This notice is provided pursuant to section 10(c) of the Act. We will evaluate the permit application, the proposed HCP, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. If the requirements are met, we will issue a permit to the City of Fontana for the incidental take of the Delhi Sands flower-loving fly from widening of Jurupa Avenue between Sierra and Tamarind Avenues in the City of Fontana, San Bernardino County, California.

Dated: June 29, 2007.
Jim A. Bartel,
Field Supervisor, Carlsbad Fish and Wildlife Office, Carlsbad, California.

BILLING CODE 4310–55–P

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
Notice of Availability, Final Restoration Plan

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI), as the sole natural resource trustee, announces the release of the Final Restoration Plan (RP) for the Cortese Landfill Superfund Site (Site). As a result of remedial activities and off-Site migration of Site-related contaminants, 1.6 acres of wetlands were destroyed and/or degraded. Adversely affected natural resources include waterfowl, wading birds, hawks, woodpeckers, swallows, migratory songbirds, invertebrates, reptiles, and amphibians. In addition, the section of the Upper Delaware River watershed near the Site hosts the largest population of wintering bald eagles in the Northeast. An embayment of the Delaware River adjacent to the Site provides feeding and/or spawning habitat for forage fish, American shad, striped bass, and American eel; the funds available from this settlement for restoration activities total approximately $85,000. The restoration project selected for implementation in the Final RP involves wet meadow/wetland restoration and protection.

The Final RP presents the preferred alternative consisting of a restoration project that compensates for injuries to natural resources caused by contaminant releases and remedial activities associated with the Site.

ADDRESSES: Requests for copies of the RP may be made to: U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker road, Cortland, New York 13045.

FOR FURTHER INFORMATION CONTACT: Ken Karwowski, Environmental Contaminants Program, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Interested parties may also contact Mr. Karwowski by telephone at 607–753–9334 or by electronic mail at the following address: Ken.Karwowski@fws.gov for further information.

SUPPLEMENTARY INFORMATION: In May 1996, a natural resource damage settlement was achieved for the Cortese Landfill Superfund Site. The Service, on behalf of the DOI, was the sole settling natural resource Trustee. The funds available from the settlement for restoration activities total approximately $85,000. The RP is being released in accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980 as amended, (CERCLA) (42 U.S.C. 9601 et seq.), the Department of the Interior’s Natural Resource Damage Assessment Regulations (43 CFR, part 11), and the National Environmental Policy Act (NEPA) 45 U.S.C. 4371 et seq., and 42 CFR part 1500. The Final RP is intended to describe the Trustee’s selected alternative to restore natural resources injured as a result of the discharge of hazardous substances at or from the Site.

Based on an evaluation of various restoration alternatives, the preferred alternative consists of a restoration project involving wet meadow/wetland restoration and protection.

Interested members of the public are invited to review the RP. Copies of the RP are available for review at the Service’s New York Field Office at 3817 Luker Road, Cortland, New York. Additionally, the RP will be available for review at the following Web site link (http://nyfo.fws.gov/cc/CorteseFRP.pdf). Written comments on the Draft RP were considered and addressed in the Final RP.

Author: The primary author of this notice is Ken Karwowski, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045.

DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service
Lake Umbagog National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

SUMMARY: The Fish and Wildlife Service (Service) announces the availability for review of the Draft Comprehensive Conservation Plan and Environmental Impact Statement for Lake Umbagog National Wildlife Refuge (NWR). The Service prepared the Draft CCP/EIS to describe the Trustee’s selected alternative to restore natural resources injured as a result of the discharge of hazardous substances at or from the Site.

Based on an evaluation of various restoration alternatives, the preferred alternative consists of a restoration project involving wet meadow/wetland restoration and protection.

Interested members of the public are invited to review the Draft CCP/EIS. Copies of the Draft CCP/EIS are available for review at the Service’s New York Field Office at 3817 Luker Road, Cortland, New York. Additionally, the Draft CCP/EIS will be available for review at the following Web site link (http://nyfo.fws.gov/ccps.htm). Written comments on the Draft CCP/EIS were considered and addressed in the Final CCP/EIS.
