canada goose may extend for 70 days, except in the SJBP Zone, where the season may not exceed 50 days. The daily bag limit is 2 Canada geese.

**Iowa:** The season may extend for 70 days. The daily bag limit is 2 Canada geese.

**Kentucky:** (a) Western Zone—The season for Canada goose may extend for 66 days (81 days in Fulton County), and the harvest will be limited to 20,200 birds. Of the 20,200-bird quota, 13,100 birds will be allocated to the Ballard Reporting Area and 7,050 birds will be allocated to the Henderson/Union Reporting Area. If the quota in either reporting area is reached prior to completion of the 66-day season, the season in that reporting area will be closed. If the quotas in both the Ballard and Henderson/Union reporting areas are reached prior to completion of the 66-day season, the season in the counties and portions of counties that comprise the Western Goose Zone (listed in State regulations) may continue for an additional 7 days, not to exceed a total of 66 days (81 days in Fulton County). The season in Fulton County may extend to February 15. The daily bag limit is 2 Canada geese.

(b) Penroyal/Coalfield Zone—The season may extend for 50 days. The daily bag limit is 2 Canada geese.

(c) Remainder of the State—The season may extend for 50 days. The daily bag limit is 2 Canada geese.

**Louisiana:** The season for Canada goose may extend for 9 days. During the season, the daily bag limit is 1 Canada goose and 2 white-fronted geese with an 86-day white-fronted goose season or 1 white-fronted goose with a 107-day season. Hunters participating in the Canada goose season must possess a special permit issued by the State.

**Michigan:** (a) MVP Zone—The total harvest of Canada goose may be limited to 94,800 birds. The framework opening date for all geese is September 16, and the season for Canada goose may extend for 55 days. The daily bag limit is 2 Canada geese.

(1) Allegan County GMU—The Canada goose season will close after 50 days or when 3,000 birds have been
harvested, whichever occurs first. The daily bag limit is 1 Canada goose.

(2) Muskegon Wastewater GMU—The Canada goose season will close after 50 days or when 1,000 birds have been harvested, whichever occurs first. The daily bag limit is 2 Canada geese.

(b) SJBP Zone—The framework opening date for all geese is September 16, and the season for Canada geese may extend for 30 days. The daily bag limit is 2 Canada geese.

(c) Remainder of the State—(1) South Zone—The season for Canada geese may extend for 77 days. The season may be split into 3 segments, provided that 1 segment occurs prior to December 1. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter.

(2) Middle Zone—The season for Canada geese may extend for 77 days, with no more than 30 days occurring after November 30. The season may be split into 3 segments, provided that 1 segment occurs prior to October 15. The daily bag limit is 3 Canada geese through October 31, and 2 Canada geese thereafter.

(b) Collins Zone—The framework opening date for all geese is September 16. The harvest of Canada geese is limited to 1,000 birds. The season may not exceed 68 days. All Canada geese harvested must be tagged. The daily bag limit is 2 Canada geese, and the season limit will be the number of tags issued to each permittee.

(c) Exterior Zone—The framework opening date for all geese is September 16. The harvest of Canada geese is limited to 58,400 birds, 500 of which are allocated to the Mississippi River Subzone. The season may not exceed 93 days, except in the Mississippi River Subzone, where the season may not exceed 71 days. The daily bag limit is 2 Canada geese. In that portion of the Exterior Zone outside the Mississippi River Subzone, the progress of the harvest must be monitored, and the season closed, if necessary, to ensure that the harvest does not exceed 57,900 birds.

Additional Limits: In addition to the harvest limits stated for the respective zones above, an additional 4,500 Canada geese may be taken in the Horizon Zone under special agricultural permits.

Quota Zone Closures: When it has been determined that the quota of Canada geese allotted to the Northern Illinois, Central Illinois, and Southern Illinois Quota Zones in Illinois; the Ballad and Henderson-Union Subzones in Kentucky; the Allegan County, Muskegon Wastewater, Saginaw County, and Tuscola/Huron Goose Management Units in Michigan; and the Exterior Zone in Wisconsin will have been filled, the season for taking Canada geese in the respective zone (and associated area, if applicable) will be closed, either by the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing, or by the State through State regulations with such notice and time (not less than 48 hours) as they deem necessary.

Central Flyway

Ducks, Mergansers, and Coots

Outside Dates: Between the Saturday nearest September 24 (September 27) and the last Sunday in January (January 25).

Hunting Seasons and Duck Limits: (1) High Plains Mallard Management Unit (roughly defined as that portion of the Central Flyway which lies west of the 100th meridian): 97 days, except pintails and canvasbacks, which may not exceed 39 days, and season splits must conform to each State’s zone/split configuration for duck hunting. The daily bag limit is 6 ducks, including no...
more than 5 mallards (no more than 2 of which may be hens), 1 mottled duck, 1 pintail, 1 canvasback, 2 redheads, 3 scaup, and 2 wood ducks. The last 23 days may start no earlier than the Saturday nearest December 10 (December 13). A single pintail and canvasback may also be included in the 6-bird daily bag limit for designated youth-hunt days.

(2) Remainder of the Central Flyway: 74 days, except pintails and canvasbacks, which may not exceed 39 days, and season splits must conform to each State’s zone/split configuration for duck hunting. The daily bag limit is 6 ducks, including no more than 5 mallards (no more than 2 of which may be hens), 1 mottled duck, 1 pintail, 1 canvasback, 2 redheads, 3 scaup, and 2 wood ducks. A single pintail and canvasback may also be included in the 6-bird daily bag limit for designated youth-hunt days.

Merganser Limits: The daily bag limit is 5 mergansers, only 1 of which may be a hooded merganser. In States that include mergansers in the duck daily bag limit, the daily bag limit must be the same as the duck bag limit, only one of which may be a hooded merganser.

Coot Limits: The daily bag limit is 15 coots.

Zoning and Split Seasons: Kansas (Low Plains portion), Montana, Nebraska (Low Plains portion), New Mexico, Oklahoma (Low Plains portion), South Dakota (Low Plains portion), Texas (Low Plains portion), and Wyoming may select hunting seasons by zones.

In Kansas, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming, the regular season may be split into two segments.

In Colorado, the season may be split into three segments.

Geese

Split Seasons: Seasons for geese may be split into three segments. Three-way split seasons for Canada goose require Central Flyway Council and U.S. Fish and Wildlife Service approval, and a 3-year evaluation by each participating State.

Outside Dates: For dark geese, seasons may be selected between the outside dates of the Saturday nearest September 24 (September 27) and the Sunday nearest February 15 (February 15). For light geese, outside dates for seasons may be selected between the Saturday nearest September 24 (September 27) and March 10. In the Rainwater Basin Light Goose Area (East and West) of Nebraska, temporal and spatial restrictions consistent with the experimental late-winter snow goose hunting strategy endorsed by the Central Flyway Council in July 1999, are required.

Season Lengths and Limits: Light Goose: States may select a light goose season not to exceed 107 days. The daily bag limit for light goose is 20 with no possession limit.

Dark Goose: In Kansas, Nebraska, North Dakota, Oklahoma, South Dakota, and the Eastern Goose Zone of Texas, States may select a season for Canada goose (or any other dark goose species except white-fronted geese) not to exceed 95 days with a daily bag limit of 3. Additionally, in the Eastern Goose Zone of Texas, an alternative season of 107 days with a daily bag limit of 1 Canada goose may be selected. For white-fronted geese, these States may select either a season of 86 days with a bag limit of 2 or a 107-day season with a bag limit of 1.

In South Dakota, for Canada goose in the Big Stone Power Plant Area of Canada Goose Unit 3, the daily bag limit is 3 until November 30, and 2 thereafter. In Montana, New Mexico and Wyoming, States may select seasons not to exceed 107 days. The daily bag limit for dark geese is 5 in the aggregate.

In Colorado, the season may not exceed 95 days. The daily bag limit is 3 dark geese in the aggregate.

In the Western Goose Zone of Texas, the season may not exceed 95 days. The daily bag limit for Canada goose (or any other dark goose species except white-fronted geese) is 3. The daily bag limit for white-fronted geese is 1.

Pacific Flyway

Ducks, Mergansers, Coots, Common Moorhens, and Purple Gallinules

Hunting Seasons and Duck Limits: Concurrent 107 days, except that the season for pintails and canvasbacks may not exceed 60 days, and season splits must conform to each State’s zone/split configuration for duck hunting. The daily bag limit is 7 ducks and mergansers, including no more than 2 female mallards, 1 pintail, 1 canvasback, 4 scaup, and 2 wood ducks. A single pintail and canvasback may also be included in the 7-bird daily bag limit for designated youth-hunt days.

The season on coots and common moorhens may be between the outside dates for the season on ducks, but not to exceed 107 days.

Coot, Common Moorhen, and Purple Gallinule Limits: The daily bag and possession limits of coots, common moorhens, and purple gallinules are 25, singly or in the aggregate.

Outside Dates: Between the Saturday nearest September 24 (September 27) and the last Sunday in January (January 25).

Zoning and Split Seasons: Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington may select hunting seasons by zones.

Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington may split their seasons into two segments.

Colorado, Montana, New Mexico, and Wyoming may split their seasons into three segments.

Colorado River Zone, California: Seasons and limits shall be the same as seasons and limits selected in the adjacent portion of Arizona (South Zone).

Geese

Season Lengths, Outside Dates, and Limits:

California, Oregon, and Washington: Except as subsequently noted, 100-day seasons may be selected, with outside dates between the Saturday nearest October 1 (October 4), and the last Sunday in January (January 25). Basic daily bag limits are 3 light geese and 4 dark geese, except in California, Oregon, and Washington, where the dark goose bag limit does not include brant.

Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming: Except as subsequently noted, 107-day seasons may be selected, with outside dates between the Saturday nearest September 24 (September 27), and the last Sunday in January (January 25). Basic daily bag limits are 3 light geese and 4 dark geese.

Split Seasons: Unless otherwise specified, seasons for geese may be split into up to 3 segments. Three-way split seasons for Canada goose and white-fronted goose require Pacific Flyway Council and U.S. Fish and Wildlife Service approval and a 3-year evaluation by each participating State.

Brant Season

A 16-consecutive-day season may be selected in Oregon. A 16-day season may be selected in Washington, and this season may be split into 2-segments. A 16-consecutive-day season may be selected in California. In these States, the daily bag limit is 2 brant and is in addition to dark goose limits.

Arizona: The daily bag limit for dark geese is 3.

California

Northeastern Zone: The daily bag limit is 3 geese and may include no more than 2 dark geese; including not more than 1 cackling Canada goose or 1 Aleutian Canada goose.

Southern Zone: in the Imperial County Special Management Area, light
geese only may be taken from the end of the general goose hunting season through the first Sunday in February (February 1).

Balance-of-the-State Zone: An 86-day season may be selected. Limits may not include more than 3 geese per day, of which not more than 2 may be white-fronted geese and not more than 1 may be a cackling Canada goose or Aleutian Canada goose. Two areas in the Balance-of-the-State Zone are restricted in the hunting of certain geese:

(1) In the Counties of Del Norte and Humboldt, the open season for Canada geese may be 16 days. The daily bag limit shall contain no more than 1 Canada goose, cackling Canada goose or Aleutian Canada goose.

(2) In the Sacramento Valley Special Management Area (West), the season on white-fronted geese must end on or before December 14, and, in the Sacramento Valley Special Management Area (East), there will be no open season for Canada geese.

Oregon: Except as subsequently noted, the dark goose daily bag limit is 4, including not more than 1 cackling Canada goose or Aleutian Canada goose.

Harney, Klamath, Lake, and Malheur County Zone—For Lake County only, the daily dark goose bag limit may not include more than 2 white-fronted geese.

Northwest Special Permit Zone: Except for designated areas, there will be no open season on Canada geese. In the designated areas, individual quotas will be established that collectively will not exceed 165 dusky Canada goose. See section on quota zones. In those designated areas, the daily bag limit of dark geese is 4 and may include no more than 1 Aleutian Canada goose. Season dates in the Lower Columbia/N. Willamette Valley Management Area may be different than the remainder of the Northwest Special Permit Zone; however, for those season segments different from the Northwest Special Permit Zone, the cackling Canada goose limit is 2.

Closed Zone: Those portions of Coos and Curry Counties south of Bandon and west of U.S. 101 and all of Tillamook County.

Washington: The daily bag limit is 4 geese, including 4 dark geese but not more than 3 light geese. A 107-day season may be selected in Areas 4 and 5 (eastern Washington).

Southwest Quota Zone: In the Southwest Quota Zone, except for designated areas, there will be no open season on Canada geese. In the designated areas, individual quotas will be established that collectively will not exceed 85 dusky Canada goose. See section on quota zones. In this area, the daily bag limit of dark geese is 4 and may include 4 cackling Canada goose. In Southwest Quota Area 2B (Pacific and Grays Harbor Counties), the dark goose bag limit may include 1 Aleutian Canada goose.

Colorado: The daily bag limit for dark geese is 3 geese.

Idaho

Northern Unit: The daily bag limit is 4 geese, including 4 dark geese, but not more than 3 light geese.

Southwest Unit and Southeastern Unit: The daily bag limit on dark geese is 4.

Montana

West of Divide Zone and East of Divide Zone: The daily bag limit of dark geese is 4.

Nevada

The daily bag limit for dark geese is 3.

New Mexico: The daily bag limit for dark geese is 3.

Utah: The daily bag limit for dark geese is 3.

Wyoming: The daily bag limit for dark geese is 4.

Quota Zones: Seasons on dark geese must end upon attainment of individual quotas of dusky Canada geese allotted to the designated areas of Oregon and Washington. The September Canada goose season, the regular goose season, any special late dark goose season, and any extended falconry season, combined, must not exceed 107 days, and the established quota of dusky Canada geese must not be exceeded. Hunting of dark geese in those designated areas will only be by hunters possessing a State-issued permit authorizing them to do so. In a Service-approved investigation, the State must obtain quantitative information on hunter compliance of those regulations aimed at reducing the take of dusky Canada geese. If the monitoring program cannot be conducted, for any reason, the season must immediately close. In the designated areas of the Washington Southwest Quota Zone, a special late dark goose season may be held between the Saturday following the close of the general goose season and March 10. In the Northwest Special Permit Zone of Oregon, the framework closing date is extended to the Sunday closest to March 1 (February 29). Regular dark goose seasons may be split into 3 segments within the Oregon and Washington quota zones.

Swans

In portions of the Pacific Flyway (Montana, Nevada, and Utah), an open season for taking a limited number of swans may be selected. Permits will be issued by the State and will authorize each permittee to take no more than 1 swan per season. Each State’s season may open no earlier than the Saturday nearest October 1 (October 4). These seasons are also subject to the following conditions:

Montana: No more than 500 permits may be issued. The season must end no later than December 1. The State must implement a harvest-monitoring program to measure the species composition of the swan harvest and should use appropriate measures to maximize hunter compliance in reporting bill-measurement and color information.

Utah: No more than 2,000 permits may be issued. During the swan season, no more than 10 trumpeter swans may be taken. The season must end no later than the second Sunday in December (December 14) or upon attainment of 10 trumpeter swans in the harvest, whichever occurs earliest. The Utah season remains subject to the terms of the Memorandum of Agreement entered into with the Service in August, 2001, regarding harvest monitoring, season closure procedures, and education requirements to minimize the take of trumpeter swans during the swan season.

Nevada: No more than 650 permits may be issued. During the swan season, no more than 5 trumpeter swans may be taken. The season must end no later than the Sunday following January 1 (January 4) or upon attainment of 5 trumpeter swans in the harvest, whichever occurs earliest.

In addition, the States of Utah and Nevada must implement a harvest-monitoring program to measure the species composition of the swan harvest. The harvest-monitoring program must require that all harvested swans or their species-determinant parts be examined by either State or Federal biologists for the purpose of species classification. The States should use appropriate measures to maximize hunter compliance in providing bagged swans for examination. Further, the States of Montana, Nevada, and Utah must achieve at least an 80-percent compliance rate, or subsequent permits will be reduced by 10 percent. All three States must provide to the Service by June 30, 2003, a report detailing harvest, hunter participation, reporting compliance, and monitoring of swan
populations in the designated hunt areas.

**Tundra Swans**

In portions of the Atlantic Flyway (North Carolina and Virginia) and the Central Flyway (North Dakota, South Dakota [east of the Missouri River], and that portion of Montana in the Central Flyway), an open season for taking a limited number of tundra swans may be selected. Permits will be issued by the States that authorize the take of no more than 1 tundra swan per permit. A second permit may be issued to hunters from unused permits remaining after the first drawing. The States must obtain harvest and hunter participation data. These seasons are also subject to the following conditions:

*In the Atlantic Flyway:*
  — The season is experimental.
  — The season may be 90 days, from October 1 to January 31.
  — In North Carolina, no more than 5,000 permits may be issued.
  — In Virginia, no more than 600 permits may be issued.

*In the Central Flyway:*
  — The season may be 107 days, from the Saturday nearest October 1 (October 4) to January 31.
  — In the Central Flyway portion of Montana, no more than 500 permits may be issued.
  — In North Dakota, no more than 2,200 permits may be issued.
  — In South Dakota, no more than 1,300 permits may be issued.

**Area, Unit, and Zone Descriptions**

*Ducks (Including Mergansers) and Coots*

**Atlantic Flyway**

Connecticut

North Zone: That portion of the State north of I–95.

South Zone: Remainder of the State.

Maine

North Zone: That portion north of the line extending east along Maine State Highway 110 from the New Hampshire and Maine State line to the intersection of Maine State Highway 11 in Newfield; then north and east along Route 11 to the intersection of U.S. Route 202 in Auburndale; then north and east along Route 202 to the intersection of Interstate Highway 95 in Augusta; then north and east along I–95 to Route 15 in Bangor; then east along Route 15 to Route 9; then east along Route 9 to Stony Brook in Baileyville; then east along Stony Brook to the United States border.

South Zone: Remainder of the State.

**Massachusetts**

Western Zone: That portion of the State west of a line extending south from the Vermont State line on I–91 to MA 9, west on MA 9 to MA 10, south on MA 10 to U.S. 202, south on U.S. 202 to the Connecticut State line.

Central Zone: That portion of the State east of the Berkshire Zone and west of a line extending south from the New Hampshire State line on I–95 to MA 1, south on U.S. 1 to I–93, south on I–93 to MA 3, south on MA 3 to U.S. 6, west on U.S. 6 to MA 28, west on MA 28 to I–95, west to the Rhode Island State line; except the waters, and the lands 150 yards inland from the high-water mark, of the Assonet River upstream to the MA 24 bridge, and the Taunton River upstream to the Center St.-Elm St. bridge shall be in the Coastal Zone.

Coastal Zone: That portion of Massachusetts east and south of the Central Zone.

