Part IV

Department of the Interior

Fish and Wildlife Services

50 CFR Part 20
Migratory Bird Hunting; Proposed Frameworks for Early-Season Migratory Bird Hunting Regulations; Notice of Meetings; Proposed Rule
DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
50 CFR Part 20
RIN 1018–AT76
Migratory Bird Hunting; Proposed Frameworks for Early-Season Migratory Bird Hunting Regulations; Notice of Meetings

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; supplemental.

SUMMARY: The U.S. Fish and Wildlife Service (hereinafter Service or we) is proposing to establish the 2005–06 early-season hunting regulations for certain migratory game birds. We annually prescribe frameworks, or outer limits, for dates and times when hunting may occur and the maximum number of birds that may be taken and possessed in early seasons. Early seasons may open as early as September 1, and include seasons in Alaska, Hawaii, Puerto Rico, and the U.S. Virgin Islands. These frameworks are necessary to allow State selections of specific final seasons and limits and to allow recreational harvest at levels compatible with population status and habitat conditions.

DATES: The Service Migratory Bird Regulations Committee will meet to consider and develop proposed regulations for late-season migratory bird hunting and the 2006 spring/summer migratory bird subsistence seasons in Alaska on July 27 and 28, 2005. All meetings will commence at approximately 8:30 a.m. You must submit comments on the proposed migratory bird hunting-season frameworks for Alaska, Hawaii, Puerto Rico, the Virgin Islands, and other early seasons by August 11, 2005, and for the forthcoming proposed late-season frameworks by August 30, 2005.

ADDRESSES: The Service Migratory Bird Regulations Committee will meet in room 200 of the U.S. Fish and Wildlife Service’s Arlington Square Building, 4401 N. Fairfax Drive, Arlington, Virginia. Send your comments on the proposals to the Chief, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, MS MBSP–4107–ARLSQ, 1849 C Street, NW., Washington, DC 20240. All comments received, including names and addresses, will become part of the public record. You may inspect comments during normal business hours at the Service’s office in room 4107, 4501 N. Fairfax Drive, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Brian Millsap, Chief, or Ron W. Kokel, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, (703) 358–1714.

SUPPLEMENTARY INFORMATION:

Regulations Schedule for 2005

On April 6, 2005, we published in the Federal Register (70 FR 17574) a proposal to amend 50 CFR part 20. The proposal provided a background and overview of the migratory bird hunting regulations process, and dealt with the establishment of seasons, limits, the proposed regulatory alternatives for the 2005–06 duck hunting season, and other regulations for migratory game birds under §§ 20.101 through 20.109, and 20.110 of subpart K. On June 24, 2005, we published in the Federal Register (70 FR 36794) a second document providing supplemental proposals for early- and late-season migratory bird hunting regulations frameworks and the regulatory alternatives for the 2005–06 duck hunting season. The June 24 supplement also provided detailed information on the 2005–06 regulatory schedule and announced the Service Migratory Bird Regulations Committee (SRC) and Flyway Council meetings.

This document, the third in a series of proposed, supplemental, and final rulemaking documents for migratory bird hunting regulations, deals specifically with proposed frameworks for early-season regulations. It will lead to final frameworks from which States may select season dates, shooting hours, and daily bag and possession limits for the 2005–06 season. We have considered all pertinent comments received through June 30, 2005, on the April 6 and June 24, 2005, rulemaking documents in developing this document. In addition, new proposals for certain early-season regulations are provided for public comment. Comment periods are specified above under DATES. We will publish final regulatory frameworks for early seasons in the Federal Register on or about August 20, 2005.

Service Migratory Bird Regulations Committee Meetings

Participants at the June 22–23, 2005, meetings reviewed information on the current status of migratory shore and upland game birds and developed 2005–06 migratory game bird regulations recommendations for all species plus regulations for migratory game birds in Alaska, Puerto Rico, and the U.S. Virgin Islands; special September waterfowl seasons in designated States; special sea duck seasons in the Atlantic Flyway; and extended falconry seasons. In addition, we reviewed and discussed preliminary information on the status of waterfowl. Participants at the previously announced July 27–28, 2005, meetings will review information on the current status of waterfowl and develop recommendations for the 2005–06 regulations pertaining to regular waterfowl seasons and other species and seasons not previously discussed at the early-season meetings. In accordance with Department of the Interior policy, these meetings are open to public observation and you may submit written comments to the Director of the Service on the matters discussed.

Population Status and Harvest

The following paragraphs provide preliminary information on the status of waterfowl and information on the status and harvest of migratory shore and upland game birds.

May Breeding Waterfowl and Habitat Survey

Habitat conditions at the time of the survey in May were variable. Habitat on the U.S. prairies was in fair to poor condition due to a dry fall, winter, and early spring and warm winter temperatures. Nesting habitat was particularly poor in South Dakota because of below average precipitation resulting in degraded wetland conditions and increased tilling and grazing of wetland margins. Water levels and upland nesting cover were better in North Dakota and eastern Montana and wetland conditions in these regions improved markedly during June, with the onset of well-above average precipitation. The 2005 pond estimate for the northcentral U.S. (1.5 million) was similar to last year.

The prairies of southern Alberta and southwestern Saskatchewan were also quite dry at the beginning of the survey in early May. The U.S. and Canadian prairies received substantial rain in late May and during the entire month of June that recharged wetlands and encouraged growth of vegetation. While this improved habitat quality on the prairies, it probably came too late to benefit early-nesting species or prevent overflight. Rains likely improved habitat conditions for late nesting species and for nestling efforts. In contrast, the Canadian Parklands were much improved compared to last year, due to a combination of several years of improving nesting cover and above-normal precipitation last fall and winter. These areas were in good-to-
excellent condition and conditions have remained good through early summer. Record high levels of rain did flood portions of lower elevation prairie areas of central Manitoba during April, producing fair or poor nesting conditions for breeding waterfowl in some areas.

Overall, the pond estimate in the Canadian prairies and parklands and the U.S. prairies (5.4 million ponds) increased 37% over last year and was 12% higher than the long-term average. The estimate of ponds in the Canadian prairies and parklands was 3.9 million. This was a 56% increase over last year and 17% higher than the long-term average.

Portions of northern Manitoba and northern Saskatchewan also experienced flooding, resulting in only fair conditions for breeding waterfowl. Most of the Northwest Territories was in good condition due to adequate water and a timely spring break up that made habitat available to early-nesting species. However, dry conditions in eastern portions of the Northwest Territories and northeastern Alberta resulted in low water levels in lakes and ponds and the complete drying of some wetlands. Thus, habitat was classified as fair in these areas. Alaska was in mostly excellent condition, with an early spring and good water, except for a few flooded river areas and the North Slope, where spring was late.

In the Eastern Survey area, habitat conditions were good due to adequate water and relatively mild spring temperatures. The exceptions were the coast of Maine and the Maritimes, where May temperatures were cool and some flooding occurred along the coast and major rivers. Also, below normal precipitation left some habitats in fair to poor condition in southern Ontario. However, precipitation in this region following survey completion improved habitat conditions.

**Status of Teal**

The estimate of blue-winged teal numbers from the Traditional Survey Area is 4.6 million. This represents a 13 percent increase from 2004. According to the teal season harvest strategy, the estimate indicates that a 9-day September teal season is appropriate in 2005.

**Sandhill Cranes**

The Mid-Continent Population of Sandhill Cranes has generally stabilized at comparatively high levels, following increases in the 1970s. The Central Platte River Valley, Nebraska, spring index for 2005, uncorrected for visibility, was 412,000 cranes. The most recent photo-corrected 3-year average (for 2002–2004) was 363,167, which is within the established population-objective range of 343,000–465,000 cranes. All Central Flyway States, except Nebraska, allowed crane hunting in portions of their respective States in 2004–05. About 9,300 hunters participated in these seasons, which was 12% higher than the number that participated during the previous years seasons. An estimated 15,124 cranes were harvested in the Central Flyway during 2004–05 seasons, which was 18% lower than the previous year’s estimate. Retrieved harvests in the Pacific Flyway, Canada, and Mexico were estimated to be about 14,528 cranes for the 2004–05 period. The total North American sport harvest, including crippling losses, was estimated at 33,847, which is 5% lower than the previous year’s estimate.

The fall 2004 pre-migration survey estimate for the Rocky Mountain Population of sandhill cranes was 18,510, which was 5.5% lower than the previous year’s estimate of 19,523. Limited special seasons were held during 2004–05 in portions of Arizona, Idaho, Montana, New Mexico, Utah, and Wyoming, resulting in a harvest of 594 cranes (harvest allocation was 656 cranes), a 13% increase over the previous year’s harvest of 528 cranes (harvest allocation was 668 cranes). The 3-year population average for 2002–04 is 18,945 sandhill cranes, which is within established population objectives of 17,000–21,000.

**Woodcock**

Singing-ground and Wing-collection Surveys were conducted to assess the population status of the American woodcock (Scolopax minor). Singing-ground Survey data for 2005 indicate that the numbers of displaying woodcock in the Eastern and Central Regions were unchanged from 2004. There was no significant trend in woodcock heard on the Singing-ground Survey in either the Eastern or Central Regions during the 10 years between 1996 and 2005. This represents the second consecutive year since 1992 that the 10-year trend estimate for either region was not a significant decline. There were long-term (1968–2005) declines of 2.0 percent per year in the Eastern Region and 1.8 percent per year in the Central Region. Wing-collection survey data indicate that the 2004 recruitment index for the U.S. portion of the Eastern Region (2.0 immatures per adult female) was 34 percent higher than the 2003 index and 19 percent higher than the long-term average. The recruitment index for the U.S. portion of the Central Region (1.3 immatures per adult female) was slightly lower than the 2003 index and 17 percent below the long-term average.

