Part III

Department of the Interior

Fish and Wildlife Service

50 CFR Part 20
Migratory Bird Hunting; Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2006–07 Early Season; Final Rule
DEPARTMENT OF THE INTERIOR  
Fish and Wildlife Service  
50 CFR Part 20  
RIN 1018–AU42  
Migratory Bird Hunting; Migratory Bird Hunting Regulations on Certain Federal Indian Reservations and Ceded Lands for the 2006–07 Early Season  
AGENCY: Fish and Wildlife Service, Interior.  
ACTION: Final rule.  
SUMMARY: This rule prescribes special early season migratory bird hunting regulations for certain tribes on Federal Indian reservations, off-reservation trust lands, and ceded lands. This responds to tribal requests for U.S. Fish and Wildlife Service (hereinafter Service or we) recognition of their authority to regulate hunting under established guidelines. This rule allows the establishment of season bag limits and, therefore, harvest at levels compatible with populations and habitat conditions.  
DATES: This rule takes effect on September 1, 2006.  
ADDRESSES: You may inspect comments received on the proposed special hunting regulations and tribal proposals during normal business hours in room 4107, Arlington Square Building, 4501 N. Fairfax Drive, Arlington, Virginia.  
SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act (MBTA) of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), authorizes and directs the Secretary of the Department of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.  
In the August 17, 2006, Federal Register (71 FR 47461), we proposed special migratory bird hunting regulations for the 2006–07 hunting season for certain Indian tribes, under the guidelines described in the June 4, 1985, Federal Register (50 FR 23467). The guidelines respond to tribal requests for Service recognition of their reserved hunting rights, and for some tribes, recognition of their authority to regulate hunting by both tribal members and nonmembers on their reservations. The guidelines include possibilities for:  
(1) On-reservation hunting by both tribal members and nonmembers, with hunting by nontribal members on some reservations to take place within Federal frameworks but on dates different from those selected by the surrounding State(s);  
(2) On-reservation hunting by tribal members only, outside of usual Federal frameworks for season dates and length, and for daily bag and possession limits; and  
(3) Off-reservation hunting by tribal members on ceded lands, outside of usual framework dates and season length, with some added flexibility in daily bag and possession limits. In all cases, the regulations established under the guidelines must be consistent with the March 10–September 1 closed season mandated by the 1916 Migratory Bird Treaty with Canada.  
In the April 11, 2006, Federal Register (71 FR 18562), we requested that tribes desiring special hunting regulations in the 2006–07 hunting season submit a proposal including details on:  
(a) Harvest anticipated under the requested regulations;  
(b) Methods that would be employed to measure or monitor harvest (such as bag checks, mail questionnaires, etc.);  
(c) Steps that would be taken to limit harvest, where it could be shown that failure to limit such harvest would adversely impact the migratory bird resource; and  
(d) Tribal capabilities to establish and enforce migratory bird hunting regulations. No action is required if a tribe wishes to observe the hunting regulations established by the State(s) in which an Indian reservation is located. We have successfully used the guidelines since the 1985–86 hunting season. We finalized the guidelines beginning with the 1988–89 hunting season (August 18, 1988, Federal Register [53 FR 31612]).  
Although the proposed rule included generalized regulations for both early- and late-season hunting, this rulemaking addresses only the early-season proposals. Late-season hunting will be addressed in late-September. As a general rule, early seasons begin during September each year and have a primary emphasis on such species as mourning and white-winged dove. Late seasons begin about October 1 or later each year and have a primary emphasis on waterfowl.  
Population Status and Harvest  
The following paragraphs provide a brief summary of information on the status and harvest of waterfowl excerpted from various reports. The August 17 proposed rule contained a brief summary on the status and harvest of migratory shore and upland game birds. For more detailed information on methodologies and results, you may obtain complete copies of the various reports at the address indicated under ADDRESSES or from our Web site at http://migratorybirds.fws.gov.  
Status of Ducks  
Federal, provincial, and State agencies conduct surveys each spring to estimate the size of breeding populations and to evaluate the conditions of the habitats. These surveys are conducted using fixed-wing aircraft and helicopters and encompass principal breeding areas of North America, and cover over 2.0 million square miles. The Traditional survey area comprises Alaska, Canada, and the north central United States, and includes approximately 1.3 million square miles. The Eastern survey area includes parts of Ontario, Quebec, Labrador, Newfoundland, Nova Scotia, Prince Edward Island, New Brunswick, New York, and Maine, an area of approximately 0.7 million square miles.  
Breeding Ground Conditions  
Despite a very warm winter, breeding waterfowl habitat quality in the United States and Canada is slightly better this year than last year. Improvements in Canadian and U.S. prairie habitats were primarily due to average to above-average precipitation, warm spring temperatures, and carry-over effects from the good summer conditions of 2005. Improved habitat conditions were reflected in the higher number of ponds counted in Prairie Canada this year compared to last year. The 2006 estimate of ponds in Prairie Canada was 4.4 ± 0.2 million ponds, a 13 percent increase from last year’s estimate of 3.9 ± 0.2 million ponds, and 32 percent above the 1955–2005 average. Habitat conditions on the U.S. prairies were more variable than those on the Canadian prairies. The 2006 pond estimate for the northcentral United States (1.6 ± 0.1 million) was similar to last year’s estimate and the long-term average. The total pond estimate (Prairie Canada and United States combined) was 6.1 ± 0.2 million ponds. This was 13 percent greater than last year’s estimate of 5.4 ± 0.2 million and 26 percent higher than the long-term average of 4.8 ± 0.1 million ponds.
In the Eastern Survey Area (strata 51–72), spring-like conditions also arrived early with an early ice break-up and relatively mild temperatures. Biologists reported that habitat conditions were generally good across most of the survey area.