**New Hampshire**

Coastal Zone: That portion of the State east of a line extending west from the Maine State line in Rollinsford on NH 4 to the city of Dover, south to NH 108, south along NH 108 through Madbury, Durham, and Newmarket to NH 85 in Newfields, south to NH 101 in Exeter, east to NH 51 (Exeter–Hampton Expressway), east to I–95 (New Hampshire Turnpike) in Hampton, and south along I–95 to the Massachusetts State line.

Inland Zone: That portion of the State north and west of the above boundary and along the Massachusetts State line crossing the Connecticut River to Interstate 91 and northward in Vermont to Route 2, east to 102, northward to the Canadian border.

**New Jersey**

Coastal Zone: That portion of the State seaward of a line beginning at the New York State line in Raritan Bay and extending west along the New York State line to NJ 440 at Perth Amboy; west on NJ 440 to the Garden State Parkway; south on the Garden State Parkway to the shoreline at Cape May and continuing to the Delaware State line in Delaware Bay.

North Zone: That portion of the State west of the Coastal Zone and north of a line extending west from the Garden State Parkway on NJ 70 to the New Jersey Turnpike, north on the turnpike to U.S. 206, north on U.S. 206 to U.S. 1 at Trenton, west on U.S. 1 to the Pennsylvania State line in the Delaware River.

**South Zone:** That portion of the State not within the North Zone or the Coastal Zone.

**New York**

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont State line.

Long Island Zone: That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

*Western Zone:* That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania State line.

*Northeastern Zone:* That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81 to NY 31, east along NY 31 to NY 13, north along NY 13 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont State line, exclusive of the Lake Champlain Zone.

*Southeastern Zone:* The remaining portion of New York.

**Pennsylvania**

Lake Erie Zone: The Lake Erie waters of Pennsylvania and a shoreline margin along Lake Erie from New York on the east to Ohio on the west extending 150 yards inland, but including all of Presque Isle Peninsula.

Northwest Zone: The area bounded on the north by the Lake Erie Zone and including all of Erie and Crawford Counties and those portions of Mercer and Venango Counties north of I–80.

South Zone: The remaining portion of Pennsylvania.

**Vermont**

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area north and west of the line extending from the New York State line along U.S. 4 to VT 22A at Fair Haven; VT 22A to U.S. 7 at Vergennes; U.S. 7 to the Canadian border.
Interior Zone: That portion of Vermont west of the Lake Champlain Zone and eastward of a line extending from the Massachusetts State line at Interstate 91; north along Interstate 91 to U.S. 2; east along U.S. 2 to VT 102; north along VT 102 to VT 253; north along VT 253 to the Canadian border.

Connecticut River Zone: The remaining portion of Vermont east of the Interior Zone.

West Virginia

Zone 1: That portion outside the boundaries in Zone 2.

Zone 2 (Allegheny Mountain Upland): That area bounded by a line extending south along U.S. 220 through Keyser to U.S. 50; U.S. 50 to WV 93; WV 93 south to WV 42; WV 42 south to Petersburg; WV 28 south to Minnehaha Springs; WV 39 west to U.S. 219; U.S. 219 south to I–64; I–64 west to U.S. 60; U.S. 60 west to U.S. 19; U.S. 19 north to I–79, I–79 north to I–68; I–68 east to the Maryland State line; and along the State line to the point of beginning.

Mississippi Flyway

Alabama

South Zone: Mobile and Baldwin Counties.

North Zone: The remainder of Alabama.

Illinois

North Zone: That portion of the State north of a line extending east from the Iowa State line along Illinois Highway 92 to Interstate Highway 255, east along I–280 to I–80, then east along I–80 to the Indiana State line.

Central Zone: That portion of the State south of the North Zone to a line extending east from the Missouri State line along the Modoc Ferry route to Modoc Ferry Road, east along Modoc Ferry Road to Modoc Road, northeasterly along Modoc Road and St. Leo’s Road to Illinois Highway 3, north along Illinois 3 to Illinois 159, north along Illinois 159 to Illinois 161, east along Illinois 161 to Illinois 4, north along Illinois 4 to Interstate Highway 70, east along I–70 to the Bond County line, north and east along the Bond County line to Fayette County, north and east along the Fayette County line to Effingham County, east and south along the Effingham County line to I–70, then east along I–70 to the Indiana State line.

South Zone: The remainder of Illinois.

Indiana

North Zone: That portion of the State north of a line extending east from the Illinois State line along State Road 18 to U.S. Highway 31, north along U.S. 31 to U.S. 24, east along U.S. 24 to Huntington, then southeast along U.S. 224 to the Ohio State line.

Ohio River Zone: That portion of the State south of a line extending east from the Illinois State line along Interstate Highway 64 to New Albany, east along State Road 62 to State Road 56, east along State Road 56 to Vevay, east and north on State 156 along the Ohio River to North Landing, north along State 56 to U.S. Highway 50, then northeast along U.S. 50 to the Ohio State line.

South Zone: That portion of the State between the North and Ohio River Zone boundaries.

Iowa

North Zone: That portion of the State north of a line extending east from the Nebraska State line along State Highway 175 to State Highway 37, southeast along State Highway 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I–80 to the Illinois State line.

South Zone: The remainder of Iowa.

Kentucky

West Zone: All counties west of and including Butler, Daviess, Ohio, Simpson, and Warren Counties.

East Zone: The remainder of Kentucky.

Louisiana

West Zone: That portion of the State west and south of a line extending south from the Arkansas State line along Louisiana Highway 3 to Bossier City, east along Interstate Highway 20 to Minden, south along Louisiana 7 to Ringgold, east along Louisiana 4 to Jonesboro, south along U.S. Highway 167 to Lafayette, southeast along U.S. 90 to the Mississippi State line.

East Zone: The remainder of Louisiana.

Catahoula Lake Area: All of Catahoula Lake, including those portions known locally as Round Prairie, Catfish Prairie, and Frazier’s Arm. See State regulations for additional information.

Michigan

North Zone: That portion of the State north of a line extending east from the Indiana State line along U.S. Highway 30 to State Route 37, south along SR 37 to SR 95, east along SR 95 to LaRue-Prospect Road, east along LaRue-Prospect Road to SR 203, south along SR 203 to SR 739, east along SR 739 to SR 4, north along SR 4 to SR 309, east along SR 309 to U.S. 23, north along U.S. 23 to SR 231, north along SR 231 to U.S. 30, east along U.S. 30 to SR 42, north along SR 42 to SR 603, south along SR 603 to U.S. 30, east along U.S. 30 to SR 60, south along SR 60 to SR 39/60, east along SR 39/60 to SR 39, east along SR 39 to SR 241, east along SR 241 to U.S. 30, then east along U.S. 30 to the West Virginia State line.
South Zone: The remainder of Ohio.

Tennessee

Reelfoot Zone: All or portions of Lake and Obion Counties.

State Zone: The remainder of Tennessee.

Wisconsin

North Zone: That portion of the State north of a line extending east from the Minnesota State line along State Highway 77 to State 27, south along State 27 and 77 to U.S. Highway 63, and continuing south along State 27 to Sawyer County Road B, south and east along County B to State 70, southwest along State 70 to State 27, southeast along State 27 to State 64, west along State 64/27 and south along State 27 to U.S. 12, south and east on State 27/U.S. 12 to U.S. 10, east on U.S. 10 to State 310, north along State 310 to State 42, north along State 42 to State 147, north along State 147 to State 163, north along State 163 to Kewaunee County Trunk A, north along County Trunk A to State 57, north along State 57 to the Kewaunee/Brown County Line, west along the Door/Brown County Line to the Door/Oconto County Line, north along the Door/Oconto County Line to the Marinette/Oconto County Line, northeast along the Marinette/Oconto County Line to the Michigan State line.

South Zone: The remainder of Wisconsin.

Central Flyway

Kansas

High Plains Zone: That portion of the State west of U.S. 283.

Low Plains Late Zone: The remainder of Kansas.

Montana (Central Flyway Portion)

Zone 2: The remainder of Montana.

Nebraska

High Plains Zone: That portion of the State west of highways U.S. 183 and U.S. 20 from the South Dakota State line to Ainsworth, NE 7 and NE 91 to Dunning, NE 2 to Merna, NE 92 to Arnold, NE 40 and NE 47 through Gothenburg to NE 23, NE 23 to Elwood, and U.S. 283 to the Kansas State line.

Low Plains Zone 1: That portion of the State east of the High Plains Zone and north and west of a line extending from the South Dakota State line along NE 26E Spur to NE 12, west on NE 12 to the Knox/Boyd County line, south along the county line to the Niobrara River and along the Niobrara River to U.S. 183 (the High Plains Zone line). Where the Niobrara River forms the boundary, both banks will be in Zone 1.

Low Plains Zone 2: Area bounded by designated Federal and State highways and political boundaries beginning at the Kansas-Nebraska State line on U.S. Hwy. 73; north to NE Hwy. 67 north to U.S. Hwy 136; east to the Steamboat Trace (Trace); north to Federal Levee R–562; north and west to the Trace/ Burlington Northern Railroad right-of-way; north to NE Hwy 2; west to U.S. Hwy 75; north to NE Hwy 2; west to NE Hwy. 43; north to U.S. Hwy. 34; east to NE Hwy. 63; north and west to U.S. Hwy. 77; north to NE Hwy. 92; west to U.S. Hwy. 81; south to NE Hwy. 66; west to NE Hwy. 14; south to U.S. Hwy 34; west to NE Hwy. 2; south to U.S. Hwy. 1–80; west to Gunbarrel Rd. (Hall/Hamilton county line); south to Giltner Rd.; west to U.S. Hwy. 281; south to U.S. Hwy. 34; west to NE Hwy 10; north to County Road “R” (Kearney County) and County Road #742 (PHELPS County); west to County Road #438 (Gosper County line); south along County Road #438 (Gosper County line) to County Road #726 (Furnas County line); east to County Road #436 (Harlan County Line); south to U.S. Hwy 34; and south to U.S. Hwy. 136; east to NE Hwy. 10; south to the Kansas-Nebraska State line.