**Band-Tailed Pigeons and Doves**

A significant decline in the Coastal population of band-tailed pigeons occurred during 1968–2004, as indicated by the Breeding Bird Survey (BBS); however, no trend was noted over the most recent 10 years. A range-wide mineral-site survey conducted in British Columbia, Washington, Oregon, and California indicated an increasing trend between 2001 and 2004. BBS analyses indicated no trend for the Interior band-tailed pigeon population over the long-term period, but did show a decline for the first time over the most recent 10 years.

Analyses of Mourning Dove Call-count Survey data over the most recent 10 years indicated no significant trend for doves heard in either the Eastern or Western Management Units while the Central Unit showed a significant decline. Over 40 years, all 3 units exhibited significant declines. In contrast, for doves seen over the 10-year period, a significant increase was found in the Eastern Unit while no trends were found in the Central and Western Units. Over 40 years, no trend was found for doves seen in the Eastern and Central Units while a significant decline was indicated for the Western Unit. A banding project is underway to obtain current information in order to develop mourning dove population models for each unit to provide guidance for improving our decision-making process with respect to harvest management.

In Arizona, the white-winged dove population has shown a significant decline between 1962 and 2005. However, the number of whitewings has been fairly stable since the 1970s, but did show an apparent decline over the most recent 10 years. In Texas, white-winged doves are now found throughout most of the state. In 2005, the whitewing population in Texas was estimated to be 2.8 million. The expansion of whitewings northward and eastward from Texas has led to whitewings being sighted in most of the Great Plains and Midwest states and as far north as Ontario. Nesting has been reported in Louisiana, Arkansas, Oklahoma, Kansas, and Missouri. They have been sighted in Colorado, Montana, Nebraska, Iowa, and Minnesota. Additionally, whitewings are believed to be expanding northward from Florida and have been seen along the eastern seaboard as far north as Newfoundland.

White-tipped doves are maintaining a relatively stable population in the...
Lower Rio Grande Valley of Texas. They are most abundant in cities and, for the most part, are not available to hunting. The count in 2005 averaged 0.51 birds per stop compared to 0.91 in 2004.

Review of Public Comments

The preliminary proposed rulemaking (April 6 Federal Register) opened the public comment period for migratory game bird hunting regulations and announced the proposed regulatory alternatives for the 2005–06 duck hunting season. Comments concerning early-season issues and the proposed alternatives are summarized below and numbered in the order used in the April 6 Federal Register document. Only the numbered items pertaining to early-season issues and the proposed regulatory alternatives for which written comments were received are included. Consequently, the issues do not follow in consecutive numerical or alphabetical order. We received recommendations from all four Flyway Councils. Recommendations supported continuation of last year’s frameworks. Due to the comprehensive nature of the annual review of the frameworks performed by the Councils, support for continuation of last year’s frameworks is assumed for items for which no recommendations were received. Council recommendations for changes in the frameworks are summarized below. We seek additional information and comments on the recommendations in this supplemental proposed rule. New proposals and modifications to previously described proposals are discussed below. Wherever possible, they are discussed under headings corresponding to the numbered items in the April 6, 2005, Federal Register document.

1. Ducks

Categories used to discuss issues related to duck harvest management are: (A) General Harvest Strategy, (B) Regulatory Alternatives, including specification of framework dates, season length, and bag limits, (C) Zones and Split Seasons, and (D) Special Seasons/Species Management. The categories correspond to previously published issues/discussions, and only those containing substantial recommendations are discussed below.

D. Special Seasons/Species Management v. Pintails

Council Recommendations: The Pacific Flyway Council recommended that the proposed technical revisions to the Northern Pintail Harvest strategy not be adopted in 2005 and that the efforts of the Working Group formed in 2004 should be expanded and continued. The Service should commit sufficient staff time to achieve significant progress on this issue in the coming year. Future work should include as a priority the development and the inclusion of compensatory harvest mortality in the population model and stock- and sex-specific harvest regulations. Since these issues and concerns cannot be fully evaluated and considered for the 2005 regulatory cycle, the Council supports establishment of 2005 northern pintail regulations under the same criteria used in 2004.

Service Response: We concur with the Pacific Flyway Council’s recommendation to delay incorporation of technical improvements to the Pintail Harvest Strategy until the next regulatory cycle. However, we believe strongly that the top priority for the coming year must be a decision on the proposed technical improvements followed by a clear articulation of the desired management objectives. We believe there are a limited number of possible objectives that might be considered: (1) Maximize long-term harvest, (2) minimize closed or partial seasons, (3) maximize long-term harvest constrained by a population goal, or (4) some combination of the above. We are open to additional input on objectives and look forward to these discussions to be facilitated by the existing working group.

In addition to a review of the proposed technical modifications and an effort to more clearly define the harvest-management objectives in the strategy, we would also suggest incorporation of an adaptive process for choosing the appropriate season for a given set of conditions and perhaps consideration of a contrasting model that would include compensatory harvest effects as a reasonable scope of work to be completed in advance of the next regulatory cycle. At this time, we do not feel investigation of stock or sex specific harvest regulations for pintails would be beneficial to pursue.

4. Canada Geese

A. Special Seasons

Council Recommendations: The Atlantic Flyway Council recommended that Connecticut’s September goose season framework dates of 1 September to 30 September become operational.

The Central Flyway Council recommended that Oklahoma’s Experimental September Canada Goose Hunting Season become operational for the time beginning September 16–25, beginning with the September 2005 hunting season.

The Pacific Flyway Council recommended extending Idaho’s geographically-limited September season framework to a State-wide framework.

Service Response: We concur with the recommendations regarding Connecticut’s and Idaho’s September goose seasons. We do not support the Central Flyway Council recommendation to give operational status to the experimental season in Oklahoma. The sample size of tail fans necessary to determine the portion of migrant Canada goose in the harvest is insufficient for the experimental period. We believe that the experimental season should be extended for one year and we will work with Oklahoma to complete collections required for this assessment.

B. Regular Seasons

Council Recommendations: The Upper- and Lower-Region Regulations Committees of the Mississippi Flyway Council recommended that the framework opening date for all species of geese be September 16 in 2005 and future years. If this recommendation is not approved, the Committees recommended that the framework opening date for all species of goose for the regular goose seasons in Michigan and Wisconsin be September 16.

Service Response: We concur with the objective to increase harvest pressure on resident Canada goose in the Mississippi Flyway, but do not concur with a September 16 framework opening date throughout the Flyway. A September 16 opening date Flyway-wide would require that the regular season be established during the early-season regulations process, which presents a number of administrative problems. In addition, a September 16 opening date has implications beyond the Mississippi Flyway. Regarding the recommendations for a September 16 framework opening date in Wisconsin, we concur. However, the opening dates in both States will continue to be considered exceptions to the general Flyway opening date, to be reconsidered annually.

9. Sandhill Cranes

Service Response: As we indicated in the April 6 Federal Register, during last year’s waterfowl and sandhill crane hunting season, a group of hunters in Kansas accidentally shot at some whooping cranes. Two of the whooping cranes from this flock sustained injuries and were subsequently captured and treated by agency and university personnel. Both subsequently died after capture. We have worked with staff from the Kansas Department of Wildlife and Parks to review this incident and we concur with the Central Flyway Council recommendation for no change to the Mid-Continent Sandhill Crane Population hunting season frameworks. The State of Kansas has indicated that they will increase and improve hunter outreach and education efforts concerning whooping cranes in cooperation with the Service and will delay the opening of the sandhill crane season through State regulations. We believe these actions will minimize the potential conflicts with whooping cranes and hunting in this area.

16. Mourning Doves

Council Recommendations: The Upper- and Lower-Region Regulations Committees of the Mississippi Flyway Council recommended that zoning remain an option for States in their management of mourning dove harvest. The Council recommends the following elements should be noted or made part of any change in zoning policy by the Service:

1. There is no strong biological basis to establish a latitudinal line below which zoning is mandatory in the Eastern Management Unit;
2. Use of September 20th as the earliest opening date for a South Zone has no biological basis; and
3. Limiting the frequency that a State can select or change zoning options is supported, but the time period between changes should not exceed 5 years and States selecting Zoning should be able to revert back to a non-zoning option for any remaining years left before Zoning is again a regulatory option.

The Central Flyway Council recommends the following guidelines for mourning dove hunting zones and periods in the Central Management Unit (CMU).

1. The time interval between changes in zone boundaries or periods within States in the CMU should not exceed five (5) years consistent with the review schedule for duck zones and periods (i.e., 2006–2010, 2011–2015, etc).
2. States may select two (2) zones and three (3) segments except Texas has the option to select three (3) zones and two (2) segments.
3. The opening date of September 20 in the South Zone in Texas with the three (3) zone option will remain unchanged.

Service Response: We will defer the decision on dove zoning for 1 year, and will work with the Flyway Councils and Dove technical committees to develop a consensus position on dove zoning by March 2006.

17. White-Winged and White-Tipped Doves

Council Recommendations: The Central Flyway Council recommended that the boundary for the White-winged Dove Area in Texas be extended to include the area south and west of Interstate Highway 37 and U.S. Highway 90, with an aggregate daily bag limit of 12 doves, no more than 3 of which may be mourning doves. All other regulations would remain unchanged. The Council subsequently modified its recommendation to reduce the expansion to the south and west of Interstate Highway 35 and U.S. Highway 90, with an aggregate daily bag limit of 12 doves, no more than 4 of which may be mourning doves and 2 of which may be white-tipped doves.

Service Response: We concur with the modified Council recommendation to expand the Special White-winged Dove Area to I–35 and U.S. 90 and allow an aggregate daily bag limit of 12 doves, of which no more than 4 may be mourning doves and 2 may be white-tipped doves. However, we are concerned about the potential increased take of mourning doves and will monitor the effects of this change. Further, we appreciate Texas’ willingness to work with the Service to establish surveys or studies that are needed and feasible to determine the effects of this expanded hunting area on mourning doves. Specifically, we are hopeful that the proposed comprehensive harvest surveys along with implementation of extensive nesting and banding studies will provide data that will help make future decisions.