Breeding Population Status

In the Waterfowl Breeding Population and Habitat Survey traditional survey area (strata 1–18, 20–50, and 75–77), the total breeding population estimate was 36.2 ± 0.6 [SE] million birds. This was 14 percent greater than last year’s estimate of 31.7 ± 0.6 million birds and 9 percent above the 1955–2005 long-term average. Mallard (Anas platyrhynchos) abundance was 7.3 ± 0.2 million birds, which was similar to last year’s estimate of 6.8 ± 0.3 million birds and to the long-term average. Blue-winged teal (A. discors) abundance was 5.9 ± 0.3 million birds. This value was 28 percent greater than last year’s estimate of 4.6 ± 0.2 million birds and 30 percent above the long-term average. The estimated abundance of green-winged teal (A. crecca; 2.6 ± 0.2 million) was 20 percent greater than last year and 39 percent above the long-term average. The estimated number of gadwall (A. strepera; 2.8 ± 0.2 million) was 30 percent greater than last year and was 67 percent above the long-term average, and the estimated number of redhead (Aythya americana; 0.9 ± 0.1 million) increased 55 percent relative to 2005 and was 47 percent above the long-term average. The canvassback estimate (A. valisineria; 0.7 ± 0.1 million) was 33 percent higher than last year’s and was 23 percent higher than the long-term average. The Northern shoveler (Anas clypeata; 3.7 ± 0.2 million) estimate was similar to last year’s, and 69 percent above the long-term average. Although estimates for most species increased relative to last year’s and were greater than their long-term averages, American wigeon (A. americana; 2.2 ± 0.1 million) and scaup (Aythya affinis and A. marila combined; 3.2 ± 0.2 million) estimates were unchanged relative to 2005, but remained 17 percent and 37 percent below their long-term averages, respectively. The estimate for scaup was a record low for the second consecutive year. The Northern pintail (Anas acuta; 3.4 ± 0.2 million) estimate was 18 percent below its 1955–2005 average, although this year’s estimate was 32 percent greater than that of last year. The eastern survey area was re-stratified in 2005, and is now composed of strata 51–72. Mergansers (red-breasted merganser), common [M. merganser], and hooded (Lophodytes cucullatus), mallards, American black ducks (A. rubripes), Ringnecked ducks (Aythya collaris), goldeneyes (common [Bucephala clangula] and Barrow’s (B. islandica)) and green-winged teal were all similar to their 2005 estimates. American wigeon (~51 percent) and buffleheads ([B. albeola], ~58 percent) were lower than their 2005 estimates. None of the species in the eastern survey area differed from long-term averages.

Fall Flight Estimate

The mid-continent mallard population is composed of mallards from the traditional survey area, Michigan, Minnesota, and Wisconsin, and is 7.9 ± 0.2 million. This is similar to the 2005 estimate of 7.5 ± 0.3 million. The projected mallard fall flight index was 9.8 ± 0.1 million, similar to the 2005 estimate of 9.3 ± 0.1 million birds. These indices were based on revised mid-continent mallard population models, and therefore, differ from those previously published.

Status of Geese and Swans

We provide information on the population status and productivity of North American Canada goose (Branta canadensis), brant (B. bernicla), snow goose (Chen caerulescens), Ross’ goose (C. rossii), emperor goose (C. canagica), white-fronted goose (Anser albifrons), and tundra swans (Cygnus columbianus). In 2006, the timing of spring snowmelt in important goose and swan nesting areas in most of the Arctic and subarctic was earlier than average. Delayed nesting phenology or reduced nesting effort was indicated for only Alaska’s Yukon Delta, other coastal areas of Alaska, and near the Mackenzie River Delta in the western Canadian Arctic. Primary abundance indices in 2006 increased from 2005 levels for 13 goose populations and decreased for 11 goose populations. Primary abundance indices in 2006 for both populations of tundra swans increased from 2005 levels. The Mississippi Flyway Giant and the Atlantic Canada goose populations, the Western Arctic/ Wrangel Island snow goose population, and the Pacific white-fronted goose population displayed significant positive trends during the most recent 10-year period. The Short Grass Prairie Canada goose and the Mid-continent light goose populations showed significant negative 10-year trends. The forecast for the production of geese and swans in North America in 2006 is generally favorable and improved from that of 2005.

Waterfowl Harvest and Hunter Activity

During the 2005–06 hunting season, both duck and goose harvest increased from the previous year. U.S. hunters harvested 12,510,800 ducks in 2005–06, compared to 12,365,700 in 2004–05, and they harvested 3,660,700 geese, compared to 3,200,400 geese taken in 2004–05. The five most commonly harvested duck species were mallard (4,466,927), green-winged teal (1,500,479), gadwall (1,363,954), wood duck (1,119,921), and blue-winged/cinnamon teal (703,534).

Comments and Issues Concerning Tribal Proposals

For the 2006–07 migratory bird hunting season, we proposed regulations for 28 tribes and/or Indian groups that followed the 1985 guidelines and were considered appropriate for final rulemaking. Some of the proposals submitted by the tribes had both early- and late-season elements. However, as noted earlier, only those with early-season proposals are included in this final rulemaking: 21 tribes have proposals with early seasons. The comment period for the proposed rule, published on August 17, 2006, closed on August 28, 2006. Because of the necessary brief comment period, we will respond to any comments on the proposed rule and/or these regulations postmarked by August 28, but not received prior to final action by us, in the September late-season final rule.

Great Lakes Indian Fish and Wildlife Commission’s (GLIFWC) Proposal

We received 23 comments in response to our April 11, 2006, notice of intent announcing regulations for migratory bird hunting by Native American Tribal members, GLIFWC’s proposal we received, and our August 17, 2006, proposed rule. The Mississippi Flyway Council, the Minnesota Department of Natural Resources, the Wisconsin Department of Natural Resources, the Wisconsin Conservation Congress, and a number of individuals were strongly opposed to the GLIFWC’s proposal that requested: (1) Increased bag limits for most species (from 20 to 40 birds per day); and (2) removal of the restriction on bailing on ceded lands. They requested we deny both of these proposed changes believing that the increase in harvest would create a conservation concern to locally breeding duck populations. They also believed that the use of bait on ceded lands would effectively close hunting for the general public in and around baited areas because Federal and State...
regulations prevent hunting over bait regardless of a person’s knowledge of a baited area.

