DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Draft Environmental Assessment (EA) for “Guidelines for Living With Florida Panthers and the Interagency Florida Panther Response Plan” and Notice of Receipt of an Application for Amendment to an Endangered Species Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of Availability; receipt of application.

SUMMARY: The Florida panther (Puma concolor coryi) is one of the rarest large mammals in the United States. The panther is protected as an endangered species under the Endangered Species Act (Act) and Florida statutes. Due to the panther’s potential for extinction, conflicts with humans raise issues that require careful consideration and action such that the intent and ability to conserve the species is unaltered while the safety of the public remains paramount. We announce the availability of an Environmental Assessment (EA) that considers alternatives for managing panther-human conflicts. The alternatives are intended to result in nonsignificant impacts to panthers, humans, and the environment.

The public is also invited to comment on an application for amendment to a permit to conduct certain activities with endangered and threatened species. This notice is provided under section 10(c) of the Act.

DATES: Written comments on the EA should be sent to the Service’s Field or Regional Office (see ADDRESSES) and should be received on or before July 24, 2006.

Written comments and/or data must be received on the application for amendment to the Endangered Species Permit at the address given below, by July 24, 2006.

ADDRESSES: Layne Hamilton, Refuge Manager, Florida Panther and Ten Thousand Islands National Wildlife Refuges, 3860 Tollgate Blvd., Suite 300, Naples, Florida 34114, or Southeast Regional Office, Fish and Wildlife Service, 1875 Century Boulevard, Suite 420, Atlanta, Georgia 30345 (Attn: Elizabeth Souheaver). Persons wishing to review the Environmental Assessment may obtain a copy on the Internet at http://www.fws.gov/verobeach. They may also obtain a copy by writing the Service’s Southeast Regional Office, Atlanta, Georgia (see ADDRESSES.) Please reference the Environmental Assessment associated with an interagency-developed management guidelines in such comments. You may mail comments to the Service’s Regional Office (see ADDRESSES). You may also comment via electronic mail (e-mail) to pantherresponseplan@fws.gov. Please submit comments over the internet as an ASCII file avoiding the use of special characters and any form of encryption. Please also include your name and return address in your internet message. If you do not receive a confirmation from us that we have received your internet message, contact us directly at either telephone number listed under FOR FURTHER INFORMATION CONTACT. Finally, you may hand deliver comments to either Service office listed under ADDRESSES. Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent’s identity, as allowable by law. If you wish to withhold your name and address, you must state this prominently at the beginning of your comments. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: Florida panthers occur primarily in southern Florida, and most individuals reside south of Lake Okeechobee. Recovery actions over the past 25 years, particularly genetic augmentation initiated in 1995, enabled the population from 30–50 animals to 80–100 animals in 2005. During this same period, the Florida human
population has grown 223 percent, from about 5 million to over 16 million people. Because of increases in numbers of people and panthers, urban/suburban areas now interface with panther habitat, increasing the possibility of panther-human interactions. Management guidelines are needed to provide more definitive guidance to respond and manage panther and human interactions and to educate the public about appropriate behavior when living and recreating in panther habitat.

Three alternatives were analyzed. Alternative A (Preferred Action) proposes managing panther-human interactions with an interagency response team and an established plan that prioritizes public safety and evaluates each situation by analyzing panther behavior and human activity. Alternative B does not utilize an interagency team or a response plan, but responds to panther-human interactions on a case-by-case basis without established protocols or guidelines. Alternative C includes a response team and plan that differs from Alternative A by providing rigid protocols based on frequency of panther sightings and proximity to human-occupied structures, without considering panther behavior or influences of human activity on panther behavior. In accordance with mandates established under the National Environmental Policy Act, the Fish and Wildlife Service and the National Park Service are required to consider a full range of reasonable alternatives for addressing and responding to public issues, management concerns, and resource conservation opportunities associated with issues arising from panther-human interactions.

The Service has made a preliminary determination that the preferred management plan is not a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of the National Environmental Policy Act. This preliminary information may be revised due to public comments received in response to this notice and is based on information contained in the Environmental Assessment.