18. Alaska

Council Recommendations: The Pacific Flyway Council recommended that the Canvасback Harvest Strategy include a statement to the effect that “In general, Alaska may annually select a canvасback season with limits of one daily, three in possession in lieu of annual prescriptions from this strategy. In the event that the breeding population declines to a level that indicates seasons will be closed for several years, the Service will consult with the Pacific Flyway Council to decide whether Alaska seasons should be closed.” The Council and Service should appreciate that if season closure decisions are made during the late season process, Alaska will have to implement regulation changes by emergency orders, which will conflict with widely distributed public regulations summaries produced in July.

Further, the Council recommended removal of the [Canada] goose closure in the Aleutian Islands (Unit 10), reduction of dark goose limits in Units 18 and 9(E) to four daily with no more than two cackling/Canada geese, and reduction in the brant season length in Unit 9(D) from 107 days to 30 days. The Council’s latter two recommendations are contingent on concomitant restrictions on primary migration and wintering areas in the lower 48 states.

Service Response: We concur with the Council’s recommendations. Further, we support the recommendation for the additional language to be added to the existing canvасback strategy describing the season closure process for the State of Alaska. However, we request that the Pacific Flyway Council continue to work with the Service to define what objective measures might be used to more clearly describe when canvасbacks would be closed in Alaska.

Public Comment Invited

The Department of the Interior’s policy is, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. We intend that adopted final rules be as responsive as possible to all concerns interests and, therefore, seek the comments and suggestions of the public, other concerned governmental agencies, nongovernmental organizations, and other private interests on these proposals. Accordingly, we invite interested persons to submit written comments, suggestions, or recommendations regarding the proposed regulations to the address indicated under the caption ADDRESSES.

Special circumstances involved in the establishment of these regulations limit the amount of time that we can allow for public comment. Specifically, two considerations compress the time in which the rulemaking process must operate: (1) The need to establish final rules at a point early enough in the summer to allow affected State agencies to adjust their licensing and regulatory mechanisms; and (2) the unavailability, before mid-June, of specific, reliable data on this year’s status of some waterfowl and migratory shore and upland game bird populations. Therefore, we believe that to allow comment periods past the dates
specified in DATES is contrary to the public interest.

Before promulgation of final migratory game bird hunting regulations, we will take into consideration all comments received. Such comments, and any additional information received, may lead to final regulations that differ from these proposals. You may inspect comments received on the proposed annual regulations during normal business hours at the Service’s office in room 4107, 4501 North Fairfax Drive, Arlington, Virginia. For each series of proposed rulemakings, we will establish specific comment periods. We will consider, but possibly may not respond in detail to, each comment. However, as in the past, we will summarize all comments received during the comment period and respond to them in the final rule.

NEPA Consideration

NEPA considerations are covered by the programmatic document, “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14),” filed with the Environmental Protection Agency on June 9, 1988. We published Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). In addition, an August 1985 environmental assessment entitled “Guidelines for Migratory Bird Hunting Regulations on Federal Indian Reservations and Ceded Lands” is available from the address indicated under the caption ADDRESSES. In a proposed rule published in the April 30, 2001, Federal Register (66 FR 21298), we expressed our intent to begin the process of developing a new Supplemental Environmental Impact Statement for the migratory bird hunting program. We plan to begin the public scoping process in 2005.

Endangered Species Act Consideration

Prior to issuance of the 2005–06 migratory game bird hunting regulations, we will consider provisions of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531–1543; hereinafter the Act) to ensure that hunting is not likely to jeopardize the continued existence of any species designated as endangered or threatened, or modify or destroy its critical habitat, and is consistent with conservation programs for those species. Consultations under Section 7 of this Act may cause us to change proposals in future supplemental proposed rulemaking documents.

Executive Order 12866

The migratory bird hunting regulations are economically significant and were reviewed by the Office of Management and Budget (OMB) under Executive Order 12866. As such, a cost/benefit analysis was initially prepared in 1981. This analysis was subsequently revised annually from 1990–96, updated in 1998 and updated again in 2004. It is further discussed below under the heading Regulatory Flexibility Act. Results from the 2004 analysis indicate that the expected welfare benefit of the annual migratory bird hunting frameworks is on the order of $734 to $1,064 million, with a mid-point estimate of $899 million. Copies of the cost/benefit analysis are available upon request from the address indicated under ADDRESSES or from our Web site at http://www.migratorybirds.gov.

Executive Order 12866 also requires each agency to write regulations that are easy to understand. We invite comments on how to make this rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (5) Is the description of the rule in the SUPPLEMENTARY INFORMATION section of the preamble helpful in understanding the rule? (6) What else could we do to make the rule easier to understand?

Send a copy of any comments that concern how we could make this rule easier to understand to: Office of Regulatory Affairs, Department of the Interior, Room 7229, 1849 C Street NW., Washington, DC 20240. You may also e-mail the comments to this address: Exec@ios.doi.gov.

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail as part of the 1981 cost-benefit analysis discussed under Executive Order 12866. This analysis was revised annually from 1990–95. In 1995, the Service issued a Small Entity Flexibility Analysis (Analysis), which was subsequently updated in 1996, 1998, and 2004. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The 2004 Analysis was based on the 2001 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend between $481 million and $1.2 billion at small businesses in 2004. Copies of the Analysis are available upon request from the address indicated under ADDRESSES or from our Web site at http://www.migratorybirds.gov.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons outlined above, this rule has an annual effect on the economy of $100 million or more but less than $1 billion, because this rule establishes hunting seasons, we do not plan to defer the effective date under the exemption contained in 5 U.S.C. 808 (1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. The various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, subpart K, are utilized in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the surveys associated with the Migratory Bird Harvest Information Program and assigned clearance number 1018–0015 (expires 2/29/2008). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. OMB has also approved the information collection requirements of the Sandhill Crane Harvest Survey and assigned clearance number 1018–0023 (expires 11/30/2007). The information from this survey is used to estimate the magnitude and the geographical and temporal distribution of the harvest, and the portion it constitutes of the total population. Lastly, OMB has approved the information collection requirements of the Alaska Subsistence Household Survey, an associated voluntary annual household survey used to determine levels of subsistence take in Alaska. The OMB control number for the information collection is 1018–0124.
employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and tribes to determine which seasons meet their individual needs. Any State or Indian tribe may be more restrictive than the Federal frameworks at any time. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This process allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

**List of Subjects in 50 CFR Part 20**

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

The rules that eventually will be promulgated for the 2005–06 hunting season are authorized under 16 U.S.C. 703–712 and 16 U.S.C. 742 a–j.

Dated: July 26, 2005.

Craig Manson,
Assistant Secretary for Fish and Wildlife and Parks.

**Proposed Regulations Frameworks for 2005–06 Early Hunting Seasons on Certain Migratory Game Birds**

Pursuant to the Migratory Bird Treaty Act and delegated authorities, the Department of the Interior approved the following proposed frameworks, which prescribe season lengths, bag limits, shooting hours, and outside dates within which States may select hunting seasons for certain migratory game birds between September 1, 2005, and March 10, 2006.

**General**

Dates: All outside dates noted below are inclusive.

Shooting and Hawking (taking by falconry) Hours: Unless otherwise specified, from one-half hour before sunrise to sunset daily.

Possession Limits: Unless otherwise specified, possession limits are twice the daily bag limit.

**Flyways and Management Units**

**Waterfowl Flyways**

Mississippi Flyway—includes Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Ohio, Tennessee, and Wisconsin.

Central Flyway—includes Colorado (east of the Continental Divide), Kansas, Montana (Counties of Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide except the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Pacific Flyway—includes Alaska, Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, and those portions of Colorado, Montana, New Mexico, and Wyoming not included in the Central Flyway.

**Management Units**

**Mourning Dove Management Units**

Eastern Management Unit—All States east of the Mississippi River, and Louisiana.

Central Management Unit—Arkansas, Colorado, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, and Wyoming.

Western Management Unit—Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

**Woodcock Management Regions**

Central Management Region—Alabama, Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, and Wisconsin.

Other geographic descriptions are contained in a later portion of this document.

Compensatory Days in the Atlantic Flyway: In the Atlantic Flyway States of Connecticut, Delaware, Maine,
Maryland, Massachusetts, New Jersey, North Carolina, Pennsylvania, and Virginia, where Sunday hunting is prohibited statewide by State law, all Sundays are closed to all take of migratory waterfowl (including mergansers and coots).

Special September Teal Season

Outside Dates: Between September 1 and September 30, an open season on all species of teal may be selected by the following States in areas delineated by State regulations:

**Atlantic Flyway**—Delaware, Florida, Georgia, Maryland, North Carolina, South Carolina, and Virginia.  
**Mississippi Flyway**—Alabama, Arkansas, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, Ohio, and Tennessee.  
**Central Flyway**—Colorado (part), Kansas, Nebraska (part), New Mexico (part), Oklahoma, and Texas.

**Hunting Seasons and Daily Bag Limits:** Not to exceed 9 consecutive days in the Atlantic Flyway and (to be determined) in the Mississippi and Central Flyways. The daily bag limit is 4 teal.

**Shooting Hours:**  
**Atlantic Flyway**—One-half hour before sunrise to sunset except in Maryland, where the hours are from sunrise to sunset.  
**Mississippi and Central Flyways**—One-half hour before sunrise to sunset, except in the States of Arkansas, Illinois, Indiana, Missouri, and Ohio, where the hours are from sunrise to sunset.

Special September Duck Seasons

- **Florida,** Kentucky and Tennessee: In lieu of a special September teal season, a 5-consecutive-day season may be selected in September. The daily bag limit may not exceed 4 teal and wood ducks in the aggregate, of which no more than 2 may be wood ducks.
- **Iowa:** Iowa may hold up to 5 days of its regular duck hunting season in September. All ducks that are legal during the regular duck season may be taken during the September segment of the season. The September season segment may commence no earlier than the Saturday nearest September 20 (September 17). The daily bag and possession limits will be the same as those in effect last year, but are subject to change during the late-season regulations process. The remainder of the regular duck season may not begin before October 10.