The GLIFWC also responded to our August 17 proposed rule. GLIFWC believed that we did not provide sufficient biological, public health, or safety rationale and supporting data for rejecting their proposal. They believed that we examined the proposal through the “lens of sport hunting and its fair chase precepts rather than pursuant to and consistent with the nature and extent of the tribes’ court-affirmed treaty hunting rights.” They further state that our response should be based upon law and objective rationale rather than “polemics” and “hyperbole.” GLIFWC asserts that hunting over and with bait is a common practice for many species, as well as a court-approved practice within the scope of the tribes’ ceded-territory treaty rights. GLIFWC similarly rejects our assertion that the proposal would cause confusion and resentment among the general public and other hunters.

Service Response: As we stated in the August 17 proposed rule, we do not support the increase in bag limits and removal of baiting restrictions proposed by the GLIFWC due to legal, social, and conservation concerns. While we recognize that baiting is an accepted hunting practice for a number of resident game species, like whitetail deer or bear, it is not a recognized, legitimate, or accepted hunting practice for migratory game birds. Since its prohibition in the 1930’s, we have not allowed the hunting of migratory game birds over baited areas for a number of well-documented biological, conservation, ethical, and social considerations. Further, this is the first time that we know of that a tribe or tribal organization has asserted that the baiting of migratory game birds is within treaty hunting rights. In that regard, while we believe that is not the case, we are willing to further discuss the issue with the GLIFWC. Until such time as we agree or it is determined to be properly part of a treaty right, we do not believe that GLIFWC’s proposal to allow hunting for the 2006–07 hunting season is in the best interests of the Service, the GLIFWC, the general public, or the migratory bird resource.

Additionally, while we acknowledge that tribal harvest and participation has declined in recent years, we are not of the opinion that allowing baiting is the best way to increase tribal hunter participation. As we stated above, removing the present restrictions on waterfowl hunting would lead to confusion and frustration on the part of the public, hunters, wildlife-management agencies, and law enforcement officials due to the inherent difficulties of different sets of baiting regulations for different areas and groups of hunters, especially on ceded lands that are not in the ownership of the Tribes. Further, from the standpoint of conservation of the resources involved, baiting could potentially seriously impact local migratory bird populations, and widespread baiting could potentially affect overall migratory patterns. Luring local and migrating flocks in ever-greater numbers by artificial means could also provide increased opportunities for disease transmission, increased competition for limited food supplies, and increased susceptibility to wide-spread disease outbreaks like avian cholera, duck plague, and avian botulism.

Recent GLIFWC harvest surveys (1996–98, 2001, and 2004) indicate that tribal off-reservation waterfowl harvest has averaged less than 1,000 ducks and 120 geese annually. In the latest survey year (2004), an estimated 53 hunters took an estimated 421 trips and harvested 645 ducks (1.5 ducks per trip) and 84 geese (0.2 geese per trip). Further, in the last 5 years of harvest surveys, only one hunter reported harvesting 20 ducks in a single day. Analysis of hunter survey data over the period in question (1996–2004) indicates a general downward trend in both harvest and hunter participation.

Based on this data, present daily bag limits do not appear to be a hindrance or limiting factor for tribal harvest. Therefore, we do not accept the GLIFWC’s proposal for significantly increased daily bag limits for most species in the 1837 and 1842 Treaty Areas at this time. However, if we develop or are presented information that shows otherwise, we would certainly entertain increasing bag limits for waterfowl, coots, moorhens, and mourning doves to meet tribal needs within conservation limits. We do, however, support the proposals for increasing the daily bag limits for mergansers, snipe, and woodcock in the 1837 and 1842 Treaty Areas to bring them more in line with current GLIFWC daily bag limits for ducks and geese. In addition, the Service is willing to meet with the GLIFWC to explore possible ways to increase tribal participation in migratory bird hunting opportunities. Finally, as with all tribal harvest, we request that the GLIFWC monitor the member bands’ harvest.

NEPA Consideration

NEPA considerations are covered by the programmatic document “Final Supplemental Environmental Impact Statement: Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FSES 88–14).” filed with the Environmental Protection Agency on June 9, 1988. We published Notice of Availability in the Federal Register on June 16, 1988 (53 FR 22582). We published our Record of Decision on August 18, 1988 (53 FR 31341). In addition, an August 1985 environmental assessment entitled “Guidelines for Migratory Bird Hunting Regulations on Federal Indian Reservations and Ceded Lands” is available from the address indicated under the caption ADDRESSES.

In a notice published in the September 8, 2005, Federal Register (70 FR 53376), we announced our intent to develop a new Supplemental Environmental Impact Statement for the migratory bird hunting program. Public scoping meetings were held in the spring of 2006, as we detailed in a March 9, 2006, Federal Register notice (71 FR 12216).

Endangered Species Act Considerations

Section 7 of the Endangered Species Act, as amended (16 U.S.C. 1531–1543; 87 Stat. 884), provides that, “The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act” (and) shall “ensure that any action authorized, funded or carried out * * * is not likely to jeopardize the continued existence of any endangered species or threatened species or result in the destruction or adverse modification of [critical] habitat * * *” Consequently, we conducted consultations to ensure that actions resulting from these regulations would not likely jeopardize the continued existence of endangered or threatened species or result in the destruction or adverse modification of their critical habitat. Findings from these consultations are included in a biological opinion and may have caused modification of some regulatory measures previously proposed. The final frameworks reflect any modifications. Our biological opinions resulting from this Section 7 consultation are public documents available for public inspection in the Service’s Division of Endangered Species and Division of Migratory Bird Management, at the address indicated under ADDRESSES.

Executive Order 12866

The migratory bird hunting regulations are economically significant and were reviewed by the Office of Management and Budget (OMB) under
Executive Order 12866. As such, a cost-benefit analysis was initially prepared in 1981. This analysis was subsequently revised annually from 1990 through 1996, updated in 1998, and updated again in 2004. It is further discussed below under the heading Regulatory Flexibility Act. Results from the 2004 analysis indicate that the expected economic benefit of the annual migratory bird hunting frameworks is on the order of $734 to $1,064 million, with a mid-point estimate of $899 million. Copies of the cost-benefit analysis are available upon request from the address indicated under ADDRESSES or from our Web site at http://www.migratorybirds.gov.

