contained in 46 CFR chapter I, subchapter B.

Respondents: Owners and operators of vessels, training institutions, and mariners.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 23,767 hours to 17,928 hours per year.

2. Title: Voyage Planning for Tank Barge Transits in the Northeast United States.

OMB Control Number: 1625–0088.

Summary: The information collection requirement for a voyage plan serves as a preventive measure and assists in ensuring the successful execution and completion of a voyage in the First Coast Guard District. The regulation associated with this collection of information (33 CFR 165.100) applies to primary towing vessels engaged in towing certain tank barges carrying petroleum oil in bulk as cargo.

Need: Section 311 of the Coast Guard Authorization Act of 1998, Pub. L. 105–383, 33 U.S.C. 1231, and 46 U.S.C. 3719 authorize the Coast Guard to promulgate regulations for towing vessel and barge safety for the waters of the Northeast subject to the jurisdiction of the First Coast Guard District. This regulation is contained in 33 CFR 165.100. The information for a voyage plan will provide a mechanism for assisting vessels towing tank barges to identify those specific risks, potential equipment failures, or human errors that may lead to accidents.

Forms: None.

Respondents: Owners and operators of towing vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 31,651 hours to 2,692 hours per year.

Dated: October 20, 2008.

D. T. Glenn,
Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.

BILLING CODE 4910–15–P

DEPARTMENT OF THE INTERIOR

Central Utah Project Completion Act

AGENCIES: Department of the Interior, Office of the Assistant Secretary—Water and Science.

ACTION: Notice of Availability, Record of Decision (ROD) on the Lower Duchesne River Wetlands Mitigation Project Final Environmental Impact Statement (FEIS 08–13) documenting the Department of the Interior’s decision to adopt the Proposed Action and approval to proceed with implementation.

SUMMARY: The Office of the Assistant Secretary for Water and Science has signed the Record of Decision which documents the selection of the Proposed Action as presented in the Final Environmental Impact Statement (FEIS) for the Lower Duchesne River Wetlands Mitigation Project (LDWP), Duchesne and Uintah Counties, Utah, a mitigation component of the Central Utah Project (CUP). The FEIS was prepared in accordance with the National Environmental Policy Act of 1969 (NEPA) and was filed with the Environmental Protection Agency on April 11, 2008. The ROD approves implementation of the project in accordance with statutory and contractual obligations.

The Proposed Action fulfills a Central Utah Project need to complete certain environmental mitigation obligations of the Federal government to the Ute Indian Tribe of the Uintah and Ouray Agency, Ft. Duchesne, Utah. These mitigation commitments derive from construction and operation of the Strawberry Aqueduct and Collection System (SACS) of the CUP. The SACS has diverted Ute Indian Tribal water away from the Duchesne River and, thereby, depleted water sources which historically supported wetlands, riparian habitats and associated fish and wildlife resources held in trust by the Federal government for the benefit of the Ute Indian Tribe. The LDWP will replace, restore and enhance these trust resources consistent with long-standing commitments and promises made by the Federal government to the Ute Indian Tribe.

The Department of the Interior and the Utah Reclamation Mitigation and Conservation Commission served as Joint Lead Agencies in compliance with NEPA. The Ute Indian Tribe, U.S. Fish and Wildlife Service, Bureau of Indian Affairs, Bureau of Reclamation, Duchesne County and Uintah County served as Cooperating Agencies. The FEIS and ROD satisfy disclosure requirements of NEPA and will serve as NEPA compliance documentation for all contracts, agreements and permits that will be required for construction and operation of the project.

FOR FURTHER INFORMATION CONTACT: For further information or to request copies of the FEIS, ROD or supporting resource technical reports contact Mr. Ralph G. Swanson at (801) 379–1254, or rswanson@uc.usbr.gov.

Reed R. Murray,
Program Director, Department of the Interior.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Texas Chenier Plain National Wildlife Refuge Complex, Chambers, Jefferson, and Galveston Counties, TX

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability: Record of decision.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), announce the decision and availability of the record of decision (ROD) for the final environmental impact statement (EIS), comprehensive conservation plan (CCP), and land protection plan (LPP) for the Texas Chenier Plain National Wildlife Refuge Complex (Refuge Complex). We completed a thorough analysis of the environmental, social, and economic considerations and presented it in our final EIS, which we released to the public through a Federal Register notice on June 30, 2008. The ROD documents our decision to adopt and implement Refuge Management Alternative D and Refuge Boundary Expansion Alternative C. Refuge Management Alternative D is adopted as the CCP for the Refuge Complex and will direct the management activities on the Refuge Complex for the next 15 years. Refuge Boundary Expansion Alternative C is adopted as the LPP for the Refuge Complex and authorizes land acquisition from willing sellers within a designated 64,200-acre expansion area.