Special Youth Waterfowl Hunting Days

Outside Dates: States may select two consecutive days (hunting days in Atlantic Flyway States with compensatory days) per duck-hunting zone, designated as “Youth Waterfowl Hunting Days,” in addition to their regular duck seasons. The days must be held outside any regular duck season on a weekend, holidays, or other non-school days when youth hunters would have the maximum opportunity to participate. The days may be held up to 14 days before or after any regular duck-season frameworks or within any split of a regular duck season, or within any other open season on migratory birds. Daily Bag Limits: The daily bag limits may include ducks, geese, mergansers, coots, moorhens, and gallinules and would be the same as those allowed in the regular season. Flyway species and area restrictions would remain in effect.

**Shooting Hours:** One-half hour before sunrise to sunset.

**Participation Restrictions:** Youth hunters must be 15 years of age or younger. In addition, an adult at least 18 years of age must accompany the youth hunter into the field. This adult may not duck hunt but may participate in other seasons that are open on the special youth day.

**Scoter, Eider, and Oldsquaw Ducks (Atlantic Flyway)**

Outside Dates: Between September 15 and January 31.

**Hunting Seasons and Daily Bag Limits:** Not to exceed 107 days, with a daily bag limit of 7, singly or in the aggregate, of the listed sea-duck species, of which no more than 4 may be scoters. Daily Bag Limits During the Regular Duck Season: Within the special sea duck areas, during the regular duck season in the Atlantic Flyway, States may choose to allow the above sea duck limits in addition to the limits applying to other ducks during the regular duck season. In all other areas, sea ducks may be taken only during the regular open season for ducks and are part of the regular duck season daily bag (not to exceed 4 scoters) and possession limits. Areas: In all coastal waters and all waters of rivers and streams seaward from the first upstream bridge in Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, and New York; in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 1 mile of open water from any shore, island, and emergent vegetation in New Jersey, South Carolina, and Georgia; and in any waters of the Atlantic Ocean and in any tidal waters of any bay which are separated by at least 800 yards of open water from any shore, island, and emergent vegetation in Delaware, Maryland, North Carolina, and Virginia; and provided that any such areas have been described, delineated, and designated as special sea-duck hunting areas under the hunting regulations adopted by the respective States.

Special Early Canada Goose Seasons

**Atlantic Flyway**

**General Seasons**

Canada goose seasons of up to 15 days during September 1–15 may be selected for the Eastern Unit of Maryland and Delaware. Seasons not to exceed 30 days during September 1–30 may be selected for Connecticut, the Northeast Hunt Unit of North Carolina, New Jersey, and Rhode Island. Except for experimental seasons described below, seasons may not exceed 25 days during September 1–25 in the remainder of the Flyway. Areas open to the hunting of Canada goose must be described, delineated, and designated as such in each State’s hunting regulations.

**Daily Bag Limits:** Not to exceed 8 Canada goose.

**Experimental Seasons**

Experimental Canada goose seasons of up to 25 days during September 1–25 may be selected for the Montezuma Region of New York and the Lake Champlain Region of New York and Vermont. Experimental seasons of up to 30 days during September 1–30 may be selected by Florida, Georgia, New York (Long Island Zone), North Carolina (except in the Northeast Hunt Unit), and South Carolina. Areas open to the hunting of Canada goose must be described, delineated, and designated as such in each State’s hunting regulations.

**Daily Bag Limits:** Not to exceed 8 Canada goose.

**Mississippi Flyway**

**General Seasons**

Canada goose seasons of up to 15 days during September 1–15 may be selected, except in the Upper Peninsula in Michigan, where the season may not extend beyond September 10, and in Minnesota (except in the Northwest Goose Zone), where a season of up to 22 days during September 1–22 may be selected. The daily bag limit may not exceed 5 Canada goose. Areas open to the hunting of Canada goose must be described, delineated, and designated as such in each State’s hunting regulations.

A Canada goose season of up to 10 consecutive days during September 1–10 may be selected by Michigan for Huron, Saginaw, and Tuscola Counties, except that the Shiawassee National Wildlife Refuge, Shiawassee River State Game Area Refuge, and the Fish Point...
Wildlife Area Refuge will remain closed. The daily bag limit may not exceed 5 Canada geese.

**Central Flyway**

**General Seasons**

Canada goose seasons of up to 15 days during September 1–15 may be selected. The daily bag limit may not exceed 5 Canada geese. Areas open to the hunting of Canada geese must be described, delineated, and designated as such in each State’s hunting regulations.

A Canada goose season of up to 15 consecutive days during September 16–30 may be selected by South Dakota. The daily bag limit may not exceed 5 Canada geese.

**Experimental Seasons**

An experimental Canada goose season of up to 9 consecutive days during September 22–30 may be selected by Oklahoma. The daily bag limit may not exceed 5 Canada geese.

An experimental Canada goose season of up to 15 consecutive days during September 16–30 may be selected by Nebraska. The daily bag limit may not exceed 5 Canada geese.

**Pacific Flyway**

**General Seasons**

California may select a 9-day season in Humboldt County during the period September 1–15. The daily bag limit is 2.

Colorado may select a 9-day season during the period of September 1–15. The daily bag limit is 3.

Oregon may select a special Canada goose season of up to 15 days during the period September 1–15. In addition, in the NW goose management zone in Oregon, a 15-day season may be selected during the period September 1–20. Daily bag limits may not exceed 5 Canada geese.

Idaho may select a 7-day season during the period September 1–15. The daily bag limit is 2 and the possession limit is 4.

Washington may select a special Canada goose season of up to 15 days during the period September 1–15. Daily bag limits may not exceed 5 Canada geese.

Wyoming may select an 8-day season on Canada geese between September 1–15. This season is subject to the following conditions:

1. Where applicable, the season must be concurrent with the September portion of the sandhill crane season.
2. A daily bag limit of 2, with season and possession limits of 4, will apply to the special season.

Areas open to hunting of Canada geese in each State must be described, delineated, and designated as such in each State’s hunting regulations.

**Regular Goose Seasons**

Regular goose seasons may open as early as September 16 in Wisconsin and Michigan. Season lengths, bag and possession limits, and other provisions will be established during the late-season regulations process.

**Sandhill Cranes**

Regular seasons in the Central Flyway:

Outside Dates: Between September 1 and February 28.

Hunting Seasons: Seasons not to exceed 37 consecutive days may be selected in designated portions of North Dakota (Area 2) and Texas (Area 2). Seasons not to exceed 58 consecutive days may be selected in designated portions of the following States: Colorado, Kansas, Montana, North Dakota, South Dakota, and Wyoming. Seasons not to exceed 93 consecutive days may be selected in designated portions of the following States: New Mexico, Oklahoma, and Texas.

Daily Bag Limits: 3 sandhill cranes, except 2 sandhill cranes in designated portions of North Dakota (Area 2) and Texas (Area 2).

Permits: Each participant in the regular sandhill crane seasons must have a valid Federal sandhill crane hunting permit and/or, in those States where a Federal sandhill crane permit is not issued, a State-issued Harvest Information Survey Program (HISP) certification for game bird hunting in their possession while hunting.

**Special Seasons in the Central and Pacific Flyways**

Arizona, Colorado, Idaho, Montana, New Mexico, Utah, and Wyoming may select seasons for hunting sandhill cranes within the range of the Rocky Mountain Population (RMP) subject to the following conditions:

Outside Dates: Between September 1 and January 31.

Hunting Seasons: The season in any State or zone may not exceed 30 days.

Bag Limits: Not to exceed 3 daily and 9 per season.

Permits: Participants must have a valid permit, issued by the appropriate State, in their possession while hunting.

Other provisions: Numbers of permits, open areas, season dates, and other provisions of seasons must be consistent with the management plan and approved by the Central and Pacific Flyway Councils with the following exceptions:

1. In Utah, the requirement for monitoring the racial composition of the
   harvest in the experimental season is waived, and 100 percent of the harvest will be assigned to the RMP quota;
   2. In Arizona, monitoring the racial composition of the harvest must be conducted at 3 year intervals;
   3. In Idaho, seasons are experimental, and the requirement for monitoring the racial composition of the harvest is waived; 100 percent of the harvest will be assigned to the RMP quota; and
   4. In New Mexico, the season in the Estancia Valley is experimental, with a requirement to monitor the level and racial composition of the harvest; greater sandhill cranes in the harvest will be assigned to the RMP quota.

**Common Moorhens and Purple Gallinules**

Outside Dates: Between September 1 and January 20 in the Atlantic Flyway, and between September 1 and the Sunday nearest January 20 (January 22) in the Mississippi and Central Flyways. States in the Pacific Flyway have been allowed to select their hunting seasons between the outside dates for the season on ducks; therefore, they are late-season frameworks, and no frameworks are provided in this document.

Hunting Seasons and Daily Bag Limits: Seasons may not exceed 70 days in the Atlantic, Mississippi, and Central Flyways. Seasons may be split into 2 segments. The daily bag limit is 15 common moorhens and purple gallinules, singly or in the aggregate of the two species.

Zoning: Seasons may be selected by zones established for duck hunting.

**Rails**

Outside Dates: States included herein may select seasons between September 1 and January 20 on clapper, king, sora, and Virginia rails.

Hunting Seasons: The season may not exceed 70 days, and may be split into 2 segments.

**Daily Bag Limits:**

Clapper and King Rails—In Rhode Island, Connecticut, New Jersey, Delaware, and Maryland, 10, singly or in the aggregate of the two species. In Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, and Virginia, 15, singly or in the aggregate of the two species.

Sora and Virginia Rails—In the Atlantic, Mississippi, and Central Flyways and the Pacific-Flyway portions of Colorado, Montana, New Mexico, and Wyoming. 25 daily and 25 in possession, singly or in the aggregate of the two species. The season is closed in the remainder of the Pacific Flyway.
Hunting Seasons and Daily Bag Limits:

**Eastern Management Unit**
- Not more than 70 days with a daily bag limit of 12, or not more than 60 days with a daily bag limit of 15.

