HUD for suitability for possible use to surplus Federal property reviewed by unutilized, underutilized, excess and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

SUMMARY: The CCP Process

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee) (Improvement Act), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing to the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation, wildlife photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Improvement Act.

Each unit of the National Wildlife Refuge System is established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the National Wildlife Refuge System mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals and objectives for the best possible conservation approach to this Important Wildlife habitat, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge’s establishing purposes and the mission of the National Wildlife Refuge System.

Our CCP process provides participation opportunities for Tribal, State, and local governments; agencies; organizations; and the public. At this time we encourage input in the form of issues, concerns, ideas, and suggestions for the future management of Piedmont National Wildlife Refuge. Special mailings, newspaper articles, and other media outlets will be used to announce opportunities for input throughout the planning process.

We will conduct the environmental assessment in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 et seq.); NEPA regulations (40 CFR parts 1500–1508); other appropriate Federal laws and regulations; and our policies and procedures for compliance with those laws and regulations.

Piedmont National Wildlife Refuge was established in 1939 as a “combination wildlife and game-management demonstration area” to demonstrate that wildlife could be restored on worn out, eroded lands. By implementing good forest management practices, the 35,000-acre refuge hosts loblolly pines on the ridges, with hardwoods found along creek bottoms and in scattered upland coves. The refuge is in central Georgia, approximately 25 miles north of Macon, and 18 miles east of Forsyth. The refuge is primarily forested and provides

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we initiate our process for developing a CCP for Piedmont National Wildlife Refuge in Jones and Jasper Counties, GA.

This notice complies with our CCP policy to (1) advise other Federal and State agencies, Tribes, and the public of our intention to conduct detailed planning on this refuge; and (2) obtain suggestions and information on the scope of issues to consider in the environmental document and during development of the CCP.

Background

The CCP Process

The National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd–668ee) (Improvement Act), which amended the National Wildlife Refuge System Administration Act of 1966, requires us to develop a CCP for each national wildlife refuge. The purpose in developing a CCP is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing to the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation,
habitats for the endangered red-cockaded woodpecker and associated wildlife species of concern. Prescribed burning and timber thinning are used to ensure that quality pine habitat is maintained for red-cockaded woodpeckers, neotropical migratory songbirds, and other native wildlife. Hardwood stands provide excellent habitat for neotropical migratory birds, turkeys, squirrels, and other woodland wildlife. Open fields, maintained by burning and mowing, provide feeding and nesting areas for many species of birds and mammals. Numerous clear-flowing creeks and beaver ponds provide wetlands for waterfowl and other wildlife.

Indian Entities Recognized and Eligible To Receive Services From the United States Bureau of Indian Affairs

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice.

SUMMARY: This notice publishes the current list of 562 tribal entities recognized and eligible for funding and services from the Bureau of Indian Affairs by virtue of their status as Indian tribes. The list is updated from the notice published on March 22, 2007 (72 FR 13648).

FOR FURTHER INFORMATION CONTACT: Daisy West, Bureau of Indian Affairs, Division of Tribal Government Services, Mail Stop 4513–MIB, 1849 C Street, NW., Washington, DC 20240. Telephone number: (202) 513–7641.

SUPPLEMENTARY INFORMATION: This notice is published pursuant to Section 104 of the Act of November 2, 1994 (Pub. L. 103–454; 108 Stat. 4791, 4792), and in exercise of authority delegated to the Assistant Secretary—Indian Affairs under 25 U.S.C. 2 and 9 and 209 DM 8.

Published below is a list of federally acknowledged tribes in the contiguous 48 states and in Alaska.

One tribe became recognized since the last publication. The Mashpee Wampanoag Tribe was acknowledged under 25 CFR part 83. The final determination for Federal acknowledgment became effective on May 23, 2007. The list also contains several tribal name changes and corrections. To aid in identifying tribal name changes and corrections, the tribe’s former name is included with the new tribal name.

To aid in identifying corrections, the tribe’s previously listed name is included with the tribal name. We will continue to list the tribe’s former or previously listed name for several years before dropping the former or previously listed name from the list.

The listed entities are acknowledged to have the immunities and privileges available to other federally acknowledged Indian tribes by virtue of their government-to-government relationship with the United States as well as the responsibilities, powers, limitations, and obligations of such tribes. We have continued the practice of listing the Alaska Native entities separately solely for the purpose of facilitating identification of them and reference to them given the large number of complex Native names.

Dated: March 25, 2008.
Carl J. Artman,
Assistant Secretary—Indian Affairs.
