The proposed Candidate Conservation Agreement With Assurances for the
Columbia Spotted Frog at Sam Noble Springs, Owyhee County, ID

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The State of Idaho (Idaho Department of Lands and the Idaho Department of Fish and Game) have applied to the Fish and Wildlife Service (Service) for an enhancement of survival permit pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (Act). The permit application includes a proposed Candidate Conservation Agreement with Assurances for the Columbia spotted frog at Sam Noble Springs, Owyhee County, Idaho (Agreement) between the Service, and the State of Idaho. Also available is a draft environmental assessment evaluating the proposed Agreement and permit.

Under the proposed Agreement, the parties would implement conservation measures for Columbia spotted frogs (Rana luteiventris; CSF) over approximately 680 acres (275 ha) in Owyhee County, Idaho. The intent of the proposed Agreement would be to conserve CSFs by protecting and enhancing habitat and populations, in a manner that is consistent with the State’s land use activities and the Agreement. The proposed term of the Agreement and the permit is 22 years. The Service has prepared a draft Environmental Assessment for approval of the Agreement and issuance of the permit.

We request comments from the public on the permit application, proposed Agreement, and the draft Environmental Assessment. All comments we receive, including names and addresses, will become part of the administrative record and may be released to the public.

DATES: Written comments should be received on or before March 3, 2006.

Background

Under a Candidate Conservation Agreement with Assurances, participating landowners voluntarily implement conservation activities on their property to benefit species that are proposed for listing under the Act, or other sensitive species. Candidate Conservation Agreements with Assurances encourage private and other non-Federal property owners to implement conservation efforts, and resist threats to listed species by assuring them they will not be subjected to increased property use restrictions, beyond those identified in the agreement, if the species is listed in the future under the Act. Application requirements and issuance criteria for enhancement of survival permits through Candidate Conservation Agreements with Assurances are found in 50 CFR 17.22(d) and 17.32(d).

Populations of the CSF are found from Alaska and British Columbia to Washington east of the Cascades, eastern Oregon, Idaho, the Bighorn Mountains of Wyoming, the Mary’s, Reese, and Owyhee River systems of Nevada, the Wasatch Mountains, and
