management would be the same as under Alternative B.

Comments on the Draft CCP

Comments on the draft CCP/EA for Tetlin Refuge were solicited by the Service from October 3, 2007, through January 18, 2008. During the public review and comment period the Service held public meetings in Fairbanks, Northway, Tanacross, Tetlin, and Tok. The planning team reviewed, analyzed, and summarized all comments received at the public meetings and in writing. We received a number of comments which supported plans for additional recreational opportunities and facilities, additional access to the Refuge, and that all-terrain vehicle use be restricted. Support was expressed for use of natural fire management regimes, restricted use of prescribed fire, and use of aggressive fire control only in or near intensive use areas and around private inholdings. Several comments were made regarding management of fish and wildlife populations-related specifically to invasive species, non-native species, predator control, and trophy fisheries.

Selected Alternative—Alternative B

Under the selected alternative, refuge lands would remain in their present management categories—about 564,300 acres (82.7 percent) in Minimal management, 116,600 acres (17.1 percent) in Moderate management, and 1,700 acres (less than one percent) in Intensive management. Along with the actions described under Alternative A, the Refuge would pursue additional management actions under Alternative B. The Refuge would work with the local community to seek formal recognition of Tok as a “Gateway Community” and to increase opportunities for environmental education, interpretation, and recreation off-Refuge and in support of or in conjunction with refuge programs. Opportunities for current and new public use would be promoted (canoe routes established and public outreach would encourage use of administrative cabins); additional public use facilities would be constructed, upgraded, or established (additional hiking trails and primitive campsites at Seaton Roadhouse and sanitary facilities-in conjunction with the Alaska Department of Transportation—at highway pullouts). The Refuge would upgrade or establish additional access to promote day-use near the Alaska Highway, to increase season of use at Lakeview and Deadman Lake campgrounds, and to provide additional backcountry opportunities; and additional signing (for interpretive pullouts and undeveloped trailheads and access points). There would continue to be no use of all-terrain vehicles authorized on the refuge.

The Refuge would continue to protect resources and property using a variety of fire management techniques including prescribed burning, suppression, thinning, and wildland fire use. The use of natural fire would be emphasized with prescribed burns based only on specific project objectives (e.g. fuels reduction, habitat protection, or fire effects research) and suppression to reduce potential for large-scale wildfires and to maintain long-term ecological health of refuge lands. Natural fire would be the primary tool to maintain and enhance habitat. Native fisheries would be managed to maintain self-sustaining, healthy populations to contribute to the natural diversity in the Upper Tanana Valley; any new reintroduction plans will be based on historic distribution.

SUPPLEMENTARY INFORMATION: In accordance with the requirements of the Federal Advisory Committee Act, 5 U.S.C. App., we announce that the Sport Fishing and Boating Partnership Council will hold a meeting on Friday, November 7, 2008.

The Council was formed in January 1993 to advise the Secretary of the Interior, through the Director, U.S. Fish and Wildlife Service, on nationally significant recreational fishing, boating, and aquatic resource conservation issues. The Council represents the interests of the public and private sectors of the sport fishing, boating, and conservation communities and is organized to enhance partnerships among industry, constituency groups, and government. The 18-member Council, appointed by the Secretary of the Interior, includes the Director of the Service and the president of the Association of Fish and Wildlife Agencies, who both serve in ex officio capacities. Other Council members are Directors from State agencies responsible for managing recreational fish and wildlife resources and individuals who represent the interests of saltwater and freshwater recreational fishing, recreational boating, the recreational fishing and boating industries, recreational fisheries resource conservation, Native American tribes, aquatic resource outreach and education, and tourism. Background information on the Council is available at http://www.fws.gov/sfbpc.

The Council will convene to consider: (1) The Council’s continuing role in providing input to the Fish and Wildlife Service on the Service’s strategic plan for its Fisheries Program; (2) the Council’s work in addressing the issue of boating and fishing access; (3) methods for communicating programmatic issues of interest to incoming Department and Service personnel; (4) the Council’s work to assess the Sport Fish Restoration Boating Access Program; (5) information pertaining to Sport Fish Restoration and Boating Trust Fund; (6) the Council’s role in providing the Secretary with information about the implementation of the Strategic Plan for the National Outreach and Communications Program, authorized by the 1998 Sportfishing and Boating Safety Act, that is now being implemented by the Recreational Boating and Fishing Foundation, a private, nonprofit organization; and (7) other Council business. The final agenda will be