Regulatory Flexibility Act

These regulations have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.). We analyzed the economic impacts of the annual hunting regulations on small business entities in detail as part of the 1981 cost-benefit analysis discussed under Executive Order 12866. This analysis was revised annually from 1990 through 1995. In 1995, the Service issued a Small Entity Flexibility Analysis (Analysis), which was subsequently updated in 1996, 1998, and 2004. The primary source of information about hunter expenditures for migratory game bird hunting is the National Hunting and Fishing Survey, which is conducted at 5-year intervals. The 2004 Analysis was based on the 2001 National Hunting and Fishing Survey and the U.S. Department of Commerce’s County Business Patterns, from which it was estimated that migratory bird hunters would spend between $481 million and $1.2 billion at small businesses in 2004. Copies of the Analysis are available upon request from the address indicated under ADDRESSES or from our Web site at http://www.migratorybirds.gov.

Small Business Regulatory Enforcement Fairness Act

This rule is a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. For the reasons above, this rule has an annual effect on the economy of $100 million or more. However, because this rule establishes hunting seasons, we do not plan to defer the effective date required by 5 U.S.C. 801 under the exemption contained in 5 U.S.C. 808(1).

Paperwork Reduction Act

We examined these regulations under the Paperwork Reduction Act of 1995. The various recordkeeping and reporting requirements imposed under regulations established in 50 CFR part 20, Subpart K, are utilized in the formulation of migratory game bird hunting regulations. Specifically, OMB has approved the information collection requirements of the Migratory Bird Harvest Surveys and assigned clearance number 1018–0015 (expires 2/29/2008). This information is used to provide a sampling frame for voluntary national surveys to improve our harvest estimates for all migratory game birds in order to better manage these populations. OMB has also approved the information collection requirements of the Sandhill Crane Harvest Questionnaire and assigned clearance number 1018–0023 (expires 11/30/2007). The information from this survey is used to estimate the magnitude and the geographical and temporal distribution of the harvest, and the portion it constitutes of the total population.

A Federal agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Unfunded Mandates Reform Act

We have determined and certify, in compliance with the requirements of the Unfunded Mandates Reform Act, 2 U.S.C. 1502 et seq., that this rulemaking will not impose a cost of $100 million or more in any given year on local or State government or private entities. Therefore, this rule is not a “significant regulatory action” under the Unfunded Mandates Reform Act.

Civil Justice Reform Executive Order 12988

The Department, in promulgating this rule, has determined that this rule will not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of Executive Order 12988.

Takings Implication Assessment

In accordance with Executive Order 12630, this rule, authorized by the Migratory Bird Treaty Act, does not have significant takings implications and does not affect any constitutionally protected property rights. This rule will not result in the physical occupancy of property, the physical invasion of property, or the regulatory taking of any property. In fact, these rules allow hunters to exercise otherwise unavailable privileges and, therefore, reduce restrictions on the use of private and public property.

Energy Effects—Executive Order 13211

On May 18, 2001, the President issued Executive Order 13211 on regulations that significantly affect energy supply, distribution, and use. Executive Order 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. While this rule is a significant regulatory action under Executive Order 12866, it is not expected to adversely affect energy supplies, distribution, or use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Federalism Effects

Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. We annually prescribe frameworks from which the States make selections regarding the hunting of migratory birds, and we employ guidelines to establish special regulations on Federal Indian reservations and ceded lands. This process preserves the ability of the States and tribes to determine which seasons meet their individual needs. Any State or tribe may be more restrictive than the Federal frameworks. The frameworks are developed in a cooperative process with the States and the Flyway Councils. This process allows States to participate in the development of frameworks from which they will make selections, thereby having an influence on their own regulations. These rules do not have a substantial direct effect on fiscal capacity, change the roles or responsibilities of Federal or State governments, or intrude on State policy or administration. Therefore, in accordance with Executive Order 13132, these regulations do not have significant federalism effects and do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Government-to-Government Relationship With Tribes

Due to the migratory nature of certain species of birds, the Federal Government has been given responsibility over these species by the Migratory Bird Treaty Act. Thus, in accordance with the President’s memorandum of April 29, 1994, “Government-to-Government Relations with Native American Tribal Governments” (59 FR 22951), Executive Order 13175, and 5 U.S.C. 301, we have evaluated possible effects on federally recognized Indian tribes and have
determined that there are no effects on Indian trust resources. However, by virtue of the tribal proposals process, we have consulted with all the tribes affected by this rule.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Reporting and recordkeeping requirements, Transportation, Wildlife.

Accordingly, part 20, subchapter B, chapter I of title 50 of the Code of Federal Regulations is amended as follows:

PART 20—[AMENDED]

1. The authority citation for part 20 continues to read as follows:

Note: The following hunting regulations provided for by CFR 20.110 will not appear in the Code of Federal Regulations because of their seasonal nature.

2. Section 20.110 is revised to read as follows:

§ 20.110 Seasons, limits, and other regulations for certain Federal Indian reservations, Indian Territory, and ceded lands.

(a) Colorado River Indian Tribes,

Parker, Arizona (Tribal Members and Nontribal Hunters)

Doves

Season Dates: Open September 1, through September 15, 2006; then open November 11, through December 25, 2006.

Daily Bag and Possession Limits: For the early season, daily bag limit is 10 mourning or white-winged doves, singly, or in the aggregate. For the late season, the daily bag limit is 10 mourning doves. Possession limits are twice the daily bag limits.

General Conditions: All persons 14 years and older must be in possession of a valid Colorado River Indian Reservation hunting permit before taking any wildlife on tribal lands. Any person transporting game birds off the Colorado River Indian Reservation must have a valid transport declaration form. Other tribal regulations apply, and may be obtained at the Fish and Game Office in Parker, Arizona.

(b) Confederated Salish and Kootenai Tribes, Flathead Indian Reservation, Pablo, Montana (Tribal Hunters)

Tribal Members Only

Ducks (Including Mergansers)

Daily Bag and Possession Limits: The Tribe does not have specific bag and possession restrictions for Tribal members. The season on harlequin duck is closed.