DATES: The Acting Regional Director, Region 2, U.S. Fish and Wildlife Service, signed the ROD on September 16, 2008.

ADDRESSES: You may view or obtain copies of the ROD by any of the following methods:

E-mail: doug_stpierre@fws.gov.

Include “TX Chenier Plain NWR Complex ROD” in the subject line of the message.
Mail: Doug St. Pierre, Division of Planning, P.O. Box 1306, Albuquerque, NM 87103.
In-Person Viewing or Pickup: Call 409–267–3337 to make an appointment during regular business hours at Texas Chenier Plain NWR Complex Headquarters, 509 Washington Street, Anahuac, TX.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we finalize the CCP and LPP process for Moody, Anahuac, McFaddin, and Texas Point National Wildlife Refuges. We started this process in a Federal Register notice (64 FR 56860, October 21, 1999). We released the draft EIS/CCP/LPP to the public, announcing and requesting comments in a notice of availability in the Federal Register (71 FR 61063; October 17, 2006). We announced the availability of the final EIS/CCP/LPP in the Federal Register (73 FR 36890) on June 30, 2008.

The Refuge Complex is located along the upper Texas Gulf Coast between Houston, Texas, and the Louisiana border. This coastal ecosystem includes important freshwater, estuarine marshes, tallgrass prairie with small depressional wetlands, and coastal woodlots. These habitats are important part of the primary wintering area for Central Flyway ducks and geese, and, additionally, are critical staging areas for neotropical landbirds migrating to and from Central and South America.

In accordance with National Environmental Policy Act (NEPA) (40 CFR 1506.6(b)) requirements, this notice announces our decision and the availability of the ROD for the final EIS/CCP/LPP for the Refuge Complex. We completed a thorough analysis of the environmental, social, and economic considerations, which we included in the final EIS/CCP/LPP. The ROD documents our selection of Refuge Management Alternative D, the Preferred Alternative, for the CCP; and, our selection of Refuge Boundary Alternative C, the Preferred Alternative, for the LPP.

The CCP will guide us in managing and administering Moody, Anahuac, McFaddin, and Texas Point National Wildlife Refuges for the next 15 years. Refuge Management Alternative D, as we described in the final EIS/CCP/LPP, is the foundation for the CCP. The LPP authorizes acquisition of land or interests in land from willing sellers within the expanded boundaries of Moody, Anahuac, McFaddin, and Texas Point National Wildlife Refuges. Refuge Boundary Expansion Alternative C, as we described in the final EIS/CCP/LPP, is the foundation for the LPP, which outlines the expanded boundaries and lists the tracts/ownerships within these boundaries.

Background

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee) (Improvement Act), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Improvement Act.

CCP/LPP Alternatives and the Two Selected Alternatives

Our draft EIS/CCP/LPP (71 FR 200) addressed several issues. To address these, we developed and evaluated the two following sets of alternatives:

Refuge Management Alternatives

Alternative A: (NEPA no action alternative) Continuation of current management.

Alternative B: Emphasis on intensifying management of wetland habitats for waterfowl, shorebirds, wading birds, and other wetland-dependent migratory birds.

Alternative C: Emphasis on native habitat restoration and addressing major threats to the ecosystem.

Alternative D: Emphasis on an integrated management approach combining (1) Expanded habitat management and restoration programs, (2) new research and wildlife population monitoring, and (3) increased efforts to address major threats to the ecosystem.

Alternative E: Emphasis on a passive management approach.

Refuge Boundary Expansion Alternatives

Alternative A: (NEPA no action alternative) No expansion, current status.

Alternative B: Total 33,590-acre expansion.

Alternative C: Total 64,260-acre expansion.

Alternative D: Total 104,260-acre expansion.

After considering the comments we received, we have selected Refuge Management Alternative D for the CCP. It documents our decision, based on the information contained in the final EIS and the entire administrative record. The Service believes that Refuge Management Alternative D (Preferred Alternative) represents the most desirable approach to meet the establishment purposes of the refuges in the Refuge Complex, the mission of the National Wildlife Refuge System, and the conservation of Trust fish and wildlife species including migratory birds and Threatened and Endangered species, while recognizing the need to address emerging threats to biological integrity, biological diversity, and ecosystem health. This alternative focuses on protecting and enhancing existing wetland and upland habitats on the Refuge Complex through active management, continues and expands efforts to enhance and restore native tallgrass coastal prairie and woodland habitat on suitable sites, continues and expands efforts to address major ecosystem threats, uses additional scientific monitoring and studies to guide an adaptive management approach with increased emphasis on declining or sensitive species, and expands wildlife-dependent recreational uses with an emphasis on enhancing the quality of the refuge visitor experience.

Also, after considering the comments we received, we have selected Refuge Boundary Expansion Alternative C for the LPP. It documents our decision, based on the information contained in the final EIS and the entire administrative record. In selecting its Refuge Boundary Expansion Alternative, the Service considered ecological values, benefits to management of existing refuges, levels of threat, and feasibility as affected by land ownership patterns and projected availability of funding. The newly approved refuge boundaries would contain the largest remaining tracts of native coastal prairie on the upper Texas coast, in addition to important areas of coastal marsh adjacent to existing refuges.
Public Availability of Documents

In addition to the methods in ADDRESSES, you can view or obtain documents at the following location:

Dated: October 20, 2008.

Brian Millsap,
Acting Regional Director, U.S. Fish and Wildlife Service, Albuquerque, New Mexico.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

Alaska Native Claims Selection

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of decision approving lands for conveyance.

SUMMARY: As required by 43 CFR 2650.7(d), notice is hereby given that an appealable decision approving lands for conveyance pursuant to the Alaska Native Claims Settlement Act will be issued to NANA Regional Corporation, Inc. The lands are in the vicinity of Noatak and Selawik, Alaska, and are located in:

Kateel River Meridian, Alaska
T. 16 N., R. 7 W.,
Secs. 18, 19, 30, and 31.
Containing approximately 2,347 acres.
T. 25 N., R. 20 W.,
Secs. 11 to 14, inclusive;
Secs. 23, 24, and 26.
Containing approximately 4,340 acres.
T. 27 N., R. 20 W.,
Secs. 11 to 14, inclusive;
Containing approximately 2,560 acres.
Aggregating approximately 9,247 acres.

The subsurface estate in these lands will also be conveyed to NANA Regional Corporation, Inc. when the surface estate is conveyed. Notice of the decision will also be published four times in the Arctic Sounder.

DATES: The time limits for filing an appeal are:

1. Any party claiming a property interest which is adversely affected by the decision shall have until November 26, 2008 to file an appeal.
2. Parties receiving service of the decision by certified mail shall have 30 days from the date of receipt to file an appeal.
3. Parties who do not file an appeal in accordance with the requirements of 43 CFR Part 4, Subpart E, shall be deemed to have waived their rights.

ADDRESSES: A copy of the decision may be obtained from: Bureau of Land Management, Alaska State Office, 222 West Seventh Avenue, #13, Anchorage, Alaska 99513–7504.

FOR FURTHER INFORMATION CONTACT: The Bureau of Land Management by phone at 907–271–5960, or by e-mail at ak.blm.conveyance@ak.blm.gov. Persons who use a telecommunication device (TTD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8330, 24 hours a day, seven days a week, to contact the Bureau of Land Management.

Alaska Native Claims Selection

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of decision approving lands for conveyance.

SUMMARY: As required by 43 CFR 2650.7(d), notice is hereby given that an appealable decision approving the surface and subsurface estates in certain lands for conveyance pursuant to the Alaska Native Claims Settlement Act will be issued to Tanacross, Incorporated. The lands are in the vicinity of Tanacross, Alaska, and are located in:

Copper River Meridian, Alaska
T. 20 N., R. 11 E.,
Tract A, that portion more particularly described as (protracted) Sec. 24.
Containing approximately 640 acres.
T. 20 N., R. 12 E.,
Tract A, those portions more particularly described as (protracted) Secs. 3, 4, 5, Secs. 7 to 10, inclusive; Secs. 17, 18, and 19; Sec. 30.
Containing approximately 6,880 acres.
Aggregating approximately 7,520 acres.

Notice of the decision will also be published four times in the Fairbanks Daily News-Miner.

DATES: The time limits for filing an appeal are:

1. Any party claiming a property interest which is adversely affected by the decision shall have until November 26, 2008 to file an appeal.
2. Parties receiving service of the decision by certified mail shall have 30 days from the date of receipt to file an appeal.
3. Parties who do not file an appeal in accordance with the requirements of 43 CFR Part 4, Subpart E, shall be deemed to have waived their rights.

Minerals Management Service

[Docket No. MMS–2008–MRM–0033]

Agency Information Collection Activities: Proposed Collection, Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of an extension of a currently approved information collection (OMB Control Number 1010–0087).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. We changed the title to meet OMB requirements. The previous title of this information collection request (ICR) was “30 CFR part 227—Delegation to States; 30 CFR part 228—Cooperative Activities with States and Indian Tribes;” the new title is “30 CFR parts 227, 228, and 229, Delegated and Cooperative Activities with States and Indian Tribes.”

DATES: Submit written comments on or before December 26, 2008.
