A when we assess your claim, and we never use the listings in part B.

If you are a person under age 18, we first use the criteria in part B of the listings. If the listings in part B do not apply, and the specific disease process(es) has a similar effect on adults and children, we then use the criteria in part A. (See §§ 404.1525 and 416.925.)

If your impairment(s) does not meet any listing, we will also consider whether it medically equals any listing; that is, whether it is as medically severe. (See §§ 404.1526 and 416.926.)

What if You Do Not Have an Impairment(s) That Meets or Medically Equals a Listing?

We use the listings only to decide that you are disabled or that you are still disabled. We will never deny your claim or decide that you no longer qualify for benefits because your impairment(s) does not meet or medically equal a listing. If you have a severe impairment(s) that does not meet or medically equal any listing, we may still find you disabled based on other rules in the “sequential evaluation process” described above. Likewise, we will not decide that your disability has ended only because your impairment(s) does not meet or medically equal a listing.

Subsistence Management Regulations for Public Lands in Alaska, Subpart C and Subpart D—2006–2007

Subsistence Taking of Wildlife Regulations

AGENCIES: Forest Service, Agriculture; Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: This proposed rule would establish regulations for hunting and trapping seasons, harvest limits, methods and means related to taking of wildlife for subsistence uses during the 2006–2007 regulatory year. The rulemaking is necessary because Subpart D is subject to an annual public review cycle. When final, this rulemaking would replace the wildlife taking regulations included in the “Subsistence Management Regulations for Public Lands in Alaska, Subpart D—2005–2006 Subsistence Taking of Fish and Wildlife Regulations,” which expire on June 30, 2006. This rule would also amend the Customary and Traditional Use Determinations of the Federal Subsistence Board and the General Regulations related to the taking of wildlife.

DATES: The Federal Subsistence Board must receive your written public comments and proposals to change this proposed rule no later than October 21, 2005. Federal Subsistence Regional Advisory Councils (Regional Councils) will hold public meetings to receive proposals to change this proposed rule on several dates starting from September 20, 2005, through October 21, 2005. See SUPPLEMENTARY INFORMATION for additional information on the public meetings including dates.

ADDRESSES: You may submit proposals electronically to Subsistence@fws.gov. See SUPPLEMENTARY INFORMATION for file formats and other information about electronic filing. You may also submit written comments and proposals to the Office of Subsistence Management, 3601 C Street, Suite 1030, Anchorage, Alaska 99503. The public meetings will be held at various locations in Alaska. See SUPPLEMENTARY INFORMATION for additional information on locations of the public meetings.

SUPPLEMENTARY INFORMATION:

Public Review Process—Regulation Comments, Proposals, and Public Meetings

The Federal Subsistence Board (Board), through the Regional Councils, will hold meetings on this proposed rule at the following locations and on the following dates in Alaska:

Region 1—Southeast Regional Council, Wrangell, October 11, 2005.
Region 2—Southcentral Regional Council, Seldovia, October 19, 2005.
Region 3—Kodiak/Aleutians Regional Council, Cold Bay, September 20, 2005.
Region 4—Bristol Bay Regional Council, Dillingham, October 6, 2005.
Region 5—Yukon-Kuskokwim Delta Regional Council, Bethel, October 13, 2005.
Region 6—Western Interior Regional Council, McGrath, October 4, 2005.
Region 7—Seward Peninsula Regional Council, Nome, October 13, 2005.
Region 8—Northwest Arctic Regional Council, Kotzebue, October 7, 2005.
Region 9—Eastern Interior Regional Council, Tanana, October 10, 2005.
Region 10—North Slope Regional Council, Kaktovik, October 20, 2005.

Specific times and meeting locations will be published in local and statewide newspapers prior to the meetings. Locations and dates may change based on weather or local circumstances. The amount of work on each Regional Council’s agenda will determine the length of the Regional Council meetings. The agenda of each Regional Council meeting will include a review of wildlife issues in the Region, discussion and development of recommendations on fishery proposals for the Region, and staff briefings on matters of interest to the Council.

