individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

This notice is provided pursuant to section 10(a) of the Act and Service regulations for implementing NEPA. The Service will evaluate the application, associated documents, and comments submitted thereon to prepare a Final Supplemental EIS. A permit decision will be made no sooner than 30 days after the publication of the Final Supplemental EIS.

Ken McDermond,
Deputy Manager, California/Nevada Operations Office, Sacramento, California.

M/V Selendang Ayu Natural Resource Damage Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of intent to conduct restoration planning.

SUMMARY: On December 8, 2004, the shipping vessel M/V Selendang Ayu ran aground and broke apart between Skan Bay and Spray Cape on Unalaska Island, in Alaska’s Aleutian Islands. The vessel was carrying approximately 446,280 gallons of Intermediate Fuel Oil 380 (IFO) and 21,058 gallons of Marine Diesel Oil (MDO). Although a portion of the oils were eventually removed from the vessel, 339,538 gallons of the IFO 380 and 14,680 gallons of marine diesel were discharged into the environment over time. This Notice of Intent to Conduct Restoration Planning (Notice), issued pursuant to 15 CFR 990.44, pertains to the discharge of oil from the M/V Selendang Ayu described above (the Incident). The Unified Command for the Incident undertook response activities to clean up the discharged oil.

Under section 1006(b) of the Oil Pollution Act of 1990 (OPA), 33 U.S.C. 2706(b), the President has designated the Secretary of the U.S. Department of the Interior (DOI), represented by the Regional Director of the Fish & Wildlife Service (FWS), Alaska Region, and the Secretary of the U.S. Department of Commerce (DOC), represented by the National Oceanic Atmospheric Administration, as Federal trustees of natural resources for this Incident. The Governor of the State of Alaska has designated the Commissioners of the Alaska Departments of Fish & Game, Environmental Conservation and Natural Resources, and the Alaska Attorney General as State trustees of natural resources. The Federal and State trustees for the Incident will be referred to herein collectively as the Trustees.

The Trustees have determined that they have jurisdiction to enter into the restoration planning phase of a Natural Resource Damage Assessment under OPA and its implementing regulations and that it is appropriate to do so. The purpose of this phase is to prepare a plan for the restoration, rehabilitation, replacement or acquisition of the equivalent of the natural resources and services injured, destroyed or lost as a result of the Incident.

ADDRESS:
Alaska Regional Office, U.S. Fish and Wildlife Service, 1011 E. Tudor Road, Anchorage, AK 99503.

FOR FURTHER INFORMATION CONTACT:
Jenifer Kohout, (907) 786–3687 (phone); Jenifer_Kohout@fws.gov (e-mail).

SUPPLEMENTARY INFORMATION: One of the goals of OPA is to make the environment and the public whole for injuries to natural resources and services resulting from an incident involving a discharge of oil or a threat of discharge of oil from a vessel into or upon navigable waters or adjoining shorelines. This goal is achieved through the return of the injured natural resources and services to baseline and the compensation for interim losses of such natural resources and services from the date of the incident until recovery.

To facilitate achievement of this goal, the Trustees are responsible for assessing the damages to natural resources under their trusteeship that have resulted from the Incident, developing a plan for the restoration of these resources, and pursuing from the parties responsible for the Incident (Responsible Parties) funding for the implementation of this plan or the implementation of the plan by the Responsible Parties themselves. The Trustees are proceeding in accordance with the regulations for Natural Resource Damage Assessments at 15 CFR Part 990.

The Responsible Parties include, but are not necessarily limited to, Ayu Navigation Sdn, Bhd, and IMC Shipping Pte, Ltd, which were the owner and the operator, respectively, of the M/V Selendang Ayu at the time of the Incident. The guarantor of financial responsibility for the liability of these Responsible Parties is SverigesAngartygs Assurans Förening (The Swedish Club).

The Trustees have performed preassessment activities in connection with the Incident, including data collection and preliminary analysis. These activities included conducting shore and skiff-based surveys to collect information about potential impacts to birds, marine mammals, fish, intertidal and subtidal biota, and associated habitats; aerial coastal and pelagic surveys and counts to determine species at risk from the Incident; surveys of subtidal habitats; surveys of anadromous fish streams; and collecting and cataloging marine bird carcasses found on beaches following the Incident. To date, the Responsible Parties have cooperated with the Trustees in the performance and/or funding of certain response, cleanup and data collection activities.

Determination of Jurisdiction

Under 15 CFR 990.41, the Federal and State natural resource trustees have determined that they have jurisdiction to pursue restoration under OPA and its implementing regulations, finding:

a. The discharge of oil beginning on or about December 8, 2004 from the M/V Selendang Ayu into the Bering Sea, off the coast of Spray Cape on Unalaska Island, was an “Incident” as defined at 15 CFR 990.30.

b. The Trustees have also determined that:

1. This Incident was not permitted under Federal, State or local law;

2. The M/V Selendang Ayu is not a “public vessel” as defined at 33 U.S.C. 2701(37), discharged the entire quantity of oil involved in this Incident.

3. The discharge of oil did not occur from an onshore facility subject to the Trans-Alaska Pipeline Authority Act, 43 U.S.C. 1651, et seq.

c. Based upon information gathered during the response, cleanup and preassessment phases, the Trustees have determined that, due to the amount and type of oil discharged, the known toxicity of the oil, the location of the discharge and the living and non-living natural resources and services in the
DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

Submission of Information Collection to Office of Management and Budget

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Bureau of Indian Affairs (BIA) is submitting this information collection request to the Office of Management and Budget for review and renewal. The collection is: 25 CFR 162 Leases and Permits, 1076–0155.

DATES: Comments must be received on or before April 30, 2007, to be assured of consideration.

ADDRESSES: Comments should be sent to the Desk Officer for the Department of the Interior at the Office of Management and Budget. You may submit comments either by facsimile at (202) 395–6656, or by e-mail to OIRA_DOCKET@omb.eop.gov. Please send a copy to Ben Burshia, Chief, Division of Real Estate Services, Bureau of Indian Affairs, 1849 C Street, NW., Mail Stop 4639–MIB, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Interested persons may obtain a copy of the information collection requests without charge by contacting Ben Burshia at (202) 219–1195.

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 provides an opportunity for interested parties to comment on proposed information collection requests. This collection covers 25 CFR part 162 as presently approved. The Bureau of Indian Affairs, Division of Real Estate Services, is obtaining a normal information collection clearance from OMB. The request contains (1) Type of review, (2) title, (3) summary of the collection, (4) respondents, (5) frequency of collection, (6) reporting and record keeping requirements and (7) reason for response. A Federal Register notice was published on January 25, 2007 (72 FR 3406) requesting comments on our proposed submission of renewal to OMB. No comments were received. The information collected is used by the Bureau of Indian Affairs to determine: (a) Whether or not a lease may be approved or granted; (b) The value of each lease; (c) The appropriate compensation to landowners; and (d) Provisions for violations of trespass.