**Central Management Unit**
- Not more than 10 mourning doves and white-winged doves in the aggregate.

**Western Management Unit**
- Not more than 10 mourning doves, except in Clark and Nye Counties, where the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.

**White-Winged and White-Tipped Doves**
- Not more than 60 days, which may be split between two periods, September 1–15 and November 1–January 15.
- During the first segment of the season, the daily bag limit is 10 mourning and white-winged doves in the aggregate, of which no more than 6 may be white-winged doves. During the remainder of the season, the daily bag limit is 10 mourning doves.
- In California, the daily bag limit is 10 mourning doves, except in Imperial, Riverside, and San Bernardino Counties, where the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.
In Utah, the Nevada Counties of Clark and Nye, and in the California Counties of Imperial, Riverside, and San Bernardino, the daily bag limit may not exceed 10 mourning and white-winged doves in the aggregate.

In the remainder of the Western Management Unit, the season is closed.

**Alaska**

Outside Dates: Between September 1 and January 26.

Hunting Seasons: Alaska may select 107 consecutive days for waterfowl, sandhill cranes, and common snipe in each of 5 zones. The season may be split without penalty in the Kodiak Zone. The seasons in each zone must be concurrent.

Closures: The hunting season is closed on emperor geese, spectacled eiders, and Steller’s eiders.

Daily Bag and Possession Limits:

Ducks—Except as noted, a basic daily bag limit of 7 and a possession limit of 21 ducks. Daily bag and possession limits in the North Zone are 10 and 30, and in the Gulf Coast Zone, they are 8 and 24. The basic limits may include no more than 1 canvasback daily and 3 in possession and may not include sea ducks.

In addition to the basic duck limits, Alaska may select sea duck limits of 10 daily, 20 in possession, singly or in the aggregate, including no more than 6 each of either harlequin or long-tailed ducks. Sea ducks include scoters, common and king eiders, harlequin ducks, long-tailed ducks, and common and red-breasted mergansers.

Light Geese—A basic daily bag limit of 3 and a possession limit of 6.

Dark Geese—A basic daily bag limit of 4 and a possession limit of 8.

Dark-goose seasons are subject to the following exceptions:

1. In Units 5 and 6, the taking of Canada goose is permitted from September 28 through December 16. A special, permit-only Canada goose season may be offered on Middleton Island. No more than 10 permits can be issued. A mandatory goose identification class is required. Hunters must check in and check out. The bag limit is 1 daily and 1 in possession. The season will close if incidental harvest includes 5 dusky Canada geese. A dusky Canada goose is any dark-breasted Canada goose (Munsell 10 YR color value five or less) with a bill length between 40 and 50 millimeters.

2. In Unit 9(D) and the Unimak Island portion of Unit 10, the limits for dark geese are 6 daily and 12 in possession. 3. In Units 9(E) and 18, the limit for dark geese is 4 daily, including no more than 2 Canada geese.

4. In Unit 9, season length for brant is 30 days.

- Brant—A daily bag limit of 2.
- Common snipe—A daily bag limit of 8.
- Sandhill cranes—Bag and possession limits of 2 and 4, respectively, in the Southeast, Gulf Coast, Kodiak, and Aleutian Zones, and Unit 17 in the Northern Zone. In the remainder of the Northern Zone (outside Unit 17), bag and possession limits of 3 and 6, respectively.
- Tundra Swans—Open seasons for tundra swans may be selected subject to the following conditions:

  1. All seasons are by registration permit only.
  2. All season framework dates are September 1–October 31.
  3. In Game Management Unit (GMU) 17, no more than 200 permits may be issued during this operational season. No more than 3 tundra swans may be authorized per permit with no more than 1 permit issued per hunter per season.
  4. In Game Management Unit (GMU) 18, no more than 500 permits may be issued during the operational season. No more than 3 tundra swans may be authorized per permit with no more than 1 permit may be issued per hunter per season.
  5. In GMU 22, no more than 300 permits may be issued during the operational season. Each permittee may be authorized to take up to 3 tundra swan per permit. No more than 1 permit may be issued per hunter per season.
  6. In GMU 23, no more than 300 permits may be issued during the operational season. No more than 3 tundra swans may be authorized per permit with no more than 1 permit issued per hunter per season.

**Hawaii**

Outside Dates: Between October 1 and January 31.

Hunting Seasons: Not more than 65 days (75 under the alternative) for mourning doves.

Bag Limits: Not to exceed 15 (12 under the alternative) mourning doves.

**Puerto Rico**

Doves and Pigeons:

Outside Dates: Between September 1 and January 15.

Hunting Seasons: Not more than 60 days for Zenaida doves.

Daily Bag and Possession Limits: Not to exceed 10 Zenaida doves.

Closed Seasons: No open season is prescribed for ground or quail doves, or pigeons in the Virgin Islands.

Local Names for Certain Birds:

- Zenaida dove, also known as mountain dove; bridled quail-dove, also known as Barbary dove or partridge; Common ground-dove, also known as stone dove, tobacco dove, rola, or tortolita; scaly-naped pigeon, also known as red-necked or scaled pigeon.

Ducks:

Outside Dates: Between December 1 and January 31.

Hunting Seasons: Not more than 55 consecutive days.

Daily Bag Limits: Not to exceed 6.

Closed Seasons: The season is closed on the ruddy duck, white-cheeked pintail, West Indian whistling duck, fulvous whistling duck, and masked duck.
Special Falconry Regulations

Falconry is a permitted means of taking migratory game birds in any State meeting Federal falconry standards in 50 CFR 21.29(k). These States may select an extended season for taking migratory game birds in accordance with the following:

Extended Seasons: For all hunting methods combined, the combined length of the extended season, regular season, and any special or experimental seasons must not exceed 107 days for any species or group of species in a geographical area. Each extended season may be divided into a maximum of 3 segments.

Framework Dates: Seasons must fall between September 1 and March 10.

Daily Bag and Possession Limits: Falconry daily bag and possession limits for all permitted migratory game birds must not exceed 3 and 6 birds, respectively, singly or in the aggregate, during extended falconry seasons, any special or experimental seasons, and regular hunting seasons in all States, including those that do not select an extended falconry season.

Regular Seasons: General hunting regulations, including seasons and hunting hours, apply to falconry in each State listed in 50 CFR 21.20(k). Regular-season bag and possession limits do not apply to falconry. The falconry bag limit is not in addition to gun limits.

Area, Unit, and Zone Descriptions

**Mourning and White-Winged Doves**

Alabama

North Zone—Remainder of the State.

California

White-Winged Dove Open Areas—Imperial, Riverside, and San Bernardino Counties.

**Florida**

Northwest Zone—The Counties of Bay, Calhoun, Escambia, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty, Okaloosa, Santa Rosa, Walton, Washington, Leon (except that portion north of U.S. 27 and east of State Road 155), Jefferson (south of U.S. 27, west of State Road 59 and north of U.S. 98), and Wakulla (except that portion south of U.S. 98 and east of the St. Marks River).

South Zone—Remainder of State.

**Georgia**

Northern Zone—That portion of the State lying north of a line running west to east along U.S. Highway 280 from Columbus to Wilcox County, thence southward along the western border of Wilcox County; thence east along the southern border of Wilcox County to the Ocmulgee River; thence north along the Ocmulgee River to Highway 280; thence east along Highway 280 to the Little Ocmulgee River; thence southward along the Little Ocmulgee River to the Ocmulgee River; thence southwestly along the Ocmulgee River to the western border of Jeff Davis County; thence south along the western border of Jeff Davis County; thence east along the southern border of Jeff Davis and Appling Counties; thence north along the eastern border of Appling County, to the Altamaha River; thence east to the eastern border of Tattnall County; thence north along the eastern border of Tattnall County; thence north along the western border of Evans to Candler County; thence east along the northern border of Evans County to U.S. Highway 301; thence northeast along U.S. Highway 301 to the South Carolina line.

South Zone—Remainder of the State.

**Louisiana**

North Zone—That portion of the State north of Interstate Highway 10 from the Texas State line to Baton Rouge.

Interstate Highway 12 from Baton Rouge to Slidell and Interstate Highway 10 from Slidell to the Mississippi State line.

South Zone—The remainder of the State.

**Nevada**

White-Winged Dove Open Areas—Clark and Nye Counties.

**Texas**

North Zone—That portion of the State north of a line beginning at the International Bridge south of Fort Hancock; north along FM 1088 to TX 20; west along TX 20 to TX 148; north along TX 148 to I-10 at Fort Hancock; east along I-10 to I-20; northeast along I-20 to I-30 at Fort Worth; northeast along I-30 to the Texas-Arkansas State line.

South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to State Loop 1604 west of San Antonio; then south, east, and north along Loop 1604 to Interstate Highway 10 east of San Antonio; then east on I-10 to Orange, Texas.

Special White-Winged Dove Area in the South Zone—That portion of the State south and west of a line beginning at the International Bridge south of Del Rio, proceeding east on U.S. 90 to State Loop 1604 west of San Antonio, southeast on State Loop 1604 to Interstate Highway 35, southwest on Interstate Highway 35 to TX 44; east along TX 44 to TX 16 at Freer; south along TX 16 to TX 285 at Hebbronville; east along TX 285 to FM 1017; southwest along FM 1017 to TX 186 at Linn; east along TX 186 to the Mansfield Channel at Port Mansfield; east along the Mansfield Channel to the Gulf of Mexico.

Area with additional restrictions—Cameron, Hidalgo, Starr, and Willacy Counties.

Central Zone—That portion of the State lying between the North and South Zones.

**Band-Tailed Pigeons**

California

North Zone—Alpine, Butte, Del Norte, Glenn, Humboldt, Lassen, Mendocino, Modoc, Plumas, Shasta, Sierra, Siskiyou, Tehama, and Trinity Counties.

South Zone—The remainder of the State.

New Mexico

North Zone—North of a line following U.S. 60 from the Arizona State line east to I-25 at Socorro and then south along I-25 from Socorro to the Texas State line.

South Zone—Remainder of the State.