Coots

Season Dates: Same as ducks.

Daily Bag and Possession Limits: Same as ducks.

Geese

Season Dates: Same as ducks.

Daily Bag and Possession Limits: Same as ducks.

General Conditions: Tribal and Nontribal hunters must comply with all basic Federal migratory bird hunting regulations contained in 50 CFR part 20 regarding manner of taking. In addition, shooting hours are sunrise to sunset, and each waterfowl hunter 16 years of age or older must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the stamp face. Special regulations established by the Confederated Salish and Kootenai Tribes also apply on the reservation.

(c) Crow Creek Sioux Tribe, Crow Creek Indian Reservation, Fort Thompson, South Dakota (Tribal Members and Nontribal Hunters)

Sandhill Cranes

Daily Bag Limit: Three sandhill cranes.

Permits: Each person participating in the sandhill crane season must have a valid Federal sandhill crane hunting permit in his or her possession while hunting.

Doves

Season Dates: Open September 1, through October 30, 2006.

Daily Bag Limit: 15 mourning doves.

General Conditions: The possession limit is twice the daily bag limit. Tribal and nontribal hunters must comply with basic Federal migratory bird hunting regulations in 50 CFR part 20 regarding shooting hours and manner of taking. In addition, each waterfowl hunter 16 years of age or over must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the stamp face. Special regulations established by the Crow Creek Sioux Tribe also apply on the reservation.

(d) Fond du Lac Band of Lake Superior Chippewa Indians, Cloquet, Minnesota (Tribal Members Only)

All seasons in Minnesota, 1854 and 1837 Treaty Zones:

Doves

Season Dates: Open September 1, through October 30, 2006.

Daily Bag Limit: 30 doves.

Ducks and Mergansers

Season Dates: Open September 15, through December 3, 2006.

Daily Bag Limit for Ducks: 18 ducks, including no more than 12 mallards (only 6 of which may be hens), 3 black ducks, 6 scaup, 4 wood ducks, 6 redheads, 3 pintails and 3 canvasbacks.

Daily Bag Limit for Mergansers: 15 mergansers, including no more than 3 hooded mergansers.

Canada Geese

Season Dates: Open September 1, through December 3, 2006.

Daily Bag Limit: 12 geese.

Coots and Common Moorhens (Gallinule)

Season Dates: Open September 15, through December 3, 2006.

Daily Bag Limit: 20 coots and common moorhens, singly or in the aggregate.

Sora and Virginia Rails

Season Dates: Open September 1, through December 3, 2006.

Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate. There is no possession limit.

Common Snipe and Woodcock

Season Dates: Open September 1, through December 3, 2006.

Daily Bag Limit: Eight snipe and three woodcock.

General Conditions:

1. While hunting waterfowl, a tribal member must carry on his/her person a valid tribal waterfowl hunting permit.

2. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the provisions of Chapter 10 of the Model Off-Reservation Code. Except as modified by the Service rules adopted in response to this proposal, these amended regulations parallel Federal requirements in 50 CFR part 20 as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting.

3. Band members in each zone will comply with State regulations providing for closed and restricted waterfowl hunting areas.
4. There are no possession limits on any species, unless otherwise noted above. For purposes of enforcing bag and possession limits, all migratory birds in the possession or custody of band members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as having been taken on-reservation. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

(f) Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribal Members Only)

All seasons in Michigan, 1836 Treaty Zone:

Ducks

Daily Bag Limit: 12 ducks, which may include no more than 2 pintail, 2 canvasback, 3 black ducks, 1 hooded merganser, 3 wood ducks, 3 redheads, and 6 mallards (only 3 of which may be hens).

Canada and Snow Geese

Season Dates: Open September 1, through November 30, and open January 1, 2007, through February 8, 2007.

Daily Bag Limit: Five geese.

Other Geese (White-Fronted Geese and Brant)

Season Dates: Open September 20, through November 30, 2006.

Daily Bag Limit: Five geese.

Sora Rails, Common Snipe, and Woodcock

Season Dates: Open September 1, through November 14, 2006.

Daily Bag Limit: Ten rails, ten snipe, and five woodcock.

Mourning Doves

Season Dates: Open September 1, through November 14, 2006.

Daily Bag Limit: Ten mourning doves.

General Conditions: A valid Grand Traverse Band Tribal license is required and must be in possession before taking any wildlife. All other basic regulations contained in 50 CFR part 20 are valid. Other tribal regulations apply, and may be obtained at the tribal office in Suttons Bay, Michigan.

(f) Great Lakes Indian Fish and Wildlife Commission, Odanah, Wisconsin (Tribal Members Only)

Ducks

A. 1837 and 1842 Treaty Areas

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 10 ducks, including no more than 5 mallards (only 5 of which may be hens), 4 black ducks, 4 redheads, 4 pintails, and 2 canvasbacks.

B. 1836 Treaty Area

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 10 ducks, including no more than 5 mallards (only 2 of which may be hens), 2 black ducks, 2 redheads, 2 pintails, and 1 canvasback.

Mergansers

A. 1837 and 1842 Treaty Areas

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 10 mergansers.

B. 1836 Treaty Area

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: Five mergansers.

Geese: All Ceded Areas

Season Dates: Open September 1, through December 1, 2006. In addition, any portion of the ceded territory that is open to State-licensed hunters for goose hunting after December 1 shall also be open concurrently for tribal members.

Daily Bag Limit: 10 geese in the aggregate.

Other Migratory Birds: All Ceded Areas except where noted below.

A. Coots and Common Moorhens (Common Gallinules)

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 20 coots and common moorhens (common gallinules), singly or in the aggregate.

B. Sora and Virginia Rails

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 20 sora and Virginia rails singly, or in the aggregate.

Possession Limit: 20.

C. Common Snipe

Season Dates: Open September 15, through December 1, 2006.

Daily Bag Limit: 16 common snipe.

1836 Treaty Area: 16 common snipe.

D. Woodcock

Season Dates: Open September 5, through December 1, 2006.

