The Service is furnishing this notice in compliance with the National Wildlife Refuge System Administration Act of 1966, as amended (16 U.S.C. 668dd et seq.), to achieve the following:
1. Advise other agencies and the public of our intentions; and

Open house style meetings and focus group meetings will be held during the scoping phase of the CCP development process.

In addition, the Service is inviting comments on archeological, historic, and traditional cultural sites in accordance with the National Historic Preservation Act. Cultural resource overview studies will be conducted to identify known historic and cultural sites on the refuges.

Special mailings, newspaper articles, and other media announcements will inform people of the opportunities for written input throughout the CCP planning process.

DATES: We estimate that the draft environmental documents will be available in 2005.

SUPPLEMENTARY INFORMATION: By Federal law, all lands within the National Wildlife Refuge System are to be managed in accordance with an approved CCP. The CCP guides management decisions and identifies refuge goals, long-range objectives, and strategies for achieving refuge purposes. The CCP will provide other agencies and the public with a clear understanding of the desired conditions for the Refuge and how the Service will implement management strategies. The CCP planning process will consider many elements, including wildlife and habitat management, habitat protection and acquisition, wilderness preservation, public recreational activities, industrial use, and cultural resource preservation. Public input into this planning process is essential.

The Service will prepare an Environmental Assessment (EA) in accordance with procedures for implementing NEPA found in the Departmental Manual 516 DM 6, Appendix 1.

Review of this project will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), NEPA Regulations (40 CFR 1500–1508), other appropriate Federal laws and regulations, and Service policies and procedures for compliance with those regulations.