Electronic filing of comments (preferred method): You may submit electronic comments (proposals) and other data to Subsistence@fws.gov. Please submit as MS Word files, avoiding the use of any special characters and any form of encryption. During November 2005, we will compile the written proposals to change Subpart D hunting and trapping.
regulations and customary and traditional use determinations in Subpart C and distribute them for additional public review. A 30-day public comment period will follow distribution of the compiled proposal packet. We will accept written public comments on distributed proposals during the public comment period, which is presently scheduled to end on January 6, 2006.

A second series of Regional Council meetings will be held in February and March 2006, to assist the Regional Councils in developing recommendations to the Board. You may also present comments on published proposals to change hunting and trapping and customary and traditional use determination regulations to the Regional Councils at those winter meetings.

The Board will discuss and evaluate proposed changes to this rule during a public meeting scheduled to be held in Anchorage, May 16–18, 2006. You may provide additional oral testimony on specific proposals before the Board at that time. At that public meeting, the Board will then deliberate and take final action on proposals received that request changes to this proposed rule.

Please Note: The Board will not consider proposals for changes relating to fish or shellfish regulations at this time. The Board will be calling for proposed changes to those regulations in January 2006.

The Board’s review of your comments and wildlife proposals will be facilitated by you providing the following information: (a) Your name, address, and telephone number; (b) The section and/or paragraph of the proposed rule for which you are suggesting changes; (c) A statement explaining why the change is necessary; (d) The proposed wording change; (e) Any additional information you believe will help the Board in evaluating your proposal. Proposals that fail to include the above information, or proposals that are beyond the scope of authorities in § .24, Subpart C and §§ .25 or .26, Subpart D, may be rejected. The Board may defer review and action on some proposals if workload exceeds work capacity of staff, Regional Councils, or Board. These deferrals will be based on recommendations of the affected Regional Council, staff members, and on the basis of least harm to the subsistence user and the resource involved. Proposals should be specific to customary and traditional use determinations or to subsistence hunting and trapping seasons, harvest limits, and/or methods and means.

Background

Title VIII of the Alaska National Interest Lands Conservation Act (ANILCA) (16 U.S.C. 3111–3126) requires that the Secretary of the Interior and the Secretary of Agriculture (Secretaries) implement a joint program to grant a preference for subsistence uses of fish and wildlife resources on public lands, unless the State of Alaska enacts and implements laws of general applicability that are consistent with ANILCA and that provide for the subsistence definition, preference, and participation specified in Sections 803, 804, and 805 of ANILCA. The State implemented a program that the Department of the Interior previously found to be consistent with ANILCA.

However, in December 1989, the Alaska Supreme Court ruled in McDowell v. State of Alaska that the rural preference in the State subsistence statute violated the Alaska Constitution. The Court’s ruling in McDowell required the State to delete the rural preference from the subsistence statute and, therefore, negated State compliance with ANILCA. The Court stayed the effect of the decision until July 1, 1990.

As a result of the McDowell decision, the Department of the Interior and the Department of Agriculture (Departments) assumed, on July 1, 1990, responsibility for implementation of Title VIII of ANILCA on public lands. On June 29, 1990, the Temporary Subsistence Management Regulations for Public Lands in Alaska were published in the Federal Register (55 FR 27114–27170). Consistent with Subparts A, B, and C of these regulations, as revised February 18, 2003 (68 FR 7703), the Departments established a Federal Subsistence Board to administer the Federal Subsistence Management Program. The Board’s composition consists of a Chair appointed by the Secretary of the Interior with concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; the Alaska Regional Director, U.S. National Park Service; the Alaska State Director, U.S. Bureau of Land Management; the Alaska Regional Director, U.S. Bureau of Indian Affairs; and the Alaska Regional Forester, USDA Forest Service. Through the Board, these agencies participate in the development of regulations for Subparts A and B and the annual Subpart C and D regulations. All Board members have reviewed this rule and agree with its substance. Because this rule relates to public lands managed by an agency or agencies in both the Departments of Agriculture and the Interior, identical text would be incorporated into 36 CFR part 242 and 50 CFR part 100.