Daily Bag Limit: 15 mourning doves.

General Conditions

A. All tribal members will be required to obtain a valid tribal waterfowl hunting permit.

B. Except as otherwise noted, tribal members will be required to comply with tribal codes that will be no less restrictive than the model ceded territory conservation codes approved by Federal courts in Lac Courte Oreilles v. State of Wisconsin (Voigt) and Mille Lacs Band v. State of Minnesota cases. The respective Chapters 10 of these model codes regulate ceded territory migratory bird hunting. They parallel Federal requirements as to hunting methods, transportation, sale, exportation, and other conditions generally applicable to migratory bird hunting. They also automatically incorporate by reference the Federal migratory bird regulations adopted in response to this proposal.

C. Particular regulations of note include:

1. Nontoxic shot will be required for all off-reservation waterfowl hunting by tribal members.

2. Tribal members in each zone will comply with tribal regulations providing for closed and restricted waterfowl hunting areas. These regulations generally incorporate the same restrictions contained in parallel State regulations.

3. Possession limits for each species are double the daily bag limit, except on the opening day of the season, when the possession limit equals the daily bag limit, unless otherwise noted above. Possession limits are applicable only to transportation and do not include birds that are cleaned, dressed, and at a member’s primary residence. For purposes of enforcing bag and possession limits, all migratory birds in the possession and custody of tribal members on ceded lands will be considered to have been taken on those lands unless tagged by a tribal or State conservation warden as taken on reservation lands. All migratory birds that fall on reservation lands will not count as part of any off-reservation bag or possession limit.

4. The baiting restrictions can be obtained at the Tribal office in the model ceded territory conservation codes. These codes will be amended to include language that parallels that in place for nontribal members as published by the Service in the Federal Register at 64 FR 29804, June 3, 1999.
5. The shell limit restrictions of the model ceded territory conservation codes will be removed.

D. Michigan—Duck Blinds and Decoys. Tribal members hunting in Michigan will comply with tribal codes that contain provisions parallel to Michigan law regarding duck blinds and decoys.

(g) Kalispel Tribe, Kalispel Reservation, Usk, Washington (Tribal Members and Nontribal Hunters)

Nontribal Hunters on Reservation

Geese

Season Dates: Open September 1, 2006, through September 17, for the early-season, and open October 1, through January 31, 2007, for the late-season. During this period, days to be hunted are specified by the Kalispel Tribe. Nontribal hunters should contact the Tribe for more detail on hunting days.

Daily Bag and Possession Limits: 5 Canada geese for the early season, and 3 light geese and 4 dark geese, for the late season. The daily bag limit is 2 brant and is in addition to dark goose limits for the late-season. The possession limit is twice the daily bag limit.

Tribal Hunters Within Kalispel Ceded Lands

Ducks

Daily Bag and Possession Limits: 7 ducks, including no more than 2 female mallards, 4 scaup, and 2 redheads. The seasons on canvasbacks and pintail are closed. The possession limit is twice the daily bag limit.

Geese

Daily Bag Limit: 3 light geese and 4 dark geese. The daily bag limit is 2 brant and is in addition to dark goose limits.

General: Tribal members must possess a validated Migratory Bird Hunting and Conservation Stamp and a tribal ceded lands permit.

(h) Leech Lake Band of Ojibwe, Cass Lake, Minnesota (Tribal Members Only)

Ducks

Season Dates: Open September 23, through December 31, 2006.

Daily Bag Limits: 10 ducks.

Geese

Season Dates: Open September 1, through December 31, 2006.

Daily Bag Limits: 10 geese.

General: Possession limits are twice the daily bag limits. Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required. Use of live decoys, bait, and commercial use of migratory birds are prohibited. Waterfowl may not be pursued or taken while using motorized craft.

(i) Little River Band of Ottawa Indians, Manistee, Michigan (Tribal Members Only)

Ducks

Daily Bag and Possession Limits: 5 Canada geese and possession limit is twice the daily bag limit.

White-Fronted Geese, Snow Geese, Ross Geese, and Brant

Season Dates: Open September 20, through November 30, 2006.

Daily Bag and Possession Limits: Five birds and the possession limit is twice the daily bag limit.

Mourning Doves, Rails, Snipe, and Woodcock

Season Dates: Open September 1, through November 14, 2006.

Daily Bag and Possession Limits: 12 ducks, including no more than 2 pintail, 2 canvasback, 1 hooded merganser, 3 black ducks, 3 wood ducks, 3 redheads, and 6 mallards (only 3 of which may be hens). The possession limit is twice the daily bag limit.

Canada Geese

Season Dates: Open September 1, through February 8, 2007.

Daily Bag and Possession Limits: Five Canada geese and possession limit is twice the daily bag limit.

Woodcock

Season Dates: Open September 1, through November 14, 2006.

Daily Bag Limit: Five woodcock.

General: Possession limits are twice the daily bag limits. Hunting hours are double the daily bag limit, except on the opening day of the season, when the possession limit equals the daily bag limit, unless otherwise noted above.

D. Tribal members hunting in Michigan will comply with tribal codes that contain provisions parallel to Michigan law regarding duck blinds and decoys.

(j) The Little Traverse Bay Bands of Odawa Indians, Petoskey, Michigan (Tribal Members Only)

Ducks

Daily Bag Limits: 12 ducks, including no more than 6 mallards (only 3 of which may be hens), 3 black ducks, 3 redheads, 3 wood ducks, 2 pintail, 1 hooded merganser, and 2 canvasback.

Coots and Gallinules

Season Dates: Same as ducks. Daily Bag Limits: 12.

Canada Geese

Season Dates: Open September 1, 2006, through February 8, 2007.

Daily Bag Limit: Five geese.

White-Fronted Geese, Snow Geese, and Brant

Season Dates: Open September 1, through November 30, 2006.

Daily Bag Limit: 10 of each species.

Sora Rails, Snipe, and Mourning Doves

Season Dates: Open September 1, through November 14, 2006.

Daily Bag Limit: 10 of each species.

Woodcock

Season Dates: Open September 1, through November 14, 2006.