Low Plains Zone 3: The area east of the High Plains Zone, excluding Low Plains Zone 1, north of Low Plains Zone 2.

Low Plains Zone 4: The area east of the High Plains Zone and south of Zone 2.

New Mexico (Central Flyway Portion)

North Zone: That portion of the State north of I–40 and U.S. 54.

South Zone: The remainder of New Mexico.

North Dakota

High Plains Unit: That portion of the State south and west of a line from the South Dakota State line along U.S. 83 and I–94 to ND 41, north to U.S. 2, west to the Williams/Divide County line, then north along the County line to the Canadian border.

Low Plains: The remainder of North Dakota.

Oklahoma

High Plains Zone: The Counties of Beaver, Cimarron, and Texas.

Low Plains Zone 1: That portion of the State east of the High Plains Zone and north of a line extending east from the Texas State line along OK 33 to OK 47, east along OK 47 to U.S. 183, south along U.S. 183 to I–40, east along I–40 to U.S. 177, south along U.S. 177 to OK 33, west along OK 33 to I–35, north along I–35 to U.S. 412, west along U.S. 412 to OK 132, then north along OK 132 to the Kansas State line.

Low Plains Zone 2: The remainder of Oklahoma.

South Dakota

High Plains Unit: That portion of the State west of a line beginning at the North Dakota State line and extending south along U.S. 83 to U.S. 14, east along U.S. 14 to Blunt-Canning Road in Blunt, south along Blunt-Canning Road to SD 34, east to SD 47, south to I–90, south to SD 47, south to SD 49, south to Colome and then continuing south on U.S. 183 to the Nebraska State line.

North Zone: That portion of northeastern South Dakota east of the High Plains Unit and north of a line extending east along U.S. 212 to the Minnesota State line.

South Zone: That portion of Gregory County east of SD 47, Charles Mix County south of SD 44 to the Douglas County line, south on SD 50 to Geddes, east on the Geddes Hwy. to U.S. 281, south on U.S. 281 and U.S. 18 to SD 50, south and east on SD 50 to Bon Homme County line, the Counties of Bon Homme, Yankton, and Clay south of SD 50, and Union County south and west of SD 50 and I–29.

Middle Zone: The remainder of South Dakota.
Texas

**High Plains Zone:** That portion of the State west of a line extending south from the Oklahoma State line along U.S. 183 to Vernon, south along U.S. 283 to Albany, south along TX 6 to TX 351 to Abilene, south along U.S. 277 to Del Río, then south along the Del Río International Toll Bridge access road to the Mexico border.

**Low Plains North Zone:** That portion of northeastern Texas east of the High Plains Zone and north of a line beginning at the International Toll Bridge south of Del Río, then extending east on U.S. 90 to San Antonio, then continuing east on I–10 to the Louisiana State line at Orange, Texas.

**Low Plains South Zone:** The remainder of Texas.

Wyoming (Central Flyway portion)

**Zone 1:** The Counties of Converse, Goshen, Hot Springs, Natrona, Platte, and Washakie; and the portion of Park County east of the Shoshone National Forest boundary and south of a line beginning where the Shoshone National Forest boundary meets Park County Road 8VC; east along Park County Road 8VC to Park County Road 1AB, continuing east along Park County Road 1AB to Wyoming Highway 120, north along WY Highway 120 to WY Highway 294, south along WY Highway 294 to Lane 9, east along Lane 9 to Powel and WY Highway 14A, and finally east along WY Highway 14A to the Park County and Big Horn County line.

**Zone 2:** The remainder of Wyoming.

Pacific Flyway

**Arizona—Game Management Units (GMU) as follows:**

**South Zone:** Those portions of GMUs 6 and 8 in Yavapai County, and GMUs 10 and 12B–45.

**North Zone:** GMUs 1–5, those portions of GMUs 6 and 8 within Coconino County, and GMUs 7, 9, 12A.

**California**

**Northeastern Zone:** In that portion of California lying east and north of a line beginning at the intersection of the Klamath River with the California-Oregon line; south and west along the Klamath River to the mouth of Shovel Creek; along Shovel Creek to its intersection with Forest Service Road 46N05 at Burnt Camp; west to its junction with Forest Service Road 46N10; south and east to its junction with County Road 7K007; south and west to its junction with Forest Service Road 45N22; south and west to its junction with Highway 97 and Grass Lake Summit; south along its junction with Interstate 5 at the town of Weed; south to its junction with Highway 89; east and south along Highway 89 to Main Street Greenville; north and east to its junction with North Valley Road; south to its junction of Diamond Mountain Road; north and east to its junction with North Arm Road; south and west to the junction of North Valley Road; south to the junction with Arlington Road (A22); west to the junction of Highway 89; south and west to the junction of Highway 70; east on Highway 70 to Highway 395; south and east on Highway 395 to the point of intersection with the California-Nevada State line; north along the California-Nevada State line to the junction of the California-Nevada-Oregon State line; west along the California-Oregon State line to the point of origin.

**Colorado River Zone:** Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada State line south along U.S. 95 to Vidal Junction; south on a road known as “Aqueduct Road” in San Bernardino County through the town of Rice to the San Bernardino-Riverside County line; south on a road known in Riverside County as the “Desert Center to Rice Road” to the town of Desert Center; east 31 miles on I–10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milipitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the Ogilby and Tumco Mine Road; south on this road to U.S. 80; east seven miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican border at Algodones, Mexico.

**Southern Zone:** That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I–15; east on I–15 to CA 127; north on CA 127 to the Nevada State line.

**Southern San Joaquin Valley Temporary Zone:** All of Kings and Tulare Counties and that portion of Kern County north of the Southern Zone.

**Southern San Joaquin Valley Temporary Zone:** That portion of California not included in the Northeastern, Southern, and Colorado River Zones, and the Southern San Joaquin Valley Temporary Zone.

**Idaho**

**Zone 1:** Includes all lands and waters within the Fort Hall Indian Reservation, including private inholdings; Bannock County; Bingham County, except that portion within the Blackfoot Reservoir drainage; and Power County east of ID 37 and ID 39.

**Zone 2:** Includes the following Counties or portions of Counties: Adams; Bear Lake; Benewah; Bingham within the Blackfoot Reservoir drainage; those portions of Blaine west of ID 75, south and east of U.S. 93, and between ID 75 and U.S. 93 north of U.S. 20 outside the Silver Creek drainage; Bonner; Bonneville; Boundary; Butte; Camas; Caribou except the Fort Hall Indian Reservation; Cassia within the Minidoka National Wildlife Refuge; Clark; Clearwater; Custer; Elmore within the Camas Creek drainage; Franklin; Fremont; Idaho; Jefferson; Kootenai; Latah; Lemhi; Lewis; Madison; Nez Perce; Oneida; Power within the Minidoka National Wildlife Refuge; Shoshone; Teton; and Valley Counties.

**Zone 3:** Includes the following Counties or portions of Counties: Ada; Blaine between ID 75 and U.S. 93 south of U.S. 20 and that additional area between ID 75 and U.S. 93 north of U.S. 20 within the Silver Creek drainage; Bonneville; Canyon; Cassia except within the Minidoka National Wildlife Refuge; Elmore except the Camas Creek drainage; Gem; Gooding; Jerome; Lincoln; Minidoka; Owyhee; Payette; Power west of ID 37 and ID 39 except that portion within the Minidoka National Wildlife Refuge; Twin Falls; and Washington Counties.

**Nevada**

**Lincoln and Clark County Zone:** All of Clark and Lincoln Counties.

**Balance-of-the-State Zone:** The remainder of Nevada.

**Oregon**

**Zone 1:** Clatsop, Tillamook, Lincoln, Lane, Douglas, Coos, Curry, Josephine, Jackson, Linn, Benton, Polk, Marion, Yamhill, Washington, Columbia, Multnomah, Clackamas, Hood River, Wasco, Sherman, Gilliam, Morrow and Umatilla Counties.

**Zone 2:** The remainder of Oregon.

**Utah**

**Zone 1:** All of Box Elder, Cache, Daggett, Davis, Duchesne, Morgan, Rich, Salt Lake, Summit, Uintah, Utah, Wasatch, and Weber Counties, and that part of Tooele County north of I–80.

**Zone 2:** The remainder of Utah.
Washington

East Zone: All areas east of the Pacific Crest Trail and east of the Big White Salmon River in Klickitat County.

Columbia Basin Mallard Management Unit: Same as East Zone.

West Zone: All areas to the west of the East Zone.

Geese

Atlantic Flyway

Connecticut

NAP L-Unit: That portion of Fairfield County north of Interstate 95 and that portion of New Haven County: starting at I–95 bridge on Housatonic River; north of Interstate 95; west of Route 84 to the intersection of Interstate 691; west along Interstate 691 to Interstate 84; west and south on Interstate 84 to Route 67; north along Route 67 to the Litchfield County line, then extending west along the Litchfield County line to the Shepaug River, then south to the intersection of the Litchfield and Fairfield County lines.

NAP H-Unit: All of the rest of the State not included in the AP or NAP–L descriptions.

AP Unit: Litchfield County and the portion of Hartford County, west of a line beginning at the Massachusetts State line in Suffield and extending south along Route 159 to its intersection with Route 91 in Hartford, and then extending south along Route 91 to its intersection with the Hartford/ Middlesex County line.

