Department of the Interior

Fish and Wildlife Service

50 CFR Part 26
Public Access, Use, and Recreation Regulations for the Upper Mississippi River National Wildlife and Fish Refuge; Proposed Rule
DEPARTMENT OF THE INTERIOR
Fish and Wildlife Service

50 CFR Part 26
RIN 1018–AV43

Public Access, Use, and Recreation Regulations for the Upper Mississippi River National Wildlife and Fish Refuge

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), propose new regulations for the Upper Mississippi River National Wildlife and Fish Refuge (refuge) to govern existing general public use and recreation. If adopted, these changes would take effect in spring 2008 and would implement the recently completed comprehensive conservation plan (CCP) for the refuge. This proposed regulation would, if made final, codify many existing refuge regulations currently published in and by brochures, signs, maps, and other forms of public notice.

DATES: We must receive your comments on or before December 17, 2007.

ADDRESSES: Submit written comments to Refuge Manager, Upper Mississippi River National Wildlife and Fish Refuge, 51 East Fourth Street, Room 101, Winona, MN 55987. See “Request for Comments” under SUPPLEMENTARY INFORMATION for information on electronic submission. You may also request information on the refuge’s public use programs and the conditions that apply to them, or request copies of compatibility determinations or other information, at the above address.

FOR FURTHER INFORMATION CONTACT: Don Hultman, (507) 452–4232; Fax (507) 452–0851.

SUPPLEMENTARY INFORMATION: The Upper Mississippi River National Wildlife and Fish Refuge (refuge) encompasses 240,000 acres in a more-or-less continuous stretch of 261 miles of Mississippi River floodplain in Minnesota, Wisconsin, Iowa, and Illinois. Congress established the refuge in 1924 to provide a “refuge and breeding place” for migratory birds, fish, other wildlife, and plants. The refuge is perhaps the most important corridor of habitat in the central United States, due to its species diversity and abundance, and it is the most visited refuge in the United States, with 3.7 million annual visitors.

The development of an environmental impact statement (EIS) and CCP for the refuge began with a notice of intent to prepare the EIS, which we published in the Federal Register on May 30, 2002 (67 FR 37852). We followed with a notice of availability of our Draft EIS (April 28, 2005; 70 FR 22085), and we accepted public comments on the Draft EIS for 120 days. On October 7, 2005, we published a notice of intent to prepare a Supplement to the Draft EIS (70 FR 58738). We made the Supplement to the Draft EIS available on December 5, 2005 (70 FR 72462), and accepted public comments on that document for 60 days, extended to 90 days (January 17, 2006, 71 FR 2561). We offered public involvement through 46 public meetings and workshops attended by 4,500 persons in 14 different communities in 4 States during the 4-year planning process. In addition, we held or attended 80 other meetings with the States, other agencies, interest groups, and elected officials to discuss the Draft EIS, and mailed three different planning update newsletters to up to 4,900 persons or organizations on our planning mailing list. We also issued numerous news releases at various planning milestones, and held two press conferences.

On July 11, 2006, we published a notice of availability of our Final EIS (71 FR 39125), and we accepted public comments on the Final EIS for 30 days. On August 24, 2006, the Regional Director of the Midwest Region of the Fish and Wildlife Service signed the Record of Decision that documented the selection of Alternative E, the Preferred Alternative presented in the Final EIS. We published a notice of availability of that Record of Decision on November 2, 2006 (71 FR 64553).

In accordance with the Record of Decision, we prepared a CCP based on Alternative E. The CCP was approved on October 24, 2006 (71 FR 64553). We offered public involvement through various planning milestones, and held 14 different community meetings attended by 4,500 persons in 4 States, 46 public meetings and workshops attended by up to 4,900 persons or organizations, and 2 press conferences. We also mailed three planning update newsletters to up to 4,900 persons or organizations on our planning mailing list. We also issued numerous news releases at various planning milestones, and held two press conferences.

On October 17, 2007 (72 FR 51534), and we accepted public comments on that document for 60 days, extended to 90 days (January 17, 2006, 71 FR 2561). We offered public involvement through 46 public meetings and workshops attended by 4,500 persons in 14 different communities in 4 States during the 4-year planning process. In addition, we held or attended 80 other meetings with the States, other agencies, interest groups, and elected officials to discuss the Draft EIS, and mailed three different planning update newsletters to up to 4,900 persons or organizations on our planning mailing list. We also issued numerous news releases at various planning milestones, and held two press conferences.

This recreation regulation proposal implements the goals, objectives, and strategies spelled out in the CCP pertaining to wildlife observation, photography, interpretation, environmental recreation, and other forms of recreation, access, and use such as boating and camping.

The proposal also codifies current refuge-specific regulations contained in brochures and signs and on maps, fine-tunes the language of same for clarity and ease of enforcement, and generally modernizes the regulations for consistency with the principles of sound fish, wildlife, and recreation management.

Proposed regulations stemming from the CCP include the establishment of 4 new electric motor-only areas totaling 1,630 acres (1 such area of 222 acres already exists) and 8 new seasonal slow, no-wake areas totaling 9,370 acres. In electric motor-only areas, watercraft may only be powered by electric motors or nonmotorized means. In slow, no-wake areas from March 16 through October 31, watercraft must travel at slow, no-wake speed, and we prohibit airboats and hovercraft. These areas remain open to all forms of recreation, including hunting and fishing, and only the means of access changes to lessen wildlife and habitat disturbance and balance the needs of the estimated 3.7 million annual visitors to the refuge. Collectively, these areas account for 8 percent of the water area of the refuge, leaving 92 percent of the water area of the refuge open to watercraft without restriction.

Other regulations stemming from the CCP include a ban of glass food and beverage containers on beach areas and other lands of the refuge; clarifying the definition and requirements for camping and campsite sanitation; clarifying rules for fire and firewood use; and clarifying rules for vehicles, firearms, and domestic animals on the refuge.

The Administration Act authorizes the Secretary to allow uses of refuge areas, including wildlife-dependent and other recreation, upon a determination that such uses are compatible with the purposes of the refuge and National Wildlife Refuge System (Refuge System) mission. The action also must be in accordance with provisions of all laws applicable to the areas, developed in coordination with the appropriate State fish and wildlife agency(ies), and consistent with the principles of sound fish and wildlife management and administration. These requirements ensure that we maintain the biological integrity, diversity, and environmental health of the Refuge System for the
benefit of present and future generations of Americans.

The Secretary is required to prepare a CCP for each refuge and shall manage each refuge consistent with the CCP. Each CCP must identify and describe the refuge purposes; fish, wildlife, and plant populations; cultural resources; areas for administrative or visitor facilities; significant problems affecting resources and actions necessary; and opportunities for compatible wildlife-dependent recreation. We must also develop each CCP through consultation with the other States, agencies, and the public, and coordinate with applicable State conservation plans.

Each CCP is guided by the overarching requirement that we manage refuges to fulfill the purposes for which they were established and to carry out the mission of the Refuge System. In addition, the Improvement Act requires that we administer the Refuge System to provide for the conservation of fish, wildlife, and plants and their habitats, and to ensure their biological integrity, diversity, and environmental health.

We developed the CCP for the refuge in accordance with all requirements and in accordance with the consultation and public involvement provisions of the Improvement Act. This includes new compatibility determinations for interpretation, wildlife observation and photography, environmental education, beach-related uses, boating, camping, and other allowed recreation. We reference and list these compatibility determinations in Appendix E of the Final EIS. We then developed this proposed rule to implement portions of the CCP.

Plain Language Mandate

In this proposed rule, we comply with a Presidential mandate to use plain language in regulations. As examples, we use “you” to refer to the reader and “we” to refer to the Service, the word “allow” instead of “permit” when we do not require the use of a permit for an activity, and we use active voice whenever possible (i.e., “We allow camping on all lands and waters of the refuge” rather than “Camping is allowed on all lands and waters of the refuge”).

Statutory Authority

This document proposes to codify in the Code of Federal Regulations public use and recreation regulations that are applicable to the Upper Mississippi River National Wildlife and Fish Refuge. We are proposing this to implement the refuge CCP, better inform the general public of the regulations at the refuge, increase understanding and compliance with these regulations, and make enforcement of these regulations more efficient. In addition to finding these regulations in 50 CFR part 26, visitors will find them reiterated in literature distributed by the refuge and posted on signs at major access points. Visitors will also find the boundaries of closed areas or other restricted-use areas referenced in these regulations marked by specific signs.

This proposal includes cross-references to a number of existing regulations in 50 CFR parts 26, 27, and 32 to assist visitors with understanding safety and other legal requirements on refuges. This redundancy is deliberate, with the intention of improving safety and compliance in our general public use and recreation programs.

Request for Comments

You may comment on this proposed rule by any one of several methods:

1. You may comment via e-mail to: uppermississipriver@fws.gov. Please include: “Attn: Recreation Regs.” and your full name and return mailing address in your e-mail message (see “Public Availability of Comments,” below). If you do not receive a confirmation that we have received your e-mail message, contact us directly at (507) 452-4232.

2. You may mail or hand-deliver/courier your comments to: Refuge Manager, Upper Mississippi River National Wildlife and Fish Refuge, 51 East Fourth Street, Room 101, Winona, MN 55987.

3. You may fax comments to: Refuge Manager, Upper Mississippi River National Wildlife and Fish Refuge, at (507) 452-0851.

4. You may submit comments online at the Federal eRulemaking Portal at http://www.regulations.gov. Follow the instructions at that site for submitting comments.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Public Comment

Department of the Interior policy is, whenever practicable, to afford the public a meaningful opportunity to participate in the rulemaking process. During preparation of the refuge CCP, we used an extensive public information, outreach, and comment process, including 46 public meetings or workshops attended by 4,500 persons and 80 other meetings with State department of natural resources agencies, other agencies, interest groups, elected officials, and other Service and Department of Interior offices. We received and responded to a total of 3,230 written comments in the Final EIS. This document, and its publication as a proposed rule in the Federal Register, will provide an additional opportunity for comment during the 60-day comment period.

We believe that a 60-day comment period, through this broader publication following the earlier public involvement, gives the public sufficient time to comment. In addition, in order to continue to provide for previously authorized recreation opportunities while at the same time providing for adequate resource and visitor protection, we must be timely in providing modifications to recreation programs on refuges. We also need adequate time to prepare brochures and maps and to install signs to properly inform the public of pending changes.

If adopted, we will incorporate these proposed regulations into 50 CFR part 26.34 (Minnesota). Part 26 contains general provisions, and part 26.34 contains refuge-specific regulations for public use and recreation on refuges.

Clarity of This Rule

Executive Order (E.O.) 12866 requires each agency to write regulations that are easy to understand. We invite your comments on how to make this proposed rule easier to understand, including answers to questions such as the following: (1) Are the requirements in the rule clearly stated? (2) Does the rule contain technical language or jargon that interferes with its clarity? (3) Does the format of the rule (e.g., grouping and order of sections, use of headings, paragraphing) aid or reduce its clarity? (4) Would the rule be easier to understand if it were divided into more (but shorter) sections? (5) Is the description of the rule in the SUPPLEMENTARY INFORMATION section helpful to you in understanding the rule? (6) What else could we do to make
the proposed rule easier to understand?
Send a copy of any comments on how
we could make this proposed rule easier
to understand to: Office of Regulatory
Affairs, Department of the Interior,
Room 7229, 1849 C Street, NW.,
Washington, DC 20240. You may e-mail
your comments to: Execsec@ios.doi.gov.

Regulatory Planning and Review
In accordance with the criteria in E.O.
12866, we assert that this rule is not a
significant regulatory action. The Office
of Management and Budget (OMB)
makes the final determination under E.O.
12866.

a. This proposed rule would not have
an annual economic effect of $100
million or adversely affect an economic
sector, productivity, jobs, the
environment, or other units of the
government. A cost-benefit and full
economic analysis is not required.
However, a brief assessment follows to
clarify the costs and benefits associated
with this proposed rule.

The purpose of this proposed rule is
to implement public use and recreation
regulations on the Upper Mississippi
River National Wildlife and Fish Refuge
beginning with the spring 2008
recreation season. These regulations are
derived from and are consistent with the
CCP approved October 24, 2006. We
documented the environmental and
socioeconomic impacts of the CCP in the
Final EIS (available at http://
www.fws.gov/midwest/planning/
uppermiss).

Costs Incurred
Costs incurred by this proposed
regulation include sign-posting, leaflet
preparation and printing to provide
information to the public, law
enforcement, and monitoring. However,
these are regular and recurring functions
on the refuge with or without these
proposed regulations, and we can
handle these functions within normal
budget and staffing levels. Therefore, we
expect any costs to be minor in the short
term and negligible in the long term.

Benefits Accrued
These proposed regulations would
have several effects on wildlife
observation, recreational boating,
camping, and other beach-related uses
such as swimming, picnicking, and
sunbathing. These public uses account
for the most annual refuge visits (1.67
million) outside of hunting and fishing.
All of these uses will continue, although
in some areas the means of use will
change to balance the needs of a diverse
public who enjoys the refuge in various
ways, to safeguard visitors, and to
safeguard sensitive fish and wildlife
habitat.

We estimate that wildlife observation
visits will increase 20 percent over the
15-year life of the CCP due to overall
long-term trends in wildlife observation
visits, habitat improvements, access
improvements, and a marked increase in
wildlife observation-related facilities
outlined in the CCP. We predict these
regulations to have a corresponding
increase in positive economic impact as
reflected in Table 1 below.

Table 1 shows the expected change by
the end of the 15-year life of the CCP
resulting from the implementation of
the 2008 public use and recreation
regulations compared with FY 2003 for
the 19-county area on and adjacent to
the refuge. We expect annual wildlife
observation visitation to increase by 20
percent, resulting in 61,403 more
wildlife observation visits. Retail
expenditures associated with this
increased visitation total $812,658, with
total economic output (based on an
output multiplier of 1.23 for the 19-
county region impacted by the refuge) of
$993,723. An additional 14 jobs with
associated income of $214,297 would
occur, along with an additional
$104,531 in Federal and State tax
revenue.

These proposed regulations would
have several effects on current boating
opportunities on the refuge.
Approximately 140,000 acres of water
would remain open to boating, but 1,852
acres of backwater areas would be
designated electric motor only and
another 9,370 acres would be designated
seasonal (March 16 through October 31)
slow, no-wake areas where boaters must
travel at slow, no-wake speed, and we
would prohibit airboats and hovercraft.
Collectively, these areas account for 8
percent of the water area of the refuge.
These areas remain open to all allowed
uses.

We expect annual visits for boating,
camping, and beach-related activities to
remain about the same, although we
expect visits for silent watercraft
recreation (canoes and kayaks) to
increase an estimated 15 percent due to
the electric motor areas and slow, no-
wake areas. We predict the 2008
regulations to have a corresponding
modest positive change in economic
impact as reflected in Table 2.

Table 2 shows the expected change by
the end of the 15-year CCP lifespan
resulting from the implementation of
the 2008 public use and recreation
regulations compared with FY 2003 in
the 19-county area. We expect the
annual number of boating, camping, and beach-related use visitors to increase by 2,044, with associated retail expenditures of $52,010 and total economic output of $63,400. We associate these expenditures and output with 1 job and $213,567 in job-related income. Federal and State tax revenue would increase by $6,838.

b. This proposed rule will not create inconsistencies with other agencies’ actions. This action pertains solely to the management of the Refuge System. The wildlife observation, boating, camping and other general recreation activities located on the Upper Mississippi River National Wildlife and Fish Refuge account for less than 1 percent of the available supply in the United States. Any small, incremental change in the supply of recreational opportunities will not measurably impact any other agency’s existing programs.

c. This proposed rule will not materially affect entitlements, grants, user fees, loan programs, or the rights and obligations of their recipients. This proposed rule does not affect entitlement programs. There are no grants or other Federal assistance programs associated with public use on national wildlife refuges.

d. This proposed rule will not raise novel legal or policy issues that were not addressed in the Final EIS. This proposed rule continues the practice of allowing recreational public use of the refuge. Many refuges in the Refuge System currently have opportunities for the public to engage in interpretation, wildlife observation, and other wildlife-dependent uses, and also allow regulated boating, camping, and other general recreation.

**Regulatory Flexibility Act**

Under the Regulatory Flexibility Act (as amended by the Small Business Regulatory Enforcement Fairness Act [SBREFA] of 1996) (5 U.S.C. 601 et seq.), whenever a Federal agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (i.e., small businesses, small organizations, and small government jurisdictions). However, no regulatory flexibility analysis is required if the head of an agency certifies that the rule would not have a significant economic impact on a substantial number of small entities. Thus, for a regulatory flexibility analysis to be required, impacts must exceed a threshold for “significant impact” and a threshold for a “substantial number of small entities.” See 5 U.S.C. 605(b). SBREFA amended the Regulatory Flexibility Act to require Federal agencies to provide a statement of the factual basis for certifying that a rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule does not decrease the number of recreation types allowed on the refuge but amends current noncodified regulations on the refuge. As a result, opportunities for wildlife observation, boating, camping, and other general recreation on the refuge will remain abundant and increase over time. Many small businesses within the retail trade industry (such as hotels, gas stations, outdoor sports shops, etc.) may benefit from some increased refuge visitation. A large percentage of these retail trade establishments in the majority of affected counties qualify as small businesses (Table 3).

We expect that the incremental recreational opportunities will be scattered, and so we do not expect that the rule will have a significant economic effect (benefit) on a substantial number of small entities in any given community or county. Using the estimate derived in the Regulatory Planning and Review section, we expect recreationists to spend an additional $865,000 annually in the refuges’ local economies. As shown in Table 3, this represents less than 0.001 percent of the total amount of retail expenditures in the 19-county area. For comparison purposes, we show the county with the smallest retail expenditure total, Buffalo County in Wisconsin. If the entire retail trade expenditures associated with the 2008 public use and recreation regulations occurred in Buffalo County, this would amount to a 1.48 percent increase in annual retail expenditures.
Small Business Regulatory Enforcement Fairness Act

The proposed rule is not a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. We anticipate no significant employment or small business effects. This rule:

a. Would not have an annual effect on the economy of $100 million or more. By the end of the 15-year CCP lifespan, the additional recreational opportunities on the refuge would generate an additional $865,000 in visitor expenditures with an economic impact estimated at $1.06 million per year (2003 dollars). Consequently, the maximum benefit of this rule for businesses both small and large would not be sufficient to make this a major rule. The impact would be scattered across 19 counties and would most likely not be significant in any local area.

b. Would not cause a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions. We do not expect this proposed rule to affect the supply or demand for wildlife observation, boating, camping, and other general recreation opportunities in the United States and, therefore, it should not affect prices for related recreation equipment and supplies, or the retailers that sell equipment. Additional refuge recreation opportunities would account for a virtually undetectable percent of the available opportunities in the United States.

c. Would not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises. This proposed rule represents only a small proportion of recreational spending of a small number of affected wildlife observers, boaters, campers and other recreationists, approximately a maximum of $1.06 million annually in impact (economic output). Therefore, this rule would have no measurable economic effect on the wildlife-dependent, boating, and camping industries, which have annual sales of equipment and travel expenditures of over $120 billion nationwide in 2006.

Unfunded Mandates Reform Act

Since this proposed rule would apply to public use of federally owned and managed refuges, it would not impose an unfunded mandate on State, local, or Tribal governments or the private sector of more than $100 million per year. The rule would not have a significant or unique effect on State, local, or Tribal governments or the private sector. A statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 et seq.) is not required.

Takings (E.O. 12630)

In accordance with E.O. 12630, this proposed rule would not have significant takings implications. This regulation would affect only visitors to the refuge and describe what they can do while they are on the refuge.

Federalism (E.O. 13132)

As discussed in the Regulatory Planning and Review and Unfunded Mandates Reform Act sections above, this proposed rule would not have sufficient Federalism implications to warrant the preparation of a Federalism Assessment under E.O. 13132. In preparing the CCP for the refuge, we worked closely with the four States bordering the refuge, and this proposed rule reflects the CCP.

Civil Justice Reform (E.O. 12988)

In accordance with E.O. 12988, the Office of the Solicitor has determined that the proposed rule would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the Order. This proposal would clarify and codify established regulations and result in better understanding of the regulations by refuge visitors.

Energy Supply, Distribution or Use

On May 18, 2001, the President issued E.O. 13211 on regulations that significantly affect energy supply, distribution, and use. E.O. 13211 requires agencies to prepare Statements of Energy Effects when undertaking certain actions. Because this proposed rule is a modification of existing public use and recreation programs on the refuge, it is not a significant regulatory action under E.O. 12866, and we do not expect it to significantly affect energy supplies, distribution, and use. Therefore, this action is not a significant energy action and no Statement of Energy Effects is required.

Consultation and Coordination With Indian Tribal Governments (E.O. 13175)

In accordance with E.O. 13175, we have evaluated possible effects on federally recognized Indian tribes and have determined that there are no effects. We coordinate recreational use on national wildlife refuges with Tribal governments having adjoining or overlapping jurisdiction before we propose changes to the regulations. During scoping and preparation of the Final EIS, we contacted 35 Indian tribes to inform them of the process and seek their comments.

Paperwork Reduction Act

This regulation does not contain any information collection requirements other than those already approved by the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. 3501 et seq.) (OMB Control Number is 1018–0102). See 50 CFR 25.23 for information concerning that approval. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Endangered Species Act Section 7 Consultation

During preparation of the Final EIS, we completed a section 7 consultation.

Consultation

We worked closely with the four States bordering the refuge, and this proposed rule would not have significant Federalism implications to warrant the preparation of a Federalism Assessment under E.O. 13132. In preparing the CCP for the refuge, we worked closely with the four States bordering the refuge, and this proposed rule reflects the CCP.
and determined that the preferred alternative, which included public use and recreation changes reflected in this proposed rule, is not likely to adversely affect individuals of listed or candidate species or designated critical habitat of such species. The Service’s Ecological Services Office concurred with this determination. Listed species on the refuge are the Higgins eye pearly mussel and candidate species are the Eastern massasauga and spectaclecase and sheepnose mussels. A copy of the section 7 evaluation and accompanying biological assessment is available from the refuge at the location listed in the ADDRESSES section of this document.

National Environmental Policy Act

Concerning the actions that are the subject of this proposed rulemaking, we have complied with NEPA through the preparation of a Final EIS and Record of Decision which include the major public use and recreation changes reflected in this proposed rule. The NEPA documents are available on our Web site at http://www.fws.gov/midwest/planning/uppermiss.

Available Information for Specific Districts of the Refuge

The refuge is divided into four districts for management, administrative, and public service effectiveness and efficiency. These districts correspond to two or more Mississippi River navigation pools created by the series of locks and dams on the river. District offices are located in Winona, Minnesota (Pools 4–6); La Crosse, Wisconsin (Pools 7–8); McGregor, Iowa (Pools 9–11); and Savanna, Illinois (Pools 12–14). If you are interested in specific information pertaining to a particular electric motor area; slow, no-wake area; or other feature discussed in this proposed rule, you may contact the appropriate district office listed below:

Winona District, U.S. Fish and Wildlife Service, 51 East Fourth Street, Room 203, Winona, MN 55987; Telephone (507) 454–7351.

La Crosse District, U.S. Fish and Wildlife Service, 555 Lester Avenue, Onalaska, WI 54650; Telephone (608) 783–8405.

McGregor District, U.S. Fish and Wildlife Service, P.O. Box 460, McGregor, IA 52157; Telephone (563) 873–3423.

Savanna District, U.S. Fish and Wildlife Service, 7071 Riverview Road, Thomson, IL 61285; Telephone (815) 273–2732.

Primary Author

Don Hultman, Refuge Manager, Upper Mississippi River National Wildlife and Fish Refuge, is the primary author of this rulemaking document.

List of Subjects in 50 CFR Part 26

Recreation and recreation areas, Wildlife refuges.

For the reasons set forth in the preamble, we propose to amend title 50, Chapter I, subchapter C of the Code of Federal Regulations as follows:

PART 26—[AMENDED]

1. Revise the authority citation for part 26 to read as follows:

2. Revise the heading, add an introductory paragraph, and alphabetically add listings for the States of Illinois, Iowa, Minnesota, and Wisconsin to §26.34 to read as follows:

§26.34 What are the special regulations concerning public access, use and recreation for individual national wildlife refuges?

The following refuge units, listed in alphabetical order by State and unit name, have refuge-specific regulations for public access, use, and recreation.

Illinois

Upper Mississippi River National Wildlife and Fish Refuge

Refer to §26.34 Minnesota for regulations.

Iowa

Upper Mississippi River National Wildlife and Fish Refuge

Refer to §26.34 Minnesota for regulations.

Minnesota

Upper Mississippi River National Wildlife and Fish Refuge

(a) Wildlife Observation, Photography, Interpretation, Environmental Education, and Other General Recreational Uses. We allow wildlife-dependent uses and other recreational uses such as, but not limited to, sightseeing, hiking, bicycling on roads or trails, picnicking, and swimming, on areas designated by the refuge manager and shown on maps available at refuge offices, subject to the following conditions:

(1) In areas posted and shown on maps as “No Entry—Sanctuary,” we prohibit entry as specified on signs or maps (see §32.42 of this chapter for list of areas and locations).

(2) In areas posted and shown on maps as “Area Closed,” “Area Closed—No Motors,” and “No Hunting Zone” (Goose Island), we ask that you practice voluntary avoidance of these areas by any means or for any purpose from October 15 to the end of the respective State duck hunting season. In areas marked “no motors,” we prohibit the use of motors on watercraft from October 15 to the end of the respective State duck hunting season (see §32.42 of this chapter for list of areas and locations).

(3) Commercial tours and filming require a permit issued by the refuge or district manager (see §27.51 of this chapter).

(4) We allow the collecting of edible fruits, nuts, mushrooms, or other plant parts for personal use (no sale or barter allowed). We limit the amount you may collect to 2 gallons by volume per person, per day (see §27.51 of this chapter).

(5) We prohibit the harvest of wild rice; plant and animal specimens; and other natural objects, including shed deer antlers, rocks, stones, or minerals. We only allow the collection of plants or their parts for ornamental use by permit issued by the refuge or district manager (see §27.51 of this chapter).

(6) We prohibit the cutting, removal, or damage of any tree or vegetation, or the possession of a chainsaw on the refuge, without a permit from the refuge or district manager. We prohibit attaching nails, screws, or other hardware to any tree (see §27.51 and §32.42 of this chapter).

(7) We prohibit all vehicle use on or across refuge lands at any time except on designated routes of travel or on the ice over navigable waters accessed from boat landings. We prohibit parking beyond vehicle control barriers or on grass or other vegetation. We prohibit parking or operating vehicles in a manner that obstructs or impedes any road, trail, fire lane, boat ramp, access gate, or other facility, or in a manner that creates a safety hazard or endangers any person, property, or environmental feature. We may impound any vehicle left parked in violation at the owner’s expense (see §27.31(h) of this chapter).

(8) We allow dogs and other domestic animals on the refuge subject to the following conditions:

(i) We prohibit dogs disturbing or endangering wildlife or people while on the refuge.

(ii) While on the refuge, all dogs must be under the control of their owners/handlers at all times or on a leash.