Daily Bag Limit: Five woodcock.

General: Possession limits are twice the daily bag limits.

(k) Lower Brule Sioux Tribe, Lower Brule Reservation, Lower Brule, South Dakota (Tribal Members and Nontribal Hunters)

Tribal Members

Youth Waterfowl Hunt

Season Dates: Open September 23, through September 24, 2006.

Daily Bag and Possession Limits: Six ducks, including no more than five mallards (only one of which may be a hen), three scaup, one mottled duck, two redheads, two wood ducks, one canvasback, and one pintail. Coot daily bag limit is 15. Merganser daily bag limit is five, including no more than one hooded merganser. The possession limit is twice the daily bag limit.
Nontribal Hunters

Youth Waterfowl Hunt

Season Dates: Open September 23, through September 24, 2006.

Daily Bag and Possession Limits: Five ducks, including no more than five mallards (only one of which may be a hen), three scaup, one mottled duck, two redheads, two wood ducks, one pintail, and one canvasback. Coot daily bag limit is 15. Merganser daily bag limit is five, including no more than one hooded merganser. The possession limit is twice the daily bag limit.

(l) Makah Indian Tribe, Neah Bay, Washington (Tribal Members)

Band-Tailed Pigeons

Season Dates: Open September 1, through October 31, 2006.

Daily Bag Limit: Two band-tailed pigeons.

Ducks and Coots

Daily Bag Limit: Seven ducks including no more than one redhead, one pintail, and one canvasback. The seasons on wood duck and harlequin are closed.

Geese

Daily Bag Limit: Four. The seasons on Aleutian and dusky Canada geese are closed.

General

All other Federal regulations contained in 50 CFR part 20 would apply. The following restrictions are also proposed by the Tribe: (1) As per Makah Ordinance 44, only shotguns may be used to hunt any species of waterfowl. Additionally, shotguns must not be discharged within 0.25 miles of an occupied area; (2) Hunters must be eligible, enrolled Makah tribal members and must carry their Indian Treaty Fishing and Hunting Identification Card while hunting. No tags or permits are required to hunt waterfowl; (3) The Cape Flattery area is open to waterfowl hunting, except in designated wilderness areas, or within 1 mile of Cape Flattery Trail, or in any area that is closed to hunting by another ordinance or regulation; (4) The use of live decoys and/or baiting to pursue any species of waterfowl is prohibited; (5) Steel or bismuth shot only for waterfowl is allowed; the use of lead shot is prohibited; (6) The use of dogs is permitted to hunt waterfowl.

(m) Navajo Indian Reservation, Window Rock, Arizona (Tribal Members and Nontribal Hunters)

Band-Tailed Pigeons

Season Dates: Open September 1, through September 30, 2006.

Daily Bag and Possession Limits: 5 and 10 pigeons, respectively.

Mourning Doves

Season Dates: Open September 1, through September 30, 2006.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: Tribal and nontribal hunters will comply with all basic Federal migratory bird hunting regulations in 50 CFR part 20, regarding shooting hours and manner of taking. In addition, each waterfowl hunter 16 years of age or over must carry on his/her person a valid Migratory Bird Hunting and Conservation Stamp (Duck Stamp) signed in ink across the face. Special regulations established by the Navajo Nation also apply on the reservation.

(n) Oneida Tribe of Indians of Wisconsin, Oneida, Wisconsin (Tribal Members Only)

Ducks (Including Mergansers)

Daily Bag and Possession Limits: Six, including no more than six mallards (three hen mallards), six wood ducks, one redhead, two pintail, and one hooded merganser. The possession limit is twice the daily bag limit.

Geese

Season Dates: Open September 23, through November 17, and open November 27, through December 31, 2006.

Daily Bag and Possession Limits: Three and Six Canada geese, respectively. Hunters will be issued three tribal tags for geese in order to monitor goose harvest. An additional three tags will be issued each time birds are registered. A seasonal quota of 150 birds is adopted. If the quota is reached before the season concludes, the season will be closed at that time.

Woodcock

Season Dates: Open September 1, through November 17, 2006.

Daily Bag and Possession Limits: 5 and 10 woodcock, respectively.

Band-Tailed Pigeon

Season Dates: Open September 1, through November 12, 2006.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: Tribal member shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontribal members hunting on the Reservation or on lands under the jurisdiction of the Tribe must comply with all State of Wisconsin regulations, including season dates, shooting hours, and bag limits which differ from tribal member seasons. Tribal members and nontribal hunters hunting on the Reservation or on lands under the jurisdiction of the Tribe will observe all basic Federal migratory bird hunting regulations found in 50 CFR part 20, with the following exceptions: tribal members are exempt from the purchase of the Migratory Waterfowl Hunting and Conservation Stamp (Duck Stamp); and shotgun capacity is not limited to three shells.

(o) Skokomish Tribe, Shelton, Washington (Tribal Members Only)

Ducks and Mergansers

Season Dates: Open September 16, through December 31, 2006.

Daily Bag and Possession Limits: Seven ducks, including no more than two hen mallards, one pintail, one canvasback, one harlequin, and two redheads. Possession limit is twice the daily bag limit.

Geese

Season Dates: Open September 16, through December 31, 2006.

Daily Bag and Possession Limits: Four geese, and may include no more than three light geese. The season on Aleutian Canada geese is closed. Possession limit is twice the daily bag limit.

Coots

Season Dates: Open September 16, through December 31, 2006.

Daily Bag and Possession Limits: 25 and 50 coots, respectively.

Mourning Doves

Season Dates: Open September 16, through December 31, 2006.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

Snipe

Season Dates: Open September 16, through December 31, 2006.

Daily Bag and Possession Limits: 8 and 16 snipe, respectively.
General Conditions: All hunters authorized to hunt migratory birds on the reservation must obtain a tribal hunting permit from the respective Tribe. Hunters are also required to adhere to a number of special regulations available at the tribal office.

(p) Squaxin Island Tribe, Squaxin Island Reservation, Shelton, Washington (Tribal Members Only)

Ducks

Daily Bag and Possession Limits: Five ducks, which may include only one canvasback. The season on harlequin ducks is closed. Possession limit is twice the daily bag limit.

