Public Availability of Comments
Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Permit TE–7819476
Applicant: Grand Canyon National Park, Grand Canyon, Arizona.
Applicant requests an amendment to an existing permit for research and recovery purposes to conduct presence/absence and collections of Sentry milk-vetch (Astragalus cremnophylax var. cremnophylax).

Permit TE–173890
Applicant: K. Wilynn Zickler, Dripping Springs, Texas.
Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys of golden-cheeked warbler (Dendroica chrysoparia) and black-capped vireo (Vireo atricapilla) within Texas.

Permit TE–173891
Applicant: Black Swamp Bird Observatory, Oak Harbor, Ohio.
Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys of black-capped vireo (Vireo atricapilla) within Oklahoma.

Permit TE–168282
Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys of the following species: razorback sucker (Xyrauchen texanus) and Bonytail (Gila elegans).

Permit TE–053085
Applicant: Bureau of Reclamation, Boulder City, Nevada.
Applicant requests an amendment to a current permit for research and recovery purposes to conduct presence/absence surveys of Yuma clapper rail (Rallus longirostris yumanensis) within Arizona, Nevada and California.

**Permit TE–174552**

**Applicant:** Animas Biological Studies, LLC, Durango, Colorado.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for southwestern willow flycatcher (Empidonax trailli extimus) and Mexican spotted owl (Strix occidentalis lucida) within New Mexico, Arizona, Utah and Colorado.

**Permit TE–829996**

**Applicant:** Houston Zoo, Houston, Texas.

Applicant requests an amendment to a previous permit to hold and maintain captive bred Wyoming toads (Bufo baxteri) within the Houston Zoo, until they are transferred to other authorized institutions.

**Permit TE–170389**

**Applicant:** Travis Cooper, San Juan Capistrano, California.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for southwestern willow flycatcher (Empidonax trailli extimus) within Arizona.

**Permit TE–175541**

**Applicant:** A&M Engineering and Environmental Services, Tulsa, Oklahoma.

Applicant requests a new permit for research and recovery purposes to conduct presence/absence surveys for American burying beetle (Nicrophorus americanus) within Oklahoma, Kansas, Arkansas and Missouri.

**DEPARTMENT OF THE INTERIOR**

**Fish and Wildlife Service**

Final Environmental Impact Statement on the White Wind Farm Project in Brookings County, SD

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability.

**SUMMARY:** The U.S. Fish and Wildlife Service (Service) is adopting the Department of Energy (DOE), Western Area Power Administration (WAPA) Final Environmental Impact Statement (EIS) on the White Wind Farm in Brookings County, South Dakota, in support of a right-of-way application submitted by White Wind Farm, LLC.

**DATES:** Preparation of the Record of Decision will begin no sooner than 30 days from this notice.

**ADDRESSES:** Copies of the Final EIS are available online at: http://www.fws.gov/madisonwetlands; during office hours at U.S. Fish and Wildlife Service, Madison Wetland Management District, 23520 SD Hwy 19, Madison, South Dakota 57042 (telephone 605–256–2974); or at the Madison Public Library, Madison, South Dakota.

**FOR FURTHER INFORMATION CONTACT:** Rick Coleman, Assistant Regional Director, National Wildlife Refuge System, Region 6, U.S. Fish and Wildlife Service, P.O. Box 25486, DFC, Denver, Colorado 80225–4712, (303–236–4303).

**SUPPLEMENTARY INFORMATION:**

**Background:**

Pursuant to the National Environmental Policy Act (NEPA), the DOE, WAPA prepared a Final EIS assessing the impacts of constructing and operating the proposed White Wind Farm which would be enabled by WAPA's execution of an interconnection agreement. A notice of availability of the EIS was originally published in a Federal Register notice dated April 13, 2007. Subsequently, White Wind Farm, LLC., a wholly-owned subsidiary of Navitas Energy, Inc., applied for a right-of-way easement (50 CFR 29.21) for facilities to be constructed on lands where the Service holds an Easement for Waterfowl Habitat Protection. The Service is adopting and recirculating the EIS in accordance with 40 CFR 1506.3.

The EIS presents alternatives and analyzes the anticipated effects of implementing the proposed action including construction of up to 105 2-megawatt wind turbine generators with a net capacity of up to 200 MW. In addition to the wind turbine generators, components of the proposed project include constructing, operating, and maintaining access roads, overhead and underground electric collector lines, a new collection substation, a communication system, and interconnection to WAPA’s existing White Substation.

Dated: March 7, 2008.

James J. Slack,
Deputy Regional Director.
