SUPPLEMENTARY INFORMATION:

Federal Duck Stamp Office Mission

Federal Migratory Bird Hunting and Conservation Stamps, commonly known as ''Duck Stamps,'' are pictorial stamps produced by the U.S. Postal Service for the U.S. Fish and Wildlife Service. Not valid for postage, the stamps originated in 1934 as the Federal license required for all hunters over 16 years of age who wished to hunt migratory birds. (For the history of the Federal Duck Stamp Program, please see 71 FR 18697, April 12, 2006). Federal Duck Stamps have a much larger purpose today, however. Federal Duck Stamps are a vital tool for wetland conservation. Ninety-eight cents out of every dollar generated by the sales of Federal Duck Stamps goes directly to purchase or lease wetland habitat for protection in the National Wildlife Refuge System.

Action in This Notice

The Director takes this action under the Electronic Duck Stamp Act of 2005 (Pub. L. 109–266), which requires that the Secretary of the Interior conduct a 3-year pilot program, under which up to 15 States authorized by the Secretary may issue electronic Federal Duck Stamps. The number of participating State agencies accepted under this program will depend upon the number of compliant applications received.

The Government Paperwork Elimination Act (GPEA) of 1998 (Pub. L.105–277) encourages us to undertake initiatives to improve our application processes. Enhancing the ability of individuals and entities to conduct business with us electronically is a major part of our response to these laws. Therefore, we are taking steps to adopt the Internet as our chief means of conducting transactions in order to improve services to our customers and to simplify and expedite our business processes.

Eligible Applicants

There are currently 40 States that provide for sales of State hunting and fishing licenses by internet, point of sale, or telephone. The application process will lead to the selection of up to 15 eligible participants for this pilot program.

Eligible applicants are State fish and wildlife agencies that have an automated licensing system authorized under State law and are deemed by the Secretary as meeting the requirements of this application process. The proposed system for issuing the electronic Federal Duck Stamp must be compatible with the hunting licensing system of the State and described in the State application approved by the Secretary.
