verifications of tenant incomes that are required to determine program eligibility and rental assistance amounts. HUD has implemented secure electronic facilities for transmitting SS and SSI benefits data to all POAs.

(2) Verification of SWICA Data. HUD may disclose matching results for SWICAs wage and unemployment claim data directly to PHAs. The comparison of SWICA data and the tenant-reported data will reveal whether income verification is necessary. If tenant contests the accuracy of the SWICA reported information, the PHA must then obtain wage information directly from the tenant’s employers, including information from prior years, when appropriate. The SWICA unemployment claim data must be verified with the tenant. Verification of the income data with employers would only be required when the tenant disputes the SWICA data.

B. Administrative or Legal Actions

Regarding all the matching described in this notice, HUD anticipates that POAs will take appropriate action in consultation with tenants to:

(1) Resolve income disparities between tenant-reported and independent income source data; and

(2) Use correct income amounts in determining housing rental assistance. POAs must compute the rent in full compliance with all applicable occupancy regulations. POAs must ensure that they use the correct income and correctly compute the rent. POAs may not suspend, terminate, reduce, or make a final denial of any rental housing assistance to any tenant as the result of information produced by this matching program until: (a) The tenant has received notice from the POA of its findings and has been informed of the opportunity to contest such findings; and (b) either the notice period provided in applicable regulations of the program, or 30 days, whichever is later, has expired. In most cases, POAs will resolve income discrepancies in consultation with tenants. Additionally, serious, which POAs, HUD Program staff, or the HUD OIG verify, should be referred for full investigation and appropriate civil and/or criminal proceedings.

IV. Records To Be Matched

SSA will conduct the matching of tenant SSNs and additional identifiers (such as surnames and dates of birth) to tenant data that HUD supplies from its system of records known as the Tenant Housing Assistance Program, and Contract Verification Data (HUD/H–11). Within HUD, this system of records includes two automated systems known as the Multifamily Tenant Characteristics System (a system for programs under the Office of the Assistant Secretary for Public and Indian Housing) and the Tenant Rental Assistance Certification System (a system for programs under the Office of the Assistant Secretary for Housing—Federal Housing Commissioner). POAs may provide HUD with the tenant data that is included in HUD/H–11. The SSA will match the HUD/H–11 records to the SSA’s Earnings Recording and Self-Employment Income System (HHS/SSA/OSR, 09–60–0050) (Earnings Record); Master Beneficiary Record (HHS/SSA/OSR, 09–60–0090) (MBR); and Supplemental Security Income Record (HHS/SSA/OSR, 09–60–0103) (SSR). HUD will place matching data into its system of records known as the Tenant Eligibility Verification Files (HUD/REAC–1). The HUD/REAC–1 records are specifically exempt from certain provisions of the Privacy Act, as described in notices published on February 28, 1994 (59 FR 9406) and March 30, 1994 (59 FR 14869). HUD may also coordinate SWICA income computer matches for its rental assistance programs using tenant SSNs and surnames. SWICAs will match tenant records to machine-readable files of quarterly wage data and unemployment insurance benefit data. Results from this matching will be provided to HUD or PHAs, which will then determine whether tenants have unreported or underreported income. The matching will be done in accordance with a written agreement between the SWICA and HUD. Tenant data may be matched to the SSA’s Master Files of Social Security Number Holders (HHS/SSA/OSR, 09–60–0058) and Death Master Files for the purpose of validating SSNs contained in tenant records. These records will also be used to identify tenants, and household members who are six (6) years of age and over to identify noncompliance with program eligibility requirements. HUD will coordinate tenant SSNs provided by POAs to reveal duplicate SSNs and potential duplicate housing assistance.

V. Period of the Match

The computer matching program will be conducted according to agreements between HUD and the SSA and SWICA. The computer matching agreements for the planned matches will terminate either when the purpose of the computer matching program is accomplished, or 18 months from the date the agreement is signed, whichever comes first. The agreements may be extended for one 12-month period, with the mutual agreement of all involved parties, if the following conditions are met:

(1) Within three months of the expiration date, all Data Integrity Boards review the agreement, find that the program will be conducted without change, and find a continued favorable examination of benefit/cost results; and

(2) All parties certify that the program has been conducted in compliance with the agreement.

The agreement may be terminated, prior to accomplishment of the computer matching purpose or 18 months from the date the agreement is signed (whichever comes first), by the mutual agreement of all involved parties within 30 days of written notice.

Notice of Availability of the Assessment Plan: Lawrenceville, IL Former Indian Refinery Natural Resource Damage Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 30-day comment period.

SUMMARY: Notice is given that the document titled “Assessment Plan: Lawrenceville, IL Former Indian Refinery NRDA” (“The Plan”) is available for public review and comment. The U.S. Department of the Interior and the State of Illinois are Trustees for natural resources considered in this assessment, pursuant to subpart G of the National Oil and Hazardous Substances Pollution Contingency Plan and Executive Order 12580. Interested members of the public are invited to review and comment on the Plan.

DATES: Written comments on the Plan must be submitted by November 6, 2006.

ADDRESSES: Requests for copies of the Plan may be made to Mr. Tom Heavisides, Contaminant Assessment Section, Illinois Department of Natural Resources, One Natural Resources Way, Springfield, IL 62702–1271. This Assessment is also available on our Web
site at: http://www.fws.gov/midwest/LawrencevilleNRDA/.

Comments on the Plan should be sent to Tom Heavisides of the Illinois Department of Natural Resources at the address listed above.

SUPPLEMENTARY INFORMATION: The Trustees are following the guidance of the Natural Resource Damages Assessment Regulations found at 43 CFR part 11. The Trustees are undertaking an assessment of damages resulting from the suspected injury to natural resources at the Former Indian Refinery Site in Lawrence County, IL which have been exposed to hazardous substances released into the environment. It is suspected that this exposure has caused injury and resultant damages to trust resources. The injury and resultant damages will be assessed under the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9601 et seq.), as amended, and the Clean Water Act, as amended (33 U.S.C. 1251 et seq.). The Plan addresses the Trustees’ overall assessment approach and utilizes existing data. Plan addenda may be prepared by the Trustees to provide public notice of additional data collection activities.

All written comments will be considered by the Trustees and included in the Report of Assessment, at the conclusion of the assessment process.

Robyn Thorsen,
Regional Director, Region 3.