Applicability of Subparts A, B, and C

Subparts A, B, and C (unless otherwise amended) of the Subsistence Management Regulations for Public Lands in Alaska, 50 CFR 100.1 to 100.23 and 36 CFR 242.1 to 242.23, remain effective and apply to this rule. Therefore, all definitions located at 50 CFR 100.4 and 36 CFR 242.4 would apply to regulations found in this subpart.

Federal Subsistence Regional Advisory Councils

Pursuant to the Record of Decision, Subsistence Management Regulations for Federal Public Lands in Alaska, April 6, 1992, and the Subsistence Management Regulations for Federal Public Lands in Alaska, 36 CFR 242.11 (2004) and 50 CFR 100.11 (2004), and for the purposes identified therein, we divide Alaska into 10 subsistence resource regions, each of which is represented by a Regional Council. The Regional Councils provide a forum for rural residents with personal knowledge of local conditions and resource requirements to have a meaningful role in the subsistence management of fish and wildlife on Alaska public lands. The Regional Council members represent varied geographical, cultural, and user diversity within each region.

The Regional Councils have a substantial role in reviewing the proposed rule and making recommendations for the final rule. Moreover, the Council Chairs, or their designated representatives, will present their Council’s recommendations to the Board meeting in May 2006.

Proposed Changes from 2004–2005 Seasons and Bag Limit Regulations

Subpart D regulations are subject to an annual cycle and require development of an entire new rule each year. Customary and traditional use determinations (§.24 of Subpart C) are also subject to an annual review process providing for modification each year. The text of the 2005–2006 Subparts C and D final rule published June 22, 2005 (70 FR 36268), serves as the foundation for the 2006–2007 Subparts C and D proposed rule. The regulations contained in this proposed rule would take effect on July 1, 2006, unless elements are changed by subsequent Board action following the public review process outlined herein.
Conformance With Statutory and Regulatory Authorities

National Environmental Policy Act: A Draft Environmental Impact Statement (DEIS) that described four alternatives for developing a Federal Subsistence Management Program was distributed for public comment on October 7, 1991. That document described the major issues associated with Federal subsistence management as identified through public meetings, written comments, and staff analysis and examined the environmental consequences of the four alternatives. Proposed regulations (Subparts A, B, and C) that would implement the preferred alternative were included in the DEIS as an appendix. The DEIS and the proposed administrative regulations presented a framework for an annual regulatory cycle regarding subsistence hunting and fishing regulations (Subpart D). The Final Environmental Impact Statement (FEIS) was published on February 28, 1992.

Based on the public comment received, the analysis contained in the DEIS, and the recommendations of the Federal Subsistence Board and the Department of the Interior's Subsistence Policy Group, it was the decision of the Secretary of the Interior, with the concurrence of the Secretary of Agriculture, through the U.S. Department of Agriculture-Forest Service, to implement Alternative IV as identified in the DEIS and FEIS. This determination that the rule will not reach the “may significantly restrict” threshold for notice and hearings under ANILCA Section 810(a) for any subsistence resources or uses.

Paperwork Reduction Act: This proposed rule does not contain any information collections for which OMB approval is required under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.). Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Economic Effects: This rule is not a significant rule subject to OMB review under Executive Order 12866. This rulemaking will impose no significant costs on small entities; this rule does not restrict any existing sport or commercial fishery on the public lands, and subsistence fisheries will continue at essentially the same levels as they presently occur. The exact number of businesses and the amount of trade that will result from this Federal land-related activity is unknown. The aggregate effect is an insignificant positive economic effect on a number of small entities, such as ammunition, snowmachine, and gasoline dealers. The number of small entities affected is unknown; however, the fact that the positive effects will be seasonal in nature and will, in most cases, merely continue preexisting uses of public lands indicates that they will not be significant.

In general, the resources to be harvested under this rule are already being harvested and consumed by the local harvester and do not result in an additional dollar benefit to the economy. However, we estimate that 2 million pounds of meat are harvested by subsistence users annually and, if given an estimated dollar value of $3.00 per pound, would equate to about $6 million in food value statewide.