South Zone: Same as for ducks.

North Zone: Same as for ducks.

Maryland

SBJP Zone: Allegheny, Carroll, Frederick, Garrett, Washington Counties and the portion of Montgomery County south of Interstate 70 and west of Interstate 495 to the Potomac River.

AP Zone: Remainder of the State.

Massachusetts

NAP Zone: Central Zone (same as for ducks) and that portion of the Coastal Zone that lies north of route 139 from Green Harbor.

AP Zone: Remainder of the State.

Special Late Season Area: That portion of the Coastal Zone (see duck zones) that lies north of the Cape Cod Canal and east of Route 3, north to the New Hampshire line.

New Hampshire: Same zones as for ducks.

New Jersey

North—that portion of the State within a continuous line that runs east along the New York State boundary line to the Hudson River; then south along the New York State boundary to its intersection with Route 440 at Perth Amboy; then west on Route 440 to its intersection with Route 287; then west along Route 287 to its intersection with Route 206 in Bedminster (Exit 18); then north along Route 206 to its intersection with Route 94; then west along Route 94 to the tollbridge in Columbia; then north along the Pennsylvania State boundary in the Delaware River to the beginning point.

South—that portion of the State within a continuous line that runs west from the Atlantic Ocean at Ship Bottom along Route 72 to Route 70; then west along Route 70 to Route 206; then south along Route 206 to Route 536; then west along Route 536 to Route 322; then west along Route 322 to Route 55; then south along Route 55 to Route 535 (Buck Road); then south along Route 535 to Route 40; then east along Route 40 to Route 55; then south along Route 55 to Route 552 (Sherman Avenue); then west along Route 552 to Carmel Road; then south along Carmel Road to Route 49; then east along Route 49 to Route 555; then south along Route 555 to Route 553; then east along Route 553 to Route 649; then north along Route 649 to Route 670; then east along Route 670 to Route 47; then north along Route 47 to Route 548; then east along Route 548 to Route 49; then east along Route 49 to Route 50; then south along Route 50 to Route 9; then south along Route 9 to Route 625 (Sea Isle City Boulevard); then east along Route 625 to the Atlantic Ocean; then north to the beginning point.

New York

Lake Champlain Area: That area east and north of a continuous line extending along Route 11 from the New York-Canada boundary south to Route 9B, south along Route 9B to Route 9, south along Route 9 to Route 22 south of Keeseville, south along Route 22 to the west shore of South Bay along and around the shoreline of South Bay to Route 22 on the east shore of South Bay, southeast along Route 22 to Route 4, northeast along Route 4 to the New York- Vermont State line.

St. Lawrence Area: New York State Wildlife Management Units (WMUs): 6A, 6C, and 6H.

Northeast Area: That area north of a continuous line extending from Lake Ontario east along the north shore of the Salmon River to Interstate 81, south along Interstate 81 to Route 31, east along Route 31 to Route 13, north along Route 13 to Route 49, east along Route 49 to Route 365, east along Route 365 to Route 28, east along Route 28 to Route 29, east along Route 29 to Interstate Route 87, north along Interstate Route 87 to Route 9 (at Exit 20), north along Route 9 to Route 149, east along Route 149 to Route 4, north along Route 4 to the New York- Vermont boundary, and northwest of Interstate Route 95 in Westchester County, excluding the South Central Area.

West Central Area: That area east of Interstate 81 that is south of a continuous line extending from Interstate Route 81 east along Route 31 to Route 13, north along Route 13 to Route 49, east along Route 49 to Route 365, east along Route 365 to Route 28, east along Route 28 to Route 29, east along Route 29 to Interstate Route 87, north along Interstate Route 87 to Route 9 (at Exit 20), north along Route 9 to Route 149, east along Route 149 to Route 4, north along Route 4 to the New York- Vermont boundary, and northwest of Interstate Route 95 in Westchester County, excluding the South Central Area.

Western Long Island Area: That area of Westchester County and its tidal waters southeast of Interstate Route 85 and that area of Nassau and Suffolk Counties lying west of a continuous line extending due south from the New York-Connecticut boundary to the northern end of Sound Road (near Wading River), then south along Sound Road to North Country Road, then west
along North Country Road to Randall Road, then south along Randall Road to State Route 25A, then west along Route 25A to the William Floyd Parkway (County Route 46), then south along William Floyd Parkway to Fire Island Beach Road, then due south to international waters.

**Eastern Long Island Area:** that area of Suffolk County that is not part of the Western Long Island Area.

**Special Late Hunting Area:** consists of that area of Westchester County lying southeast of Interstate Route 95 and that area of Nassau and Suffolk Counties lying north of State Route 25A and west of a continuous line extending northward from State Route 25A along Randall Road (near Shoreham) to North Country Road, then east to Sound Road and then north to Long Island Sound and then due north to the New York—Connecticut boundary.

**North Carolina**

**SJBP Hunt Zone:** Includes the following counties or portions of counties: Anson, Cabarrus, Chatham, Davidson, Durham, Halifax (that portion east of NC 903), Iredell (that portion south of Interstate 40), Montgomery (that portion west of NC 109), Northampton (all of the county with the exception of that portion that is both north of U.S. 158 and east of NC 35), Richmond (that portion south of NC 73 and west of U.S. 220 and north of U.S. 74), Rowan, Stanly, Union, and Wake.

**RP Hunt Zone:** Includes the following counties or portions of counties: Alamance, Alleghany, Alexander, Ashe, Avery, Beaufort, Bertie (that portion south and west of a line formed by NC 45 at the Washington Co. line to U.S. 17 in Midway, U.S. 17 in Midway to U.S. 13 in Windsor, U.S. 13 in Windsor to the Hertford Co. line), Bladen, Brunswick, Buncombe, Burke, Caldwell, Carteret, Caswell, Catawba, Cherokee, Clay, Cleveland, Columbus, Craven, Cumberland, Davie, Duplin, Edgecombe, Forsyth, Franklin, Gaston, Graham, Granville, Greene, Guilford, Halifax (that portion west of NC 903), Harnett, Haywood, Henderson, Bertie, Iredell (that portion north of Interstate 40), Jackson, Johnston, Jones, Lee, Lenoir, Lincoln, McDowell, Macon, Madison, Martin, Mecklenburg, Mitchell, Montgomery (that portion that is east of NC 109), Moore, Nash, New Hanover, Onslow, Orange, Pamlico, Pender, Person, Pitt, Polk, Randolph, Richland (all of the county with exception of that portion that is south of NC 73 and west of U.S. 220 and north of U.S. 74), Robeson, Rockingham, Rutherford, Sampson, Scotland, Stokes, Surry, Swain, Transylvania, Vance, Warren, Watauga, Wayne, Wilkes, Wilson, Yadkin, and Yancey.

**Northeast Hunt Unit:** Includes the following counties or portions of counties: Bertie (that portion north and east of a line formed by NC 45 at the Washington County line to U.S. 17 in Midway, U.S. 17 in Midway to U.S. 13 in Windsor, U.S. 13 in Windsor to the Hertford Co. line), Camden, Chowan, Currituck, Dare, Hyde, Northampton (that portion that is both north of U.S. 158 and east of NC 35), Pasquotank, Perquimans, Tyrrell, and Washington.

**Pennsylvania**

**Resident Canada Goose Zone:** All of Pennsylvania except for Crawford, Erie, and Mercer Counties and the area east of I–83 from the Maryland State line to the intersection of U.S. Route 30 to the intersection of SR 441 to the intersection of I–283, east of I–283 to I–83, east of I–83 to the intersection of I–81, east of I–81 to the intersection of U.S. Route 322, east of U.S. Route 322 to the intersection of SR 147, east of SR 147 to the intersection of I–180, east of I–180 to the intersection of U.S. Route 220, east of U.S. Route 220 to the New York State line.

**SJBP Zone:** Erie, Mercer and Crawford Counties, except for the Pymatuning Zone (the area south of SR 198 from the Ohio State line to the intersection of SR 18 to the intersection of U.S. Route 322/ SR 18, to the intersection of SR 3013, south to the Crawford/Mercer County line).

**Pymatuning Zone:** The area south of SR 198 from the Ohio State line to the intersection of SR 18 to the intersection of U.S. Route 322/SR 18, to the intersection of SR 3013, south to the Crawford/Mercer County line.

**AP Zone:** The area east of I–83 from the Maryland State line to the intersection of U.S. Route 30 to the intersection of SR 441 to the intersection of I–283, east of I–283 to I–83, east of I–83 to the intersection of I–81, east of I–81 to the intersection of U.S. Route 322, east of U.S. Route 322 to the intersection of SR 147, east of SR 147 to the intersection of I–180, east of I–180 to the intersection of U.S. Route 220, east of U.S. Route 220 to the New York State line.

**Special Late Canada Goose Season Area:** The SJBP zone (excluding the Pymatuning zone) and the northern portion of the AP zone defined as east of U.S. Route 220 from the New York State line, east of U.S. Route 220 to the intersection of I–180, east of I–180 to the intersection of SR 147, east of SR 147 to the intersection of U.S. Route 322, east of U.S. Route 322 to the intersection of I–81, north of I–81 to the intersection of I–80, and north of I–80 to the New Jersey State line.

**Rhode Island**

**Special Area for Canada Geese:** Kent and Providence Counties and portions of the towns of Exeter and North Kingston within Washington County (see State regulations for detailed descriptions).

**South Carolina**

**Canada Goose Area:** Statewide except for Clarendon County and that portion of Lake Marion in Orangeburg County and Berkeley County.

