Migratory Bird Hunting; Application for Approval of Tungsten-Tin-Iron Shot as Nontoxic for Waterfowl Hunting

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The U.S. Fish and Wildlife Service (Service) hereby provides public notice that Nice Shot, Inc., of Albion, Pennsylvania, has applied for approval of 58 percent tungsten, 38 percent tin, and 4 percent iron shot as nontoxic for waterfowl hunting in the United States. The Service has initiated review of the shot under the criteria set out in Tier 1 of the nontoxic shot approval procedures given at 50 CFR 20.134.

DATES: A comprehensive review of the Tier 1 information is to be concluded by August 1, 2005.

ADDRESSES: The Nice Shot, Inc., application may be reviewed in Room 4091 at the Fish and Wildlife Service, Division of Migratory Bird Management, 4501 North Fairfax Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: George T. Allen, Wildlife Biologist, Division of Migratory Bird Management, (703) 358–1825.

Since the mid-1970s, the Service has sought to identify types of shot for waterfowl hunting that are not toxic to migratory birds or other wildlife when ingested. We have approved nontoxic shot types and added them to the migratory bird hunting regulations in 50 CFR 20. We will continue to review all shot types submitted for approval as nontoxic.

Nice Shot has submitted its application with the counsel that it contains all of the specified information required for a complete Tier 1 submittal, and has requested unconditional approval pursuant to the Tier 1 time frame. The Service has determined that the application is complete, and has initiated a comprehensive review of the Tier 1 information. After the review, the Service will either publish a Notice of Review to inform the public that the Tier 1 test results are inconclusive or publish a proposed rule for approval of the candidate shot. If the Tier 1 tests are inconclusive, the Notice of Review will indicate what other tests will be required before we will again consider approval of the Tungsten-Tin-Iron shot as nontoxic. If the Tier 1 data review results in a preliminary determination that the candidate material does not pose a significant toxicity hazard to migratory birds, other wildlife, or their habitats, the Service will commence with a rulemaking proposing to approve the candidate shot.

Dated: May 19, 2005.

Matt Hogan,
Acting Director, U.S. Fish and Wildlife Service.

[Docket No. 050520137–5137–01; I.D. 050905F]

Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Framework Adjustment 17

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement Framework 17 to the Atlantic Sea Scallop Fishery Management Plan (Framework 17) developed by the New England Fishery Management Council (Council). Framework 17 would require that vessels issued a general category scallop permit and that intend to land over 40 lb (18.14 kg) of shucked, or 5 bu (176.2 L) of in-shell scallops, install and operate vessel monitoring systems (VMS). Framework 17 would also allow general category scallop vessels with VMS units to turn off (power-down) the VMS units after they have offloaded scallops and while they are tied to a fixed dock or mooring. Finally, Framework 17 proposes to revise the broken trip adjustment provision for limited access scallop vessels fishing in the Sea Scallop Area Access Program. The intent of this action is to provide more complete monitoring of the general category scallop fleet, to reduce VMS operating costs, and to eliminate a provision that may have a negative influence on vessel operator decisions at sea.

DATES: Comments must be received at the appropriate address or fax number (see ADDRESSES) by 5 p.m., local time, on June 17, 2005.

ADDRESSES: Comments should be submitted by any of the following methods:

• Mail: Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, One Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope, “Comments on Frameworks 17.”

• Fax: (978) 281–9135.

• E-mail: ScallopAT10@noaa.gov.
