issue was resolved in an interpretation letter sent by the agency to Mr. Mills of Triumph Motorcycles on May 24, 2002.\footnote{See ECE Reg. 53 (October 1, 2002): http://www.unece.org/trans/main/wp29/wp29regs/53rv1e.pdf.}

For the reasons discussed above, NHTSA is withdrawing the rulemaking on the JAPIA petition.

Stephen R. Kratzke,
Associate Administrator for Rulemaking.

Migratory Bird Hunting: Approval of Tungsten-Bronze Shot as Nontoxic for Hunting Waterfowl and Coots

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule; clarification.

SUMMARY: The purpose of this document is to clarify a point made in a recently published final rule. We have become aware that some language in the preamble to that rule could be confusing or misleading. This document does not change the rule in any way; it merely provides further information about a particular issue in the rule’s preamble.

FOR FURTHER INFORMATION CONTACT: Dr. George T. Allen, Wildlife Biologist, U.S. Fish and Wildlife Service; telephone (703) 358–1825.

SUPPLEMENTARY INFORMATION: In response to our March 15, 2004, notice (69 FR 12105) proposing to approve the International Nontoxic Composite Corporation’s (INC) tungsten-bronze shot as nontoxic for hunting waterfowl and coots, a commenter asked that we identify the sectional density of the shot. In the preamble to the August 9, 2004, final rule (69 FR 48163), we responded to that comment and noted that the sectional density of a sample provided to us was 11.68 grams per cubic centimeter (g/cc). We did not intend that this would be a limitation or condition of approval, as sectional density is not a factor that we consider with respect to approvals. The approval was based on the percent composition, as stated in 50 CFR 20.21. We understand that INC intends to produce the shot at a sectional density of approximately 12.1 g/cc, as noted in INC’s application for approval of tungsten-bronze shot as nontoxic.

Craig Manson,
Assistant Secretary for Fish and Wildlife and
Parks.

2004–2005 Refuge-Specific Hunting and Sport Fishing Regulations; Corrections

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Correcting amendments.

SUMMARY: The Fish and Wildlife Service published a document in the Federal Register on September 8, 2004 (69 FR 54350), revising 50 CFR part 32. This document related to the addition of refuges and wetland management districts to the list of areas open for hunting and/or sport fishing programs and increased the activities available at other refuges. We also developed pertinent refuge-specific regulations for those activities and amended certain regulations on other refuges that pertain to migratory game bird hunting, upland game hunting, big game hunting, and sport fishing for the 2004–2005 season. This document corrects the final regulations by revising 50 CFR part 32.

FOR FURTHER INFORMATION CONTACT: Leslie Marler, (703) 358–2397.

SUPPLEMENTARY INFORMATION: Most corrections are sequential numbering errors and are enumerated in the regulatory text section below. One correction removes the listing of Devils Lake Wetland Management District from the State of South Dakota (50 CFR 32.71).

List of Subjects in 50 CFR Part 32

Fishing, Hunting, Reporting and recordkeeping requirements, Wildlife, Wildlife refuges.

Accordingly, 50 CFR part 32 is corrected by making the following correcting amendments:

PART 32—HUNTING AND FISHING

1. The authority citation for part 32 continues to read as follows:
