Total Estimated Burden Hours: 6,250.
Status: Extension of a currently collection.

Dated: June 8, 2007.
Lillian L. Deitzer,
Departmental Paperwork Reduction Act Officer, Office of the Chief Information Officer.

EXTENSION OF COMMENT PERIOD

SUPPLEMENTARY INFORMATION:

DATES:

SUMMARY:

ACTION: Extension of comment period.

BACKGROUND

Spotted Owl (Strix occidentalis caurina)

A DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Draft Recovery Plan for the Northern Spotted Owl (Strix occidentalis caurina)

ACTION: Extension of comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce a 60-day extension of the comment period for the Draft Recovery Plan for the Northern Spotted Owl (Strix occidentalis caurina) (northern spotted owl).

DATES: Comments on the draft recovery plan must now be received on or before August 24, 2007.

ADDRESSES: Comments on the plan can be sent electronically to NSOplan@fws.gov, or mailed to NSO Recovery Plan, U.S. Fish and Wildlife Service, Ecological Services, 911 NE 11th Avenue, Portland, Oregon 97232.

Copies of the draft recovery plan will be available by request from the same Portland address (telephone: 503–231–2194). An electronic copy of the draft recovery plan is also available at http://www.fws.gov/pacific/ecoservices/endangered/recovery/plans.html.

SUPPLEMENTARY INFORMATION:

Background

Restoring endangered or threatened animals and plants to the point where they are again secure, self-sustaining members of their ecosystems is a primary goal of our endangered species program. The Endangered Species Act (16 U.S.C. 1531 et seq.) (ESA) requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Recovery plans help guide the recovery effort by describing actions considered necessary for the conservation of the species, establishing criteria for downlisting or delisting listed species, and estimating time and cost for implementing the measures needed for recovery.

Section 4(f) of the ESA requires that public notice, and an opportunity for public review and comment, be provided during recovery plan development. We will consider all information presented during the public comment period. Substantive comments on the recovery needs of the species or other aspects of recovery plan development may result in changes to the recovery plan. Substantive comments regarding recovery plan implementation may not necessarily result in changes to the recovery plan, but will be forwarded to appropriate Federal agencies or other entities so that they can take these comments into account during the course of implementing recovery actions. Individual responses to comments will not be provided.

The northern spotted owl inhabits structurally complex forests from southwest British Columbia through the Cascade Mountains and coastal ranges in Washington, Oregon, and California, as far south as Marin County. When the northern spotted owl was listed under the ESA as a threatened species on June 26, 1990, the major threats were identified as widespread loss and adverse modification of suitable habitat across the owl’s entire range and the inadequacy of existing regulatory mechanisms to conserve the owl. Currently, populations of northern spotted owls are declining, especially in the northern parts of the species’ range.

Scientific research and monitoring have reported that northern spotted owls generally rely on older forested habitats because such habitats contain the structures and characteristics required for nesting, roosting, and foraging. Recent landscape-level studies in several southern portions of the northern spotted owl’s range suggest a mosaic of forest conditions may result in good northern spotted owl habitat, though other studies have not reported that finding.

The most important threat currently facing the northern spotted owl is believed to be competition with the barred owl (Strix varia). Actions associated with addressing the barred owl threat were given the highest recovery priority, meaning the action “must be taken to prevent extinction or prevent the species from declining irreversibly in the foreseeable future.” Other important threats to the northern spotted owl continue to be loss of habitat quality and quantity as a result of past activities and disturbances, and ongoing and projected loss of habitat as a result of fire, logging and conversion of habitat to other uses.

The draft recovery plan provides two options for recovery, and we are seeking public comment on the effectiveness of both options to achieve recovery. Both options are based on the same underlying science, and contain essentially the same recovery goal, objectives, criteria, and actions. The options differ in that option 1 identifies (i.e., maps) the specific conservation area boundaries in which most of the recovery actions and criteria will be targeted. Option 2 does not designate specific conservation area boundaries, rather it provides a “rule set” that will help guide the Federal land management agencies when undertaking conservation actions for the northern spotted owl. Both options rely on Federal lands to provide the primary contribution for northern spotted owl recovery.

The intent of providing two options for public comment in a draft recovery plan is to promote open public discussion about how to successfully recover this species.

