Information Collection Sent to the Office of Management and Budget (OMB) for Approval; OMB Control Number 1018–0095; Endangered and Threatened Wildlife, Experimental Populations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) have sent an Information Collection Request (ICR) to OMB for review and approval. The ICR, which is summarized below, describes the nature of the collection and the estimated burden and cost. This ICR is scheduled to expire on November 30, 2007. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. However, under OMB regulations, we may continue to conduct or sponsor this information collection while it is pending at OMB.

DATES: You must submit comments on or before December 28, 2007.

ADDRESSES: Send your comments and suggestions on this ICR to the Desk Officer for the Department of the Interior at OMB–QIRA at (202) 395–6566 (fax) or QIRA_DOCKET@OMB.eop.gov (e-mail). Please provide a copy of your comments to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222–ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); (703) 358–2269 (fax); or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Hope Grey by mail, fax, or e-mail (see ADDRESSES) or by telephone at (703) 358–2482.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1018–0095.

Title: Endangered and Threatened Wildlife, Experimental Populations, 50 CFR 17.84 and 17.85.

Service Form Number(s): None.

Type of Request: Extension of currently approved collection.

Affected Public: Individuals and households, private sector, and State/local/tribal governments.

Respondent’s Obligation: Voluntary.

Frequency of Collection: On occasion.

Abstract: Section 10(j) of the Endangered Species Act of 1973 (ESA), as amended, (16 U.S.C. 1531 et seq.) authorizes the Secretary of the Interior to establish experimental populations of endangered or threatened species. Because individuals of experimental populations are categorically protected under the ESA, the information we collect is important for monitoring the success of reintroduction efforts and recovery efforts in general. Information collection requirements for experimental populations of endangered and threatened species are in 50 CFR 17.84. We collect three categories of information:...
(1) General take or removal. Relates to
to human-related mortality including
unintentional taking incidental to
otherwise lawful activities (e.g.,
highway mortalities); animal husbandry
actions authorized to manage
the population (e.g., translocation
or providing aid to sick, injured,
or orphaned individuals); take in defense
of human life; take related to defense
of property (if authorized); or take in
the form of authorized harassment.

(2) Depredation-related take. Involves
managing livestock where
livestock depredation is documented,
and may include authorized harassment
or authorized lethal take of
experimental animals in the act of
attacking livestock.

(3) Specimen collection, recovery, or
reporting of dead individuals. This
information documents incidental or
authorized scientific collection. Most of
the contacts with the public deal
primarily with the reporting of sightings
of experimental population animals or
the inadvertent discovery of an injured
or dead individual.

The information that we collect
includes:

(1) Name, address, and phone number
of reporting party.
(2) Species involved.
(3) Type of incident.
(4) Location and time of the reported
incident.
(5) Description of the circumstances
related to the incident.

This information helps us to assess
the effectiveness of control activities
and to develop better means to reduce
problems with livestock for those
species where depredation is a problem.
Service recovery specialists use the
information to determine the success of
reintroductions in relation to
established recovery plan goals for the
threatened and endangered species
involved.

Comments: On July 11, 2007, we
published in the Federal Register (72 FR 37793) a notice of our intent to request
that OMB renew this information
collection. In that notice, we solicited
comments for 60 days, ending on
September 10, 2007. We received no
comments.

We again invite comments concerning
this information collection on:
(1) whether or not the collection of
information is necessary, including
whether or not the information will
have practical utility;
(2) the accuracy of our estimate of the
burden for this collection of
information;
(3) ways to enhance the quality,
utility, and clarity of the information to
be collected; and
(4) ways to minimize the burden of
the collection of information on
respondents.

Comments that you submit in
response to this notice are a matter of
public record. Before including your
address, phone number, e-mail address,
or other personal identifying
information in your comment, you
should be aware that your entire
comment, including your personal
identifying information, may be made
publicly available at any time.

We cannot guarantee that it will be done.

Abstract: Under Section 101(b) of the
Marine Mammal Protection Act of 1972
(MMPA), as amended (16 U.S.C. 1361–
1407), Alaska Natives residing in Alaska
dwelling on the coast of the North
Pacific or Arctic Oceans may harvest
dolphins, northern sea otters, and
Pacific walrus for subsistence or
handicraft purposes. Section 109(i) of
the MMPA authorizes the Secretary of
the Interior to prescribe marking,
tagging, and reporting regulations
applicable to the Alaska Native
subsistence and handicraft take.