Geese

Daily Bag and Possession Limits: Four geese, and may include no more than two snow geese. The season on Aleutian and cackling Canada geese is closed. Possession limit is twice the daily bag limit.

Brant

Season Dates: Open September 1, through December 31, 2006.

Daily Bag and Possession Limits: Two and four brant, respectively.

Coots

Daily Bag Limits: 25 coots.

Snipe

Daily Bag and Possession Limits: 8 and 16 snipe, respectively.

Band-Tailed Pigeons

Season Dates: Open September 1, through December 31, 2006.

Daily Bag and Possession Limits: 5 and 10 pigeons, respectively.

General Conditions: All tribal hunters must obtain a Tribal Hunting Tag and Permit from the Tribe’s Natural Resources Department and must have the permit, along with the member’s treaty enrollment card, on his or her person while hunting. Shooting hours are one-half hour before sunrise to one-half hour after sunset, and steel shot is required for all migratory bird hunting. Other special regulations are available at the tribal office in Shelton, Washington.

(q) Tulalip Tribes of Washington, Tulalip Indian Reservation, Marysville, Washington (Tribal Members and Nontribal Hunters)

Tribal Members

Ducks (Including Coots and Mergansers)

Daily Bag and Possession Limits: 7 and 14 ducks, respectively, except that bag and possession limits may include no more than 2 female mallards, 1 pintail, 4 scaup, and 2 redheads.

Geese

Daily Bag and Possession Limits: 7 and 14 geese, respectively; except that the bag limits may not include more than 2 brant and 1 cackling Canada goose. For those tribal members who engage in subsistence hunting, the Tribes set a maximum annual bag limit of 365 ducks and 365 geese.

Snow Goose

Daily Bag Limit for Snow Geese: 8.

General Conditions: All hunters on Tulalip Tribal lands are required to adhere to shooting hour regulations set at one-half hour before sunrise to sunset, special tribal permit requirements, and a number of other tribal regulations enforced by the Tribe. Nontribal hunters 16 years of age and older, hunting pursuant to Tulalip Tribes’ Ordinance No. 67, must possess a valid Federal Migratory Bird Hunting and Conservation Stamp and a valid State of Washington Migratory Waterfowl Stamp. Both stamps must be validated by signing across the face of the stamp. Other tribal regulations apply, and may be obtained at the tribal office in Marysville, Washington.

(r) Upper Skagit Indian Tribe, Sedro Woolley, Washington (Tribal Members Only)

Mourning Dove

Season Dates: Open September 1, through December 31, 2006.

Daily Bag and Possession Limits: 12 and 15 mourning doves, respectively.

Tribal members must have the tribal identification and harvest report card on their person to hunt. Tribal members hunting on the Reservation will observe all basic Federal migratory bird hunting regulations found in 50 CFR part 20, except shooting hours would be one-half hour before official sunrise to one-half hour after official sunset.

(s) Wampanoag Tribe of Gay Head, Aquinnah, Massachusetts (Tribal Members Only)

Canada Goose

Season Dates: Open September 11, and through September 25, and open November 1, through February 28, 2007.

Daily Bag Limits: 5 Canada geese during the first period, 3 during the second.

Snow Goose

Daily Bag Limits: 15 snow geese.

General Conditions: Shooting hours are one-half hour before sunrise to sunset. Nontoxic shot is required. All basic Federal migratory bird hunting regulations contained in 50 CFR part 20 will be observed.

(t) White Earth Band of Ojibwe, White Earth, Minnesota (Tribal Members Only)

Ducks and Mergansers

Season Dates: Open September 16, through December 17, 2006.

Daily Bag Limit for Ducks: 10 ducks, including no more than 2 mallards and 1 canvasback.

Daily Bag Limit for Mergansers: Five mergansers, including no more than two hooded mergansers.

Geese

Season Dates: Open September 1, through September 29, 2006, and open September 30, through December 17, 2006.

Daily Bag Limit: Eight geese through September 29 and five thereafter.

Coots

Season Dates: Open September 2, through November 30, 2006.

Daily Bag Limit: 20 coots.

Sora and Virginia Rails

Season Dates: Open September 2, through November 30, 2006.

Daily Bag Limit: 25 sora and Virginia rails, singly or in the aggregate.

Common Snipe and Woodcock

Season Dates: Open September 2, through November 30, 2006.

Daily Bag Limit: 10 snipe and 10 woodcock.

Mourning Dove

Season Dates: Open September 2, through November 30, 2006.

Daily Bag Limit: 25 doves.

General Conditions: Shooting hours are one-half hour before sunrise to one-half hour after sunset. Nontoxic shot is required.
(u) White Mountain Apache Tribe, Fort Apache Indian Reservation, Whiteriver, Arizona (Tribal Members and Nontribal Hunters)

Band-Tailed Pigeons (Wildlife Management Unit 10 and Areas South of Y–70 and Y–10 in Wildlife Management Unit 7, Only)

Season Dates: Open September 1, through September 15, 2006.

Daily Bag and Possession Limits: Three and six pigeons, respectively.

Mourning Doves (Wildlife Management Unit 10 and Areas South of Y–70 and Y–10 in Wildlife Management Unit 7, Only)

Season Dates: Open September 1, through September 15, 2006.

Daily Bag and Possession Limits: 10 and 20 doves, respectively.

General Conditions: All nontribal hunters hunting band-tailed pigeons and mourning doves on Reservation lands shall have in their possession a valid White Mountain Apache Daily or Yearly Small Game Permit. In addition to a small game permit, all nontribal hunters hunting band-tailed pigeons must have in their possession a White Mountain Special Band-tailed Pigeon Permit. Other special regulations established by the White Mountain Apache Tribe apply on the reservation. Tribal and nontribal hunters will comply with all basic Federal migratory bird hunting regulations in 50 CFR part 20 regarding shooting hours and manner of taking.

Dated: September 13, 2006.

David M. Verhey,
Acting Assistant Secretary for Fish and Wildlife and Parks.