Public Comments Solicited

We are soliciting written comments on the draft recovery plan described. All comments received by the date specified above will be considered in the finalization of this plan. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

We would specifically appreciate comments on the following topics found in both options:

- The methods used to determine desired habitat percentages listed in Recovery Criterion 4. If recommendations are offered, respondents are asked to explain the scientific foundation supporting their comments;
- The biological need, design and feasibility of attempting to provide connectivity between the Olympic
Peninsula and central Washington northern spotted owl populations;
- The biological value in identifying conservation areas in southwest Washington and northwest Oregon;
- The practicality of Appendix E, which provides examples of how a salvage logging action (Recovery Action 22) may be implemented;
- The identified boundaries of the Managed Owl Conservation Areas (option 1 only) and the Conservation Support Areas;
- Methods for managing the threat posed by barred owls; and
- Ways to create incentives for private land owners and managers to support recovery of the northern spotted owl.

Authority
The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

David J. Wesley,
Acting Regional Director, Region 1, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management

[WO–250–1231–EB–24 1A]

Submission to Office of Management and Budget—Information Collection, OMB Control Number 1004–0119

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) has submitted a request for an extension of an approved information collection to the Office of Management and Budget (OMB) for approval.

DATES: The OMB is required to respond to this request within 60 days but may respond after 30 days. Submit your comments to OMB at the address below by July 16, 2007 to receive maximum consideration.

ADDRESSES: Send comments to the BLM, Interior Department Desk Officer (1004–0119), at OMB–OIRA via e-mail OIRA_DOCKET@omb.eop.gov or via facsimile at (202) 395–6566. Also please send a copy of your comments to BLM via Internet and include your name, address, and ATTN: 1004–0119 in your Internet message to comments_washington@blm.gov or via mail to: U.S. Department of the Interior, Bureau of Land Management, Mail Stop 401LS, 1849 C Street, NW., ATTN: Bureau Information Collection Clearance Officer (WO–630), Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: You may contact Shirleen Beshir to obtain copies and explanatory material on this information collection at (202) 452–5033. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) on 1–800–877–8330, 24 hours a day, seven days a week, to contact Ms. Beshir.

SUPPLEMENTARY INFORMATION: On June 21, 2006, the BLM published a notice in the Federal Register (71 FR 35696) requesting comments on the information collection. The comment period closed on August 21, 2006. The BLM did not receive any comments.

We are soliciting comments on the following:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;
(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;
(c) Ways to enhance the quality, utility, and clarity of the information collected; and
(d) Ways to minimize the information collection burden on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title: Permits for Recreation on Public Lands (43 CFR part 2930).

OMB Control Number: 1004–0119.

Abstract: The BLM manages the recreation use program on public lands according to the regulations at (43 CFR part 2930). These regulations implement the following statutes:
(1) The Land and Water Conservation Fund Act, as amended (16 U.S.C. 460l–6a, (b), (g));
(3) The Sentencing Reform Act (18 U.S.C. 3571); and
(4) 36 CFR part 71.

The BLM uses this information to approve and collect fees for recreation use on public lands.

Burden Estimate per Form: We estimate the completion time for this form and non-form information that is submitted on occasion to the BLM by individuals and the private sector as follows:

Burden hours information collected

<table>
<thead>
<tr>
<th>Number of actions per year</th>
<th>Burden hours per action</th>
<th>Total annual burden hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Special Recreation Application and Permit (Form 2930–1) and non-form information in 43 CFR subpart 2932</td>
<td>1,450</td>
<td>8</td>
</tr>
<tr>
<td>(b) 43 CFR subpart 2933; Non-form information to reserve a fee-use campground site, to collect recreation use fees, and obtain a recreation use permit</td>
<td>364,395</td>
<td>1</td>

Notice of Public Meeting, Alaska Resource Advisory Council

AGENCY: Bureau of Land Management, Alaska State Office, Interior.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Alaska Resource Advisory Council will meet as indicated below.

Annual Responses: 365,845.

Application Fee per Response: 0.

Annual Burden Hours: 375,995.

Dated: June 8, 2007.

Ted R. Hudson,
Bureau of Land Management, Acting Division Chief Regulatory Affairs.