Regulatory Flexibility Act: The Regulatory Flexibility Act of 1980 (5 U.S.C. 601 et seq.) requires preparation of flexibility analyses for rules that will have a significant effect on a substantial number of small entities, which include small businesses, organizations or governmental jurisdictions. The Departments certify based on the above figures that this rulemaking will not have a significant economic effect on a substantial number of small entities within the meaning of the Regulatory Flexibility Act. Under the Small Business Regulatory Enforcement Fairness Act (5 U.S.C. 801 et seq.), this rule is not a major rule. It does not have an effect on the economy of $100 million or more, will not cause a major increase in costs or prices for consumers, and does not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises.

Executive Order 12630: Title VIII of ANILCA requires the Secretaries to administer a subsistence priority on public lands. The scope of this program is limited by definition to certain public lands. Likewise, the regulations have no potential takings of private property implications as defined by Executive Order 12630.

Unfunded Mandates Reform Act: The Secretaries have determined and certify pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State governments or private entities. The implementation of this rule is by Federal agencies and there is no cost imposed on any State or local entities or tribal governments.

Executive Order 12988: The Secretaries have determined that these regulations meet the applicable standards provided in Sections 3(a) and 3(b)(2) of Executive Order 12988, regarding civil justice reform.

Executive Order 13132: In accordance with Executive Order 13132, the rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment. Title VIII of ANILCA precludes the Secretary exercising subsistence management authority over fish and wildlife.
resources on Federal lands unless it meets certain requirements.

Government-to-Government Relations with Native American Tribal Governments: In accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175, and 512 DM 2, we have evaluated possible effects on Federally recognized Indian tribes and have determined that there are no substantial direct effects. The Bureau of Indian Affairs is a participating agency in this rulemaking.

Energy Effects: On May 18, 2001, the President issued Executive Order 13211 on regulations that significantly affect energy supply, distribution, or use. This Executive Order requires agencies to prepare Statements of Energy Effects when undertaking certain actions. As this rule is not a significant regulatory action under Executive Order 13211, affecting energy supply, distribution, or use, this action is not a significant action and no Statement of Energy Effects is required.

List of Subjects
36 CFR Part 242
Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

50 CFR Part 100
Administrative practice and procedure, Alaska, Fish, National forests, Public lands, Reporting and recordkeeping requirements, Wildlife.

For the reasons set out in the preamble, the Federal Subsistence Board proposes to amend 36 CFR 242 and 50 CFR 100 for the 2006–07 regulatory year. The text of the amendments would be the same as the final rule for 2005–06 regulatory year published in the Federal Register of 70 FR 36268, June 22, 2005.

Thomas H. Boyd,

Steve Kessler,
Subsistence Program Leader, USDA—Forest Service.

Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District and Monterey Bay Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) and Monterey Bay Unified Air Pollution Control District (MBUAPCD) portions of the California State Implementation Plan (SIP). These revisions concern visible emissions of a variety of pollutants and sources. We are proposing to approve local rules to regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by September 12, 2005.

ADDRESSES: Send comments to Andy Steckel, Rulemaking Office Chief (AIR–4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105–3901 or e-mail to steckel.andrew@epa.gov, or submit comments at http://www.regulations.gov.

You can inspect copies of the submitted SIP revisions, EPA’s technical support documents (TSDs), and public comments at our Region IX office during normal business hours by appointment. You may also see copies of the submitted SIP revisions by appointment at the locations listed below.

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 1001 “I” Street, Sacramento, CA 95814.

San Joaquin Valley Unified Air Pollution Control District, 1990 East Gettysburg Street, Fresno, CA 93726.

Monterey Bay Unified Air Pollution Control District, 24580 Silver Cloud Court, Monterey, CA 93940.

A copy of the rule may also be available via the Internet at http://www.arb.ca.gov/drdb/drdbltxt.htm. Please be advised that this is not an EPA Web site and may not contain the same version of the rule that was submitted to EPA.

FOR FURTHER INFORMATION CONTACT: Jerald S. Wamsley, EPA Region IX, at either (415) 947–4111, or wamsley.jerry@epa.gov.

SUPPLEMENTARY INFORMATION: This proposal concerns the following local rules: SJVUAPCD Rule 4101—Visible Emissions and MBUAPCD Rule 400—Visible Emissions. In the Rules and Regulations section of this Federal Register, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Laura K. Yoshii,
Acting Regional Administrator, Region IX.
