40 CFR Part 300
[FRL–7905–6]

National Oil and Hazardous Substance Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency.

ACTION: Notice of intent to delete the Lower Ecorse Creek Superfund Site from the National Priorities List.

SUMMARY: The Environmental Protection Agency, (EPA) Region V is issuing a notice of intent to delete the Lower Ecorse Creek (LEC) Superfund Site (Site) located in Wyandotte, Michigan, from the National Priorities List (NPL) and requests public comments on this notice of intent to delete. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Michigan, through the Michigan Department of Environmental Quality, have determined that all appropriate response actions under CERCLA have been completed. However, this deletion does not preclude future actions under Superfund. In the “Rules and Regulations” Section of today’s Federal Register, we are publishing a direct final notice of deletion of the LEC Superfund Site without prior notice of intent to delete because we view this as a non-controversial revision and anticipate no adverse comment. We have explained our reasons for this deletion in the preamble to the direct final notice of deletion. If we receive no adverse comment(s) on this notice of intent to delete or the direct final notice of deletion, we will not take further action on this notice of intent to delete. If we receive timely adverse comment(s), we will withdraw the direct final notice of deletion and it will not take effect. We will, as appropriate, address all public comments in a subsequent final deletion notice based on adverse comments received on this notice of intent to delete. We will not institute a second comment period on this notice of intent to delete. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this Federal Register.

Dated: April 22, 2005.

James B. Gulliford,
Regional Administrator, Region 7.

FOR FURTHER INFORMATION CONTACT: Timothy Prendiville, Remedial Project Manager at (312) 886-621 or Gladys Beard, NPL State Deletion Process Manager at (312) 886-7253 or 1-800-621-8431.

For additional information, see the Direct Final Notice of Deletion which is located in the Rules section of this Federal Register.

DATES: Comments concerning this Site must be received by June 1, 2005.

ADDRESSES: Written comments should be addressed to: Cheryl Allen, Community Involvement Coordinator, U.S. EPA (P–19J), 77 W. Jackson, Chicago, IL 60604, 312–886–4360 or 1–800–621–8431.

For further information contact: Timothy Prendiville, Remedial Project Manager at (312) 886–5122, or Gladys Beard, NPL State Deletion Process Manager at (312) 886–7253 or 1–800–621–8431, Superfund Division, U.S. EPA (SR–6J), 77 W. Jackson, IL 60604.

For additional information, see the Direct Final Notice of Deletion which is located in the Rules section of this Federal Register.

Information Repositories: Repositories have been established to provide detailed information concerning this decision at the following address: EPA Region V Library, 77 W. Jackson, Chicago, IL 60604, (312) 333–5821, Monday through Friday 8 a.m. to 4 p.m.; Bacon Memorial Public Library, 45 Vinewood, Wyandotte, MI 54656, (734) 246–8357, Monday through Friday 10 a.m. to 9 p.m.

Migratory Bird Hunting; Application for Approval of Tungsten-Copper-Tin-Iron Shot as Nontoxic for Hunting Waterfowl and Coots

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The U.S. Fish and Wildlife Service (Service) hereby provides public notice that the Olin Corporation of East Alton, Illinois, has applied for approval of 60 percent tungsten, 35.1 percent copper, 3.9 percent tin, and 1 percent iron shot as nontoxic for waterfowl hunting in the United States. The Service has initiated review of the shot under the criteria set out in Tier 1 of the nontoxic shot approval procedures given at 50 CFR 20.134.

DATES: A comprehensive review of the Tier 1 information is to be concluded by July 1, 2005.

ADDRESSES: The Olin, Inc. application and the Administrative Record for this application may be reviewed, by appointment, in Room 4091 at the Fish and Wildlife Service, Division of Migratory Bird Management, 4501 North Fairfax Drive, Arlington, Virginia.

For further information contact: George T. Allen, Wildlife Biologist, Division of Migratory Bird Management, (703) 358–1825.

Supplementary information: The Migratory Bird Treaty Act of 1918 (Act)

Since the mid-1970s, the Service has sought to identify types of shot for waterfowl hunting that are not toxic to migratory birds or other wildlife when ingested. We have approved several types of shot as nontoxic and added them to the migratory bird hunting regulations in 50 CFR 20.21. Use of shot types other than those listed in 50 CFR 20.21(j)(1) for hunting waterfowl and coots and any species that make up aggregate bag limits is prohibited. We will continue to review all shot types submitted for approval as nontoxic.

Olin has submitted its application with the counsel that it contained all of the specified information for a complete Tier 1 submittal, and has requested unconditional approval pursuant to the Tier 1 timeframe. The Service has determined that the application is complete, and has initiated a comprehensive review of the Tier 1 information. After the review, the Service will either publish a Notice of Review to inform the public that the Tier 1 test results are inconclusive or publish a proposed rule for approval of the candidate shot. If the Tier 1 tests are inconclusive, the Notice of Review will indicate what other tests will be required before we will again consider approval of the Tungsten-Copper-Tin-Iron shot as nontoxic. If the Tier 1 data review results in a preliminary determination that the candidate material does not pose a significant toxicity hazard to migratory birds, other wildlife, or their habitats, the Service will commence with a rulemaking proposing to approve the candidate shot.

Dated: April 22, 2005.
Craig Manson,
Assistant Secretary for Fish and Wildlife and Parks.

Migratory Bird Hunting; Application for Approval of Iron-Tungsten-Nickel as a Nontoxic Shot Material for Hunting Waterfowl and Coots

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Advance notice of proposed rulemaking.

SUMMARY: The U.S. Fish and Wildlife Service (Service) hereby provides public notice that ENVIRON-Metal, Inc., of Sweet Home, Oregon, has applied for approval of 62 percent iron, 25 percent tungsten, and 13 percent nickel shot as nontoxic for waterfowl hunting in the United States. The Service has initiated review of the shot under the criteria set out in Tier 1 of the nontoxic shot approval procedures given at 50 CFR 20.134.

DATES: A comprehensive review of the Tier 1 information is to be concluded by July 1, 2005.

ADDRESSES: The ENVIRON-Metal, Inc. application may be reviewed in Room 4091 at the Fish and Wildlife Service, Division of Migratory Bird Management, 4501 North Fairfax Drive, Arlington, Virginia.

Migratory Bird Hunting; Application for Approval of Tungsten-Nickel-Iron Alloys as Nontoxic for Hunting Waterfowl and Coots

AGENCY: Fish and Wildlife Service, Interior.
ACTION: Advance notice of proposed rulemaking.

SUMMARY: The U.S. Fish and Wildlife Service (Service) hereby provides public notice that ENVIRON-Metal, Inc., of Sweet Home, Oregon, has applied for approval of a range of tungsten-nickel-iron alloys as nontoxic for waterfowl hunting in the United States. The alloys are comprised of 10–70 percent iron,
