Sea polar bear population in Canada for personal, noncommercial use.

**Applicant:** Raymond T. Cuppy, Souderton, PA, PRT–156394.

The applicant requests a permit to import a polar bear (Ursus maritimus) sport hunted from the Lancaster Sound polar bear population in Canada for personal, noncommercial use.

**Dates:** Written comments should be received on or before August 6, 2007.

**ADDRESSES:** Comments should be addressed to the Field Supervisor, Fish and Wildlife Service, Carlsbad Fish and Wildlife Office, 6010 Hidden Valley Road, Carlsbad, CA 92011. Written comments may be sent by facsimile to (760) 918–0638.

FOR FURTHER INFORMATION CONTACT: Ms. Karen Goebel, Assistant Field Supervisor, Carlsbad Fish and Wildlife Office (see ADDRESSES); telephone: (760) 431–9440.

**SUPPLEMENTARY INFORMATION:**

Availability of Documents

Individuals wishing copies of the proposed HCP and EAS should immediately contact the Service by telephone at (760) 431–9440 or by letter to the Carlsbad Fish and Wildlife Office. Copies of the proposed HCP and EAS also are available for public inspection during regular business hours at the Carlsbad Fish and Wildlife Office (see ADDRESSES).

**Background**

Section 9 of the Act and its implementing Federal regulations prohibit the take of animal species listed as endangered or threatened. Take is defined under the Act as harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect listed animal species, or attempt to engage in such conduct (16 U.S.C. 1538). However, under section 10(a) of the Act, the Service may issue permits to authorize incidental take of listed species. “Incidental take” is defined by the Act as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species, respectively, are found in the Code of Federal Regulations at 50 CFR 17.22 and 50 CFR 17.32.

The applicant is seeking a permit for take of the Delhi Sands flower-loving fly (Rhaphiomidas terminatus abdominalis) associated with the proposed widening of Jurupa Avenue between Sierra and Tamarind avenues in the City of Fontana, San Bernardino County, California. A conservation program to mitigate for the project activities would be implemented as described in the proposed Jurupa Avenue Widening Project Low Effect Habitat Conservation Plan (proposed HCP), which would be implemented by the applicant.

We are requesting comments on the permit application and on the preliminary determination that the proposed HCP qualifies as a “Low-effect” Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act (NEPA) of 1969, as amended. The basis for this determination is discussed in the Environmental Action Statement (EAS) and the associated Low Effect Screening Form, which are also available for public review.

**DATES:** Written comments should be received on or before August 6, 2007.
This notice is provided pursuant to section 10(c) of the Act. We will evaluate the permit application, the proposed HCP, and comments submitted thereon to determine whether the application meets the requirements of section 10(a) of the Act. If the requirements are met, we will issue a permit to the City of Fontana for the incidental take of the Delphi Sands flower-loving fly from widening of Jurupa Avenue between Sierra and Tamarind Avenues in the City of Fontana, San Bernardino County, California.

Dated: June 29, 2007.

Jim A. Bartel,
Field Supervisor, Carlsbad Fish and Wildlife Office, Carlsbad, California.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability, Final Restoration Plan

AGENCY: U.S. Fish and Wildlife Service, Department of the Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), on behalf of the Department of the Interior (DOI), as the sole natural resource trustee, announces the release of the Final Restoration Plan (RP) for the Cortese Landfill Superfund Site (Site). As a result of remedial activities and off-Site migration of Site-related contaminants, 1.6 acres of wetlands were destroyed and/or degraded. Adversely affected natural resources include waterfowl, wading birds, hawks, woodpeckers, swallows, migratory songbirds, invertebrates, reptiles, and amphibians. In addition, the section of the Upper Delaware River watershed near the Site hosts the largest population of wintering bald eagles in the Northeast. An embayment of the watershed near the Site hosts the largest population of striped bass, and American eel. The habitat for forage fish, American shad, provides feeding and/or spawning grounds for migratory songbirds, invertebrates, birds, hawks, woodpeckers, swallows, reptiles, and amphibians. In addition, the section of the Upper Delaware River near the Site is home to populations of many species of reptiles and amphibians.

Based on an evaluation of various restoration alternatives, the preferred alternative consists of a restoration project involving wet meadow/wetland restoration and protection. Interested members of the public are invited to review the RP. Copies of the RP are available for review at the Service’s New York Field Office at 3817 Luker Road, Cortland, New York. Additionally, the RP will be available for review at the following Web site link: http://nysfws.fws.gov/ccps.htm. Written comments on the Draft RP were considered and addressed in the Final RP.

Author: The primary author of this notice is Ken Karwowski, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker road, Cortland, New York 13045.

Address: Requests for copies of the RP may be made to: U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker road, Cortland, New York 13045.

FOR FURTHER INFORMATION CONTACT: Ken Karwowski, Environmental Contaminants Program, U.S. Fish and Wildlife Service, New York Field Office, 3817 Luker Road, Cortland, New York 13045. Interested parties may also contact Mr. Karwowski by telephone at 607–753–9334 or by electronic mail at the following address: Ken_Karwowski@fws.gov for further information.

SUPPLEMENTARY INFORMATION: In May 1996, a natural resource damage settlement was achieved for the Cortese Landfill Superfund Site. The Service, on behalf of the DOI, was the sole settling natural resource Trustee. The funds available from the settlement for restoration activities total approximately $85,000. The RP is being released in accordance with the Comprehensive Environmental Response, Compensation and Liability Act of 1980 as amended, (CERCLA) (42 U.S.C. 9601 et seq.), the Department of the Interior’s Natural Resource Damage Assessment Regulations (43 CFR, part 11), and the National Environmental Policy Act of 1969 and the National Environmental Policy Act (NEPA) 45 U.S.C. 4371 et seq., and 42 CFR part 1500. The Final RP is intended to describe the Trustee’s selected alternative to restore natural resources injured as a result of the discharge of hazardous substances at or from the Site.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Lake Umbagog National Wildlife Refuge

AGENCY: Fish and Wildlife Service, Interior.

DATES: The Draft CCP/EIS will be available for public review and comment until close of business on August 20, 2007.

ADDRESSES: You may obtain copies of the draft CCP/EIS on compact diskette or in print by writing to Nancy McGarigal, Refuge Planner, U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, Massachusetts 01035, or by electronic mail at northeastplanning@fws.gov. You may also view the draft on the Web at http://library.fws.gov/ccps.htm. We plan to host public meetings in Errol, Berlin, and Concord, New Hampshire, and in Bethel and Augusta, Maine. We will post the details of each meeting approximately 2 weeks in advance, via our project mailing list, in local papers, and at the refuge.

FOR FURTHER INFORMATION CONTACT: For more information, or to get on the project mailing list, contact Nancy McGarigal, Refuge Planner, at the address above, by telephone at 413–253–8562, by fax at 413–253–8468, or by e-mail at Nancy_McGarigal@fws.gov.