**Washington**

Western Washington—The State of Washington excluding those portions lying east of the Pacific Crest Trail and east of the Big White Salmon River in Klickitat County.

**Woodcock**

**New Jersey**

North Zone—That portion of the State north of NJ 70.

South Zone—The remainder of the State.

**Special September Canada Goose Seasons**

**Atlantic Flyway**

**Connecticut**

North Zone—That portion of the State north of I-95.

South Zone—Remainder of the State.

**Maryland**

Eastern Unit—Anne Arundel, Calvert, Caroline, Cecil, Charles, Dorchester, Harford, Kent, Queen Anne's, St. Mary's, Somerset, Talbot, Wicomico, and Worcester Counties, and those portions of Baltimore, Howard, and Prince George's Counties east of I-95.

Western Unit—Allegany, Carroll, Frederick, Garrett, Montgomery, and Washington Counties, and those
portions of Baltimore, Howard, and Prince George’s Counties west of I–95.

Massachusetts

Western Zone—That portion of the State west of a line extending south from the Vermont border on I–91 to MA 9, west on MA 9 to MA 10, south on MA 10 to U.S. 202, south on U.S. 202 to the Connecticut border.

Central Zone—That portion of the State east of the Berkshire Zone and west of a line extending south from the New Hampshire border on I–95 to U.S. 1, south on U.S. 1 to I–93, south on I–93 to MA 3, south on MA 3 to U.S. 6, west on U.S. 6 to MA 28, west on MA 28 to I–195, west to the Rhode Island border; except the waters, and the lands 150 yards inland from the high-water mark, of the Assonet River upstream to the MA 24 bridge, and the Taunton River upstream to the Center St.-Elm St. bridge will be in the Coastal Zone.

Coastal Zone—That portion of Massachusetts east and south of the Central Zone.

New York

Lake Champlain Zone—The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone—That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone—That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania border, except for the Montezuma Zone.

Montezuma Zone—Those portions of Cayuga, Seneca, Ontario, Wayne, and Oswego Counties north of U.S. Route 20, east of NYS Route 14, south of NYS Route 104, and west of NYS Route 34.

Northeastern Zone—That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, south along I–81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (at Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone—The remaining portion of New York.

North Carolina

Northeast Hunt Unit—Camden, Chowan, Currituck, Dare, Hyde, Pasquotank, Perquimans, Tyrrell, and Washington Counties; that portion of Bertie County north and east of a line formed by NC 45 at the Washington County line to U.S. 17 in Midway, U.S. 17 in Midway to U.S. 13 in Windsor to the Bertford County line; and that portion of Northampton County that is north of U.S. 158 and east of NC 35.

Vermont

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area north and west of the line extending from the New York border along U.S. 4 to VT 22A at Fair Haven; VT 22A to U.S. 7 at Vergennes; U.S. 7 to the Canadian border.

Interior Zone: That portion of Vermont west of the Lake Champlain Zone and eastward of a line extending from the Missouri border at Interstate 91; north along Interstate 91 to U.S. 2; east along U.S. 2 to VT 102; north along VT 102 to VT 253; north along VT 253 to the Canadian border.

Connecticut River Zone: The remaining portion of Vermont east of the Interior Zone.

Mississippi Flyway

Illinois

Northeast Canada Goose Zone—Cook, Du Page, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, and Will Counties.

North Zone: That portion of the State outside the Northeast Canada Goose Zone and north of a line extending east from the Iowa border along Illinois Highway 92 to Interstate Highway 280, east along I–280 to I–80, then east along I–80 to the Indiana border.

Central Zone: That portion of the State outside the Northeast Canada Goose Zone and south of the North Zone to a line extending east from the Missouri border along the Modoc Ferry route to Modoc Ferry Road, east along Modoc Ferry Road to Modoc Road, northeasterly along Modoc Road and St. Leo’s Road to Illinois Highway 3, north along Illinois 3 to Illinois 159, north along Illinois 159 to Illinois 161, east along Illinois 161 to Illinois 4, north along Illinois 4 to Interstate Highway 70, east along I–70 to the Bond County line, north and east along the Bond County line to Effingham County, east and south along the Effingham County line to I–70, then east along I–70 to the Indiana border.

South Zone: The remainder of Illinois.

Iowa

South Zone: The remainder of Iowa.

Cedar Rapids/Iowa City Goose Zone. Includes portions of Linn and Johnson Counties bounded as follows: Beginning at the intersection of the west border of Linn County and Linn County Road E2W; thence south and east along County Road E2W to Highway 920; thence north along Highway 920 to County Road E16; thence east along County Road E16 to County Road W58; thence south along County Road W58 to County Road E34; thence east along County Road E34 to Highway 13; thence south along Highway 13 to Highway 30; thence east along Highway 30 to Highway 1; thence south along Highway 1 to Morse Road in Johnson County; thence east along Morse Road to Wapsi Avenue; thence south along Wapsi Avenue to Lower West Branch Road; thence west along Lower West Branch Road to Taft Avenue; thence south along Taft Avenue to County Road F62; thence west along County Road F62 to Kansas Avenue; thence north along Kansas Avenue to Black Diamond Road; thence west on Black Diamond Road to Jasper Avenue; thence north along Jasper Avenue to Robert Road; thence west along Robert Road to Ivy Avenue; thence north along Ivy Avenue to 340th Street; thence west along 340th Street to Half Moon Avenue; thence north along Half Moon Avenue to Highway 6; thence west along Highway 6 to Echo Avenue; thence north along Echo Avenue to 250th Street; thence east on 250th Street to Green Castle Avenue; thence north along Green Castle Avenue to County Road F12; thence west along County Road F12 to County Road W30; thence north along County Road W30 to Highway 151; thence north along the Linn-Benton County line to the point of beginning.

Des Moines Goose Zone. Includes those portions of Polk, Warren, Madison and Dallas Counties bounded as follows: Beginning at the intersection of Northeast 158th Avenue and County Road R38 in Polk County; thence south along R38 to Northeast 142nd Avenue; thence east along Northeast 142nd Avenue to Northeast 126th Avenue; thence east along Northeast 126th Avenue to Northeast 46th Street; thence south along Northeast 46th Street to Highway 931; thence east along Highway 931 to Northeast 80th Street; thence south along Northeast 80th Street to Southeast 6th Avenue; thence west along Southeast 6th Avenue to Highway 65; thence south and west along Highway 65 to Highway 69 in Warren.
County; thence south along Highway 69 to County Road G24; thence west along County Road G24 to Highway 28; thence southwest along Highway 28 to 43rd Avenue; thence north along 43rd Avenue to Ford Street; thence west along Ford Street to Filmore Street; thence west along Filmore Street to 10th Avenue; thence south along 10th Avenue to 155th Street in Madison County; thence west along 155th Street to Cumming Road; thence north along Cumming Road to Badger Creek Avenue; thence north along Badger Creek Avenue to County Road F90 in Dallas County; thence east along County Road F90 to County Road R22; thence north along County Road R22 to Highway 44; thence east along Highway 44 to County Road R30; thence north along County Road R30 to County Road F31; thence east along County Road F31 to Highway 17; thence north along Highway 17 to Highway 415 in Polk County; thence east along Highway 415 to Northwest 158th Avenue; thence east along Northwest 158th Avenue to the point of beginning.

Michigan
North Zone: The Upper Peninsula. Middle Zone: That portion of the Lower Peninsula north of a line beginning at the Wisconsin border in Lake Michigan due west of the mouth of Stony Creek in Oceana County; then due east to, and easterly and southerly along the south shore of, Stony Creek to Scenic Drive, easterly and southerly along Scenic Drive to Stony Lake Road, easterly along Stony Lake and Garfield Roads to Michigan Highway 20, east along Michigan 20 to U.S. Highway 10 Business Route (BR) in the city of Midland, east along U.S. 10 BR to U.S. 10, east along U.S. 10 to Interstate Highway 75/U.S. Highway 23, north along I–75/U.S. 23 to the U.S. 23 exit at Standish, east along U.S. 23 to Shore Road in Arenac County, east along Shore Road to the tip of Point Lookout, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canada border.
South Zone: The remainder of Michigan.

Minnesota
Twin Cities Metropolitan Canada Goose Zone—A. All of Hennepin and Ramsey Counties.
B. In Anoka County, all of Columbus Township lying south of County State Aid Highway (CSAH) 16, Anoka County; all of the cities of Ramsey, Andover, Anoka, Coon Rapids, Spring Lake Park, Fridley, Hilltop, Columbia Heights, Blaine, Lexington, Circle Pines, Lino Lakes, and Centerville; and all of the city of Ham Lake except that portion lying north of CSAH 18 and east of U.S. Highway 65.
C. That part of Carver County lying north and east of the following described line: Beginning at the northeast corner of San Francisco Township; thence west along the north boundary of San Francisco Township to the east boundary of Dahlgren Township; thence north along the east boundary of Dahlgren Township to U.S. Highway 212; thence west along U.S. Highway 212 to State Trunk Highway (STH) 284; thence north on STH 284 to County State Aid Highway (CSAH) 10; thence north and west on CSAH 10 to CSAH 30; thence north and west on CSAH 10 to CSAH 25; thence east and north on CSAH 25 to CSAH 10; thence north on CSAH 10 to the Carver County line.
D. In Scott County, all of the cities of Shakopee, Savage, Prior Lake, and Jordan, and the Townships of Jackson, Louisville, St. Lawrence, Sand Creek, Spring Lake, and Credit River.
F. That portion of Washington County lying south of the following described line: Beginning at County State Aid Highway (CSAH) 2 on the west boundary of the county; thence east on CSAH 2 to U.S. Highway 61; thence south on U.S. Highway 61 to State Trunk Highway (STH) 97; thence east on STH 97 to the intersection of STH 97 and STH 95; thence due east to the east boundary of the State.
Northwest Goose Zone—That portion of the State encompassed by a line extending east from the North Dakota border along U.S. Highway 2 to State Trunk Highway (STH) 32, north along STH 32 to STH 92, east along STH 92 to County State Aid Highway (CSAH) 2 in Polk County, north along CSAH 2 to CSAH 27 in Pennington County, north along CSAH 27 to STH 1, east along STH 1 to CSAH 28 in Pennington County, north along CSAH 28 to CSAH 54 in Marshall County, north along CSAH 54 to CSAH 9 in Roseau County, north along CSAH 9 to STH 11, west along STH 11 to STH 310, and north along STH 310 to the Manitoba border.
Southeast Goose Zone—That part of the State lying south of the following described boundaries: Beginning at the intersection of U.S. Highway 52 and the south boundary of the Twin Cities Metro Canada Goose Zone; thence along the U.S. Highway 52 to State Trunk Highway (STH) 57; thence along STH 57 to the municipal boundary of Kasson; thence along the municipal boundary of Kasson County State Aid Highway (CSAH) 13, Dodge County; thence along CSAH 13 to STH 30; thence along STH 30 to U.S. Highway 63; thence along U.S. Highway 63 to the south boundary of the State; thence along the south and east boundaries of the State to the south boundary of the Twin Cities Metro Canada Goose Zone; thence along said boundary to the point of beginning.
Five Goose Zone—That portion of the State not included in the Twin Cities Metropolitan Canada Goose Zone, the Northwest Goose Zone, or the Southeast Goose Zone.
West Zone—That portion of the State encompassed by a line beginning at the junction of State Trunk Highway (STH) 60 and the Iowa border, then north and east along STH 60 to U.S. Highway 71, north along U.S. 71 to Interstate Highway 94, then north and west along I–94 to the North Dakota border.