**Vermont:** Same zones as for ducks.

**Virginia**

**AP Zone:** The area east and south of the following line—the Stafford County line from the Potomac River west to Interstate 95 at Fredericksburg, then south along Interstate 95 to Petersburg, then Route 460 (SE) to City of Suffolk, then south along Route 32 to the North Carolina line.

**SJBP Zone:** The area to the west of the AP Zone boundary and east of the following line: the “Blue Ridge” (mountain spine) at the West Virginia-Virginia Border (Loudoun County-Clarke County line) south to Interstate 64 (the Blue Ridge line follows county borders along the western edge of Loudoun-Fauquier-Rappahannock-Madison-Greene-Albemarle and into Nelson Counties), then east along Interstate Rt. 64 to Route 15, then south along Rt. 15 to the North Carolina line.

**RP Zone:** The remainder of the State west of the SJBP Zone.

**Back Bay Area:** The waters of Back Bay and its tributaries and the marshes adjacent thereto, and on the land and marshes between Back Bay and the Atlantic Ocean from Sandbridge to the North Carolina line, and on and along the shore of North Landing River and the marshes adjacent thereto, and on and along the shores of Binson Inlet Lake (formerly known as Lake Tecumseh) and Red Wing Lake and the marshes adjacent thereto.

**West Virginia:** Same zones as for ducks.

**Mississippi Flyway**

**Alabama:** Same zones as for ducks, but in addition:

**SJBP Zone:** That portion of Morgan County east of U.S. Highway 31, north of State Highway 36, and west of U.S. 231; that portion of Limestone County south of U.S. 72; and that portion of Madison County south of Swannock River south of West Trina Road.

**Arkansas:** Northwest Zone: Benton, Carroll, Baxter, Washington, Madison,
Newton, Crawford, Van Buren, Searcy, Sebastian, Scott, Franklin, Logan, Johnson, Pope, Yell, Conway, Perry, Faulkner, Pulaski, Boone, and Marion Counties.

Illinois: Same zones as for ducks, but in addition:

North Zone: Northern Illinois Quota Zone: The Counties of McHenry, Lake, Kane, DuPage, and those portions of LaSalle and Will Counties north of Interstate Highway 80.
Central Zone: Central Illinois Quota Zone: The Counties of Grundy, Woodford, Peoria, Knox, Fulton, Tazewell, Mason, Cass, Morgan, Pike, Calhoun, and Jersey, and those portions of LaSalle and Will Counties south of Interstate Highway 80.
South Zone: Southern Illinois Quota Zone: Alexander, Jackson, Union, and Williamson Counties.

Indiana: Same zones as for ducks, but in addition:

SJBP Zone: Jasper, LaGrange, LaPorte, Starke, and Steuben Counties, and that portion of the Jasper-Pulaski Fish and Wildlife Area in Pulaski County.

Iowa: Same zones as for ducks.

Kentucky

Western Zone: That portion of the State west of a line beginning at the Tennessee State line at Fulton and extending north along the Purchase Parkway to Interstate Highway 24, east along I–24 to U.S. Highway 641, north along U.S. 641 to U.S. 60, northeast along U.S. 60 to the Henderson County line, then south, east, and northerly along the Henderson County line to the Indiana State line.

Ballard Reporting Area: That area encompassed by a line beginning at the northwest city limits of Wickliffe in Ballard County and extending westward to the middle of the Mississippi River, north along the Mississippi River and along the low-water mark of the Ohio River on the Illinois shore to the Ballard-McCracken County line, south along the county line to Kentucky Highway 358, south along Kentucky 358 to U.S. Highway 60 at LaCenter; then southwest along U.S. 60 to the northeast city limits of Wickliffe.

Henderson-Union Reporting Area: Henderson County and that portion of Union County within the Western Zone.

Pennyroyal/Coalfield Zone: Butler, Daviess, Ohio, Simpson, and Warren Counties and all counties lying west to the boundary of the Western Goose Zone.

Michigan

MVP Zone: The MVP Zone consists of an area north and west of the point beginning at the southwest corner of Branch County, north continuing along the western border of Branch and Calhoun counties to the northwest corner of Calhoun county, then easterly to the southwest corner of Eaton county, then northerly to the southern border of Ionia County, then easterly to the southwest corner of Clinton County, then northerly along the western border of Clinton County continuing northerly along the county border of Gratiot and Montcalm Counties to the southern border of Isabella County, then easterly to the southwest corner of Midland County, then northerly along the west Midland County border to Highway M–20, then easterly to U.S. Highway 10, then easterly to U.S. Interstate 75/U.S. Highway 23, then northerly along I–75/U.S. 23 to the U.S. 23 exit at Standish, then easterly along U.S. 23 to the centerline of the Au Gres River, then southerly along the centerline of the Au Gres River to Saginaw Bay, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canadian border.

SJBP Zone is the rest of the State, that area south and east of the boundary described above.

Tuscola/Huron Goose Management Unit (GMU): Those portions of Tuscola and Huron Counties bounded on the south by Michigan Highway 138 and Bay City Road, on the east by Colwood and Bay Port Roads, on the north by Kilmanagh Road and a line extending directly west off the end of Kilmanagh Road into the Tuscola County line, then easterly along the west boundary, and on the east by the Tuscola-Bay County line and a line extending directly north off the end of the Tuscola-Bay County line into Saginaw Bay to the north boundary.

Allegan County GMU: That area encompassed by a line beginning at the junction of 136th Avenue and Interstate Highway 196 in Lake Town Township and extending easterly along 136th Avenue to Michigan Highway 40, southerly along Michigan 40 through the city of Allegan to 108th Avenue in Trowbridge Township, westerly along 108th Avenue to 46th Street, northerly 1⁄2 mile along 46th Street to 109th Avenue, westerly along 109th Avenue to I–196 in Casco Township, then northerly along I–196 to the point of beginning.

Saginaw County GMU: That portion of Saginaw County bounded by Michigan Highway 46 on the north; Michigan 52 on the west; Michigan 57 on the south; and Michigan 13 on the east.

Muskegon County GMU: That portion of Muskegon County within the boundaries of the Muskegon wastewater system, east of the Muskegon State Game Area, in sections 5, 6, 7, 8, 17, 18, 19, 20, 29, 30, and 32, T10N R14W, and sections 1, 2, 10, 11, 12, 13, 14, 24, and 25, T10N R15W, as posted.

Special Canada Goose Seasons: Southern Michigan GMU: That portion of the State, including the Great Lakes and interconnecting waterways and excluding the Allegan County GMU, south of a line beginning at the Ontario border at the Bluewater Bridge in the city of Port Huron and extending westerly and southerly along Interstate Highway 94 to I–69, westerly along I–69 to Michigan Highway 21, westerly along Michigan 21 to I–96, northerly along I–96 to I–196, westerly along I–196 to Lake Michigan Drive (M–45) in Grand Rapids, westerly along Lake Michigan Drive to the Lake Michigan shore, then directly west from the end of Lake Michigan Drive to the Wisconsin State line.

Central Michigan GMU: That portion of the Lower Peninsula north of the Southern Michigan GMU but south of a line beginning at the Wisconsin State line in Lake Michigan due west of the mouth of Stony Creek in Oceana County; then due east to, and easterly and southerly along the south shore of Stony Creek to Scenic Drive, easterly and southerly along Scenic Drive to Stony Lake Road, easterly along Stony Lake and Garfield Roads to Michigan Highway 20, westerly along Michigan 20 to U.S. Highway 10 Business Route (BR) in the city of Midland, easterly along U.S. 10 BR to U.S. 10, westerly along U.S. 10 to Interstate Highway 75/U.S. Highway 23, northerly along I–75/U.S. 23 to the U.S. 23 exit at Standish, easterly along U.S. 23 to the centerline of the Au Gres River, then southerly along the centerline of the Au Gres River to Saginaw Bay, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canadian border, excluding the Tuscola/Huron GMU, Saginaw County GMU, and Muskegon Wastewater GMU.

Minnesota

West Zone: That portion of the State encompassed by a line beginning at the junction of State Trunk Highway (STH) 60 and the Iowa State line, then north and east along STH 60 to U.S. Highway 71, north along U.S. 71 to Interstate Highway 94, then north and west along I–94 to the North Dakota State line.

West Central Zone: That area encompassed by a line beginning at the intersection of State Trunk Highway (STH) 29 and U.S. Highway 212 and extending west along U.S. 212 to U.S.
Missouri Highway 5 on the east, Missouri 240 and U.S. 65 on the south, and U.S. 65 on the west.

**Middle Zone**

**Southeast Zone:** That portion of the State encompassed by a line beginning at the intersection of Missouri Highway (MO) 34 and Interstate 55 and extending south along I–55 to U.S. Highway 62, west along U.S. 62 to MO 53, north along MO 53 to MO 51, north along MO 51 to U.S. 60, west along U.S. 60 to MO 21, north along MO 21 to MO 72, east along MO 72 to MO 34, then east along MO 34 to I–55.

**Ohio:** Same zones as for ducks but in addition:

**North Zone:** Lake Erie SJB P Zone: That portion of the State encompassed by a line beginning in Lucas County at the Michigan State line on I–75, and extending south along I–75 to I–280, south along I–280 to I–80, east along I–80 to the Pennsylvania State line in Trumbull County, north along the Pennsylvania State line to SR 6 in Ashtabula County, west along SR 6 to the Lake/Cuyahoga County line, north along the Lake/Cuyahoga County line to the shore of Lake Erie.