(iii) We prohibit allowing dogs to roam.
(iv) All dogs must be on a leash when on hiking trails, or other areas so posted.
(v) We allow working a dog in refuge waters by tossing a retrieval dummy or other object for out-and-back exercise.
(vi) We encourage the use of dogs for hunting (see §32.42 of this chapter), but we prohibit field trials and commercial/ professional dog training.
(vii) Owners/handlers of dogs are responsible for disposal of dog droppings in refugee public use concentration areas such as trails, sandbars, and boat landings.
(viii) We prohibit horses and all other domestic animals on the refuge unless confined in a vehicle, boat, trailer, kennel or other container (see §26.21 of this chapter).
(9) We prohibit the carrying, possessing, or discharging of firearms (including dog training pistols and dummy launchers), air guns, or any other weapons on the refuge, unless you are a licensed hunter or trapper engaged in authorized activities during established seasons, in accordance with Federal, State, and local regulations. We prohibit target practice on the refuge (see §§27.42 and 27.43 of this chapter).
(10) We prohibit the use or possession of glass food and beverage containers on lands within the refuge.
(11) We require that you keep all refuge lands clean during your period of use or occupancy. At all times you must keep all refuse, trash, and litter contained in bags or other suitable containers and not left scattered on the ground or in the water. You must remove all personal property, refuse, trash, and litter immediately upon vacating a site. We require that human solid waste and associated material be either removed and properly disposed of off-refuge or be buried on site to a depth of 6–8 inches (15–20 cm) and at least 50 feet (15 m) from water’s edge (see §27.94 of this chapter).
(b) Watercraft Use. We allow the use of watercraft of all types and means of propulsion on all navigable waters of the refuge in accordance with State regulations subject to the following conditions:
(1) In areas posted and shown on maps as “Electric Motor Area,” we prohibit motorized vehicles and watercraft year-round except watercraft powered by electric motors or nonmotorized means. We do not prohibit the possession of other watercraft motors in these areas, only their use. These areas are named and located as follows:
(i) Island 42, Pool 5, Minnesota, 459 acres.
(ii) Snyder Lake, Pool 5A, Minnesota, 182 acres.
(iii) Mertes Slough, Pool 6, Wisconsin, 222 acres.
(iv) Browns Marsh, Pool 7, Wisconsin, 827 acres.
(v) Hoosier Lake, Pool 10, Wisconsin, 162 acres.
(2) In areas posted and shown on maps as “Slow No Wake Area,” we require watercraft to travel at slow, no-wake speed from March 16 through October 31. We apply the applicable State definition of slow, no-wake operation in these areas. We also prohibit the operation of airboats or hovercraft in these areas from March 16 through October 31. These areas are named and located as follows:
(i) Nelson-Trevino, Pool 4, Wisconsin, 2,626 acres (takes effect March 16, 2009).
(ii) Denzers Slough, Pool 5A, Minnesota, 83 acres.
(iii) Black River Bottoms, Pool 7, Wisconsin, 815 acres.
(iv) Blue/Target Lake, Pool 8, Minnesota, 1,834 acres.
(v) Root River, Pool 8, Minnesota, 695 acres.
(vi) Reno Bottoms, Pool 9, Minnesota, 2,536 acres.
(vii) Nine Mile Island, Pool 12, Iowa, 454 acres.
(viii) Princeton, Pool 14, Iowa, 327 acres.
(3) In water access and travel routes posted and shown on maps as “Slow No Wake Zone,” we require watercraft to travel at slow, no-wake speed at all times unless otherwise posted. We apply the respective State definition of slow, no-wake operation in these areas.
(4) In portions of Spring Lake and Crooked Slough—Lost Mound, Pool 13, Illinois, posted as “Slow, 5 mph When Boats Present” and marked on maps as “Speed/Distance Regulation,” we require watercraft operators to reduce the speed of their watercraft to less than 5 mph (8 kph) when within 100 feet (30 m) of another watercraft that is anchored or underway at 5 mph (8 kph) or less.
(5) We prohibit the mooring, beaching, or storing of watercraft on the refuge without being used at least once every 24 hours. We define “being used” as a watercraft moved at least 100 feet (30 m) on the water with operator on board. We prohibit the mooring of watercraft within 200 feet (60 m) of refuge boat landings or ramps. We may impound any watercraft moored in violation at the owner’s expense (see §27.32 of this chapter).
(6) Conditions A1, A2, and A11 apply.
(c) Camping. We allow camping on all lands and waters of the refuge as designated by the refuge manager and shown on maps available at refuge offices subject to the following conditions:
(1) We define camping as erecting a tent or shelter of natural or synthetic material, preparing a sleeping bag or other bedding material for use, parking of a motor vehicle or mooring or anchoring of a vessel, for the apparent purpose of overnight occupancy, or, occupying or leaving personal property, including boats or other craft, at a site anytime between the hours of 11 p.m. and 3 a.m.
(2) We prohibit camping at any one site for a period longer than 14 days during any 30-consecutive-day period. After 14 days, you must move all persons, property, equipment, and boats to a new site located at least .5 mile (.8 km) from the previous site.
(3) We prohibit camping within 100 feet (30 meters) of any refuge boat landing, access area, parking lot, structure, road, trail, or other recreation or management facility.
(4) We prohibit camping during waterfowl hunting seasons within areas posted “No Entry—Sanctuary,” “Area Closed,” “Area Closed—No Motors,” and “No Hunting Zone” or on any sites not clearly visible from the main commercial navigation channel of the Mississippi River (see §32.42 of this chapter).
(5) You must occupy campsites daily. We prohibit the leaving of tents, camping equipment, or other property unattended at any site for over 24 hours, and we may impound any equipment left in violation at the owner’s expense. We define occupy and attended as being present at a site for a minimum of 2 hours daily.
(6) You must remove any tables, fireplaces, or other facilities erected upon vacating a camping or day-use site.
(7) We allow campfires in conjunction with camping and day-use activities subject to the following conditions (see §27.95 and §32.42 of this chapter):
(i) You may only use dead wood on the ground, or materials brought into the refuge such as charcoal or firewood.
(ii) You must remove any unused firewood brought into the refuge upon departure due to the threat of invasive insects.
(iii) We prohibit building, attending, and maintaining a campfire without sufficient clearance from flammable materials so as to prevent its escape.
(iv) We prohibit building a fire at any developed facility including, but not limited to, boat landings, access areas, parking lots, roads, trails or any other recreation or management facility or structure.
(iv) We prohibit burying live fires or hot coals.
(v) We prohibit burning or attempting to burn any nonflammable materials or any materials that may produce toxic fumes or leave hazardous waste. These materials include, but are not limited to, metal cans, plastic containers, glass, fiberglass, treated wood products, wood containing nails or staples, wire, floatation materials, or other refuse.

(8) Conditions A4 through A11 apply.