Tennessee
Middle Tennessee Zone—Those portions of Houston, Humphreys, Montgomery, Perry, and Wayne Counties east of State Highway 13; and Bedford, Cannon, Cheatham, Coffee, Davidson, Dickson, Franklin, Giles, Hickman, Lawrence, Lewis, Lincoln, Macon, Marshall, Maury, Moore, Robertson, Rutherford, Smith, Sumner, Tennsasdale, Williamson, and Wilson Counties.

Wisconsin
Early-Season Subzone A—That portion of the State encompassed by a line beginning at the intersection of U.S. Highway 141 and the Michigan border near Niagara, then south along U.S. 141 to State Highway 22, west and southwest along State 22 to U.S. 45, south along U.S. 45 to State 22, west and south along State 22 to State 110, south along State 110 to U.S. 10, south along U.S. 10 to State 49, south along State 49 to State 23, west along State 23...
to State 73, south along State 73 to State 60, west along State 60 to State 23, south along State 23 to State 11, east along State 11 to State 78, then south along State 78 to the Illinois border.

Early-Season Subzone B—The remainder of the State.

Central Flyway

Kansas

September Canada Goose Kansas City/Topeka Unit—That part of Kansas bounded by a line from the Kansas-Missouri State line west on KS 68 to its junction with KS 33, then north on KS 33 to its junction with U.S. 56, then west on U.S. 56 to its junction with KS 31, then west-northwest on KS 31 to its junction with KS 99, then north on KS 99 to its junction with U.S. 24, then east on U.S. 24 to its junction with KS 63, then north on KS 63 to its junction with KS 16, then east on KS 16 to its junction with KS 116, then east on KS 116 to its junction with U.S. 59, then northeast on U.S. 59 to its junction with the Kansas-Missouri line, then south on the Kansas-Missouri line to its junction with KS 68.

September Canada Goose Wichita Unit—That part of Kansas bounded by a line from I–135 west on U.S. 50 to its junction with Burmac Road, then south on Burmac Road to its junction with 279 Street West (Sedgwick/Harvey County line), then south on 279 Street West to its junction with KS 96, then east on KS 96 to its junction with KS 296, then south on KS 296 to its junction with 247 Street West, then south on 247 Street West to its junction with U.S. 54, then west on U.S. 54 to its junction with 263 Street West, then south on 263 Street West to its junction with KS 49, then south on KS 49 to its junction with 90 Avenue North, then east on 90 Avenue North to its junction with KS 55, then east on KS 55 to its junction with KS 15, then east on KS 15 to its junction with U.S. 77, then north on U.S. 77 to its junction with Ohio Street, then north on Ohio to its junction with KS 254, then east on KS 254 to its junction with KS 196, then northwest on KS 196 to its junction with I–135, then north on I–135 to its junction with U.S. 50.

Nebraska

September Canada Goose Unit—That part of Nebraska bounded by a line from the Nebraska-Iowa State line west on U.S. Highway 30 to U.S. Highway 81, then south on U.S. Highway 81 to NE Highway 64, then east on NE Highway 64 to NE Highway 15, then south on NE Highway 15 to NE Highway 41, then east on NE Highway 41 to NE Highway 50, then north on NE Highway 50 to NE Highway 2, then east on NE Highway 2 to the Nebraska-Iowa State line.

South Dakota

September Canada Goose North Unit—Clark, Codington, Day, Deuel, Grant, Hamlin, Marshall, and Roberts County.

September Canada Goose South Unit—Beadle, Brookings, Hanson, Kingsbury, Lake, Lincoln, McCook, Miner, Minnehaha, Moody, Sanborn, and Turner Counties.

Pacific Flyway

Idaho

East Zone—Bonneville, Caribou, Fremont, and Teton Counties.

Oregon

Northwest Zone—Benton, Clackamas, Clatsop, Columbia, Lane, Lincoln, Linn, Marion, Polk, Multnomah, Tillamook, Washington, and Yamhill Counties.

Southwest Zone—Coos, Curry, Douglas, Jackson, Josephine, and Klamath Counties.

East Zone—Baker, Gilliam, Malheur, Morrow, Sherman, Umatilla, Union, and Wasco Counties.

Washington

Area 1—Skagit, Island, and Snohomish Counties.

Area 2A (SW Quota Zone)—Clark County, except portions south of the WauShoal River; Cowlitz, and Wahkiakum Counties.

Area 2B (SW Quota Zone)—Pacific and Grays Harbor Counties.

Area 3—All areas west of the Pacific Crest Trail and west of the Big White Salmon River that are not included in Areas 1, 2A, and 2B.

Area 4—Adams, Benton, Chelan, Douglas, Franklin, Grant, Kittitas, Lincoln, Okanogan, Spokane, and Walla Walla Counties.

Area 5—All areas east of the Pacific Crest Trail and east of the Big White Salmon River that are not included in Area 4.

Wyoming

Bear River Area—That portion of Lincoln County described in State regulations.

Salt River Area—That portion of Lincoln County described in State regulations.

Farsen-Eden Area—Those portions of Sweetwater and Sublette Counties described in State regulations.

Teton Area—Those portions of Teton County described in State regulations.

Bridger Valley Area—The area described as the Bridger Valley Hunt Unit in State regulations.

Ducks

Atlantic Flyway

New York

Lake Champlain Zone: The U.S. portion of Lake Champlain and that area east and north of a line extending along NY 9B from the Canadian border to U.S. 9, south along U.S. 9 to NY 22 south of Keeseville; south along NY 22 to the west shore of South Bay, along and around the shoreline of South Bay to NY 22 on the east shore of South Bay; southeast along NY 22 to U.S. 4, northeast along U.S. 4 to the Vermont border.

Long Island Zone: That area consisting of Nassau County, Suffolk County, that area of Westchester County southeast of I–95, and their tidal waters.

Western Zone: That area west of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, and south along I–81 to the Pennsylvania border.

Northeastern Zone: That area north of a line extending from Lake Ontario east along the north shore of the Salmon River to I–81, south along I–81 to NY 49, east along NY 49 to NY 365, east along NY 365 to NY 28, east along NY 28 to NY 29, east along NY 29 to I–87, north along I–87 to U.S. 9 (at Exit 20), north along U.S. 9 to NY 149, east along NY 149 to U.S. 4, north along U.S. 4 to the Vermont border, exclusive of the Lake Champlain Zone.

Southeastern Zone: The remaining portion of New York.

Mississippi Flyway

Indiana

North Zone: That portion of the State north of a line extending east from the Illinois border along State Road 18 to U.S. Highway 31, north along U.S. 31 to U.S. 24, east along U.S. 24 to Huntington, then southeast along U.S. 224 to the Ohio border.

Ohio River Zone: That portion of the State south of a line extending east from the Illinois border along Interstate Highway 64 to New Albany, east along State Road 62 to State 56, east along State 56 to Vevay, east and north on State 156 along the Ohio River to North Landing, north along State 56 to U.S. Highway 50, then northeast along U.S. 50 to the Ohio border.

South Zone: That portion of the State between the North and Ohio River Zone boundaries.

Iowa

North Zone: That portion of the State north of a line extending east from the
Nebraska border along State Highway 175 to State 37, southeast along State 37 to U.S. Highway 59, south along U.S. 59 to Interstate Highway 80, then east along I–80 to the Illinois border.

South Zone: The remainder of Iowa.

Central Flyway

Colorado

Special Teal Season Area: Lake and Chaffee Counties and that portion of the State east of Interstate Highway 25.

Kansas

High Plains Zone: That portion of the State west of U.S. 283.

Low Plains Early Zone: That portion of the State east of the High Plains Zone and west of a line extending south from the Nebraska border along KS 28 to U.S. 36, east along U.S. 36 to KS 199, south along KS 199 to Republic County Road 563, south along Republic County Road 563 to KS 148, east along KS 148 to Republic County Road 138, south along Republic County Road 138 to Cloud County Road 765, south along Cloud County Road 765 to KS 9, west along KS 9 to U.S. 24, west along U.S. 24 to U.S. 281, north along U.S. 281 to U.S. 36, west along U.S. 36 to U.S. 183, south along U.S. 183 to U.S. 24, west along U.S. 24 to KS 18, southeast along KS 18 to U.S. 183, south along U.S. 183 to KS 4, east along KS 4 to I–135, south along I–135 to KS 61, southwest along KS 61 to KS 96, northwest on KS 96 to U.S. 56, west along U.S. 56 to U.S. 281, south along U.S. 281 to U.S. 54, then west along U.S. 54 to U.S. 283.