**Tennessee**

**Southwest Zone:** That portion of the State south of State Highways 20 and 104, and west of U.S. Highways 45 and 45W.

**Northwest Zone:** Lake, Obion, and Weakly Counties and those portions of Gibson and Dyer Counties not included in the Southwest Tennessee Zone.

**Kentucky/Barkley Lakes Zone:** That portion of the State bounded on the west by the eastern boundaries of the Northwest and Southwest Zones and on the east by State Highway 13 from the Alabama State line to Clarksville and U.S. Highway 79 from Clarksville to the Kentucky State line.

**Wisconsin:** Same zones as for ducks but in addition:

**Horicon Zone:** That area encompassed by a line beginning at the intersection of State Highway 21 and the Fox River in Winnebago County and extending westerly along State 21 to the west boundary of Winnebago County, southerly along the west boundary of Winnebago County to the north boundary of Green Lake County, westerly along the north boundaries of Green Lake and Marquette Counties to State 22, southerly along State 22 to State 33, westerly along State 33 to Interstate Highway 39, southerly along Interstate Highway 39 to Interstate Highway 94/90, southerly along I–90/94 to State 60, easterly along State 60 to State 83, northerly along State 83 to State 175, northerly along State 175 to State 33, easterly along State 33 to U.S. Highway 45, northerly along U.S. 45 to the east shore of the Fond Du Lac River, northerly along the east shore of the Fond Du Lac River to Lake Winnebago, northerly along the western shoreline of Lake Winnebago to the Fox River, then westerly along the Fox River to State 21.

**Collins Zone:** That area encompassed by a line beginning at the intersection of Hilltop Road and Collins Marsh Road in Manitowoc County and extending westerly along Hilltop Road to Humpty Dumpy Road, southerly along Humpty Dumpy Road to Poplar Grove Road, easterly and southerly along Poplar Grove Road to County Highway JJ, southeasterly along County JJ to Collins Road, southerly along Collins Road to the Manitowoc River, southeasterly along the Manitowoc River to Quarry Road, northerly along Quarry Road to Einberger Road, northerly along Einberger Road to Moschel Road, westerly along Moschel Road to Collins Marsh Road, northerly along Collins Marsh Road to Hilltop Road.

**Exterior Zone:** That portion of the State not included in the Horicon or Collins Zones.

**Mississippi River Subzone:** That area encompassed by a line beginning at the intersection of the Burlington Northern & Santa Fe Railway and the Illinois State line in Grant County and extending northerly along the Burlington Northern & Santa Fe Railway to the city limit of Prescott in Pierce County, then west along the Prescott city limit to the Minnesota State line.

**Rock Prairie Subzone:** That area encompassed by a line beginning at the intersection of the Illinois State line and Interstate Highway 90 and extending north along I–90 to County Highway A, east along County A to U.S. Highway 12, southeast along U.S. 12 to State Highway 50, west along State 50 to State 120, then south along 120 to the Illinois State line.

**Brown County Subzone:** That area encompassed by a line beginning at the intersection of the Fox River with Green Bay in Brown County and extending southerly along the Fox River to State Highway 29, northwesterly along State 29 to the Brown County line, south, east, and north along the Brown County line to Green Bay, due west to the midpoint of the Green Bay Ship Channel, then southwesterly along the Green Bay Ship Channel to the Fox River.

**Central Flyway**

**Colorado (Central Flyway Portion)**

**Northern Front Range Area:** All lands in Adams, Boulder, Clear Creek, Denver,
Gilpin, Jefferson, Larimer, and Weld Counties west of I-25 from the Wyoming State line south to I-70; west on I-70 to the Continental Divide; north along the Continental Divide to the Jackson-Larimer County Line to the Wyoming State line.

North Park Area: Jackson County.

Arkansas Valley Area: Baca, Bent, Crowley, Kiowa, Otero, and Prowers Counties.

Pueblo County Area: Pueblo County.

Remainder: Remainder of the Central Flyway portion of Colorado.

Eastern Colorado Late Light Goose Area: That portion of the State east of Interstate Highway 25.

Nebraska Dark Geese

Niobrara Unit: Keya Paha County east of U.S. 183 and all of Boyd County, including the boundary waters of the Niobrara River. Where the Niobrara River forms the boundary, both banks will be in the Niobrara Unit.

East Unit: That area north and east of U.S. 281 at the Kansas/Nebraska State line, north to Giltner Road (near Doniphan), east to NE 14, north to NE 66, east to U.S. 81, north to NE 22, west to NE 14 north to NE 91, east to U.S. 275, south to U.S. 77, south to NE 91, east to U.S. 30, east to Nebraska-Iowa State line.

Platte River Unit: That area south and west of U.S. 281 at the Kansas/Nebraska State line, north to Giltner Road (near Doniphan), east to NE 14, north to NE 66, east to U.S. 81, north to NE 22, west to NE 14 north to NE 91, west along NE 91 to NE 11, north to the Holt County line, west along the northern border of Garfield, Loup, Blaine and Thomas Counties to the Hooker County line, south along the Thomas/Hooker County lines to the McPherson County line, east along the south border of Thomas County to the western line of Custer County, south along the Custer/Logan County line to NE 92, west to U.S. 83, north to NE 92, west to NE 61, north along NE 61 to NE 2, west along NE 2 to the corner formed by Garden—Grant—Sheridan Counties, west along the north border of Garden, Morrill and Scotts Bluff Counties to the Wyoming State line.

North-Central Unit: The remainder of the State.

Light Geese

Rainwater Basin Light Goose Area (West): The area bounded by the junction of U.S. 283 and U.S. 30 at Lexington, east on U.S. 30 to U.S. 281, south on U.S. 281 to NE 4, west on NE 4 to U.S. 34, continue west on U.S. 34 to U.S. 283, then north on U.S. 283 to the beginning.

Rainwater Basin Light Goose Area (East): The area bounded by the junction of U.S. 281 and U.S. 30 at Grand Island, north and east on U.S. 30 to NE 92, east on NE 92 to NE 15, south on NE 15 to NE 4, west on NE 4 to U.S. 281, north on U.S. 281 to the beginning.

Remainder of State: The remainder portion of Nebraska.

New Mexico (Central Flyway Portion)

Dark Geese

Middle Rio Grande Valley Unit: Sierra, Socorro, and Valencia Counties.

Remainder: The remainder of the Central Flyway portion of New Mexico.

South Dakota

Canada Geese

Unit 1: Statewide except for Units 2, 3 and 4.

Big Stone Power Plant Area: That portion of Grant and Roberts Counties east of SD 15 and north of SD 20.

Unit 2: Brule, Buffalo, Charles Mix, Gregory, Hughes, Hyde, Lyman, Potter, Stanley, and Sully Counties and that portion of Dewey County south of U.S. 212.

Unit 3: Clark, Codington, Day, Deuel, Grant, Hamlin, Marshall, and Roberts Counties.

Unit 4: Bennett County.

Texas

West Unit: That portion of the State lying west of a line from the international toll bridge at Laredo; north along I-35 and I-35W to Fort Worth; northwest along U.S. 81 and U.S. 287 to Bowie; and north along U.S. 81 to the Oklahoma State line.

East Unit: Remainder of State.

Wyoming (Central Flyway Portion)

Dark Geese

Area 1: Hot Springs, Natrona, and Washakie Counties, and the portion of Park County east of the Shoshone National Forest boundary and south of a line beginning where the Shoshone National Forest boundary crosses Park County Road 8VC, easterly along said road to Park County Road 1AB, easterly along said road to Wyoming Highway 120, northerly along said highway to Wyoming Highway 294, southeasterly along said highway to Lane 9, easterly along said lane to the town of Powell and Wyoming Highway 14A, easterly along said highway to the Park County and Big Horn County Line.

Area 2: Converse County.

Area 3: Albany, Big Horn, Campbell, Crook, Fremont, Johnson, Laramie, Niobrara, Sheridan, and Weston Counties, and that portion of Carbon County east of the Continental Divide; that portion of Park County west of the Shoshone National Forest boundary, and that Portion of Park County north of a line beginning where the Shoshone National Forest boundary crosses Park County Road 8VC, easterly along said road to Park County Road 1AB, easterly along said road to Wyoming Highway 120, northerly along said highway to Wyoming Highway 294, southeasterly along said highway to Lane 9, easterly along said lane to the town of Powell and Wyoming Highway 14A, easterly along said highway to the Park County and Big Horn County Line.

Area 4: Goshen and Platte Counties.

Pacific Flyway

Arizona

GMU 1 and 27: Game Management Units 1 and 27.

GMU 22 and 23: Game Management Units 22 and 23.

Remainder of State: The remainder of Arizona.

California

Northeastern Zone: In that portion of California lying east and north of a line beginning at the intersection of the Klamath River with the California-Oregon line; south and west along the Klamath River to the mouth of Shovel Creek; along Shovel Creek to its intersection with Forest Service Road 46N05 at Burnt Camp; west to its junction with Forest Service Road 46N10; south and east to its junction with County Road 7K007; south and west to its junction with Forest Service Road 45N22; south and west to its junction with Highway 97 and Grass Lake Summit; south along its junction with Interstate 5 at the town of Weed; south to its junction with Highway 89; east and south along Highway 89 to main street Greenville; north and east to its junction with North Valley Road; south to its junction with Diamond Mountain Road; north and east to its junction with North Arm Road; south and west to the junction of North Valley Road; south to the junction with Arlington Road (A22); west to the junction of Highway 89; south and west to the junction of Highway 70; east on Highway 70 to Highway 395; south and east on Highway 395 to the point of
intersection with the California-Nevada State line; north along the California-Nevada State line to the junction of the California-Nevada-Oregon State lines west along the California-Oregon State line to the point of origin.