The Service will evaluate the comments submitted thereon to determine whether the Environmental Assessment meets the issuance criteria requirements of section 10(a)(1)(B) of the Act (16 U.S.C. 1531 et seq.). By conducting an intra-Service section 7 consultation, the Service will also evaluate whether issuance of the section 10(a)(1)(B) ITP would comply with section 7 of the Act. The results of this consultation, in combination with the above findings, will be used in the final analysis to determine whether or not to issue the ITPs.

**Application for Amendment to an Endangered Species Permit**

Applicant: Florida Fish and Wildlife Conservation Commission, TE051553–3

The applicant requests authorization to take (capture, harass, remove) the Florida panther (Puma (=Felis) concolor coryi) while implementing the “Guidelines for Living with Florida Panthers and the Interagency Florida Panther Response Plan.” The proposed activities would occur throughout the species’ range in Florida.

**Public Comments**

Authority: This notice is provided pursuant to Section 10 of the Endangered Species Act and National Environmental Policy Act regulations (40 CFR 1506.6).

Dated: May 19, 2006.

Cynthia K. Dohner,
Acting Regional Director, Southeast Region.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management

[NV–055–5853–EU]

Notice of Realty Action; Modified Competitive Sale of Public Lands in Clark County, NV, N–79694

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of Realty Action.

SUMMARY: The Bureau of Land Management (BLM) proposes to sell public lands within the City of North Las Vegas in Clark County, Nevada. These lands, consisting of 20.42 acres more or less (10.42 acres considered developable) have been authorized for disposal under the Southern Nevada Public Land Management Act of 1998 (112 Stat. 2343), as amended by the Clark County Conservation of Public Land and Natural Resources Act of 2002 (116 Stat. 1994) (hereinafter “SNPLMA”). The land will be offered for sale utilizing modified competitive bidding procedures in accordance with the applicable provisions of Sections 203 and 209 of the Federal Land Policy and Management Act of 1976 (FLPMA) (43 U.S.C. 1713 and 1719), respectively, its implementing regulations, and in accordance with 43 CFR 2711.3–2, and BLM land sale and mineral conveyance regulations at 43 CFR Parts 2710 and 2720.

DATES: Comments regarding the proposed sale must be received by the BLM on or before July 10, 2006. Comments regarding the environmental assessment (EA) must be received by the BLM on or before July 10, 2006. Sealed bids must be received by July 24, 2006.

ADDRESSES: Comments regarding the proposed sale or EA should be addressed to: Field Manager, Las Vegas Field Office, Bureau of Land Management, 4701 N. Torrey Pines Drive, Las Vegas, Nevada 89103.

More detailed information regarding the proposed sale and the land involved may be reviewed during normal business hours (7:30 a.m. to 4:30 p.m.) at the Las Vegas Field Office (LVFO).

FOR FURTHER INFORMATION CONTACT: You may contact Anna Wharton, Supervisory Realty Specialist at (702) 515–5082 or by e-mail at anna_wharton@nv.blm.gov. You may also call (702) 515–5000 and ask to have your call directed to a member of the Sales Team.

SUPPLEMENTARY INFORMATION: 43 CFR 2711.3–2(a) states in part that “public lands may be offered for sale utilizing modified competitive bidding procedures when the authorized officer determines it is necessary to assure equitable distribution of land among purchasers or to recognize equitable considerations or public policies.”

1. Modified competitive bidding includes, but is not limited to: (i) Offering to designated bidders the right to meet the highest bid. Refusal or failure to meet the highest bid shall constitute a waiver of such bidding provisions; or (ii) A limitation of persons permitted to bid on a specific tract of land offered for sale; or (iii) Offering to designated bidders the right of first refusal to purchase the lands at fair market value. Failure to accept an offer to purchase the offered lands within the time specified by the authorized officer shall constitute a waiver of this preference consideration.

2. Factors that shall be considered in determining when modified competitive bidding procedures shall be used, include but are not limited to: Needs of State and/or local government, adjoining landowners, historical users, and other needs for the tract * * * *’”

The City of North Las Vegas (CNLV) has proposed that the 20.42 acre parcel be sold to assist in addressing critical transportation needs adjacent to the Las Vegas Beltway and a major project of public importance on adjoining private land. This small BLM parcel is vital to the CNLV’s transportation and public planning efforts. The adjoining