Low Plains Late Zone: The remainder of Kansas.

Nebraska

Special Teal Season Area: That portion of the State south of a line beginning at the Wyoming State line; east along U.S. 26 to Nebraska Highway L62A; east to U.S. 385; south to U.S. 26; east to NE 92; east along NE 92 to NE 61; south along NE 61 to U.S. 30; east along U.S. 30 to the Iowa border.

New Mexico (Central Flyway Portion)

North Zone: That portion of the State north of I–40 and U.S. 54.

South Zone: The remainder of New Mexico.

Pacific Flyway

California

Northeastern Zone: In that portion of California lying east and north of a line beginning at the intersection of the Klamath River with the California-Oregon line; south and west along the Klamath River to the mouth of Shovel Creek; along Shovel Creek to its intersection with Forest Service Road 46N05 at Burnt Camp; west to its junction with Forest Service Road 46N10; south and east to its junction with County Road 7K007; south and west to its junction with Forest Service Road 45N22; south and west to its junction with Highway 97 and Grass Lake Summit; south along its junction with Interstate 5 at the town of Weed; south to its junction with Highway 89; east and south along Highway 89 to Main Street Greenville; north and east to its junction with North Valley Road; south along its junction with Diamond Mountain Road; north and east to its junction with North Arm Road; south and west to the junction of North Valley Road; south to the junction with Arlington Road (A22); west to the junction of Highway 89; south and west to the junction of Highway 70; east on Highway 70 to Highway 395; south and east on Highway 395 to the point of intersection with the California-Nevada State line; north along the California-Nevada State line to the junction of the California-Nevada-Oregon State line west along the California-Oregon State line to the point of origin.

Colorado River Zone: Those portions of San Bernardino, Riverside, and Imperial Counties east of a line extending from the Nevada border south along U.S. 95 to Vidal Junction; south on a road known as “Aqueduct Road” in San Bernardino County through the town of Rice to the San Bernardino-Riverside County line; south on a road known in Riverside County as the “Desert Center to Rice Road” to the town of Desert Center; east 31 miles on I–10 to the Wiley Well Road; south on this road to Wiley Well; southeast along the Army-Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe-Brawley paved road to the Ogilby and Tumco Mine Road; south on this road to U.S. 80; east 7 miles on U.S. 80 to the Andrade-Algodones Road; south on this paved road to the Mexican border at Algodones, Mexico.

Southern Zone: That portion of southern California (but excluding the Colorado River Zone) south and east of a line extending from the Pacific Ocean east along the Santa Maria River to CA 166 near the City of Santa Maria; east on CA 166 to CA 99; south on CA 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to CA 178 at Walker Pass; east on CA 178 to U.S. 395 at the town of Inyokern; south on U.S. 395 to CA 58; east on CA 58 to I–15; east on I–15 to CA 127; north on CA 127 to the Nevada border.

Southern San Joaquin Valley Temporary Zone: All of Kings and Tulare Counties and that portion of Kern County north of the Southern Zone.

Canada Geese

Michigan

MVP Zone: The MVP Zone consists of an area north and west of the point beginning at the southwest corner of Branch county, north continuing along the western border of Branch and Calhoun counties to the northwest corner of Calhoun county, then easerly to the southwest corner of Eaton county, then northerly to the southern border of Ingham County, then easterly to the southwest corner of Clinton County, then northerly along the western border of Clinton County continuing northerly along the county border of Gratiot and Montcalm Counties to the southern border of Isabella County, then easerly to the southwest corner of Midland County, then northerly along the west Midland County border to Highway M–20, then easerly to U.S. Highway 10, then easerly to U.S. Interstate 75/U.S. Highway 23, then northerly along I–75/U.S. 23 to the U.S. 23 exit at Standish, then easerly on U.S. 23 to the centerline of the Au Gres River, then southerly along the centerline of the Au Gres River to Saginaw Bay, then on a line directly east 10 miles into Saginaw Bay, and from that point on a line directly northeast to the Canadian border.

SJBP Zone is the rest of the State, that area south and east of the boundary described above.

Sandhill Cranes

Central Flyway

Colorado—The Central Flyway portion of the State except the San Luis Valley (Alamosa, Conejos, Costilla, Hinsdale, Mineral, Rio Grande, and Saguache Counties east of the Continental Divide) and North Park (Jackson County).

Kansas—That portion of the State west of a line beginning at the Oklahoma border, north on I–35 to Wichita, north on I–135 to Salina, and north on U.S. 81 to the Nebraska border.

New Mexico

Regular-Season Open Area—Chaves, Curry, De Baca, Eddy, Lea, Quay, and Roosevelt Counties.

Middle Rio Grande Valley Area—The Central Flyway portion of New Mexico in Socorro and Valencia Counties.
Estancia Valley Area—Those portions of Santa Fe, Torrance and Bernallillo Counties within an area bounded on the west by New Mexico Highway 55 beginning at Mountainair north to NM 337, north to NM 14, north to I–25; on the north by I–25 east to U.S. 285; on the east by U.S. 285 south to U.S. 60; and on the south by U.S. 60 from U.S. 285 west to NM 55 in Mountainair.

Southwest Zone—Sierra, Luna, Dona Ana Counties, and those portions of Grant and Hidalgo Counties south of I–10.

Oklahoma—That portion of the State west of I–35.

Texas

Area 1—That portion of the State west of a line beginning at the International Bridge at Laredo, north along I–35 to the Oklahoma border.

Area 2—That portion of the State east and south of a line from the International Bridge at Laredo northerly along I–35 to U.S. 290; southeasterly along U.S. 290 to I–45; south and east on I–45 to State Highway 87, south and east on TX 87 to the channel in the Gulf of Mexico between Galveston and Point Bolivar; EXCEPT: That portion of the State lying within the area bounded by the Corpus Christi Bay Causeway on U.S. 181 at Portland; north and west on U.S. 181 to U.S. 77 at Sinton; north and east along U.S. 77 to U.S. 87 at Victoria; east and south along U.S. 87 to Texas Highway 35; north and east on TX 35 to the west end of the Lavaca Bay Bridge; then south and east along the west shoreline of Lavaca Bay and Matagorda Island to the Gulf of Mexico; then south and west along the shoreline of the Gulf of Mexico to the Corpus Christi Bay Causeway.

North Dakota

Area 1—That portion of the State west of U.S. 281.

Area 2—That portion of the State east of U.S. 281.

South Dakota—That portion of the State west of U.S. 281.

Montana—The Central Flyway portion of the State except that area south of I–90 and west of the Bighorn River.

Wyoming

Regular-Season Open Area—Campbell, Converse, Crook, Goshen, Laramie, Niobrara, Platte, and Weston Counties.

River-Boyse Unit—Portions of Fremont County.

Park and Big Horn County Unit—Portions of Park and Big Horn Counties.

Pacific Flyway

Arizona

Special-Season Area—Game Management Units 30A, 30B, 31, and 32.

Montana

Special-Season Area—See State regulations.

Utah

Special-Season Area—Rich, Cache, and Uintah Counties and that portion of Box Elder County beginning on the Utah-Idaho State line at the Box Elder-Cache County line; west on the State line to the Pocatello Valley County Road; south on the Pocatello Valley County Road to I–15; southeast on I–15 to SR–83; south on SR–83 to Lamp Junction; west and south on the Promontory Point County Road to the tip of Promontory Point; south from Promontory Point to the Box Elder-Weber County line; east on the Box Elder-Weber County line to the Box Elder-Cache County line; north on the Box Elder-Cache County line to the Utah-Idaho State line.

Wyoming

Bear River Area—That portion of Lincoln County described in State regulations.

Salt River Area—That portion of Lincoln County described in State regulations.

Faron-Eden Area—Those portions of Sweetwater and Sublette Counties described in State regulations.

All Migratory Game Birds in Alaska

North Zone—State Game Management Units 11B13 and 17B26.

Gulf Coast Zone—State Game Management Units 5B7, 9, 14B16, and 10 (Unimak Island only).

Southeast Zone—State Game Management Units 1–4.

Pribilof and Aleutian Islands Zone—State Game Management Unit 10 (except Unimak Island).

Kodiak Zone—State Game Management Unit 8.

All Migratory Game Birds in the Virgin Islands

Ruth Cay Closure Area—The island of Ruth Cay, just south of St. Croix.

All Migratory Game Birds in Puerto Rico

Municipality of Culebra Closure Area—All of the municipality of Culebra.

Desecheo Island Closure Area—All of Desecheo Island.

Mona Island Closure Area—All of Mona Island.

El Verde Closure Area—Those areas of the municipalities of Rio Grande and Loiza delineated as follows: (1) All lands between Routes 956 on the west and 186 on the east, from Route 3 on the north to the juncture of Routes 956 and 186 (Km 13.2) in the south; (2) all lands between Routes 186 and 966 from the juncture of 186 and 966 on the north, to the Caribbean National Forest Boundary on the south; (3) all lands lying west of Route 186 for 1 kilometer from the juncture of Routes 186 and 956 south to Km 6 on Route 186; (4) all lands within Km 14 and Km 6 on the west and the Caribbean National Forest Boundary on the east; and (5) all lands within the Caribbean National Forest Boundary whether private or public.

Cidra Municipality and adjacent areas—All of Cidra Municipality and portions of Aguas Buenas, Caguas, Cayey, and Comerio Municipalities as encompassed within the following boundary: Beginning on Highway 172 as it leaves the municipality of Cidra on the west edge, north to Highway 156, east on Highway 156 to Highway 1, south on Highway 1 to Highway 765, south on Highway 765 to Highway 763, south on Highway 763 to the Rio Guavate, west along Rio Guavate to Highway 1, southwest on Highway 1 to Highway 14, west on Highway 14 to Highway 729, north on Highway 729 to Cidra Municipality boundary to the point of the beginning.

[FR Doc. 05–15127 Filed 7–29–05; 8:45 am]