Colorado River Zone: Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada State line south along U.S. 95 to Vidal Junction; south on a road known as "Aqueduct Road" in San Bernardino County through the town of Rice to the San Bernardino-Palos Verdes County line; south on a road known in Riverside County as the "Desert Center to Rice Road" to the town of Desert Center; east 31 miles on I-10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the Ogilby and Tumco Mine Road; south on this road to U.S. 80; east 7 miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican State lines at Algodones, Mexico.

Southern Zone: That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tehon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I-15; east on I-15 to CA 127; north on CA 127 to the Nevada State line.

Imperial County Special Management Area: The area bounded by a line beginning at Highway 86 and the Navy Test Base Road; south on Highway 86 to the town of Westmoreland; continue through the town of Westmoreland to Route S26; east on Route S26 to Highway 115; north on Highway 115 to Weist Rd.; north on Weist Rd. to Flowing Wells Rd.; northeast on Flowing Wells Rd. to the Coachella Canal; northwest on the Coachella Canal to Drop 18; a straight line from Drop 18 to Frink Rd.; south on Frink Rd. to Highway 111; north on Highway 111 to Niland Marina Rd.; southwest on Niland Marina Rd. to the old Imperial County boat ramp and the water line of the Salton Sea; from the water line of the Salton Sea, a straight line across the Salton Sea to the Salinity Control Research Facility and the Navy Test Base Road; southwest on the Navy Test Base Road to the point of beginning.

Balance of the State Zone: The remainder of California not included in the Northeastern, Southern, and the Colorado River Zones.

Del Norte and Humboldt Area: The Counties of Del Norte and Humboldt.

Sacramento Valley Special Management Area (East): That area bounded by a line beginning at the junction of the Gridley-Colusa Highway and the Cherokee Canal; west on the Gridley-Colusa Highway to Gould Road; west on Gould Road and due west 0.75 miles directly to Highway 45; south on Highway 45 to Highway 20; east on Highway 20 to West Butte Road; north on West Butte Road to Pass Road; west on Pass Road to West Butte Road; north on West Butte Road to North Butte Road; west on North Butte Road and due west 0.5 miles directly to the Cherokee Canal; north on the Cherokee Canal to the point of beginning.

Sacramento Valley Special Management Area (West): That area bounded by a line beginning at Willows south on I-5 to Hahn Road; easterly on Hahn Road and the Grimes-Ar buckle Road to Grimes; northerly on CA 45 to the junction with CA 162; northerly on CA 45/162 to Glenn; and westerly on CA 162 to the point of beginning in Willows.

Colorado (Pacific Flyway Portion)

West Central Area: Archuleta, Delta, Dolores, Gunnison, LaPlata, Montezuma, Montrose, Ouray, San Juan, and San Miguel Counties and those portions of Hinsdale, Mineral, and Saguache Counties west of the Continental Divide.

Southwestern Area: The remainder of the Pacific-Flyway Portion of Colorado.

Idaho

Zone 2: The Counties of Ada; Adams; Boise; Canyon; those portions of Elmore north and east of I-84, and south and west of I-84, west of ID 51, except the Camas Creek drainage; Gem; Owyhee west of ID 51; Payette; Valley; and Washington.

Zone 3: The Counties of Blaine; Camas; Cassia; those portions of Elmore south of I-84 east of ID 51, and within the Camas Creek drainage; Gooding; Jerome; Lincoln; Minidoka; Owyhee east of ID 51; Power within the Minidoka National Wildlife Refuge; and Twin Falls.

Zone 4: The Counties of Bear Lake; Bingham within the Blackfoot Reservoir drainage; Bonneville, Butte; Caribou except the Fort Hall Indian Reservation; Clark; Custer; Franklin; Fremont; Jefferson; Lemhi; Madison; Oneida; Power west of ID 37 and ID 39 except the Minidoka National Wildlife Refuge; and Teton.

Zone 5: All lands and waters within the Fort Hall Indian Reservation, including private inholdings; Bannock County; Bingham County, except that portion within the Blackfoot Reservoir drainage; and Power County east of ID 37 and ID 39.

In addition, goose frameworks are set by the following geographical areas

Southwestern Unit: That area west of the line formed by U.S. 93 north from the Nevada State line to Shoshone, northerly on ID 75 (formerly U.S. 93) to Challis, northerly on U.S. 93 to the Montana State line (except the Northern Unit and except Custer and Lemhi Counties).

Southeastern Unit: That area east of the line formed by U.S. 93 north from the Nevada State line to Shoshone, northerly on ID 75 (formerly U.S. 93) to Challis, northerly on U.S. 93 to the Montana State line, including all of Custer and Lemhi Counties.

Montana (Pacific Flyway Portion)

East of the Divide Zone: The Pacific Flyway portion of the State located east of the Continental Divide.

West of the Divide Zone: The remainder of the Pacific Flyway portion of Montana.

Nevada

Lincoln Clark County Zone: All of Lincoln and Clark Counties.

Remainder-of-the-State Zone: The remainder of Nevada.

New Mexico (Pacific Flyway Portion)

North Zone: The Pacific Flyway portion of New Mexico located north of I-40.

South Zone: The Pacific Flyway portion of New Mexico located south of I-40.

Oregon

Southwest Zone: Douglas, Coos, Curry, Josephine, and Jackson Counties.

Northwest Special Permit Zone: That portion of western Oregon west and north of a line running south from the Columbia River in Portland along I-5 to OR 22 at Salem; then east on OR 22 to the Stayton Cutoff; then south on the Stayton Cutoff to Stayton and due south to the Santiam River; then west along the north shore of the Santiam River to I-5; then south on I-5 to OR 126 at Eugene; then west on OR 126 to Greenhill Road; then south on Greenhill...
Road to Crow Road; then west on Crow Road to Territorial Hwy; then west on Territorial Hwy to OR 126; then west on OR 126 to OR 36; then north on OR 36 to Forest Road 5070 at Brickerville; then west and south on Forest Road 5070 to OR 126; then west on OR 126 to Milepost 19, north to the intersection of the Benton and Lincoln County line, north along the western boundary of Benton and Polk Counties to the southern boundary of Tillamook County, west along the Tillamook County boundary to the Pacific Coast.

**Lower Columbia/N. Willamette Valley Management Area:** Those portions of Clatsop, Columbia, Multnomah, and Washington Counties within the Northwest Special Permit Zone.

**Northwest Zone:** Those portions of Clackamas, Lane, Linn, Marion, Multnomah, and Washington Counties outside of the Northwest Special Permit Zone and all of Lincoln County.

**Closed Zone:** Those portions of Coos and Curry Counties south of Bandon and west of U.S. 101 and all of Tillamook and Lincoln Counties.

**Eastern Zone:** Hood River, Wasco, Sherman, Gilliam, Morrow, Umatilla, Deschutes, Jefferson, Crook, Wheeler, Grant, Baker, Union, and Wallowa Counties.

**Harney, Klamath, Lake, and Malheur County Zone:** All of Harney, Klamath, Lake, and Malheur Counties.

**Utah**

Washington County Zone: All of Washington County.

**Remainder-of-the-State Zone:** The remainder of Utah.

**Washington**

**Area 1:** Skagit, Island, and Snohomish Counties.

**Area 2A (SW Quota Zone):** Clark County, except portions south of the Washougal River; Cowlitz, and Wahkiakum Counties.

**Area 2B (SW Quota Zone):** Pacific and Grays Harbor Counties.

**Area 3:** All areas west of the Pacific Crest Trail and west of the Big White Salmon River that are not included in Areas 1, 2A, and 2B.

**Area 4:** Adams, Benton, Chelan, Douglas, Franklin, Grant, Kittitas, Lincoln, Okanogan, Spokane, and Walla Walla Counties.

**Area 5:** All areas east of the Pacific Crest Trail and east of the Big White Salmon River that are not included in Area 4.

**Wyoming (Pacific Flyway Portion)**

See State Regulations.

**Bear River Area:** That portion of Lincoln County described in State regulations.

**Salt River Area:** That portion of Lincoln County described in State regulations.

**Eden-Farson Area:** Those portions of Sweetwater and Sublette Counties described in State regulations.

**Swans**

**Central Flyway**

**South Dakota:** Aurora, Beadle, Brookings, Brown, Brule, Buffalo, Campbell, Clark, Codington, Davison, Deuel, Day, Edmunds, Faulk, Grant, Hamlin, Hand, Hanson, Hughes, Hyde, Jerauld, Kingsbury, Lake, Marshall, McCook, McPherson, Miner, Minnehaha, Moody, Potter, Roberts, Sanborn, Spink, Sully, and Walworth Counties.

**Pacific Flyway**

**Montana (Pacific Flyway Portion)**

**Open Area:** Cascade, Chouteau, Hill, Liberty, and Toole Counties and those portions of Pondera and Teton Counties lying east of U.S. 287–89.

**Nevada**

**Open Area:** Churchill, Lyon, and Pershing Counties.

**Utah**

**Open Area:** Those portions of Box Elder, Weber, Davis, Salt Lake, and Tooele Counties lying west of I–15, north of I–80 and south of a line beginning from the Forest Street exit to the Bear River National Wildlife Refuge boundary, then north and west along the Bear River National Wildlife Refuge boundary to the farthest west boundary of the Refuge, then west along a line to Promontory Road, then north on Promontory Road to the intersection of SR 83, then north on SR 83 to I–84, then north and west on I–84 to State Hwy 30, then west on State Hwy 30 to the Nevada-Utah State line, then south on the Nevada-Utah State line to I–80.
